SUPERIOR COURT OF NEW JERSEY
LAW DIVISION - ESSEX COUNTY
DOCKET NO. ESX-L9868-05 (PASR)

Civil Action

CERTIFICATION OF ROGER W. BUTLER

I, ROGER W. BUTLER, being of full age, certify as follows:

1. I am employed by New Jersey Department of Law and Public Safety, Division of Law in the Environmental Enforcement Section, as Supervisor, Financial Costs; and have been so employed since August 1992.

2. I make this Certification in support of the "Analysis of Expenditures" applied to costs in the above-captioned matter for Plaintiffs New Jersey Department of Environmental Protection ("DEP"), the Commissioner of the New Jersey Department of Environmental Protection ("Commissioner"), and the Administrator of the New Jersey Spill Compensation Fund ("Administrator"), who are seeking the recovery of past costs.

3. It is my responsibility to request, collect, assemble, analyze, and verify financial data relating to and concerning DEP's expenditures for sites where cleanup and remediation has been or is being conducted.

4. Additionally, when requested, I will calculate interest and issue projections for future costs.

5. According to the "Analysis of Expenditures" related to this matter, as of April 30, 2013, DEP has incurred cleanup and removal costs totaling \$29,719,264.63, exclusive of attorneys' fees and litigation costs.

6. These costs have been calculated in accordance with the "Explanation of Expenditures" as attached.

Roger W. Butler
Supervising Administrative Analyst

Dated: May 6, 2013

PASSAIC RIVER

Explanation of Expenditures

The Department of Environmental Protection (“DEP”) has maintained a Job Cost System since Fiscal Year 1983 to record its expenditures. DEP uses this system to account for all expenditures for site remediation projects.

DEP assigns a multi-digit Project Activity Code or Job Number (“Project Activity Code”) to each site remediation project, federal grant, and activity DEP undertakes. Most larger projects, such as a site remediation project, will have several Project Activity Codes assigned to account for the various tasks or activities performed during the remediation. See N.J.A.C. 7:26E. DEP includes these Project Activity Codes on timesheets, vendor invoices, employee expense vouchers, revenue documents and internal debits and credits. DEP’s “Procedural Manual for Project Activity Codes” contains the coding procedures and sample documents.

In preparing a summary of DEP’s expenditures for the remediation of a contaminated site, DEP’s Division of Remediation Support, Office of Fiscal Support Services, prepares an “Analysis of Expenditures” report Attachment “A”. The “Analysis of Expenditures” for this matter summarizes certain cleanup and removal costs, including labor costs entered into the Job Cost System, vendor or contractor costs, and any other expenses directly associated with the remediation.

One component of the Job Cost System involves labor costs. Specifically, DEP requires each employee to prepare timesheets on a bi-weekly basis. DEP further requires each employee to account for the hours he or she worked during the two week period by using the Project Activity Code assigned to the specific project or activity on which he or she worked (see Attachment “G” and “H”).

Before entering this information into the Job Cost System, DEP ensures that the timesheets accurately reflect the hours the employee worked.

DEP's total cost for an employee working on a particular site remediation project consists of direct labor costs, (i.e., those hours worked by DEP employees coded to a site-specific activity code) modified by the salary additive, fringe benefit and indirect cost rates. DEP calculates direct labor costs by multiplying the number of hours the employee enters on his or her timesheet for a particular project or activity by the employee's particular hourly rate.

DEP uses the salary additive rate to apply a part of the employee's benefit time (e.g., vacation, sick leave, administrative leave, holidays, etc.) to the direct labor costs. DEP develops this rate annually based on the actual costs incurred as coded in the Job Cost System.

The fringe benefit rate reflects the employer's contributions for pension, health benefits, workers' compensation, temporary disability insurance and F.I.C.A. The fringe benefit rate applied to the direct labor costs is negotiated annually by the Department of Treasury's Office of Management and Budget ("OMB") and the United States Department of Health and Human Services, and directed by OMB Circular Letter for use by all State agencies. OMB Circular Letters 84-2, 85-8, 85-15, 86-8, 87-5, 88-07, 89-07, 90-06, 91-12, 92-06, 93-07, 94-30, 95-02, 96-07, 97-03, 98-08, 99-05, 00-04, 01-03, 02-02, 03-02, 12-06 and 13-12 contain the rates for Fiscal Years 1984 through 2013.

The cost components for the indirect rate calculation are based on the actual expenditures detailed in the Job Cost System. DEP segregates the costs by Project Activity Codes to develop the indirect cost pool. DEP determines the indirect cost rate by dividing the indirect cost pool by the total direct project costs. DEP develops this rate annually using the actual expenditures for the

previous fiscal year according to OMB Circular Letters 95-07 and 96-16, and Federal Office of Management and Budget Circular A-97. Included in the rate calculation are all costs that are allowable under these circular letters.

DEP calculates its administrative costs by multiplying the number of each employee's coded hours by the employee's hourly rate, then multiplying this product by the salary additive rate, then multiplying this product by the fringe benefit rate, and then adding the resulting product to the product of coded hours multiplied by the hourly rate multiplied by the indirect cost rate. See E.I. du Pont de Nemours and Company, et al. v. State of New Jersey, Department of Environmental Protection, 283 N.J. Super. 331, 346-348 (App. Div. 1995).

Another component of the Job Cost System involves contractor costs and expenses. DEP also details these costs by Project Activity Code. With respect to these costs and expenses, the Analysis of Expenditures identifies the payee's name, payment date, amount paid, invoice document number, and the obligation or encumbrance number against which DEP paid the invoice. DEP uses this information to identify source documents such as an individual's time sheet for a specific pay period, a vendor invoice along with the date paid, check number, purchase order or vendor's contract, or an employee's expense voucher for a particular site.

To account for expenditures DEP incurred through April 30, 2013, for the Newark Bay Complex, DEP has established a Project Activity Code for certain task or activity related to the remediation. DEP used these Project Activity Codes to prepare an Analysis of Expenditures for the Site, a copy of which is attached as Attachment "G" and "H".

The Analysis of Expenditures for the Site lists DEP's costs of \$29,719,264.63 through April 30, 2013, exclusive of attorneys' fees and litigation costs, as follows:

DEP Cleanup Costs	\$2,075,848.92
DEP Administrative Costs (Salary):	
Salary Coding 9/30/97 to Present	\$2,687,936.58
Div Science, Research & Tech Dioxin Pre 1983	\$9,089,231.89
Div Science, Research & Tech 93-Present All WCC	\$15,343,857.56
Site Remediation Program - Dioxin Pre 1993	\$522,389.68
DEP Administrative Costs (Non-Salary)	\$0.00
Total	\$29,719,264.63

The DEP Cleanup Costs set forth above represent the actual invoices DEP paid to contractors under obligations and purchase orders established for the Passaic River and/or Newark Bay. A list of these charges is attached as Attachment "B".

DEP determined the administrative salary costs from the Job Cost System Reports, copies of which are attached as Attachment "C", "D", "E" and "F". These reports identify DEP personnel who charged their time to one or more of the Project Activity Codes assigned to the Site.

This Explanation of Expenditures is for informational purposes only, and is subject to change should DEP determine that its costs of \$29,719,264.63 through April 30, 2013, differ from those mentioned above.

ATTACHMENT G

Diamond Alkali/Occidental Chemical/Passaic River Litigation
80 Lister Avenue, Newark, New Jersey

Site Remediation Program Job Numbers with Activity Codes, '93-Present

G1403Bxx - Diamond Alkali Company, Passaic River Study Area, Publicly Funded Passaic River DEP Lead,
Newark Bay Study Area, Uplands Study Area

G1403BExx - Lister Avenue Site

Activity Codes **(See Att H)**

Site Remediation Program Passaic River Dioxin Pre 1993 - Project Activity Codes

3QF - Diamond Shamrock - Administration

3QG - Diamond Shamrock - Investigation

3QH - Diamond Shamrock - Sampling and Analysis

3QJ - Diamond Shamrock - Public Participation

3QK - Diamond Shamrock - Geologic Services

3QM - Diamond Shamrock - Feasibility Studies

3QN - Diamond Shamrock - Design

3QP - Diamond Shamrock - Cleanup

3QQ - Diamond Shamrock -

7PA - Diamond Shamrock ACO II - OSC Monitoring

7PB - Diamond Shamrock ACO II - Geological

7PC - Diamond Shamrock ACO II - Sampling

7PD - Diamond Shamrock ACO II - Gen. Management

8TY - Dioxin - Diamond Shamrock

EEC - Diamond Shamrock LISTRS/MAIN RD

EEE - Diamond Shamrock OFF-SITES

YGA - Diamond Shamrock/Passaic River

Div Science, Research & Tech: Job Numbers with Activity Codes, '93-Present for All WCC

2ANGEDXX – Educational Outreach Urban Anglers

33030000 – Science and Research

Activity Codes:

V4D4 - Toxics in Biota

V74C - Technical Support

V63M - Research

V63W - Research Contract Mngmt

V59M - Community Outreach

V59D - Public Outreach

38970000 - Routine Fish Monitoring

Activity code V63M - Routine Fish Monitoring

38280000 – NJ Toxics Reduction Program

Activity code V58M - NJ Toxics Reduction Workplan

Div Science, Research & Tech Passaic River Dioxin Pre 1993 Project Activity Codes

2BE - General Science and Research

2KY - Risk Assessment - General (OSR)

39R - New York - New Jersey Harbor Estuary Program

2BD - Ecological and Sediments Studies

2BS - Field Investigations

2BR - Water Projects

2BT - Dioxin Investigations
