

Delaware River Recreation Maps

10 Maps That Identify:

- > Public access areas
- > ICF/AWA designated stream flow characteristics
- > Channel locations and depths
- > Stream mileages and reference points
- > Recreation opportunities on the Delaware River including the East Branch Delaware River, West Branch Delaware River, and the main stem from Hancock, New York to Philadelphia, Pennsylvania and Camden, New Jersey

How to Use These Maps

Each of these full-color waterproof maps provides an overview of a particular reach of the river. Noted are areas of caution, dams, and access locations.

The ICF/AWA International Scale of River Difficulty

Portions of the Delaware River covered by this 10-map series were initially evaluated in accordance with the International Canoe Federation/American Whitewater Affiliation (ICF/AWA) International Scale of River Difficulty during the spring, summer, and fall of 1978. These classifications were field checked during the summers of 2004 and 2005. The classifications are believed to represent average river flows at summer temperatures.

ORDER FORM

Use this form to order map sets. This form can be used to order both Delaware & Schuylkill River Map Sets.

Mail the completed form with your check to:

Delaware River Basin Commission, PO Box 7360, West Trenton, NJ 08628-0360
