SUBSCRIBING TO WATER MONITORING & STANDARDS E-MAIL LISTS

Water Monitoring and Standards offers nine e-mail "mailing lists" (Listservs) to the public. These lists allow us to quickly notify subscribers of important news, events, rule changes or other matters related to water monitoring, water quality standards, and water quality assessment. You may subscribe to as many of the lists below as you choose. There is no fee to subscribe and you may "unsubscribe" at any time.

To subscribe, select the topic(s) below that interest you, enter your e-mail address in the box, and click the "Submit" button. (Please see the "Privacy Notice" for State policy on submitted information.)

Be sure to add WMSLISTS@dep.state.nj.us as a "safe" email address so that your Listserv subscription can be delivered to your email address without being blocked as computer "spam".

Select the Listserv subscription(s) you would like to receive:

- Surface Water Quality Standards rules (N.J.A.C. 7:9B):
- Ground Water Quality Standard rules (N.J.A.C. 7:9C)
- Shellfish Classifications
- Water Quality Assessment and 303(d) List
- Release of Ambient Water Quality Monitoring Reports
- NJ's Water Quality Data Exchange System
- Beach Monitoring
- Local/Volunteer Monitoring
- World Water Monitoring Day

Please enter your e-mail address below and click the "Submit" button to subscribe to the selected Listserv(s):

Information on how to "unsubscribe" will be included in all messages you receive; the Unsubscribe page may also be used.
