Attorneys for Defendants,
Tierra Solutions, Inc. and Maxus Energy Corporation

NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION, THE COMMISSIONER OF THE NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION AND THE ADMINISTRATOR OF THE NEW JERSEY SPILL COMPENSATION FUND,	:	SUPERIOR COURT OF NEW JERSEY LAW DIVISION - ESSEX COUNTY
	:	DOCKET NO. ESX-L-9868-05
Plaintiffs,	:	
vs.	:	MAXUS ENERGY CORPORATION'S AND TIERRA SOLUTIONS, INC.'S AMENDED INITIAL DISCLOSURES
OCCIDENTAL CHEMICAL CORPORATION, TIERRA SOLUTIONS, INC., MAXUS ENERGY CORPORATION, REPSOL YPF, S.A., YPF, S.A., YPF HOLDINGS, INC., and CLH HOLDINGS,	:	
Defendants.	:	

Defendants Maxus Energy Corporation (“Maxus”) and Tierra Solutions, Inc. (“Tierra”) hereby make the following Amended Initial Disclosures pursuant to Case Management Order III in the above referenced litigation consistent with Federal Rule of Civil Procedure 26(a)(1).

RESERVATION OF RIGHTS

1. Maxus and Tierra reserve the right to object to the production of any documents or other information on any ground, including relevance and undue burden, and to assert any

applicable privilege, including the attorney-client privilege, the work product doctrine, the common interest doctrine, and any other applicable privilege or protection. These disclosures are not intended to prejudice or waive any privileges or objections Maxus or Tierra may have with respect to any outstanding or subsequent requests for discovery.

2. Maxus's and Tierra's investigation in this matter is continuing. Accordingly, they reserve the right to supplement, clarify, and revise these disclosures to the extent additional information becomes available or is obtained through discovery. Further, Maxus and Tierra reserve the right to amend these disclosures to the extent the claims brought by or alleged against Maxus and Tierra in this litigation are amended.

I. Individuals Having Discoverable Information

The time period covered by the allegations in the Plaintiffs' Second Amended Complaint encompasses at least six decades, and the majority of Plaintiffs' allegations arise out of the operation of a manufacturing facility during the period from the early 1950s until 1969. Over the ensuing decades, there have been numerous changes in professional staff employed by Maxus and Tierra, there have been several corporate transactions and agreements affecting the relationship between defendants to this action, and, since the early 1980s, there have been judicial and administrative proceedings to investigate and address the environmental conditions allegedly caused by the facility in question and by virtually countless other sources of contamination found in the Passaic River and Newark Bay. The chronological breadth of the Second Amended Complaint is rivaled only by its geographic scope as it covers the so-called "Newark Bay Complex," which spans the "lower 17 miles of the Passaic River, Newark Bay, the lower reaches of the Hackensack River, the Arthur Kill, the Kill van Kull, and into adjacent waters and sediments." *Second Amended Complaint*, ¶ 1. The difficulties posed by the

chronological and geographical breadth of the Second Amended Complaint have hampered Maxus's and Tierra's ability to identify individuals having discoverable information that may be used to support their defenses to the Plaintiffs' claims and/or to support any of the pending counterclaims, cross-claims or third-party claims. Due to the extended period of time and the vast area implicated by the Plaintiffs' allegations in the Second Amended Complaint, the volume of potentially-relevant information is enormous, and it is likely that additional individuals will be identified in the future. As stated above, Maxus's and Tierra's investigation is continuing, and they reserve the right to supplement and modify these disclosures.

Maxus and Tierra hereby disclose this list of persons whom they believe are likely to have discoverable information that they may use to support their claims and defenses, based on their inquiry to date, and the potential subjects of those individuals' knowledge. For former or retired employees, this disclosure is based on a current understanding and inquiry. In these Amended Initial Disclosures, Maxus and Tierra are disclosing the identity of certain individuals that perform consultant work for Maxus and/or Tierra that may have discoverable, non-privileged information regarding matters related to this lawsuit that Maxus and Tierra may use in this lawsuit. This disclosure does not, and is not intended to, waive any applicable privileges that apply to any of the work done by these individuals or the entities with which they are associated.

Maxus and Tierra hereby incorporate by reference as if fully stated herein each individual listed in Plaintiffs' Initial Disclosures under Rule 26 of the Federal Rules of Civil Procedure served on September 27, 2006, Exhibit A, listed under each enumerated topic as follows:

- Item 3, New Jersey Department of Environmental Protection;
- Item 4, New Jersey Department of Transportation;
- Item 5, United States Environmental Protection Agency;
- Item 6, United States Fish & Wildlife Services;
- Item 7, United States Army Corps of Engineers; and
- Item 8, National Oceanic and Atmospheric Administration.

Maxus and Tierra also reserve the right to identify any individuals disclosed in responses to interrogatories or disclosures by the Plaintiffs, other defendants or third-party defendants.

II. Description of Documents and Data Compilations

Maxus and Tierra have filed counterclaims, cross-claims, and third-party claims in this action. Discovery on the allegations in these filings has yet to commence; therefore, Maxus and Tierra reserve the right to modify these Amended Initial Disclosures based on facts developed during discovery related to these claims. Based on their review of the Second Amended Complaint, Maxus and Tierra have located certain documents in their possession, custody or

control regarding potential defenses to the claims asserted in this action. As noted above, there is a great deal of ambiguity surrounding Plaintiffs' damages and claims; therefore, potential defenses have not been fully identified. Maxus and Tierra reserve the right to supplement, correct or amend these disclosures.

The documents Maxus and Tierra may use to support its claims and defenses in this litigation include those that fall in one or more of the categories listed below. Maxus and Tierra reserve the right to supplement this disclosure in the event that non-duplicative documents are located in the possession or control of consultants engaged by Maxus and/or Tierra related to the claims at issue in this litigation.

Documents by Category:	Location:
<p>Documents containing information relating to the environmental conditions in the Passaic River, the Lower Passaic River Study Area, the Newark Bay Study Area, the Newark Bay Complex, the Diamond Alkali Superfund Site, the property at 80 and 120 Lister Avenue or related areas.</p> <p>This category of documents may include, but is not limited to, analytical data, reports, correspondence, notes, articles, data sheets, corporate documents, court papers and filings, administrative agency documents or materials, news articles, academic literature, memoranda, invoices, financial data, and other types of materials.</p>	<p>Tierra Solutions, Inc. <p>Electronic data and files related to the above-listed categories.</p>	<p>Maxus and Tierra are in the process of identifying and locating responsive electronically stored information (ESI). All parties will be discussing a formal ESI Plan that will more specifically address the preservation and production format for responsive ESI. In as much as this process is ongoing, these disclosures will be supplemented as more evidence is located and Maxus and Tierra will work together with Plaintiffs and other defendants in developing same.</p>

III. Computation of Damages

Maxus and Tierra have incurred cleanup and removal costs in connection with various orders and/or regulatory agreements relating to the Newark Bay Complex including:

- Administrative Order on Consent; In the Matter of the Diamond Alkali Superfund Site (Passaic River Study Area), dated April 20, 1994;
- Administrative Order on Consent for Remedial Investigation and Feasibility Study; In the Matter of the Diamond Alkali Superfund Site (Newark Bay Study Area), dated February 13, 2004;
- Agreement; In the Matter of the Lower Passaic River Study Area Portion of the Diamond Alkali Superfund Site, dated April 6, 2004;
- Administrative Settlement Agreement and Order on Consent for Remedial Investigation/Feasibility Study; In the Matter of the Lower Passaic River Study Area Portion of the Diamond Alkali Superfund Site, dated May 8, 2007;
- Administrative Settlement Agreement and Order on Consent for Removal Action; In the Matter of the Lower Passaic River Study Area of the Diamond Alkali Superfund Site, dated June 19, 2008; and
- Interim Cooperative Assessment Funding Agreement for the Diamond Alkali Superfund Site, New Jersey (2008).

Maxus and Tierra are in the process of bringing the tabulation of the cleanup and removal costs incurred in connection with these orders and agreements up-to-date, but the cleanup and removal costs incurred by Maxus and Tierra exceed \$50 million to date. Further, Maxus and Tierra will seek the recovery of future costs that they will incur, including, but not limited to, the approximately \$80 million in future cleanup and removal costs that Tierra has already committed to incurring in connection with the latter two agreements listed above. In addition, Maxus and Tierra have incurred recoverable attorneys' fees and expenses, which are presently being tabulated. Maxus and Tierra reserve their right to amend and/or supplement this disclosure after analysis of their costs is complete.

In addition to the cleanup and removal costs described above, Maxus and Tierra seek, by way of their counterclaim, cross-claim, and third-party claims, an equitable share of any cleanup and removal costs, damages or other form of monetary relief, if any, for which Maxus and/or Tierra may be found liable in this lawsuit. Maxus and Tierra also reserve their right to amend this disclosure should the scope of the claims in this litigation change or additional recoverable costs be identified.

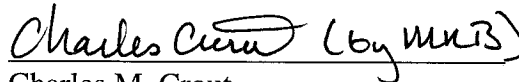

IV. Insurance Agreements

Maxus and Tierra do not believe that there is any insurance coverage available to satisfy any environmental claims in Plaintiffs' Second Amended Complaint or breach of contract action in Occidental's cross-claim. In the event such coverage is discovered to exist at a later point in time, Maxus and Tierra will supplement this disclosure as required under the rules.

V. Supplementation

Maxus's and Tierra's Amended Initial Disclosures are made without prejudice to their right to change or supplement their responses, their right to assert privileges or objections with respect to any subsequent requests for discovery, and their right to introduce at trial additional evidence and documents as warranted by the development of the facts underlying this litigation.

Respectfully Submitted,

 (by MMR)

Charles M. Crout
