Dear Mr. Miller:

Jim Trapp and Matt Mitchell of your staff presented a seminar to our engineering staff on August 29, 2001. I am writing to say thank you and to let you know that Jim and Matt shared with us an excellent summary of the process being used by the NRC in categorizing the significance of events and inspection findings. Their first hand knowledge of experience to date was especially beneficial. The material presented was well organized and thorough.

I would certainly recommend their presentation to other stakeholders.

Regards,
