Reservations and Comments

1. Respondent reserves the right to object to the production of any documents or other information on any ground, including relevance and undue burden, and to assert any applicable privilege, including the attorney-client privilege, the work product doctrine, the common interest doctrine, confidentiality, trade secret, State and Federal Homeland Security confidentiality and any other applicable protection. These disclosures are not intended to prejudice or waive any privileges or objections Respondent may have with respect to any outstanding or subsequent requests for discovery.

2. Respondent’s investigation in this matter is continuing. Accordingly, it reserves the right to supplement, clarify, and revise these disclosures any time prior to trial to the extent additional information becomes available or is obtained through discovery. Further, Respondent reserves the right to amend these disclosures to the extent the claims brought by or alleged against Respondent in this litigation are amended.

3. Respondent reserves its right to rely on any facts, documents or other evidence that may develop or come to Respondent’s attention during the course of this matter. Respondent’s responses are set forth herein without prejudice to its right to assert additional objections or supplement its responses should Respondent discover additional grounds for doing so during the course of this matter.

CMO XII paragraph 21(c) unless otherwise noted. With respect to Amended Production Requirements as to CMO XII, paragraph 21(b), reference is made to information previously furnished by the JDG in connection with CMO V, paragraph 8.
