

**State of New Jersey
Department of Environmental Protection**

Revised: April, 2014 Website: www.nj.gov/dep/landuse

**COASTAL GENERAL PERMIT APPLICATION FOR DEVELOPMENT
NOT ASSOCIATED WITH A SINGLE FAMILY/DUPLEX PROPERTY
CHECKLIST**

CALL NJDEP AT (609) 777-0454 IF YOU HAVE ANY QUESTIONS

To apply for a COASTAL GENERAL PERMIT , complete this checklist and send the material required below to the following address.

Postal Mailing Address

NJ Department of Environmental Protection
Division of Land Use Regulation
P.O. Box 420, Code 501-02A
Trenton, New Jersey 08625-0420
Attn: Application Support

Street Address (Courier & Hand Carry Only)

NJ Department of Environmental Protection
Division of Land Use Regulation
501 East State Street
Station Plaza 5, 2nd Floor
Trenton, New Jersey, 08609
Attn: Application Support

1. A completed LURP application form;
2. Permit review fee in the form of a check or money order or, governmental voucher in the amount of \$600 for each type of Coastal General Permit - (Payable to: Treasurer - State of New Jersey);
3. A copy of the tax map for the property and a copy of a portion of the county road map showing the property location.
4. Photographs showing the specific location of the proposed development taken from a minimum of four different locations and labeled as to orientation. Submit originals mounted with description and location of each view;
5. White certified mailing receipts or other written receipts as evidence that **three** complete copies of the application package have been submitted to the clerk of the municipality in which the development is proposed, including a letter requesting that the clerk distribute one copy to the planning board and one to the environmental commission. The third copy shall be maintained by the clerk's office.
6. White certified mailing receipts or other written receipts as evidence that a copy of (1) the completed LURP application form, (2) the site plan (this plan maybe on an 8.5 by 11" sheet of paper provided it generally depicts the proposed development and the site location) and (3) the notice below, have been forwarded to the following parties:
 - a) County Planning Board;
 - b) Municipal Construction Official;
 - c) County Environmental Commission;
 - d) Owners of real property, including easements; in accordance with 1 or 2 below

1. For **coastal general permits other than the coastal general permit for beach and dune maintenance**, public notice of the application shall be provided to all owners of real property, including easements, surrounding and sharing a property boundary at any point on the perimeter of the proposed development **and a list** certified by the municipality of the owners so notified.

2. For **coastal general permit applications for beach and dune maintenance which involve more than a single family home or duplex**, public notice shall be provided by purchasing a 4-inch wide display advertisement in the official newspaper of the municipality or in a newspaper of general circulation in the municipality if there is no official newspaper(s). Notice shall **also** be provided to all owners of property, including easements, within 200 feet of a proposed dune walkover structure, rather than to all owners of real property, including easement, within 200 feet of the beach and dune maintenance activities. The site plan need not include a full set of plans, but must depict the proposed development in relation to existing site conditions. The plan may be on an 8 1/2 by 11 inch sheet of paper provided it generally depicts the proposed development and the general and site specific location.

3. For additional development proposed on the site of an existing park facility of at least 50 acres in size, the Department may, at its discretion, eliminate, modify or reduce the requirement for individual notice to owners of property including easements, depending on the scope, location and anticipated impacts of the proposed development. For example, an applicant proposing to construct tennis courts located on one side of a 200 acre park facility would be required to notice only those property owners within the vicinity of the proposed tennis court. If the applicant feels reduced notice for proposed development is warranted, the applicant shall contact the regional bureau chief at (609) 777-0454.

The public notice required by this item shall read as follows:

*"This letter is to provide you with legal notification that an application will be submitted to the New Jersey Department of Environmental Protection, Division of Land Use Regulation for authorization under a coastal general permit for **(DESCRIBE THE PROPOSED DEVELOPMENT)**.*

The complete permit application package can be reviewed at either the municipal clerk's office or by appointment at the Department's Trenton office. The Department of Environmental Protection welcomes comments and any information that you may provide concerning the proposed development and site. Please submit your written comments within 15 days of receiving this letter. Your comments should be sent along with a copy of this letter to:

*New Jersey Department of Environmental Protection
Division of Land Use Regulation
P.O. Box 420, Code 501-02A
501 East State Street
Trenton, New Jersey 08625-0420
Attn: (Municipality in which the property is located) Bureau Chief."*

7. A copy of the public notice, which was mailed to those parties, listed in item 5 above.

8. The additional information as outlined below and on the following pages for your specific general permit(s):

(a) 7:7-7.5 Coastal general permit for amusement pier expansion

1. Three copies of a site plan(s), signed and sealed by a Professional Engineer or Land Surveyor, showing the following (Note: Plans for activities proposed on public park lands may be prepared, signed and sealed by a State Certified Landscape Architect):
 - i. The amusement pier as it existed on July 19, 1993, as it exists at the time of the application, and as it will appear with the proposed expansion;

- ii. Existing and proposed direct public access points from the boardwalk to the beach and all public accessways to the beach on the amusement pier and expansion;
 - iii. The proposed public seating and viewing area at the terminal end of the expansion;
 - iv. Location of the mean high water line of the Atlantic Ocean at or in proximity to the site;
 - v. Location of any dune in the area of expansion; and
2. A Compliance Statement, demonstrating how the proposed project complies with the criteria of the coastal general permit at 7:7-7.5 in the Coastal Permit Program Rules including supplemental documents as appropriate, such as maps or surveys.

(b) 7:7-7.6 Coastal general permit for beach and dune maintenance activities

1. A plan, signed and sealed by a Professional Engineer or Land Surveyor, showing the specific location of all proposed beach and dune maintenance activities All tidal waterways and their shores on and adjacent to the site; and all existing and proposed public access areas and public accessways to tidal waterways and their shores including streets, paths, trails, easements, streets shown on a recorded plan but never built (paper streets), dune walkovers/walkways, piers and other dedicated public rights-of-way on and adjacent to the site (Note: Plans for activities proposed on public park lands may be prepared, signed and sealed by a State Certified Landscape Architect);
2. The name, title, address and phone number of the person(s) responsible for supervising the proposed activities to ensure compliance with N.J.A.C. 7:7E- 3A.2 3A.3 and 3A.4;
3. The schedule for conducting the specific beach and dune maintenance activities; and
4. A Compliance Statement prepared in accordance with N.J.A.C. 7:7-6, demonstrating how the beach and/or dune maintenance activities comply with (a) above, including supplemental documents as appropriate, such as beach fee schedules, maps or surveys.

(c) 7:7-7.7 Coastal general permit for voluntary reconstruction of certain residential or commercial development

1. Three copies of a site plan(s), signed and sealed by a Professional Engineer or Land Surveyor, clearly depicting the locations and dimensions of all existing and proposed structures, existing site conditions (including all Special Areas as defined at N.J.A.C. 7:7E-3), and all proposed filling, grading, excavation and clearing (Note: Plans for activities proposed on public park lands may be prepared, signed and sealed by a State Certified Landscape Architect);
2. In the case of residential reconstruction, documentation that there will be no increase in the number of dwelling units;
3. In the case of commercial reconstruction, documentation that there will be no increase in the number of parking spaces or equivalent parking area associated with the proposed reconstruction.
4. A Compliance Statement prepared in accordance with N.J.A.C. 7:7-6, demonstrating how the proposed development complies with (a) above, including supplemental documents as appropriate, such as maps or surveys;
5. A compliance statement demonstrating how the project complies with N.J.A.C. 7:7E-3.25 Flood Hazard Areas; and

6. A compliance statement demonstrating how the project complies with N.J.A.C. 7:7E-3.26 Riparian Zones.

(d) 7:7-7.10 Coastal general permit construction of a bulkhead and placement of associated fill on a lot located on a substantially developed manmade lagoon

1. Three copies of a site plan(s), signed and sealed by a Professional Engineer or Land Surveyor, showing the following (Note: Plans for activities proposed on public park lands may be prepared, signed and sealed by a State Certified Landscape Architect):
 - i. The mean and spring high water lines of the tidal waters at the site;
 - ii. The locations and dimensions of all existing and proposed structures, existing site conditions (including topography and all special areas as defined at N.J.A.C. 7:7E-3) and all proposed filling, grading, excavation and clearing. The plan must show the upper and lower limits of wetlands and beach areas.
 - iii. Bulkheads or other retaining structures on adjacent properties;
 - iv. All proposed structures including deadmen, tie backs, and returns;
 - v. All existing and proposed public accessways to tidal waterways and their shores on the site; and
2. A Compliance Statement, demonstrating how the proposed project complies with the criteria of the coastal general permit at 7:7-7.10 in the Coastal Permit Program Rules including supplemental documents as appropriate, such as maps or surveys.

(e) 7:7-7.13 Coastal general permit for the construction of support facilities at legally existing operating commercial marinas

1. Three copies of a site plan(s), signed and sealed by a Professional Engineer or Land Surveyor, showing the following (Note: Plans for activities proposed on public park lands may be prepared, signed and sealed by a State Certified Landscape Architect):
 - i. The mean high, mean low and spring high water lines of the tidal waters at the site;
 - ii. Existing features at the site including topography, structures, utilities, beach areas and dune areas;
 - iii. The upper and lower limits of wetlands within 150 feet of the proposed limit of disturbance;
 - iv. The proposed development including all limits of disturbance, structures and building heights, grading, and existing and proposed clearing areas;
 - v. The location of all existing and proposed public access areas;
 - vi. Where sewers are to be used, the location of the existing sewer line abutting the site;
2. A Compliance Statement, demonstrating how the proposed project complies with the criteria of the coastal general permit at 7:7-7.13 in the Coastal Permit Program Rules including supplemental documents as appropriate, such as maps or surveys;
3. A copy of any previous coastal permits for the site;

4. A compliance statement demonstrating how the project complies with N.J.A.C. 7:7E-3.25 Flood Hazard Areas; and
5. A compliance statement demonstrating how the project complies with N.J.A.C. 7:7E-3.26 Riparian Zones.

(f) 7:7-7.14 Coastal general permit for reconstruction of a legally existing functioning bulkhead

1. Three copies of a site plan(s), signed and sealed by a Professional Engineer or Land Surveyor, showing the following (Note: Plans for activities proposed on public park lands may be prepared, signed and sealed by a State Certified Landscape Architect):
 - i. The mean and spring high water lines of the tidal waters at the site;
 - ii. The locations and dimensions of all existing and proposed structures, existing site conditions (including topography and all special areas as defined at N.J.A.C. 7:7E-3) and all proposed filling, grading, excavation and clearing. The plan must show the all waterfront structures, existing bulkhead, and upper and lower limits of wetlands, beach areas and dune areas.
 - iii. Bulkheads or other retaining structures on adjacent properties;
 - iv. Proposed new bulkhead including returns and tie backs and splash pad if located within the V-zone;
 - v. Location of all existing and proposed public access areas;
2. A Compliance Statement, demonstrating how the proposed project complies with the criteria of the coastal general permit at 7:7-7.14 in the Coastal Permit Program Rules including supplemental documents as appropriate, such as maps or surveys.

(g) 7:7-7.15 Coastal general permit for investigation, cleanup, removal or remediation of hazardous substances

1. Three copies of a site plan(s), signed and sealed by a Professional Engineer or Land Surveyor, showing the following (Note: Plans for activities proposed on public park lands may be prepared, signed and sealed by a State Certified Landscape Architect):
 - i. The mean and spring high water lines of the tidal waters at the site;
 - ii. The limits of all Special Areas as defined in the Coastal Zone Management rules (N.J.A.C. 7:7E-3) within 150 feet of the proposed limits of disturbance on site and at the material disposal site;
 - iii. The proposed limits of disturbance and method of investigation, clean up, removal or remediation;
 - iv. The restoration plan;
2. A Compliance Statement, demonstrating how the proposed project complies with the criteria of the coastal general permit at 7:7-7.15 in the Coastal Permit Program Rules including supplemental documents as appropriate, such as maps or surveys;
3. Photographs of the site prior to the remediation;
4. The Department's case control number; and

5. A compliance statement demonstrating how the project complies with N.J.A.C. 7:7E-3.26 Riparian Zones.

(h) 7:7-7.16 Coastal general permit for the landfall of utilities

1. Three copies of a site plan(s), signed and sealed by a Professional Engineer or Land Surveyor, showing the following (Note: Plans for activities proposed on public park lands may be prepared, signed and sealed by a State Certified Landscape Architect):
 - i. The mean and spring high water lines of the tidal waters at the site;
 - ii. The upper and lower limits of wetlands, beach areas, coastal bluffs, endangered or threatened wildlife or vegetation species habitats and dune areas within 150 feet of the proposed limit of disturbance;
 - iii. The proposed limit(s) of disturbance;
 - iv. The restoration plan;
 - v. The location of the existing and proposed utility;
 - vi. The location and type of soil erosion and sediment control measures to be used during construction;
2. A Compliance Statement, demonstrating how the proposed project complies with the criteria of the coastal general permit at 7:7-7.16 in the Coastal Permit Program Rules including supplemental documents as appropriate, such as maps or surveys;
3. A compliance statement demonstrating how the project complies with N.J.A.C. 7:7E-3.25 Flood Hazard Areas; and
4. A compliance statement demonstrating how the project complies with N.J.A.C. 7:7E-3.26 Riparian Zones.

(i) 7:7-7.17 Coastal general permit for the construction of recreational facilities at public parks

1. Three copies of a site plan(s), signed and sealed by a Professional Engineer or Land Surveyor, or by a State Certified Landscape Architect showing the following:
 - i. The mean and spring high water lines of the tidal waters at the site;
 - ii. The proposed development including all limits of disturbance, structures, grading and clearing; and
 - iii. Within 150 feet of the proposed limit(s) of disturbance, the upper and lower limits of wetlands, beach areas and endangered or threatened wildlife or vegetation species habitats and dune areas;
 - iv. All existing and proposed public access areas and public accessways to tidal waterways and their shores on-site;
2. A Compliance Statement, demonstrating how the proposed project complies with the criteria of the coastal general permit at 7:7-7.17 in the Coastal Permit Program Rules including supplemental documents as appropriate, such as maps or surveys;

3. A compliance statement demonstrating how the project complies with N.J.A.C. 7:7E-3.25 Flood Hazard Areas; and
4. A compliance statement demonstrating how the project complies with N.J.A.C. 7:7E-3.26 Riparian Zones.

(j) 7:7-7.19 Coastal general permit for the construction of piers, docks, including jet ski ramps, pilings, and boatlifts in man-made lagoons

1. Three copies of a site plan(s), signed and sealed by a Professional Engineer or Land Surveyor, showing the following (Note: Plans for activities proposed on public park lands may be prepared, signed and sealed by a State Certified Landscape Architect):
 - i. The mean high and mean low water lines of the tidal waters at the site;
 - ii. The upper and lower limits of wetlands at the site;
 - iii. The locations and dimensions of all existing and proposed structures, existing site conditions (including topography and all special areas as defined at N.J.A.C. 7:7E-3) and all proposed filling, grading, excavation and clearing. The plan must show the all existing structures including all waterfront structures (docks, pilings and bulkheads) on the project site and adjacent waterfront properties;
 - iv. The opposite side of the lagoon with the width of the lagoon indicated;
 - v. The proposed structures and boat mooring area; and
2. A Compliance Statement, demonstrating how the proposed project complies with the criteria of the coastal general permit at 7:7-7.19 in the Coastal Permit Program Rules including supplemental documents as appropriate, such as maps or surveys.

(k) 7:7-7.20 Coastal general permit for minor maintenance dredging in man-made lagoons

1. Three copies of a site plan(s), signed and sealed by a Professional Engineer or Land Surveyor, showing the following (Note: Plans for activities proposed on public park lands may be prepared, signed and sealed by a State Certified Landscape Architect):
 - i. Mean high and mean low water lines of the tidal waters at the site;
 - ii. The upper and lower limits of wetlands on site and on adjacent lagoonfront properties;
 - iii. The existing and proposed water depths in the area to be dredged;
 - iv. Proposed cross sections of the area to be dredged;
 - v. The location (municipal block and lot numbers, site location map and two photographs) of the dredged material disposal site;
 - vi. The method of dredging;
 - vii. The method of stabilization of dredged material; and
2. A Compliance Statement, demonstrating how the proposed project complies with the criteria of the coastal general permit at 7:7-7.20 in the Coastal Permit Program Rules including supplemental documents as appropriate, such as maps or surveys.

(l) 7:7-7.21 Coastal general permit for the stabilization of eroded shorelines

1. Three copies of a site(s) plan, signed and sealed by a Professional Engineer or Land Surveyor, showing the following (Note: Plans for activities proposed on public park lands may be prepared, signed and sealed by a State Certified Landscape Architect):
 - i. Mean high, mean low and spring high water lines of the tidal waters at the site;
 - ii. Existing waterfront structures at the site and on adjacent waterfront sites;
 - iii. The upper and lower limits of wetlands, beach areas, and dune areas at the site and on adjacent waterfront properties;
 - iv. The location and cross section of the proposed stabilization materials in relationship to mean high and mean low water; and
 - v. On public lands, the location of the existing and proposed public access to the waterfront;
2. A Compliance Statement, demonstrating how the proposed project complies with the criteria of the coastal general permit at 7:7-7.21 in the Coastal Permit Program Rules including supplemental documents as appropriate, such as maps or surveys;
3. A compliance statement demonstrating how the project complies with N.J.A.C. 7:7E-3.25 Flood Hazard Areas; and
4. A compliance statement demonstrating how the project complies with N.J.A.C. 7:7E-3.26 Riparian Zones.

(m) 7:7-7.22 Coastal general permit for avian nesting structures

1. Three copies of a site plan(s), signed and sealed by a Professional Engineer or Land Surveyor, showing the following (Note: Plans for activities proposed on public park lands may be prepared, signed and sealed by a State Certified Landscape Architect):
 - i. The location of the proposed nesting structure;
 - ii. Mean high water line of the tidal waters at the site;
 - iii. Existing features at the site including structures, and all Special Areas as defined at N.J.A.C. 7:7E-3, including the upper and lower limits of wetlands, beach areas, and dune areas; and
 - iv. Details of the proposed nesting structure.
2. A compliance statement demonstrating how the project complies with N.J.A.C. 7:7E-3.25 Flood Hazard Areas; and
3. A compliance statement demonstrating how the project complies with N.J.A.C. 7:7E-3.26 Riparian Zones.

(n) 7:7-7.23 Coastal general permit for modification of existing electrical substations

1. Three copies of a site plan(s), signed and sealed by a Professional Engineer or Land Surveyor, showing the following (Note: Plans for activities proposed on public park lands may be prepared, signed and sealed by a State Certified Landscape Architect):

- i. Existing fence, existing limits of clearing, existing and proposed structures;
 - ii. The upper and lower limits of any wetlands within 150 feet of the fenced area;
2. A Compliance Statement, demonstrating how the proposed project complies with the criteria of the coastal general permit at 7:7-7.23 in the Coastal Permit Program Rules including supplemental documents as appropriate, such as maps or surveys;
 3. A compliance statement demonstrating how the project complies with N.J.A.C. 7:7E-3.25 Flood Hazard Areas; and
 4. A compliance statement demonstrating how the project complies with N.J.A.C. 7:7E-3.26 Riparian Zones.

(o) 7:7-7.24 Coastal general permit for the legalization of the filling of tidelands

1. Three copies of a site plan(s), signed and sealed by a Professional Engineer or Land Surveyor, showing the following (Note: Plans for activities proposed on public park lands may be prepared, signed and sealed by a State Certified Landscape Architect):
 - i. The location of the tidelands claim line as shown on the applicable Tidelands Map adopted by the Tidelands Resource Council (base map photography dated 1977/78) and current mean high water line at or adjacent to the site;
 - ii. The location of all existing and proposed public access areas and public accessways to tidal waterways and their shores on-site;
2. Proof that a tidelands instrument has been obtained for all filled tidelands areas or evidence that an application for a tidelands instrument has been submitted to the Bureau of Tidelands Management. This coastal general permit authorization shall not be valid until the permittee has received a Tidelands instrument; and
3. A Compliance Statement demonstrating how the site complies with the Public Access to the Waterfront rule, N.J.A.C. 7:7E-8.11.

(p) 7:7-7.25 Coastal general permit for the construction of telecommunication towers

1. Three copies of a site plan(s), signed and sealed by a Professional Engineer or Land Surveyor, showing the following (Note: Plans for activities proposed on public park lands may be prepared, signed and sealed by a State Certified Landscape Architect):
 - i. The proposed development including all limits of disturbance, structures, grading and clearing;
 - ii. All existing features at the site including the mean high and spring high water lines, and the upper limits of beaches and dunes;
 - iii. The upper limits of wetlands and coastal bluffs on and adjacent to the site; and
2. A Compliance Statement, demonstrating how the proposed project complies with the criteria of the coastal general permit at 7:7-7.25 in the Coastal Permit Program Rules including supplemental documents as appropriate, such as maps or surveys

(q) 7:7.26 Coastal general permit for the construction of certain structures related to the tourism industry at hotels and motels, commercial developments and multi-family residential developments over 75 units

1. Three copies of a site plan(s), signed and sealed by a Professional Engineer or Land Surveyor, showing the following (Note: Plans for activities proposed on public park lands may be prepared, signed and sealed by a State Certified Landscape Architect):
 - i. The mean high water line of the tidal waters at the site;
 - ii. The location and type of all proposed structures;
 - iii. The upper limits of wetlands and beach and dune areas, and endangered and threatened wildlife or vegetation species habitats;
 - iv. All existing and proposed public access areas and public accessways to tidal waterways and their shores on the site;
2. A Compliance Statement, demonstrating how the proposed project complies with the criteria of the coastal general permit at 7:7-7.26 in the Coastal Permit Program Rules including supplemental documents as appropriate, such as maps or surveys;
3. A compliance statement demonstrating how the project complies with N.J.A.C. 7:7E-3.25 Flood Hazard Areas; and
4. A compliance statement demonstrating how the project complies with N.J.A.C. 7:7E-3.26 Riparian Zones.

(r) 7:7-7.27 Coastal general permit for geotechnical survey borings

1. Three copies of a site plan(s), signed and sealed by a Professional Engineer or Land Surveyor, showing the following (Note: Plans for activities proposed on public park lands may be prepared, signed and sealed by a State Certified Landscape Architect):
 - i. The mean high water line of the tidal waters at the site;
 - ii. For activities proposed at or upland of the mean high water line; existing features at the site including topography and structures, and the limits of wetlands, dune areas, beach areas, flood hazard areas, coastal bluffs and vegetation;
 - iii. For activities proposed at or waterward of the mean water line; existing features at the site including areas designated as shellfish habitat, submerged vegetation habitat, topography and structures, and the limits of wetlands;
 - iv. Existing roads and utilities immediately adjacent to the site;
 - v. The upper limits of wetlands and beach and dune areas, and endangered and threatened wildlife or vegetation species habitats;
 - vi. Existing roads and utilities immediately adjacent to the site;
 - vii. Location of proposed activities, methods, equipment to utilized and limits and depth of all proposed borings;
 - viii. All grading, clearing and limits of disturbance; and
2. A Compliance Statement, demonstrating how the proposed project complies with the criteria of the coastal general permit at 7:7-7.27 in the Coastal Permit Program Rules including supplemental documents as appropriate, such as maps or surveys.

(s) 7:7-7.29 Coastal general permit for habitat creation and enhancement activities

1. Three Copies of a site plan(s) showing the following
 - i. The mean high and spring high tide lines of the tidal waters at the site;
 - ii. The upper and lower limits of the wetlands and wetlands buffers, beaches, dunes, and coastal bluff areas;
 - iii. Limits of all intertidal and subtidal shallows, submerged vegetation, and shellfish areas;
 - iv. Existing features both at the site and on adjacent waterfront sites including all waterfront structures and existing bulkheads, other retaining structures and culverts;
 - v. Existing roads and utilities immediately adjacent to the site;
 - vi. The limits and depth of all proposed excavation, proposed grading or fill; and
2. A Compliance Statement, demonstrating how the proposed project complies with the criteria of the coastal general permit at 7:7-7.29 in the Coastal Permit Program Rules including supplemental documents as appropriate, such as maps, plans or surveys; and
3. A compliance statement demonstrating how the project complies with N.J.A.C. 7:7E-3.26 Riparian Zones.

(t) 7:7-7.30 Coastal general permit for the construction of one to three wind turbines less than 200 feet in height and having a cumulative rotor swept area no greater than 4,000 square feet

1. Five copies of a site plan showing the following:
 - i. The mean high water lines of the tidal waters within 50 feet of any portion of the wind turbine(s), including blades, tower and site disturbance;
 - ii. Existing features at the site including topography, structures, utilities, beach areas, dune areas, coastal bluffs, and floodways;
 - iii. The upper limits of wetlands, beaches, dunes and coastal bluffs within 150 feet of any portion of the wind turbine(s), including blades, tower and site disturbance;
 - iv. The proposed location of each proposed wind turbine, all limits of disturbance, grading, and existing and proposed clearing areas; and
 - v. The proposed lighting for each proposed wind turbine;
2. Five copies of an elevation plan of each proposed wind turbine;
3. The total height and rotor swept area for each proposed wind turbine;
4. A Compliance Statement, demonstrating how the proposed project complies with the criteria of the coastal general permit at 7:7-7.30 in the Coastal Permit Program Rules including supplemental documents as appropriate, such as maps, plans or surveys.

(u) 7:7-7.31 Coastal general permit for the construction of wind turbines less than 250 feet in height and having a cumulative rotor swept area no greater than 20,000 square feet

1. Five copies of a site(s) plan showing the following:
 - i. The mean high water lines of the tidal waters within 50 feet of any portion of the wind turbine(s), including blades, tower and site disturbance;
 - ii. Existing features at the site including topography, structures, utilities, beach areas, dune areas, coastal bluffs, floodways, and limits of the areas identified on the Department's Large Scale Wind Turbine Siting Map and areas within one-quarter mile of mapped areas;
 - iii. The landward limits of wetlands, beaches, dunes and coastal bluffs within 50 feet of any portion of the wind turbine(s), including blades, tower and site disturbance;
 - v. The proposed location of each proposed wind turbine, including all limits of disturbance, grading, and existing and proposed clearing areas; and
 - vi. The proposed lighting for each proposed wind turbine;
2. Five copies of an elevation plan of each proposed wind turbine;
3. The total height and rotor swept area for each proposed wind turbine;
4. A Compliance Statement, demonstrating how the proposed project complies with the criteria of the coastal general permit at 7:7-7.30 in the Coastal Permit Program Rules including supplemental documents as appropriate, such as maps, plans or surveys.
