Introduction
The mission of the New Jersey Department of Education (NJDOE) is to ensure that all students, regardless of birth circumstance, graduate from high school ready for college and career. Charter schools play a critical role in meeting the mission of the NJDOE and we are committed to providing New Jersey families, particularly those in high-need communities, with quality schools. This Request for Applications (RFA) calls for applications to start charter schools that are likely to achieve strong educational outcomes. Through charter schools, we expect to provide families with educational options of many different shapes and sizes but with one thing in common: quality education.

For this expedited October round, we are looking to receive well-developed applications from founders with demonstrable experience who have the ability, capacity and track record of providing a high-quality education.

This application packet will guide you through the steps of developing a charter school application. Each section requests information about a specific aspect of your plan that will allow reviewers to understand and determine the overall capacity of the founding team to open and operate a quality charter school.

Characteristics of a successful application include but are not limited to:
- A clear, focused, results-oriented mission statement that aligns with all parts of the application;
- Demonstrated success with the student population that the school is likely to serve;
- Precise description of the elements of the proposed school that will be innovative and effective for the intended student population;
- An educational program that has proven to be effective for the student population;
- Strong and diverse leadership with demonstrable experience leading successful charter schools; and
- Strong financial planning and management.
