## *Balance Sheet as of 12/31/2023 or Close of Business*

### **Balance Sheet Instructions**

Use the following pages to collect the financial information that will be entered into the online application as part of your balance sheet. *When entering data into the online application, please remember these important points:*

- Financial statements can be consolidated for the entire company... they do not have to be New Jersey specific.
- Round all amounts to the nearest whole US dollar, and do not enter any commas or periods.
- The assets section of the balance sheet contains an “Other Assets” line. If you do not see an appropriate entry for an account on the assets screen, clicking the “Other Assets” link will display a new screen that allows you to enter the description and amount for any account not described on the assets page. The total calculated on the “Other Assets” page will be automatically included on the assets page at the “Other Assets” line. These worksheets are organized in a similar fashion.
- The liabilities section of the balance sheet contains an “Other Liabilities” line. If you do not see an appropriate entry for an account on the liabilities screen, clicking the “Other Liabilities” link will display a new screen that allows you to enter the description and amount for any account not described on the liabilities page. The total calculated on the “Other Liabilities” page will be automatically included on the liabilities page at the “Other Liabilities” line. These worksheets are organized in a similar fashion.
- When entering “Other Assets” or “Other Liabilities”, you may organize and combine similar accounts to correspond with your personal accounting needs.
- The stockholders’ equity section of the balance sheet contains an “Other Stockholders’ Equity” line. If you do not see an appropriate entry for certain accounts on the stockholders’ equity screen, add those accounts and enter the total amount on the “Other Stockholders’ Equity” line. There is no need to provide detailed descriptions for those entries.
- The online application does not currently provide a facility for entering contra-accounts or other negative amounts into the balance sheet. Instead, you must net any accounts that have a corresponding contra-account, and enter only the net amount into the balance sheet.

*Example: If Total Fixed Assets is \$100,000, and Total Accumulated Depreciation is (\$10,000), enter \$90,000 as the Total Net Fixed Assets.*

- Your Total Assets must equal your Total Liabilities plus your Total Stockholders’ Equity. ***The online application will not allow you to submit your annual report if your balance sheet does not balance!***

The online application will ask for detailed information concerning each surety bond in effect as of December 31, 2023. The Surety Bond Detailed Information page of this worksheet is provided to assist you in compiling that information.

Once the detailed surety bond information has been entered, the online application will automatically perform the necessary calculations to verify that the requirement has been satisfied. The following chart is provided so you can compare the expected results.

2	Total Amount of Surety Bond Coverage <i>(Add all amounts of coverage reported on any Surety Bond Detail pages.)</i>	
3	Required Surety Bond Coverage Amount from the table above <i>(Based on the entry in line 1.)</i>	

The Total Amount of Coverage (line 2) must be sufficient to meet your Surety Bond Requirement (line 3).

**NOTE:** If your current coverage is deficient, provide original documentation to the Department within 30 days of filing this annual report evidencing that the required coverage has been obtained. Please send this information to the address at the bottom of the cover page.
