DIVISION OF WATERSHED PROTECTION AND RESTORATION

Adopted Amendment to the Tri-County Water Quality Management Plan

Take notice that on August 30, 2023, pursuant to the provisions of the New Jersey Water Quality Planning Act, N.J.S.A. 58:11-1 et seq., and the Water Quality Management Planning rules, N.J.A.C. 7:15, the New Jersey Department of Environmental Protection (Department) adopted an amendment to the Tri-County Water Quality Management (WQM) Plan. The amendment, identified as “KOA - East Greenwich” (Program Interest No. 435433, Activity No. AMD210008) expands the sewer service area (SSA) of the Gloucester County Utilities Authority Sewage Treatment Plant (STP) (NJPDES No. NJ0024686) by 10 acres to serve 86 campsites (69 sites for RV, 2 for tents, and 15 for RV/Cabin) and a 1,800 SF restroom/shower and self-service laundry building located on a portion of Block 204, Lot 19.02, in East Greenwich Township, Gloucester County. The proposed project is an expansion of an existing campground located on the adjacent Lot 24 that is already in the approved SSA. In addition, this amendment has made a mapping change to Lot 24, as the approved SSA mapping did not line up with parcel boundaries as intended. The project will generate a projected wastewater flow of 12,420 gallons per day (gpd) based on flow calculated in accordance with N.J.A.C. 7:14A-23.3.

Preliminary notice was published in the New Jersey Register on May 1, 2023, at 55 N.J.R. 974(a). No comments were received during the comment period. This notice represents the Department's determination that the amendment is compliant with the regulatory criteria at N.J.A.C. 7:15 as described below.

In accordance with N.J.A.C. 7:15-3.5(g)6, the Department instructed the applicant to request written statements of consent from East Greenwich Township, the Delaware Valley Regional Planning Commission (DVRPC), Gloucester County Utilities Authority (GCUA) and Gloucester County Commissioners. East Greenwich adopted Resolution 73-2023 on April 25, 2023, consenting to the amendment. The Gloucester County Board of County Commissioners, adopted a resolution on May 10, 2023, consenting to the amendment. In an email on May 4, 2023, DVRPC stated they do not issue consents. GCUA adopted Resolution 2023-106 on August 9, 2023, consenting to the amendment.

In accordance with N.J.A.C. 7:15-3.3(b), site specific amendments are limited to proposed alterations to the eligible SSA needed to address a specific project or activity. N.J.A.C. 7:15-3.5(j)2 requires that site specific amendments proposing to add 100 or more acres or generating 20,000 gpd or more of wastewater flow shall include a proposed modification to the wastewater treatment capacity analysis prepared in accordance with N.J.A.C. 7:15-4.5(b) to include the proposed project or activity. The proposed project involves less than 100 acres and will generate less than 20,000 gpd of wastewater flow; therefore, update of the wastewater treatment capacity analysis is not required.

Pursuant to N.J.A.C. 7:15-4.4(d), the following are not eligible for delineation as SSA, except as otherwise provided at N.J.A.C. 7:15-4.4(i), (j), (k), and (l): environmentally sensitive areas (ESAs) identified pursuant to N.J.A.C. 7:15-4.4(e), as any contiguous area of 25 acres or larger consisting of any of the following, alone, or in combination: endangered or threatened wildlife species habitat, Natural Heritage Priority Sites, riparian zones of Category One (C1) waters and their tributaries, or wetlands; coastal planning areas identified at N.J.A.C. 7:15-4.4(f), and; ESAs subject to 201 Facilities Plan grant conditions pursuant to N.J.A.C. 7:15-4.4(g). The Department conducted an evaluation of the project site using a GIS shapefile provided by the applicant compared to the Department's GIS data layers available at <https://gisdata-njdep.opendata.arcgis.com> and/or other information as noted below, to determine the presence of any such areas in accordance with N.J.A.C. 7:15-4.4(e), (f) and (g) and made the following findings:

- The Department determined that the expanded SSA does not contain any areas mapped as endangered or threatened wildlife species habitat Rank 3, 4, or 5 on the Department's Landscape Maps of Habitat for Endangered, Threatened or Other Priority Wildlife based on the "Landscape Project Data" Version 3.3 GIS data layers, in accordance with N.J.A.C. 7:15-4.4(e)1.
- The Department determined that the expanded SSA does not contain any areas mapped as Natural Heritage Priority Sites based on the "Natural Heritage Priority Sites" GIS data layer, in accordance with N.J.A.C. 7:15-4.4(e)2.

- The Department determined that the expanded SSA does not contain any C1 waters or 300-foot riparian zones along any C1 waters or upstream tributaries within the same HUC-14 watershed of any C1 waters based on the “Surface Water Quality Standards” GIS data layer, in accordance with N.J.A.C. 7:13-4.1(c)1 and 7:15-4.4(e)3.
- The Department determined that there are wetlands located on the project site based on the “Wetlands 2012” GIS data layer in accordance with N.J.A.C. 7:15-4.4(e)4; however, pursuant to N.J.A.C. 7:15-4.4(j)3, the applicant provided a Freshwater Wetlands Letter of Interpretation (LOI)/Line Verification File #0803-17-0002.2 FWW180001 confirming that there are no wetlands within the expanded sewer service area.
- The Department determined that the expanded SSA does not contain any areas mapped as Fringe Planning Areas, Rural Planning Areas, or Environmentally Sensitive Planning Areas within the Coastal Area Facility Review Act (CAFRA) zone based on the “CAFRA (polygon)” GIS layer and the “State Plan Data” GIS layer, in accordance with N.J.A.C. 7:15-4.4(f).
- The Department determined that there are no 201 Facilities Plan grant conditions applicable to the project based on the U.S. Environmental Protection Agency (USEPA) list of New Jersey Grantees with ESA Grant Conditions at <https://www.epa.gov/npdes-permits/environmentally-sensitive-area-esa-grant-condition-waiver-program-region-2>, in accordance with N.J.A.C. 7:15-4.4(g).

Pursuant to N.J.A.C. 7:15-4.4(h)1 and 2, the Department considered the land uses allowed in adopted zoning ordinances, future land uses shown in adopted municipal and county master plans, and other local land use objectives. In a letter dated January 13, 2022, the Gloucester

County Planning Department stated the project is consistent with the Gloucester County Development Management Plan's Goal Statements. The East Greenwich zoning office confirmed in an email on September 6, 2022, that the campground is in a RRC zone and is a non-conforming, pre-existing use in that zone and can continue as such.

Sewer service is not guaranteed by the adoption of this amendment since it represents only one part of the permit process and other issues may need to be addressed. Inclusion in the SSA as a result of the approval of this amendment does not eliminate the need to obtain all necessary permits, approvals or certifications required by any Federal, State, county or municipal review agency with jurisdiction over this project/activity.
