store cannot be ascertained, but the space on which it had stood became a busy thoroughfare to the blacksmith shop of William Powell and to the carriage shop of Walter Cottrell, where carriages were built and painted to the specifications of the future owner. (A buggy cost \$100.00) A ramp led to the upstairs to this shop. In later years, the shop was moved northward and made into a respectable dwelling. (It was lately owned by Morris Friedman and burned in October, 1976).

Behind the Isis Theatre location was a well built house with enclosed fireplaces on either end and two Linden trees in a small picket fenced yard. This was the home of the Singleton family. Later, Garret South, his wife and two children, George and May, lived here. The property was purchased for the construction of the theatre, which when built, covered all of the land up to this house leaving only a narrow walkway between. The last tenants of the house were Charity and Ambrose Whittle. Soon the trees were removed and the house torn down. An artesian well to be used for the theatre was driven in the area of #21 Front Street.

There was another small residence located in back of the American House which was occupied in the late 1800's by Jacob Goff and his family.

The most marked change in this area was made at the site of #9 and #11 Front Street. In the early 1800's, it appeared that Thomas Wallin owned most of this block. Number 9 was the site of Wallin's Tavern which burned in 1837 while occupied by his daughter and successor, Abigail Wallin. The tavern was rebuilt that same year,

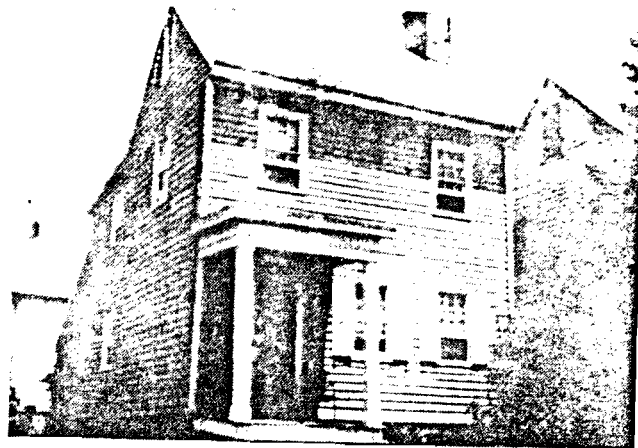

Walline Hotel: Bessie Nash House

and shortly after Abigail Wallin's death was purchased by the Trustees of Plumstead. In 1837, she also purchased adjoining lot #13.

Seminary: Professor Horner's

The trustees built a Seminary in 1859. This was a large and commodious building which was well adapted as a boarding school for the youths of both sexes. Wallin Tavern became the residence of Professor Horner; who, in 1862, bought the school from the school trustees. At this time, it was under his sole management as a "private school". Mr. W. T. Nash purchased the property in 1906 and, using the house as his home, moved the seminary building to Main Street where he operated his cobbler business. The old building to the west of Professor Horner's, at about this time, had given way to a

Number 5 Front Street

neat and comfortable dwelling, #7 Front Street. The next, #5 is truly of ancient vintage. The deed reads that this house existed in 1832. The front rooms of the house have fireplaces and are wooden pegged. Boards in a back room show where another fireplace had been.

The candy and novelty shop that once stood at the foot of Dr. Fort's property found its way to #3

Re: 9 Front Street
New Egypt, NJ 08533

Dear Mrs. Ware:

Your letter of March 19, 1981 addressed to Mr. Kevin McGorty concerning the above mentioned property was referred to me for reply. Mr. McGorty is not employed in our office. He is the Executive Director of the Ocean County Cultural and Heritage Commission, a county agency.

The Cultural and Heritage Commission is currently conducting a county-wide historic sites survey which is being partially funded with federal monies administered by our office. It is our policy to refer all potential Register applicants to those agencies conducting a local survey. This is why you were referred to Mr. McGorty in August of 1980.

Local agencies are asked to offer the applicant assistance in completing the Register form. Often the agency's surveyors have completed research and conducted an on-site survey of the property in question. This information can be passed on to the applicant and incorporated into the nomination form. The local agency may be considering a historic district application for the area in question or may be planning to complete an individual application for the property. In this case, the applicant should not pursue Register listing but should allow the local agency to complete the forms and pursue registration. If the local agency is not completing Register applications for the area in question, it is the responsibility of the applicant to complete the form. The local agency should lend assistance but is not required to complete the form for the applicant.

I have spoken with Mr. McGorty and have been told that his surveyors will be working in New Egypt in June, 1981. Their survey may generate a historic district application for New Egypt which would include Front Street. If this is the case, an individual listing for 9 Front Street should not be pursued at this time.

Dear Kevin:

Enclosed is a copy of the file for the National Register application for the Wallin Tavern, 9 Front Street, New Egypt. Sorry about the poor copy of the nomination, but there is virtually nothing in it anyway.

See if you want to pursue individual designation. I am not too sure it still qualifies, but it definitely needs a lot of work.

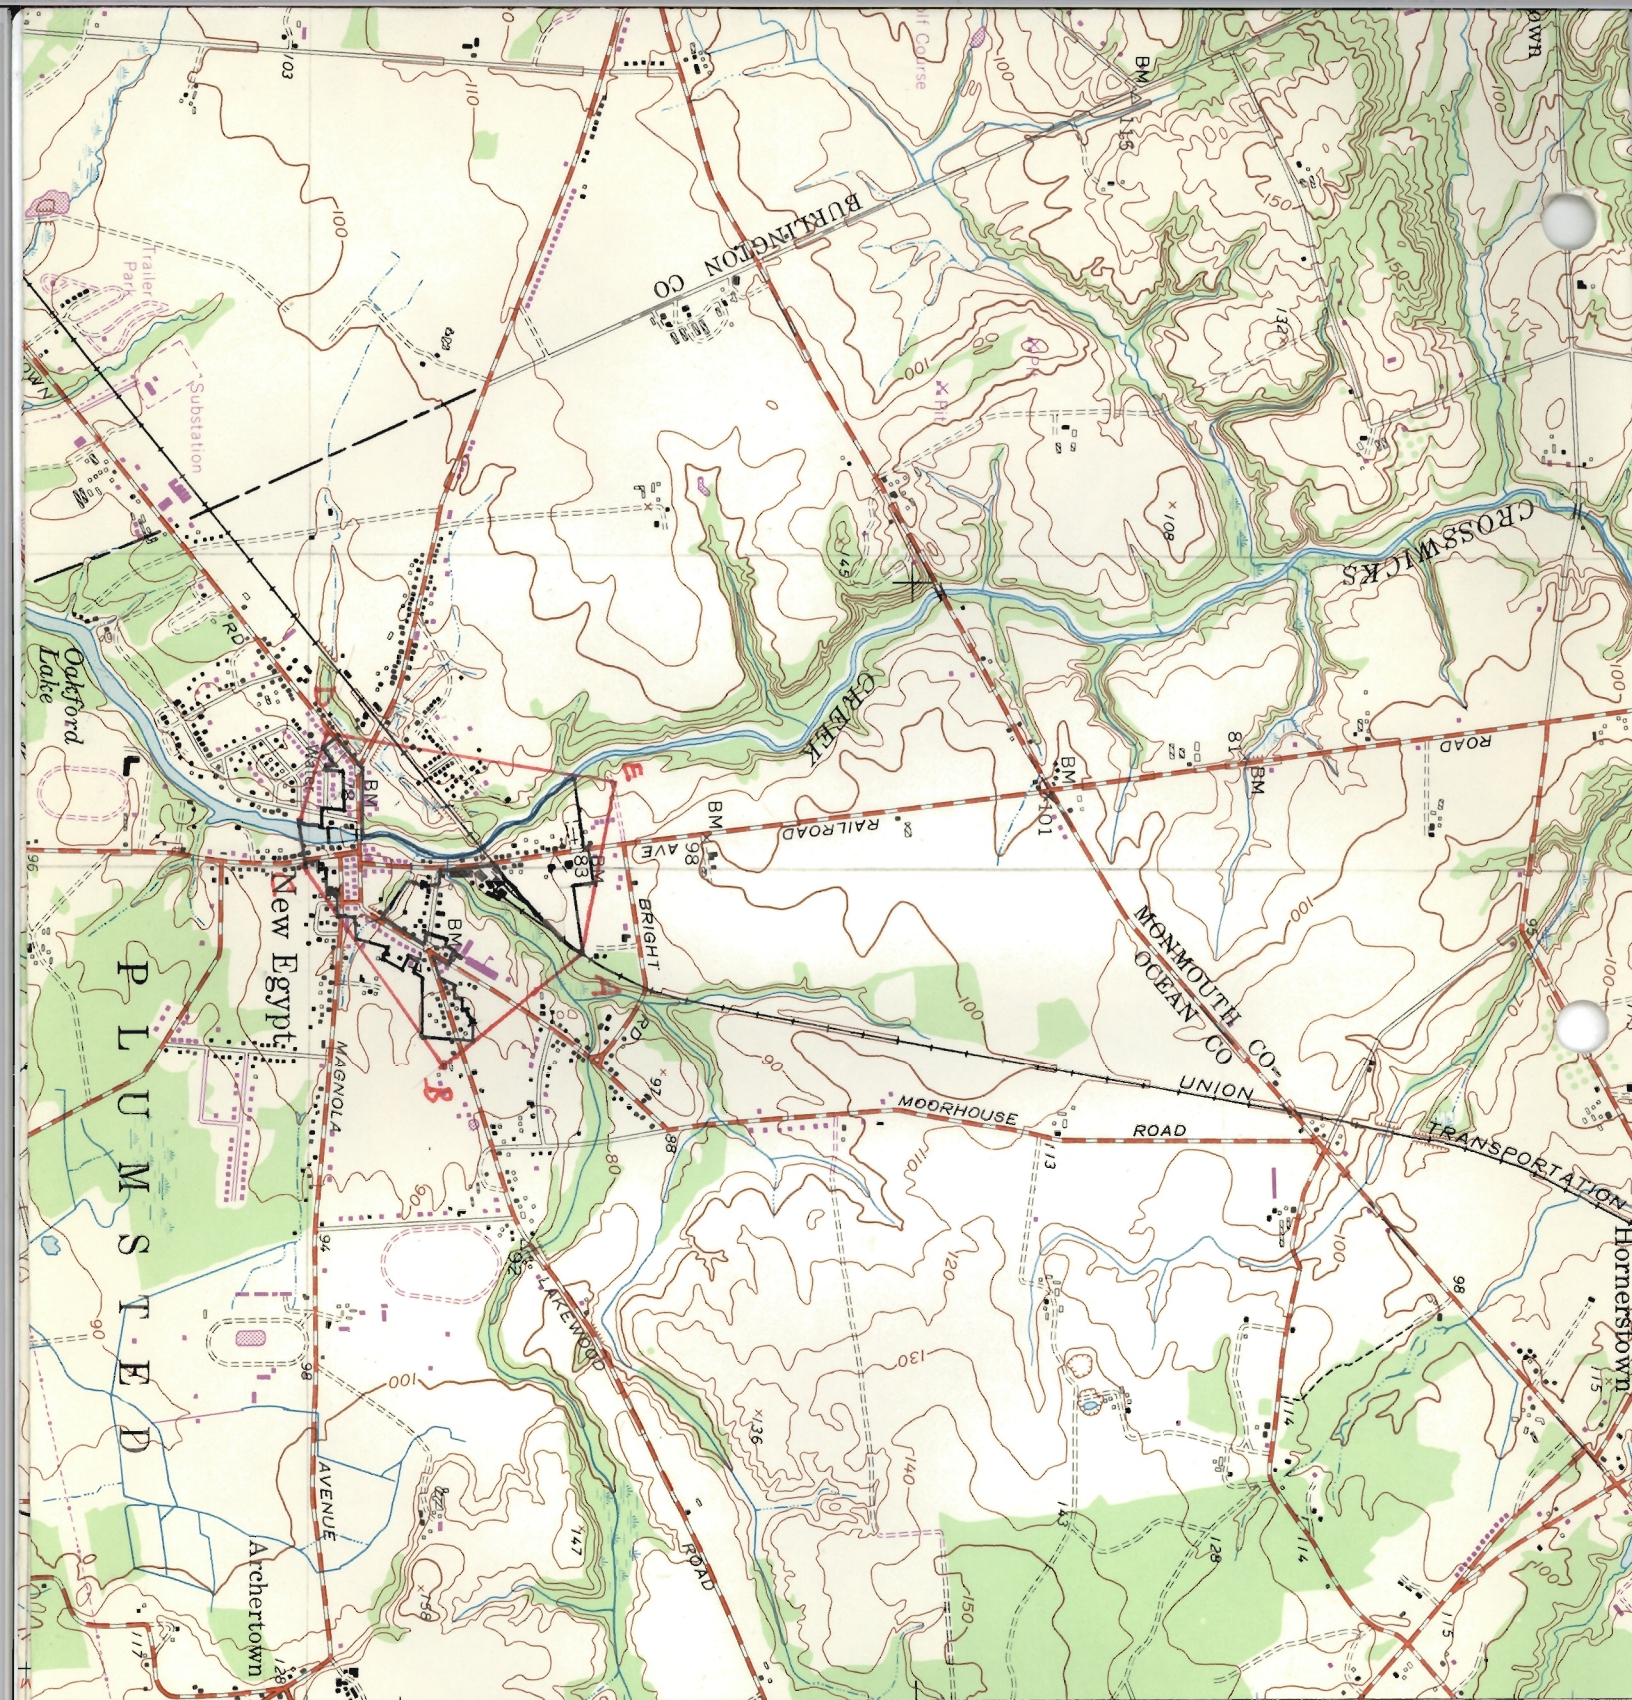

Sincerely,

A handwritten signature in cursive script, appearing to read "Terry Karschner".

RESOLUTION

Whereas, the Ocean County Cultural and Heritage Commission in its dedication to enhance and preserve the history of the communities in Ocean County, is applying to the State of New Jersey for certain structures and areas to be declared historic, and

Whereas, the Ocean County Cultural and Heritage Commission has been conducting a county-wide historic sites survey for the purpose of nominating five historic districts to the State and National Register of Historic Places, and

Whereas, the New Egypt Historic District contains 114 structures, principally located in the downtown area of New Egypt and along Evergreen Road, and

Whereas, these residential and commercial structures trace New Egypt's historical development from a one mill hamlet to a populous crossroads market place with the wide variety of structures employing the various architectural styles of the late 18th and 19th centuries which gives New Egypt a special character found in only a few modern day villages, and

Whereas, listing in the National Register will afford property owners the opportunity to participate in the Federal Historic Preservation Matching Grant-in-Aid Program.

NOW THEREFORE BE IT RESOLVED, by the Township Committee of the Township of Plumsted, Ocean County, New Jersey, as follows:

1. The Township of Plumsted endorses and supports the nomination of a Historic District in New Egypt, Plumsted Township by the Ocean County Cultural and Heritage Commission to the State and National Registers of Historic Places.

2. Certified copies of this resolution shall be forwarded by the Clerk to the following:

- A. Ocean County Cultural and Historic Commission.
- B. New Egypt Historical Society.

CERTIFICATION

I, ANGELA SEEDS, Clerk of the Township of Plumsted, in the County of Ocean, and State of New Jersey, do hereby certify that the above is a true copy of a Resolution adopted by the Township Committee on the 9th day of November, 1981.

ANGELA SEEDS, Township Clerk

Industrial Downtown Commercial Highway Commercial Other

SIGNIFICANCE:

This structure was originally built by Thos. W. Ivins, Esquire, owner of a local mill. Its second owner operated the mansion as a boarding house in the late 19th and early 20th century. The farm was one of the most popular boarding houses in the area and offered marble lavatories, an English garden and relaxation. One of its most famous guests was the Dutchess of Windsor, who visited here as a child. Although the structure deteriorated, it is one of the most elaborate mid-19th century structures in Ocean County.

 HISTORIC DISTRICT SURVEY FORM

DISTRICT NAME: Snuff Mills UTM REFERENCES: Zone/Northing/Easting
 MUNICIPALITY: Plumsted Township A
 COUNTY: Ocean B
 TYPE OF DISTRICT: Residential - Industrial C
 USGS QUAD: D

DESCRIPTION: (General description of district as a whole and boundaries)

The community of Snuff Mills is located in New Egypt along North Main Street, Brown Lane and Bright Road. Stony Forge Brook runs through the center of the district, and was once the site of a saw, grist and snuff mill. A number of late 18th and 19th century structures are found along the streets. Most houses are crowded together near the road along North Main Street, south of Stony Forge Brook. The structures tend to be 2 stories high and 3, 4, or 5 bays wide. Common features include center doors, gabled roofs and 6/6 windows. Approximately 4 large buildings are found in the district including #3 Bright Road, constructed in the late 1700s; #76 North Main Street, and two structures along Brown Lane. These structures contain side wings and were built on higher ground in the late 18th - early 19th centuries. #91 North Main Street, the Tea House, is believed to be the oldest structure in town. It has a center door, 6/6 windows, clapboard exterior, high brick foundation and a gable roof. The district is surrounded by modern housing and wooded areas.

PHYSICAL CONDITION OF STRUCTURES: Excellent 10% Good 75% Fair 15% Poor %
 REGISTER ELIGIBILITY: [] Yes [X] Possible [] No
 THREATS TO DISTRICT/LOCAL ATTITUDES:
 COMMENTS:

SIGNIFICANCE:

Snuff Mill (or Newport) is the second oldest mill community in Ocean County. It is believed that the mill was once used to grind tobacco into snuff, hence its name. Unlike other mill communities which later grew or disappeared in the 19th century, Snuff Mill has changed very little since the early 19th century. Although its dam and lake are long gone, as are the mill and many of its early structures, a central core of 18th and early 19th century structures remain. These structures are among the earliest in the area. An early mill owner was William Foulks who held the property in 1839. By 1864 it was called Lovetts Mill and was owned by Isaac Lovett and in that year purchased by Seth Wallace who used it as a gristmill. In 1897 (or 1898) the dam burst, destroying the mill business. After 1898 the area contained a number of boarding houses for those who visited the resort area in New Egypt. The village was also on an important stagecoach route in the 18th and early 19th century and is believed to have contained a stagecoach stop. In 1809 a Zoar Church was constructed, possibly along Brown Lane where remains of an early cemetery can be found.

1524-L1

Harker's Grove / Harker's Grove Lane

This early 20th century recreation area was one of the prime attractions of New Egypt's resort industry. Founded in 1905 by Brazillia (Jobes) Harker, it contains a dance pavilion, dining hall and house. These buildings are large 1 story rectangular clapboard structures, with lower half-pull-up flaps which could be raised to let the air circulate. Other attractions included a carousel, boating and sharp-shooting. The three remaining structures are deteriorated.

1524-L2

7 Maple Avenue

2 story, 3 bay, asbestos siding, parapet roof. 6/6, and 2/2 windows are employed. A side-hall entrance has a flat roof portico with square piers. The structure is typical of homes built during the mid-19th century in the area.

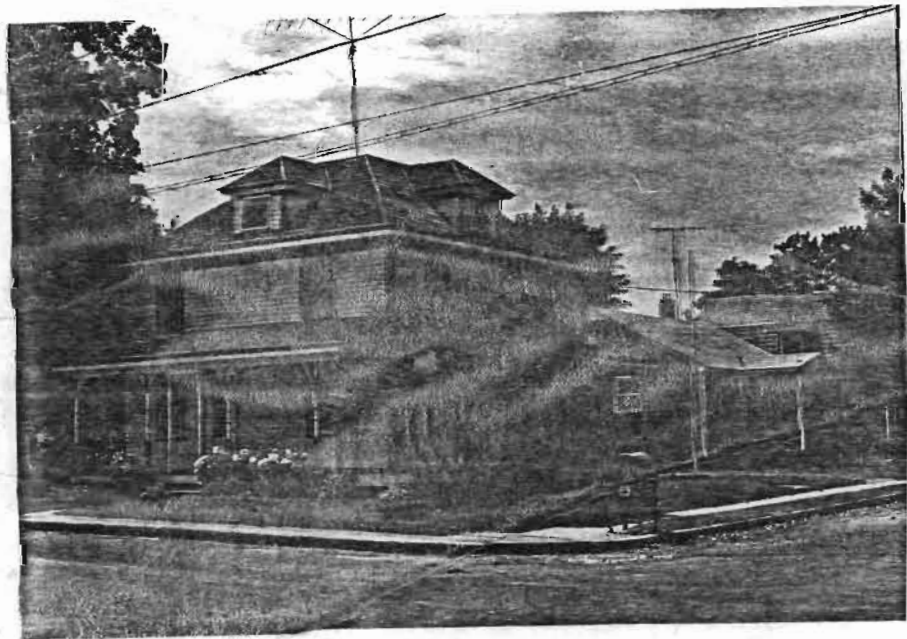

1524-L3

28 Maple Avenue

2½ story, 4 bay, asbestos siding, steep gabled roof. This unusual double house has 2 centered doors and 6/6 and 2/2 windows. A hipped roof front porch has been removed.

1524-L4

Southeast corner of Oakford and Chestnut

2½ story, 3 bay, clapboard exterior, hip roof with dormers, early 20th century. A three sided porch contains turned posts and sawn brackets. Windows are 1/1. The building is typical of homes built during New Egypt's era of resort industry. Oakford Avenue, at the beginning of the 20th century, was an important residential street.

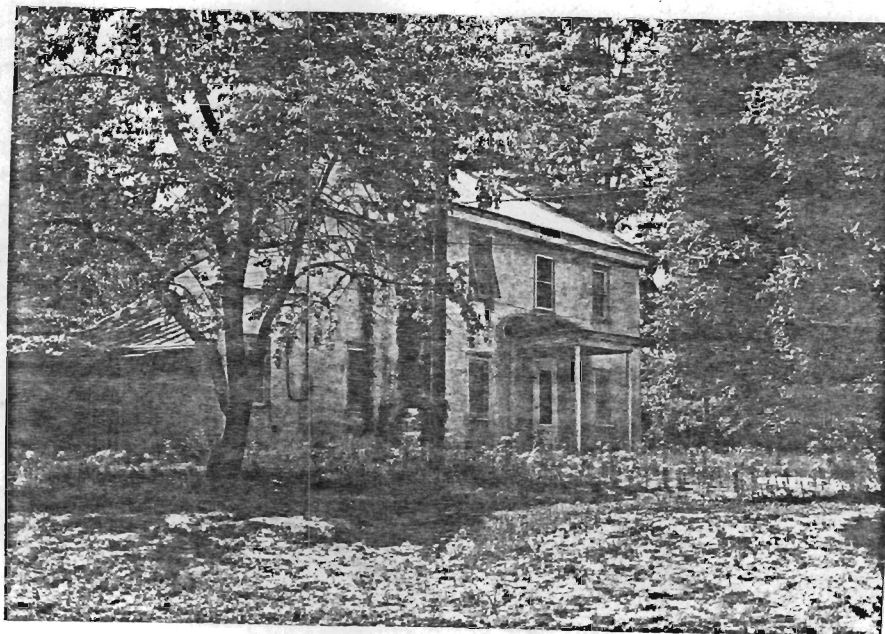

1524-L5

20 Oakford Avenue

1½ story, 2 X 2 bay, clapboard exterior, gambrel roof with gabled dormers, early 20th century. The structure contains an open front porch with Doric columns and a fishscale shingled second floor. The building is typical of early 20th century resort structures.

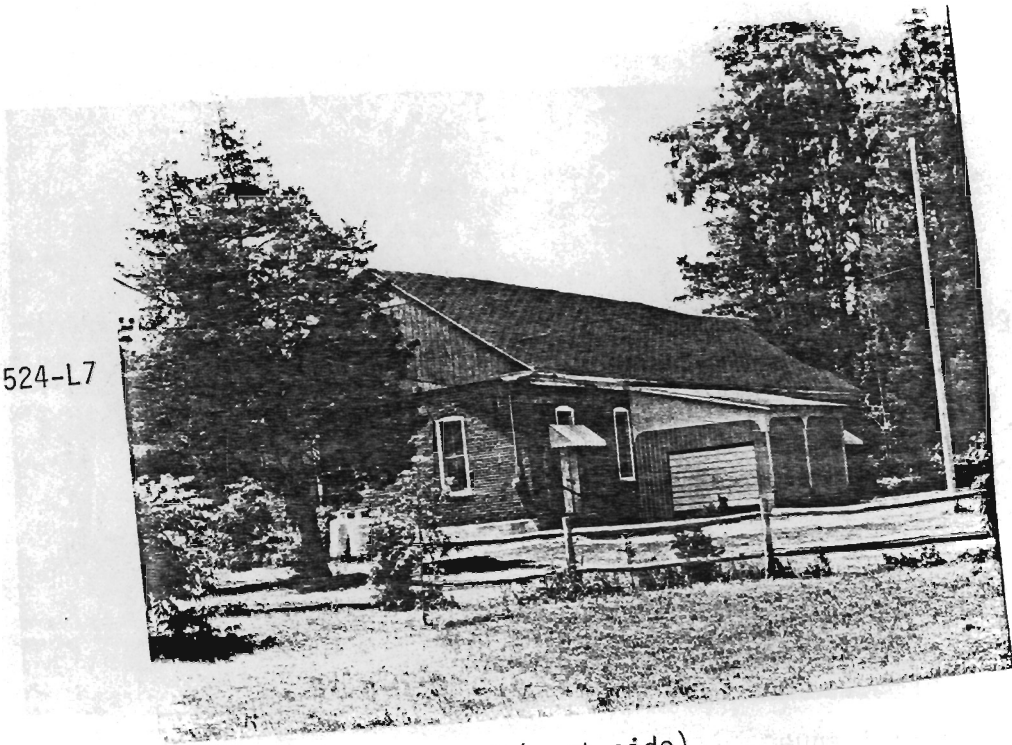

1524-L6

8 Jacobstown Road

2 story, 3 bay, stucco exterior, gable roof. The house has side and rear additions. Windows are 6/6. A small lean-to is found on the south side. The structure has been altered over the years.

1524-L7

Old Creamery / Jacobstown Road (west side)

1 story, 3 bay, brick, gable roof with returns, circa 1869. The structure has 2/2 windows with segmental arches and round arched attic lights. The creamery was built soon after the railroad by Supplee-Wills-Jones Company. The company bought local milk and processed it before shipping.

1524-L8

2½ story, 3 bay with 2 north wings, aluminum siding, gable roof prior to 1872. Side-hall plan. Windows are 6/6 and 4/4. The building was moved in 1963 from the corner of Main, Maple and Jacobstown Road. It has been extensively altered in recent years.

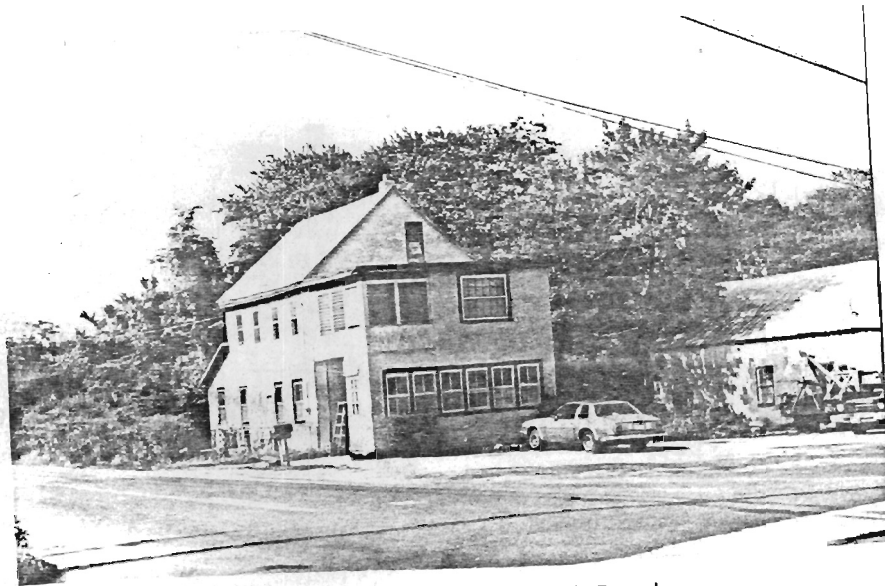

1524-L9

68 Jacobstown Road

2 story, 3 bay, asbestos siding, gable roof, circa 1880. A center door is flanked by 2/2 windows. The house has been altered by the installation of asbestos siding and the construction of a modern front porch.

1524-L10

Southeast corner of County Line and Lakewood Roads

2 story, 4 bay, stuccoed, gable roof. A lean-to wing is located south. Windows are 2/2. The structure has been extensively altered in recent years.

1524-L11

Schoolhouse / 17 Fort Avenue

2½ story, 3 bay, clapboard, gable roof, circa 1900. The schoolhouse contains 6/6 windows, pointed arch attic lights, and a center door. The structure was built in 4 sections, the front being the last.

1524-L12

General Store / 67-69 Main Street

2½ story, 2 bay, clapboard, gable end faces street, circa 1865. A center door is flanked by two bay windows. All other windows are 6/6. The structure was originally built as a meat and grocery store by Charles Collier in the late 1860s.

1524-L13

63 Main Street

2½ story, 4 bay, clapboard exterior, cross gable roof. Windows are 2/2 and pointed arch attic lights. 6/6 windows are found on the facade. The structure was built by Aaron Branson, cabinet maker in the mid-19th century.

1524-L14

23 Brindletown Road

2½ story, 2 bay, clapboard exterior, gable roof, possible early mid-19th century. Windows are 2/2. The structure is typical of town dwellings of the early mid-19th century in the area.

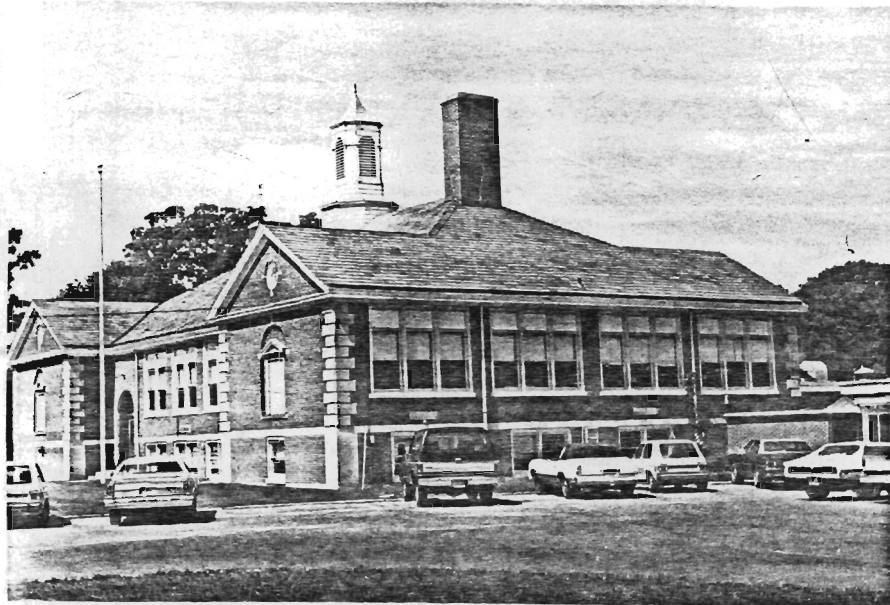

1524-L15

Not Available

Cedarbrook / 28 North Main Street

3 story, 6 bay, aluminum siding, parapet roof, late 18th century with 19th century additions. Although extensively altered, this property was once one of the finest structures in town and also the residence of Dr. George F. Fort, Governor of New Jersey in 1850-1854. The house served as a residence and later boarding house known as Cedarbrook. A large piazza extended across the facade at one time as did a medical office connected to the house by a long passageway. The property included a landscaped garden.

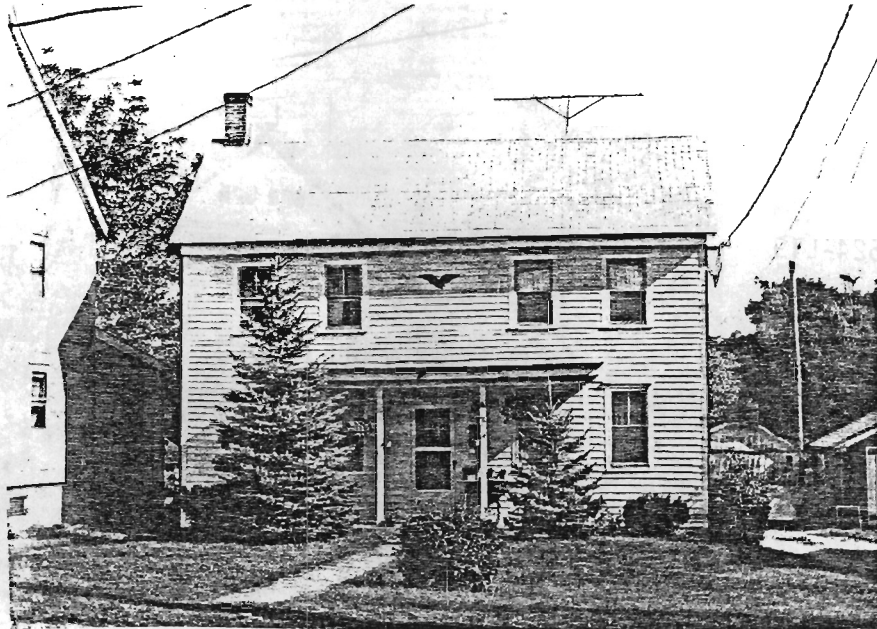

1524-L16

New Egypt Elementary School / North Main Street

1 story, 7 bay, brick exterior (common bond with glazed headers), hip roof with gables, circa 1929. The school is I-shaped in plan and contains 2 brick chimneys, clapboard cupola and slate roof. A molded cornice, stone quoins and blind arches are employed. Windows are 1/1. Bullseye windows with keystones are found in the gabled peaks. The door is double--leafed and has a fanlight.

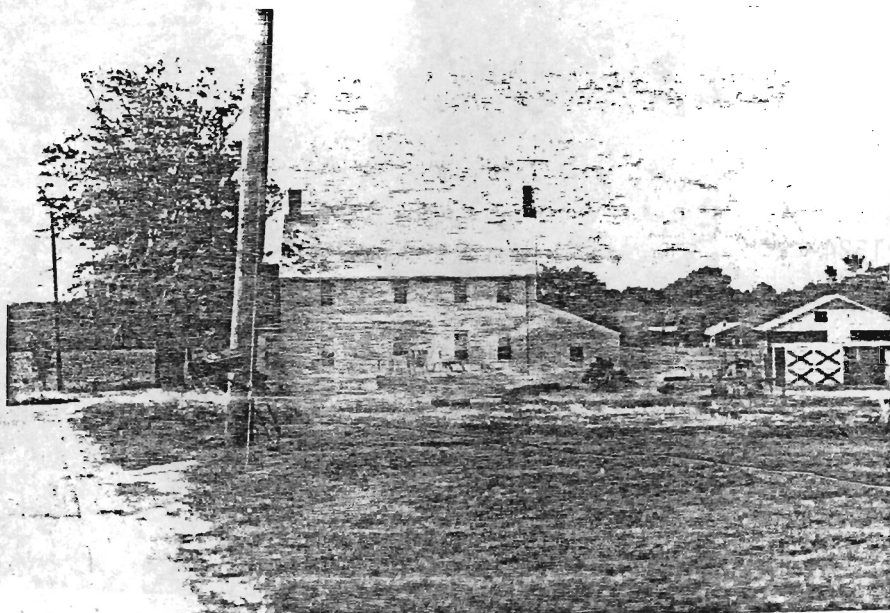

1524-L17

Old Schoolhouse / 16 Magnolia Avenue (front)

2 story, 5 bay, clapboard, gable roof, early 19th century. Windows are 2/2 and flank a center door. An open front porch has square posts. The building was a school during the 19th century.

1524-L18

Hornerstown Road / (High Bridge Road)

2½ story, 4 bay, clapboard exterior, gable roof with modillion cornice. Windows are modern 1/1. A large gambrel roof barn is found in the yard.

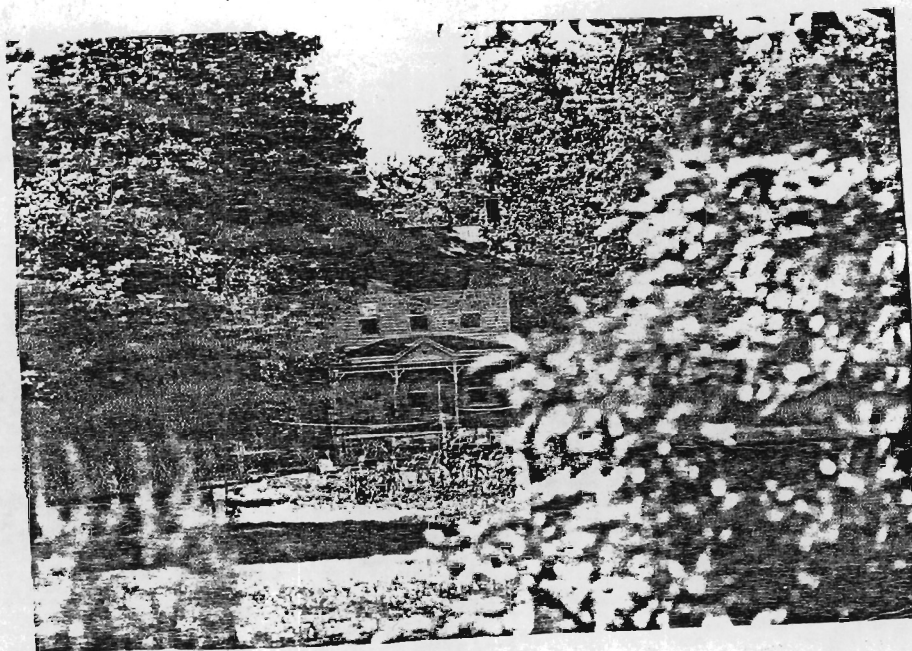

1524-L19

Millstream Road

2½ story, 6 bay, aluminum siding, gable roof. This structure was built in a number of sections, but recent alterations (including siding and 1/1 windows) disguise its age. Numerous clapboard and concrete block sheds are found in the yard.

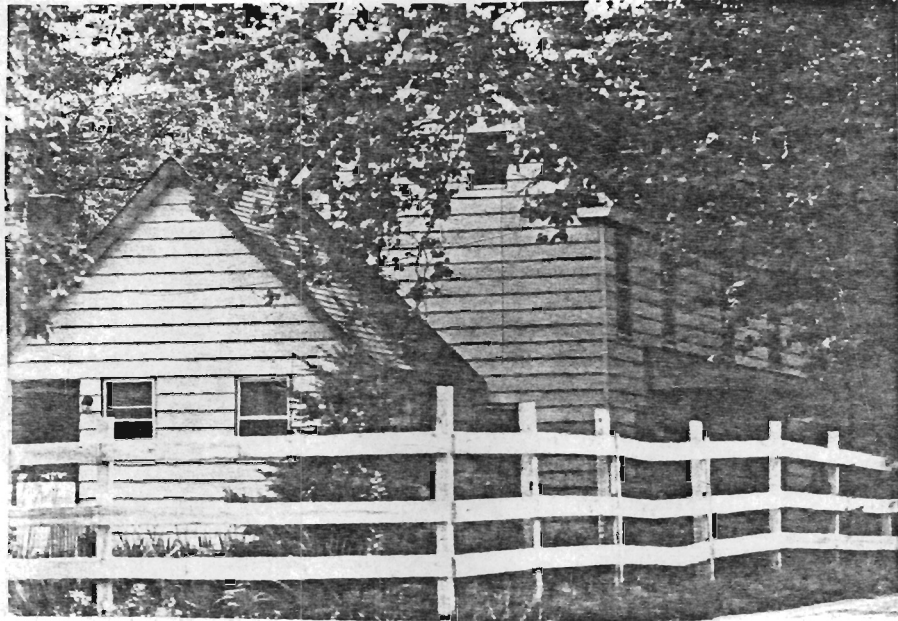

1524-L20

Millstream Road / 44/8

2 story, 3 bay, clapboard exterior, gable roof, mid 19th century. Side-hall plan. An open front porch contains turned posts, brackets and valance. Windows are 1/1.

T524-L21

Hornerstown - Whiting

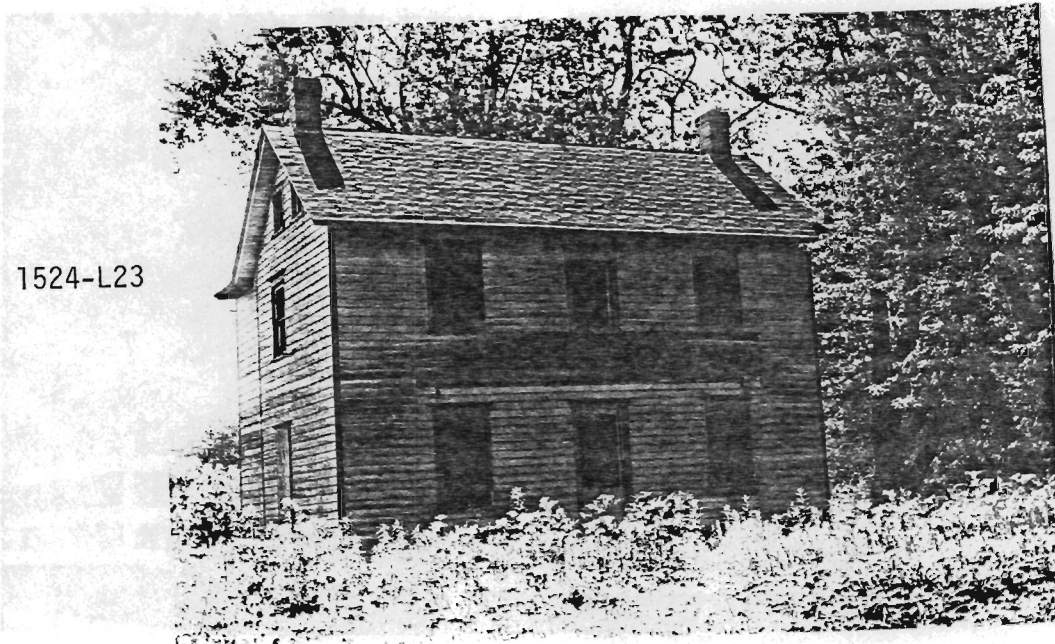

2 story, 4 bay, aluminum siding, gable roof. Windows are 1/1. The structure is typical of mid-19th century architecture of the area. The building has been extensively altered in recent years.

1524-L22

Not Available

Hornerstown - Whiting Road

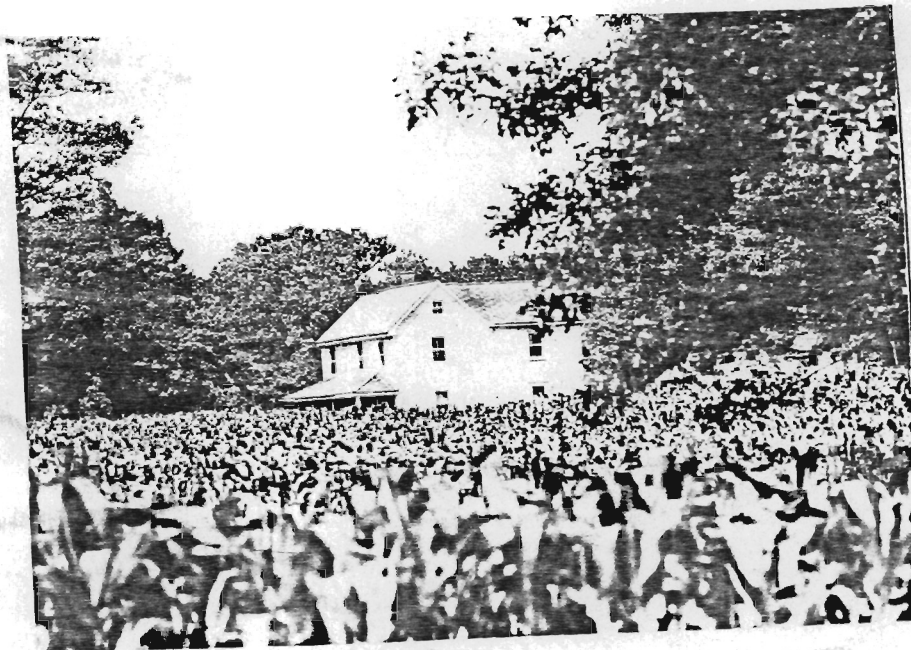

2½ story, 5 bay, clapboard exterior, gable roof. Windows are 2/2 and 6/6. A hipped roof porch with square posts extends across the facade. Barns and outbuildings are found in the rear yard.

1524-L23

Hopkins Road

2 story, 3 bay, clapboard exterior, gable roof, possible mid-19th century. The structure contains a center door. The windows are boarded and the building is slowly deteriorating.

1524-L24

Prospertown - Colliers Mill Road (Prospertown)

2 story, 3 bay, asbestos exterior, gable roof, pre 1872. A hipped roof porch has square piers. Windows are 2/2. The structure is typical of mid-late 19th century small farmhouses in western Ocean County.

1524-L25

Not Available

Prosperstown - Colliers Mill Road (Prosperstown) 54/13

2 story, 3 bay, asbestos siding, cross gable roof, pre 1872. An open front porch contains square posts. Windows are 2/2. Three doors are found across the facade. The structure has been altered over the years.

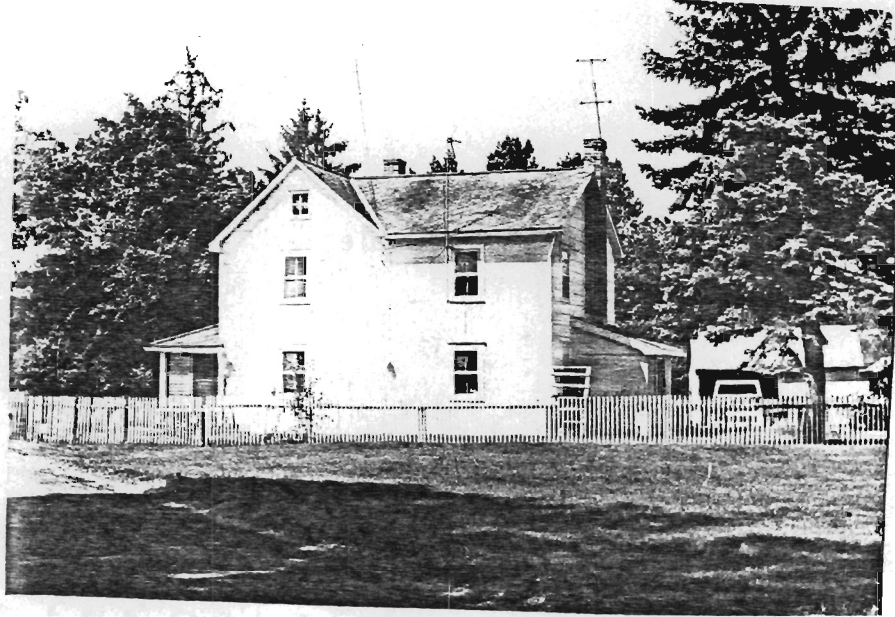

1524-L26

Southeast corner of Monmouth Road and Prosperstown - Colliers Mill Rd. (Prosperstown)

2 story, 2 bay, asbestos siding, gable roof, pre 1872. A center door is flanked by 2/2 windows. The structure is typical of many 19th century buildings in the area. Other features include a stone foundation and rear lean-to.

1524-L27

Loveman Road (Prospertown) L. Johnson 54/9

2 story, 3 bay, asbestos siding, gable roof, pre 1872. An enclosed porch runs across the facade. Windows are 2/2. Clapboard, gabled roof sheds can be found in the side yard.

1524-L28

Not Available

Loveman Road (Prospertown)

2 story, 2 bay, asphalt shingle exterior, gable roof, pre 1872. Windows are 2/2 and 6/6. The structure is located adjacent to the road and is now abandoned and deteriorating.

1524-L29

Prosperstown - Colliers Mill Road Colliers Mill

2 story, 3 bay, clapboard exterior, gable roof, late 19th century. A center door is flanked by 2/2 windows. The structure is typical of small 19th century farmhouses of the area.

1524-L30

Colliers Mill Road

2 story, 5 bay, asphalt shingle, gable roof, mid-19th century. The house has a center door and 2/2 and 6/1 windows. An open porch extends across the facade. Numerous farm outbuildings are found including a clapboard shed with exposed rafter tails and hipped roof, and 20th century sheds with concrete block and clapboard exterior. The farmstead is vacant.

1524-L31

DeWolf Farm / Colliers Mill Road

2 story, 4 bay, asbestos siding, gable roof, possible early 19th century. The house was built in two sections. The main section has a side-hall plan; the north section contains a center door on the north believed to have been the tenant house for the Gaskill farm which stood nearby until the early 20th century.

1524-L32

226 Lakewood Road

2 story, 4 bay, asbestos siding, gable roof, late 19th century. A center door is flanked by 6/6 windows. An open porch extends across the facade. The building has been altered over the years.

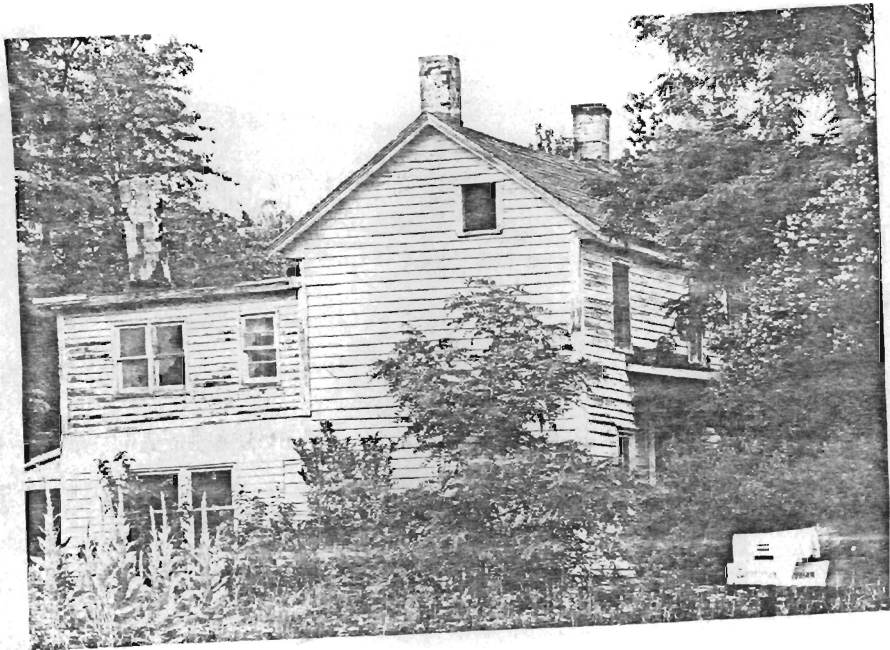

1524-L33

Not Available

Lakewood Road

2 story, 4 bay, clapboard exterior, gable roof. The structure has 6/6 windows, 3 brick chimneys and a brick foundation. The structure is typical of those built in the mid-late 19th century in the area.

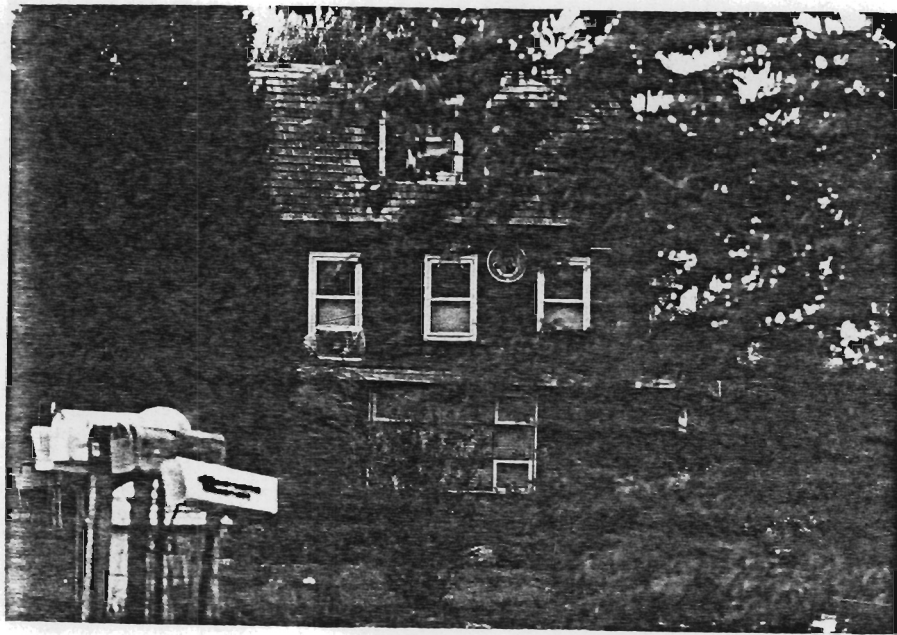

1524-L34

Archertown Road

2 story, 2 bay, clapboard exterior, gable roof. A center door is flanked by 2/2 windows. The structure is typical of mid-late 19th century vernacular architecture found outside New Egypt.

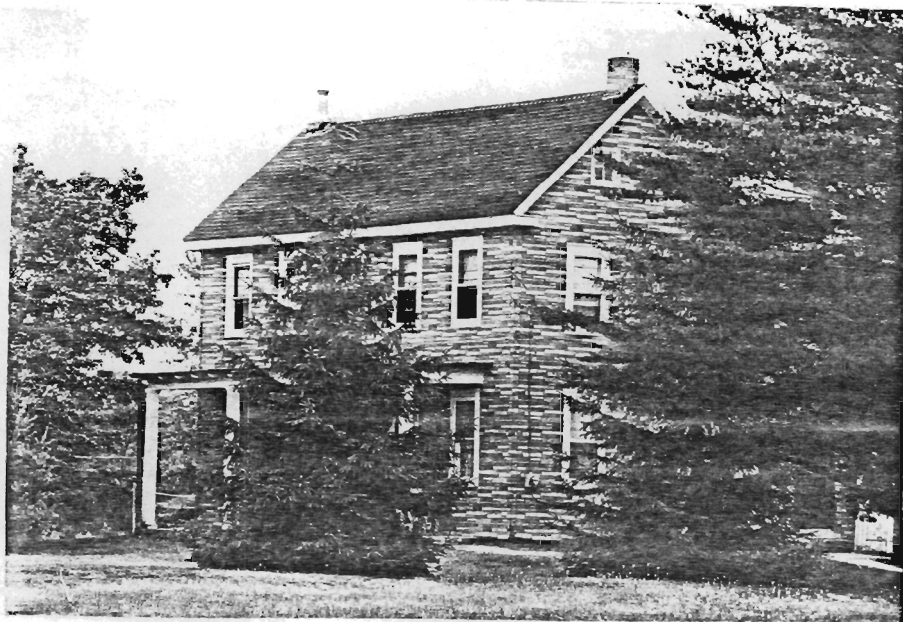

1524-L35

78 Archertown Road

2 story, 3 bay, asbestos shingle exterior, gable roof. Windows are 6/1. An enclosed porch runs across the facade. The structure has been extensively altered in recent years.

1524-L36

Archertown Road

2 story, 5 bay, asphalt shingle exterior, gable roof with returns, exposed rafter tails, mid-19th century. An open porch with square posts runs across the facade. A center door is flanked by modern 1/1 windows. The foundation is brick.

1524-L37

Not Available

Archertown Road / Box 94

2½ story, 2 bay, clapboard exterior, gable roof, late 19th century. Additions have been built onto the side and rear. Windows are 6/1 and 1/1. The building is unusual for the area since its gable end faces the road.

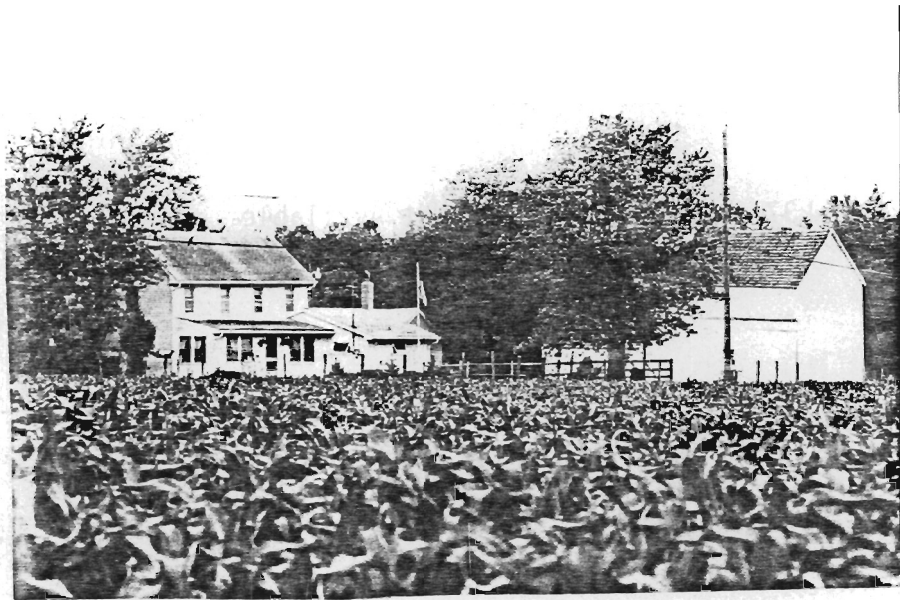

1524-L38

Not Available

Archertown Road - Magnolia Avenue

2 story, 3 bay, stucco exterior, gable roof, possible mid-19th century. A number of alterations have been made in recent years to the building; however, a center door and 6/6 windows still exist.

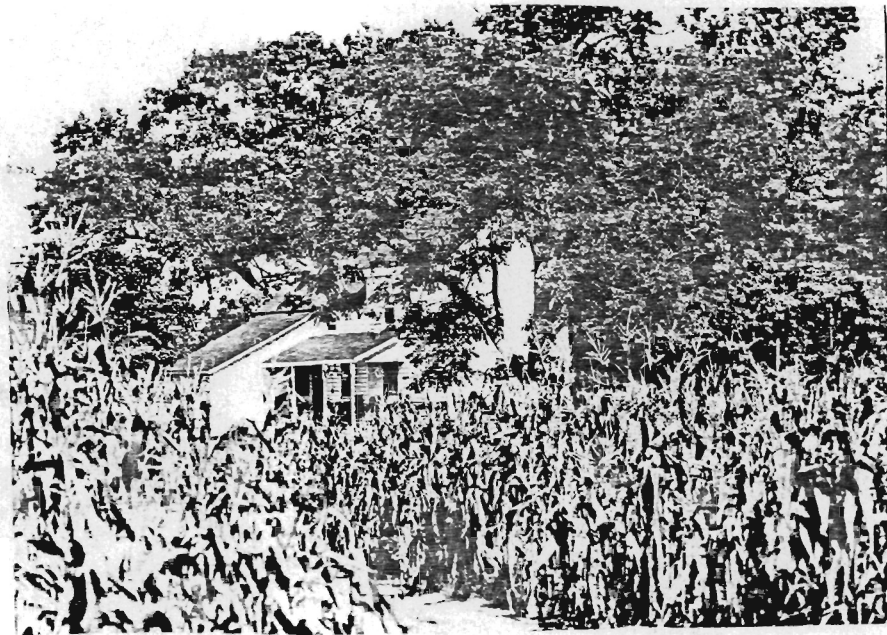

1524-L39

Big Woods Road - Archertown

2 story, 4 bay, asbestos siding, gable roof, prior to 1872. The structure has been extensively altered by the enclosing of its front porch and installation of 1/1 windows.

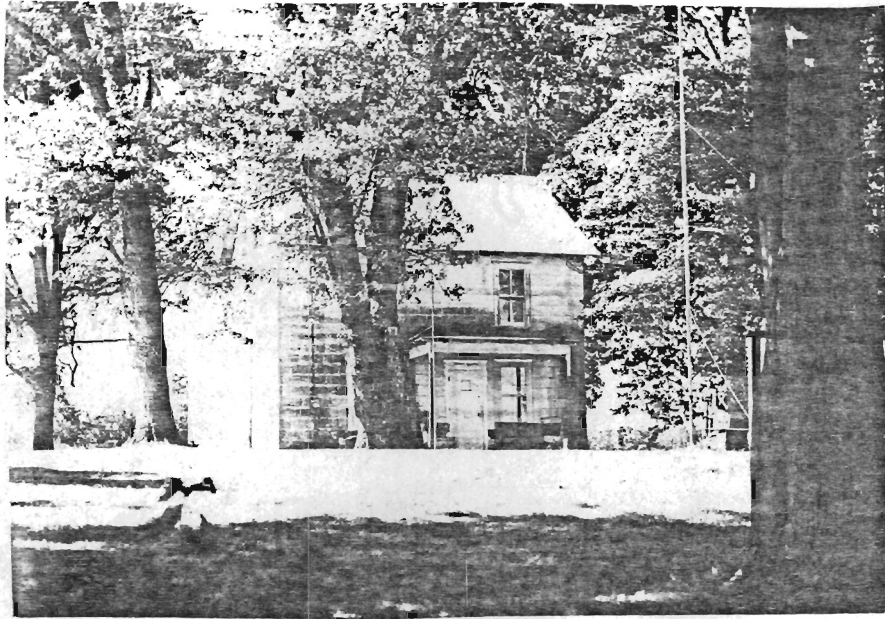

1524-L40

Big Woods Road - Archertown

2 story, 2 bay, clapboard / aluminum siding, gable roof, prior to 1872. The structure has an open front porch with turned posts. Like many farmhouses in the area the building was built in two sections. A 2 bay wing was added in the mid-late 19th century.

1524-L41

Big Woods Road

2 story, 3 bay, asbestos exterior, gable roof, prior to 1872. Windows are 2/2. The gable ends contain 1 story bay windows. A number of small out-buildings are found around the building.

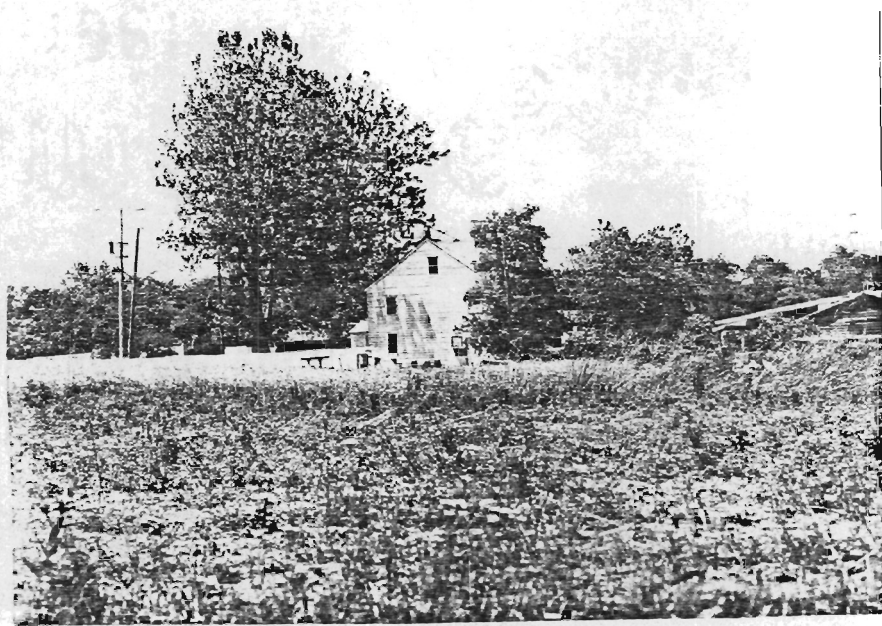

1524-L42

Corner of Big Woods and Inman Roads

2 story, 5 bay, asbestos siding, gable roof, prior to 1872. The structure has been extensively altered. A number of outbuildings including a silo are found around the farmhouse.

1524-L43

Corner of Brindletown - Long Swamp Road

2½ story, 3 bay, clapboard exterior, gable roof, pre 1872. This farmstead is typical of small farm structures built in the 19th century in the New Egypt area. A number of outbuildings surround the house.

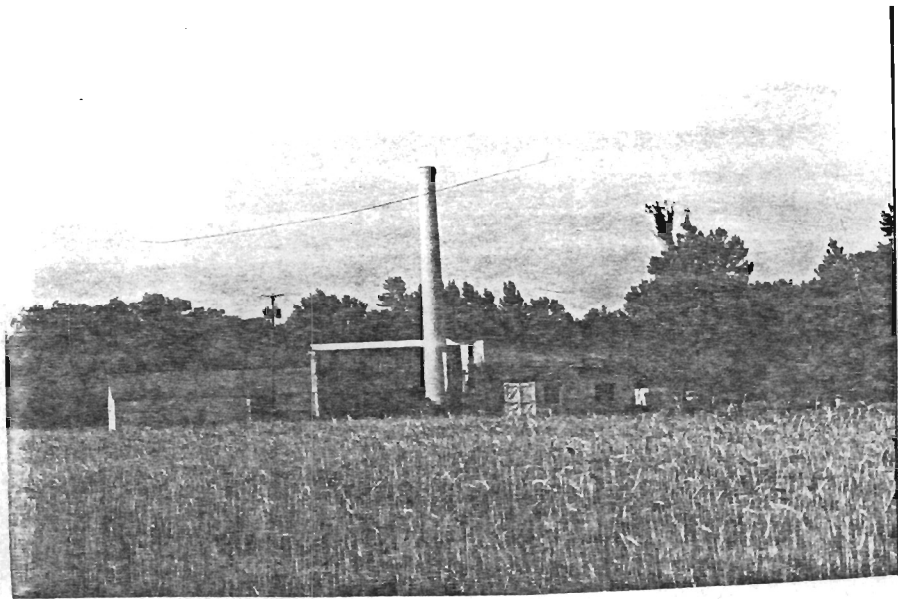

1524-L44

31 Long Swamp Road

2 story, 3 bay, clapboard exterior, gable roof, prior to 1872. The structure was built in 2 sections. The main wing has a center door and 2/2 windows.

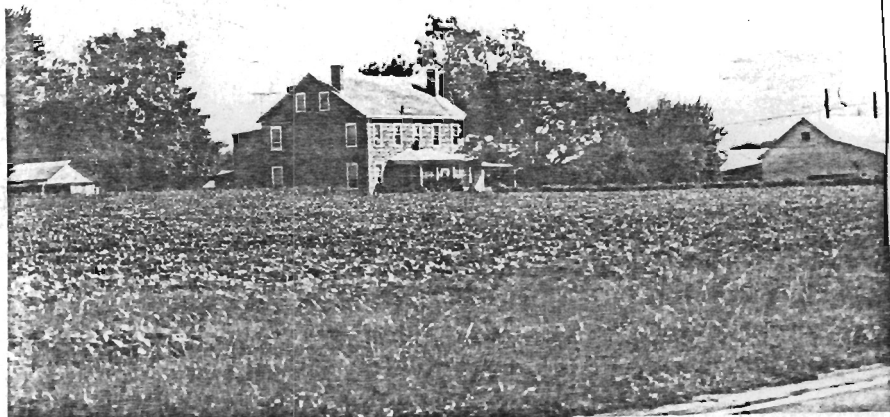

1524-L45

Cranberry Factory / Cranberry Road

A number of early 20th century structures used as a cranberry factory are found along Cranberry Road. This complex is believed to have been the first factory to produce cranberry jelly. Although the major building is gone, a clapboard barn, 2 late 20th century L-plan structures with multi-paned windows and a yellow brick smokestack remain.

1524-L46

Long Swamp Road

2 story, 5 bay, asphalt shingle exterior, gable roof, prior to 1872. The house has 6/6 windows and returns. Extensive alterations have been made including the enclosing of the front porch. A number of outbuildings are found in the yard.
