

Help with NJ-GeoWeb

The NJ-GeoWeb application runs best in **Internet Explorer**, to a lesser extent in **Google Chrome** and **Apple's Safari** browsers and **not at all in Firefox**.

If you have been experiencing the following problem while launching the NJ-GeoWeb application within Internet Explorer: **"The timer keeps spinning but the map does not load"**, please add our site to the [Compatibility View Settings](#), and the [Trusted Sites section](#) of your browser to resolve this issue. Please make sure to **"allow"** pop-ups from our site.

➤ To change Compatibility View settings

1. Open Internet Explorer.
2. Press the **Alt** key to display the Menu bar
3. Tap or click **Tools**, and then tap or click **Compatibility View settings**.
4. Once you get there, in the **"Add this website:"** text box, enter **"state.nj.us"** then click **"Add"** then **"Close"**.

➤ To change the Pop-Up Blocker Settings, please do the following:

• Internet Explorer

1. Open Internet Explorer.
2. Press the **Alt** key to display the Menu bar
3. Tap or click **Tools**, and then mouse over **Pop-up Blocker**, then click on the **Pop-up Blocker Settings**
4. Once you get there, under **"Address of Website to allow:"** text box, enter **"state.nj.us"** then click **"Add"** then **"Close"**.

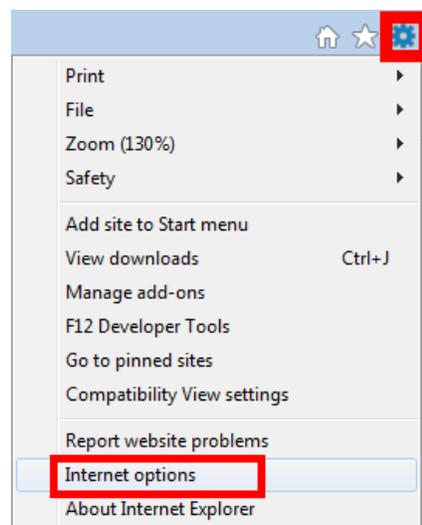

• Google Chrome

1. Click on the Pop-Up Blocked icon in the address bar
2. Select **"Always allow pop-ups from njwebmap.state.nj.us"**
3. Click **"Done"**

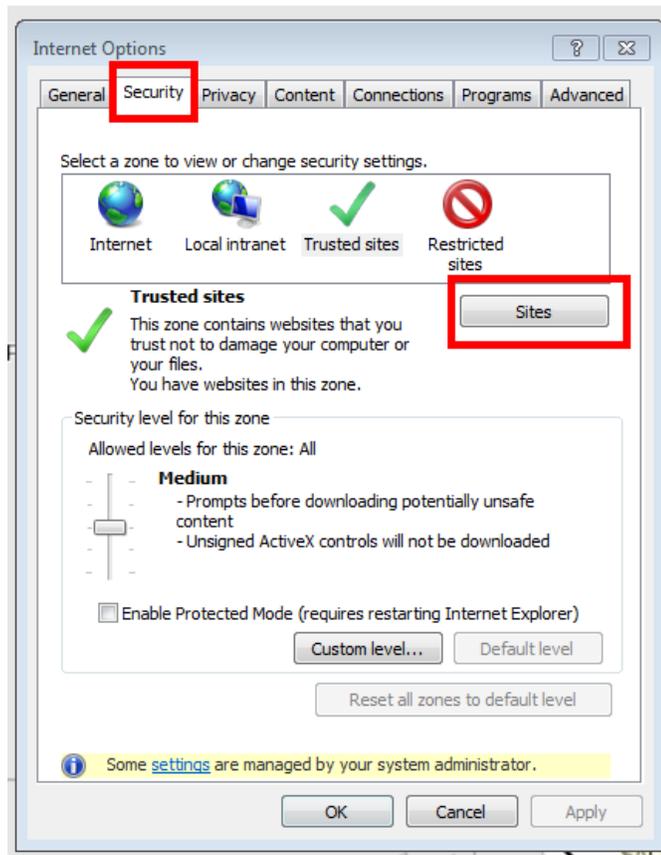

➤ To Add the site to Trusted sites of Internet Explorer, please do the following:

First launch NJ-GeoWeb application from the Splash page:
<http://www.nj.gov/dep/gis/geoweb splash.htm>

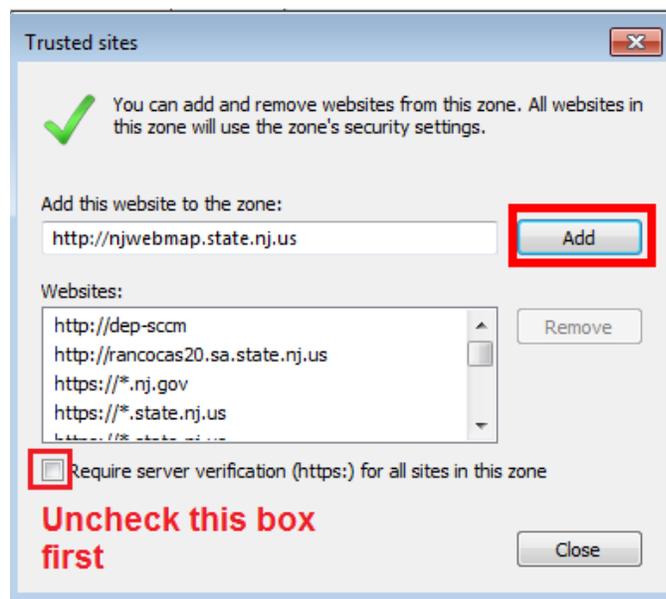

1. Click the gear icon in the top right corner of IE
2. Click **internet Options**

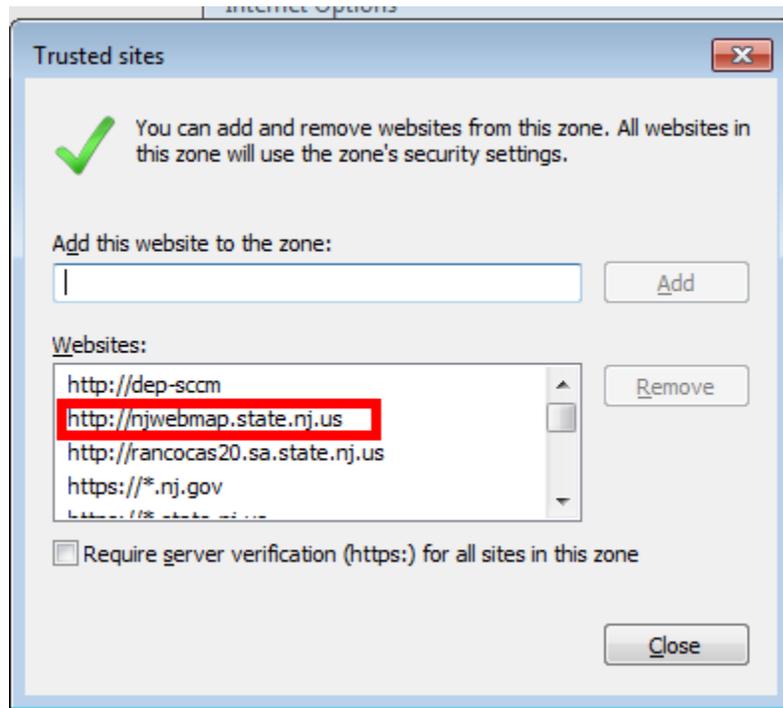

3. Click **Security** tab, then in **Trusted Sites**, click **Sites**

4. The site <http://njwebmap.state.nj.us> should appear in the input box.
5. **Uncheck** the check box "Require server verification..."
6. Click **Add**

7. The web page will disappear from the textbox and appear in the list below

8. Close out of all the windows to save changes.
9. Then re-launch the application. This should allow the application to work properly.
