

New Jersey Department of Environmental Protection

SCHOOL RADON TESTING PROGRAM

Radon-Related Resources for Teachers

"Radon Alert" lesson plans

These are interdisciplinary lesson plans developed by national experts available from the New Jersey Department of Environmental Protection (DEP) Radon Website at www.njradon.org, under Radon Alert Lesson Plans.

Radon informational materials

The following can be ordered by teachers from the DEP Radon Section (one per classroom). Check the items you would like to receive:

- DEP Poster- 11" x 17" - Small poster with brief message about the importance of testing for radon.
- "Learning About Radon" - Colorful booklet (8 1/2 x 11") for grades 4-6 describing children in a native American setting testing for radon.
- "New Jersey Radon Potential Map - 8 1/2" x 11" - Shows the distribution of radon levels found in testing of homes in New Jersey.
- "Radon: Information You Should Know" – Brochure with basic information on radon.

To order, return this form with your name, phone number, and mailing address to: DEP Radon Section, PO Box 415, Trenton, NJ 08625, Attn: Outreach

In addition, materials for high school students can be obtained on the Internet at www.epa.gov/radiation/students/

Outreach projects

Schools or classes can assist in radon outreach by:

- Setting up a radon display within the school.
- Distributing radon information at school functions.
- Undertaking a survey of parents or neighbors about whether homes have been tested.

To obtain further information about radon, contact the DEP Radon Section at (800)648-0394, or access the DEP Radon Website at www.njradon.org.
