Dear Stakeholder,

On June 10, 2010, the New Jersey Department of Environmental Protection is convening a stakeholder meeting to provide direction in the implementation of The "Electronic Waste Management Act" P.L. 2008, c.130. The purpose of this meeting is to review the Department's expectations regarding compliance with statutory obligations under the Act. Additionally, during this interim period pending proposal and adoption of regulations to implement the Act, the Department has developed the "Guidance on Complying with New Jersey's Electronic Waste Act" document that we want to share with our stakeholders. This document available at www.nj.gov/dep/dshw/recycling, provides a discussion on Collection Plan requirements in addition to explaining the Department's calculation of market share for television manufacturers and return share for covered electronic device manufacturers. Finally, the Department is seeking input on the development of program regulations.

Please join us on Thursday, June 10, 2010 from 9:00 to 12:00 PM.

Meeting location: Rutgers EcoComplex
