Audubon High School started in 1926 and has developed into a junior-senior high school with grades seven through twelve. The student body consists of students from Audubon, Audubon Park and Mt. Ephraim. A recently completed bond project has resulted in the addition of four state-of-the-art science labs and a new band practice facility and refurbished auditorium. These improvements highlight the areas of science instruction and arts education which are points of strength and pride with the district. Additionally, a second gymnasium and fitness facility were completed and fully air-conditioned.
