Diamond Alkali Company
80 Lister Avenue
Newark 5 New Jersey

Gentlemen:

On behalf of Passaic Valley Sewerage Commissioners I am responding to your letter of July 22, 1956 regarding visits of our inspectors.

We agree with you that our men should abide by rules governing the operation of your plant, however, we will expect that you permit such access and inspection as may be necessary in order to determine the matter of your pollution of the Passaic River.

Our inspection reports disclose now that you are violating the law respecting such pollution. Accordingly we are serving upon you herewith notice pursuant to the pertinent provisions of the statute.

Very truly yours,

Louis Auerbacher, Jr.,
Counsel.
