Description: Two-and-one-half-story building originally constructed in the Second Empire style. In 1933 the building was remodeled by Bavarian architect E. Greuter and was transformed into a Tudor Revival style building. The building has a stucco and/or ornamental stone facade with simulated half-timbering. Gabled dormers project from the mansard roof.

Description: Three-story steel frame building with brick walls and Gothic Revival detailing. The window and door surrounds and the building corners are terra cotta. There is a raised basement which is separated from the principal stories with a terra cotta watertable. The building has a brick parapet with terra cotta cornice, bas-relief panels and capstones. The front facade has 15 symmetrical bays - seven on either side of the main entrance portal. The building was designed by the architectural firm of Shattuck and Hussey and construction was supervised by Frederick G. Frost, their New York architect. The building was completed in 1921.
