The New Jersey Department of Environmental Protection, in cooperation with the Rutgers EcoComplex, the Watershed Watch Network Advisory Council and the NJ Water Monitoring Council will be hosting the 7th annual Water Monitoring and Education Summit on November 18 and 19, 2009 in Bordentown, NJ.

This year's Summit has been expanded to include all water monitoring activities throughout the state, and will showcase projects, protocols and tools that have been developed to complement both local and state planning efforts as well as sustainable management practices. The Summit will cover topics applicable to watershed education, school based monitoring efforts, and monitoring of all water body types. It provides a forum for all volunteers, private and public partners, watershed association staff, watershed educators, academics, government staff and other environmental stakeholders to come together and share their efforts.
