Honorable President and
Members of the Board of Education
Pine Hill Board of Education
County of Camden, New Jersey

Dear Board Members:

The comprehensive annual financial report of the Pine Hill School District for the fiscal year ending June 30, 2008, is hereby submitted. Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the management of the Pine Hill Board of Education. To the best of our knowledge and belief, the data presented in this report is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds of the Pine Hill School District. All disclosures necessary to enable the reader to obtain an understanding of the Pine Hill School District's financial activities have been included.

The comprehensive annual financial report is presented in four sections: Introductory, Financial, Statistical and Single Audit. The Introductory Section includes this transmittal letter, the Pine Hill School District's organizational chart and a list of principal officials. The Financial Section includes the Management's Discussion and Analysis, the basic financial statements and schedules, the Notes to the Financial Statements as well as the Auditor's Report thereon. The Statistical Section includes selected financial and demographic information, generally presented on a multi-year basis. The Pine Hill School District is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act of 1984 and the U.S. Office of Management and Budget Circular A-133, "Audits of State and Local Governments and Nonprofit Organizations," and the state Treasury Circular Letter 04-04 OMB, "Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid Payments." Information related to this single audit, including the auditor's report on the internal control structure and compliance with applicable laws and regulations and findings and recommendations, are included in the single audit section of this report.

- 1.) **REPORTING ENTITY AND ITS SERVICES:** The Pine Hill School District is an independent reporting entity within the criteria adopted by the GASB as established by NCGA Statement No. 3. All funds of the Pine Hill School District are included in this report. The Pine Hill Board of Education and all its schools constitute the Pine Hill School District's reporting entity.

The Pine Hill School District provides a full range of educational services appropriate to grade levels preschool through 12. We are in a send/receive relationship with Berlin Township and Clementon for their students in grades 9 to 12.

The classrooms are primarily self-contained, and the pupils are grouped heterogeneously. A portion of each day is spent in Basic Skills instruction in the areas of Reading, Math and Written Language. In addition, pupils are offered programs in Art, Music (Instrumental and Vocal), programs for Gifted and Talented pupils, Physical Education/Health, Reading (Language Arts), Science, Social Studies, World Language and Technology. Efforts are made by the district to identify and provide individual educational plans for pupils who are learning disabled, either in self-contained classrooms, resource centers, or in-class support.

In addition to the variety of instructional programs available to students in Pine Hill, other services are provided. All four schools enjoy the services of a full-time school nurse. All children receive annual medical examinations by the school physician. The nurses also conduct annual vision screening in grades two, six and ten. Seven guidance counselors service the needs of children at each school; the counselors also serve as members of the districts' Child Study Teams.

The district's structure is as follows:

Elementary Schools	Pre-K through fifth grade
Middle School	Sixth grade through eighth grade
High School	Ninth grade through twelfth grade

The Pine Hill School District completed the 2007-2008 fiscal year with an in-district enrollment of 2,118 students. As of June 30, 2008, 62 special education students attended outside placements, and 26 students were out on homebound instruction. The following details the changes in the student enrollment of the Pine Hill School District over the last five years:

AVERAGE DAILY ENROLLMENT		
<u>FISCAL YEAR</u>	<u>STUDENT ENROLLMENT</u>	<u>PERCENT CHANGE</u>
2003-2004	2,249.6	1.49%
2004-2005	2,236.0	(0.60%)
2005-2006	2,193.7	(1.90%)
2006-2007	2,172.7	(.96%)
2007-2008	2,149.4	(1.08)

The Pine Hill Community Education Program makes the district facilities available to the community in a variety of ways, year-round. Community Education courses for adults (which include computer instruction for senior citizens) and children are offered to the community after school hours. Community organizations have the use of the buildings in the evenings for their meetings, practices, activities, etc.

During the summer months, these same courses are offered, as well as an academic summer enrichment program and summer recreation program. In addition, Art and Music is infused into the summer curriculum. Both art and music instructors coordinated lessons with the classroom teachers that coincided with the themes of the program.

The program was altered this year to better meet the needs of our students. In previous years, we offered a separate eighth grade transition program. This program was for students moving from the eighth grade to the ninth grade. However, a look at our eighth grade retention rate required us to take this program in a different direction. The program became a more traditional summer school program where students in jeopardy of being retained could take the program to move on to ninth grade. It would no longer be under the umbrella of the Summer Enrichment Program, but run through a different office completely.

The Summer Enrichment Program continued servicing grades one through seven. Grade one through seventh grade classes were held in our middle school, thus giving our elementary students an opportunity to get acquainted with the middle school facilities. This enables them to become more familiar with the building for when they actually attend the middle school. The building is air-conditioned which lends itself to a more comfortable learning environment.

In grades one through seven, the curriculum focused on math, reading, writing, social studies and computer skills through a curriculum designed around each individual grade level. First grades studied ocean animals; second grade, fairy tales; third grade, animals; fourth grade, weather; fifth grade, rain forests and finally sixth and seventh grades, world cultures. During classes, you could find the students videoconferencing about extreme weather conditions, drawing animals whose colors aid their survival or surfing the Internet to locate the layers of the rainforest.

Taking advantage of the district's technology, the students had live two-way video-conferences with the Cape May Zoo, the Camden Children's Garden (rainforests) and the Mote Marine Laboratory (ocean life). Utilizing these locations, the third grade students learned how animals protected themselves from other predators using defense mechanisms such as color, sounds and smell. Fifth graders learned about the layers and animals of the rainforest and the first grades learned about manatees and sharks.

In an effort to better serve our students identified as Title I students, transportation was offered as part of the summer enrichment program. Having transportation afforded the district a chance to transport students from our neighboring sending districts, Berlin Township and Clementon. This practice pays dividends academically to all of our students who move on from elementary, middle and high school.

- 2.) **ECONOMIC CONDITION AND OUTLOOK:** The following are factors that affect our economic conditions and outlook. Our district's goals are to continue to align the curriculum with the New Jersey State Standards while implementing an assessment system that is data driven and aligned with the New Jersey State Assessments. Additionally, we look to provide our staff with the resources and professional development opportunities necessary to develop and obtain mastery of their content area, a thorough understanding of best practices, and knowledge of applied technology.

The barriers to developing a budget to meet the district's initiatives and priorities mentioned above are the fact that many of the district's expenditures are beyond our control (electricity, aging facilities, state mandates and an unsettled teachers' contract). These, combined with the fact that the 2007-2008 school year was affected by a tuition increase of \$2,500.00 per student, by the local technical school. This increase cost the residents of Pine Hill an additional \$100,000.00 per year.

In conclusion, the Board of Education will continue to ensure that the budget is utilized to provide the children of Pine Hill the best possible education.

- 3.) **MAJOR INITIATIVES:** The district is seeking to expand the world language program at the high school. Additionally, two department supervisors have been added at the high school and middle school levels to ensure curriculum articulation. At the elementary level, the following new positions are included in the budget:

1. Three grade level teachers
2. Two para-professionals
3. Part-time guidance counselor
4. New Special Education Multiple Disabled Class

Our ultimate goal is to continue to improve the educational learning environment for our students.

- 4.) **INTERNAL ACCOUNTING CONTROLS:** Management of the Pine Hill School District is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the Pine Hill School District are protected from loss, theft or misuse and to ensure statements in conformity with generally accepted accounting principles (GAAP). The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

As a recipient of federal and state financial assistance, the Pine Hill School District also is responsible for ensuring that an adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control structure is also subject to periodic evaluation by the Pine Hill School District management.

As part of the Pine Hill School District's single audit described earlier, tests are made to determine the adequacy of the internal control structure, including that portion related to federal and state financial assistance programs, as well as to determine that the Pine Hill School District has complied with applicable laws and regulations.

- 5.) **BUDGETARY CONTROLS:** In addition to internal accounting controls, the Pine Hill School District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the voters of the municipality. Annual appropriated budgets are adopted for the general fund, the special revenue fund, and the debt service fund. Project-length budgets are approved for the capital improvements accounted for in the capital projects fund. The final budget amount as amended for the fiscal year is reflected in the financial section.

An encumbrance accounting system is used to record outstanding purchase commitments on a line item basis. Open encumbrances at year-end are either canceled or are included as reappropriations of fund balance in the subsequent year. Those amounts to be reappropriated are reported as reservations of fund balance at June 30, 2008.

- 6.) **ACCOUNTING SYSTEM AND REPORT:** The Pine Hill School District's accounting records reflect generally accepted accounting principles, as promulgated by the Governmental Accounting Standards Board (GASB). The accounting system of the Pine Hill School District is organized on the basis of funds. These funds are explained in "Notes to the Financial Statements," Note 1.

- 7.) **FINANCIAL INFORMATION AT FISCAL YEAR END:** As demonstrated by the various statements and schedules included in the financial section of this report, the Pine Hill School District continues to meet its responsibility for sound financial management.

- 8.) **DEBT ADMINISTRATION:** As of June 30, 2008, the Pine Hill School District had an outstanding bonded debt of \$13,410,000.00.

- 9.) **CASH MANAGEMENT:** The investment policy of the Pine Hill School District is guided in large part by state statute as detailed in "Notes to the Financial Statements," Note 2. The Pine Hill School District has adopted a cash management plan, which requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act ("GUDPA"). GUDPA was enacted in 1970 to protect Governmental Units from a loss of funds on deposit with a failed banking institution in New Jersey. The law requires governmental units to deposit public funds only in public depositories located in New Jersey, where the funds are secured in accordance with the Act.

- 10.) **RISK MANAGEMENT:** The Board carries various forms of insurance, including but not limited to general liability, automobile liability and comprehensive/collision, hazard and theft insurance on property and contents, and student accident insurance.

11.) **OTHER INFORMATION:**

Independent Audit - State statutes require an annual audit by independent certified public accountants or registered municipal accountants. The accounting firm of Ford, Scott & Associates, was selected by the Board of Education. In addition to meeting the requirements set forth in state statutes, the audit also was designed to meet the requirements of the Single Audit Act of 1984 and the related OMB Circular A-133 and state Treasury Circular Letter 04-04 OMB. The auditor's report on the financial statements is included in the financial section of this report. The auditor's reports related specifically to the single audit are included in the single audit section of this report.

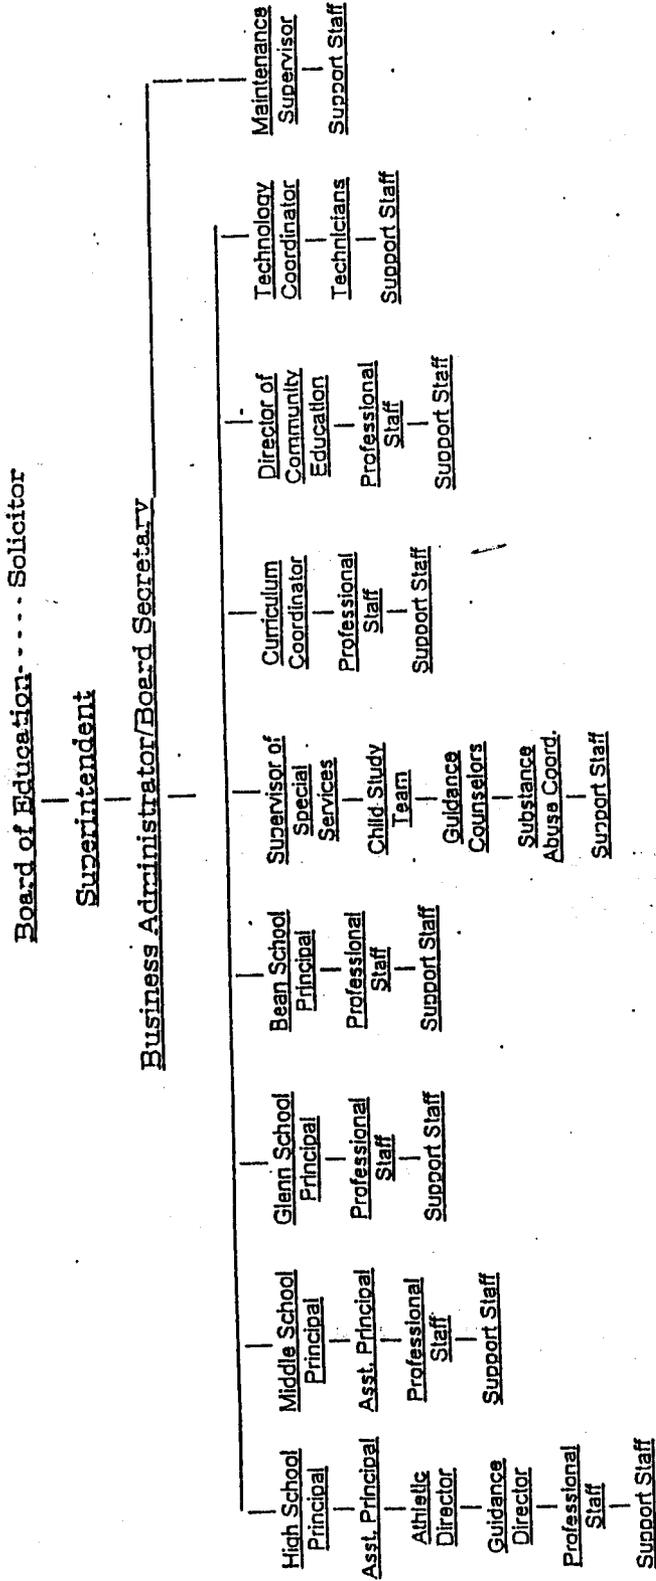

12.) **ACKNOWLEDGMENTS:** We would like to express our appreciation to the members of the Pine Hill School Board for their concern in providing fiscal accountability to the citizens and taxpayers of the school district and thereby contributing their full support to the development and maintenance of our financial operation. The preparation of this report could not have been accomplished without the efficient and dedicated services of our financial and accounting staff.

Respectfully submitted,

INDEPENDENT AUDITOR'S REPORT

The Honorable President and
Members of the Board of Education
Pine Hill School District
County of Camden, New Jersey

We have audited the accompanying financial statements of the governmental activities, the business-type activities and each major fund and the aggregate remaining fund information of the Board of Education of the Pine Hill School District, in the County of Camden, State of New Jersey, as of and for the year ended June 30, 2008, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Pine Hill Board of Education's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and audit requirements as prescribed by the Division of Finance, Department of Education, State of New Jersey. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of the Pine Hill Board of Education, in the County of Camden, State of New Jersey, as of June 30, 2008, and the respective changes in financial position and cash flows, where applicable, for the year then ended in conformity with accounting principles generally accepted in the United States of America.

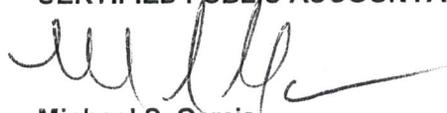

In accordance with *Government Auditing Standards*, we have also issued our report dated October 15, 2008 on our consideration of the Pine Hill Board of Education's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of our audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The Management Discussion and Analysis and Budgetary Comparison Information, as listed in the accompanying table of contents, are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was performed for the purpose of forming opinions on the financial statements that collectively comprise the Pine Hill Board of Education's basic financial statements. The accompanying introductory section, and other supplementary information such as the combining fund financial statements, long-term debt schedules and statistical information are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual fund financial statements and long-term debt schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated, in all material respects, in relation to the basic financial statements taken as a whole. The introductory section and statistical information have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

The accompanying schedules of federal awards and state financial assistance are presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*; and New Jersey OMB's Circular 04-04, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid*, and are not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

Required Supplementary Information – Part I

**PINE HILL SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2008
UNAUDITED**

The discussion and analysis of The Pine Hill School District's financial performance provides an overall review of the School District's financial activities for the year ended June 30, 2008. The intent of this discussion and analysis is to look at the School District's financial performance as a whole; readers should also review the basic financial statements and notes to enhance their understanding of the School District's financial performance.

The Management's Discussion and Analysis (MD&A) is an element of Required Supplementary Information specified in the Governmental Accounting Standards Board's (GASB) Statement No. 34 - Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments issued in June 1999.

Financial Highlights

Key financial highlights for 2008 are as follows:

- In total, net assets increased \$944,342.15, which represents an 87 percent increase from 2007.
- General revenues accounted for \$31,019,503.36 in revenue or 87 percent of all revenues. Program specific revenues in the form of charges for services and operating grants and contributions accounted for \$4,343,397.45 or 13 percent of total revenues of \$35,362,900.81.
- Cash and cash equivalents decreased by \$85,814.78, receivables and inventory increased by \$70,610.15 and net capital assets decreased by \$661,788.56.
- The School District had \$34,399,154.89 in expenses; only \$4,343,397.45 of these expenses were offset by program specific charges for services, grants or contributions. General revenues (primarily taxes and state aid) of \$31,019,503.36 were adequate to provide for these programs.
- Among governmental funds, the General Fund had \$30,521,259.42 in revenues, \$30,350,727.35 in expenditures and transfers to other funds in the amount of \$1,351.00. The General Fund's fund balance increased \$169,181.07 over 2007. This increase was anticipated by the Board of Education.

Using this Comprehensive Annual Financial Report (CAFR)

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand The Pine Hill School District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

Using this Comprehensive Annual Financial Report (CAFR) (Continued)

The Statement of Net Assets and Statement of Activities provide information about the activities of the whole School district, presenting both an aggregate view of the School district's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the School district's most significant funds with all other non-major funds presented in total in one column. In the case of The Pine Hill School District, the General Fund is by far the most significant fund.

Reporting the School District as a Whole

Statement of Net Assets and the Statement of Activities

While this document contains the large number of funds used by the School District to provide programs and activities, the view of the School District, as a whole looks at all financial transactions and ask the question, "How did we do financially during 2008?" The Statement of Net Assets and the Statement of Activities answer this question. These statements include all assets and liabilities using the accrual basis of accounting similar to the accounting used by most private-sector businesses. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the School District's net assets and changes in those assets. This change in net assets is important because it tells the reader that, for the school district as a whole, the financial position of the School district have improved or diminished. The causes of this change may be the result of many factors, some financial and some not. Non-financial factors include the School District's property tax base, current laws in New Jersey restricting revenue growth, facility condition, required educational programs and other factors.

In the Statement of Net Assets and the Statement of Activities, the School District is divided into two distinct kinds of activities:

- Governmental Activities - All of the School District's programs and services are reported here including instruction, support services, operation and maintenance of plant facilities, pupil transportation and extracurricular activities.
- Business-Type Activity - This service is provided on a charge for goods or services basis to recover all the expenses of the goods or services provided. The Food Service and Community Education enterprise funds are reported as a business activity.

Reporting the School District's Most Significant Funds

Fund Financial Statements

Fund financial reports provide detailed information about the School District's funds. The School District uses many funds to account for a multitude of financial transactions. The School District's governmental funds are the General Fund, Special Revenue Fund, Capital Projects Fund, and Debt Service Fund.

Reporting the School District's Most Significant Funds (Continued)

Governmental Funds

The School District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in the future years. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the School district's general government operations and the basic services it provides. Governmental fund information helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Assets and the Statement of Activities) and governmental funds is reconciled in the financial statements.

Enterprise Fund

The enterprise fund uses the same basis of accounting as business-type activities; therefore, these statements are essentially the same.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the District-wide and fund financial statements.

The School District as a Whole

Recall that the Statement of Net Assets provides the perspective of the School District as a whole. Net assets may serve over time as a useful indicator of a government's financial position.

The District's financial position is the product of several financial transactions including the net results of activities, the acquisition and payment of debt, the acquisition and disposal of capital assets, and the depreciation of capital assets.

Governmental Activities

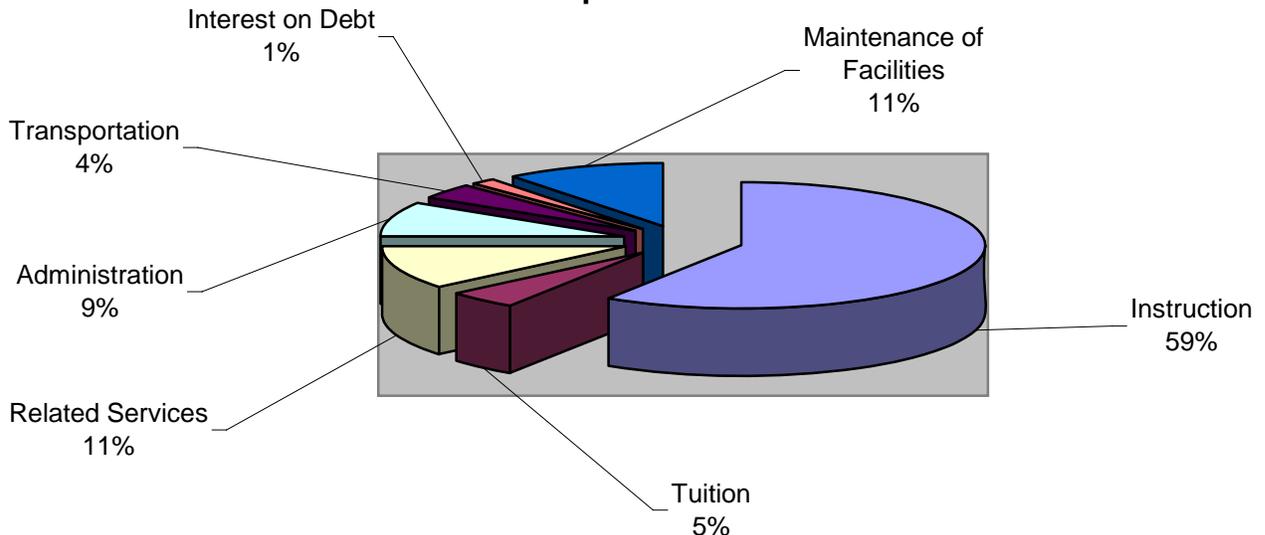

The unique nature of property taxes in New Jersey creates the legal requirements to annually seek voter approval for the School District operations. Property taxes made up 28 percent of revenues for governmental activities for the Pine Hill School District for year 2008. The District's total revenues were \$34,494,953.29 for the year ended June 30, 2008. Federal, state, and local grants accounted for another 57 percent of revenue.

Sources of Revenue for 2008

The total cost of all program and services was \$33,485,504.06. Instruction comprises 59 percent of District expenses.

Expenses for 2008

Business-Type Activities

Revenues for the District's business-type activities (food service program and the community education program) were comprised of charges for services and federal and state reimbursements.

- Food service expenses exceeded revenues by \$43,742.90 and community education program expenses exceeded revenues by \$609.41.
- Charges for food services represent \$383,182.80 of revenue. This represents amounts paid by patrons for daily food service. Charges for community education program represent \$30,455.34 of revenue. This represents amounts paid by patrons for community education.
- Federal and state reimbursement for meals, including payments for free and reduced lunches and breakfast, and donated commodities was \$454,309.38.

Governmental Activities

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting those services. Table 3 shows the total cost of services and the net cost of services. The net cost shows the financial burden that was placed on the District's taxpayers by each of these functions.

Instruction expenses include activities directly dealing with the teaching of pupils and the interaction between teacher and student, including extracurricular activities.

Tuition is predominately made up of charges for private schools for disabled students.

Related Services for Pupils and instructional staff includes the activities involved with assisting staff with the content and process of teaching to students, including curriculum and staff development.

General administration, school administration, and Central Services include expenses associated with administrative and financial supervision of the District.

Operation and maintenance of facilities involve keeping the school grounds, buildings, and equipment in an effective working condition.

Pupil transportation includes activities involved with the conveyance of students to and from school, as well as to and from school activities, as provided by State law.

Interest on debt involves the transactions associated with the payment of interest and other related charges to debt of the School District.

The School District's Funds

All governmental funds (i.e., general fund, special revenue fund capital projects fund and debt service fund presented in the fund-based statements) are accounted for using the modified accrual basis of accounting. Total revenues amounted to \$34,494,953.29, expenditures were \$34,368,792.10 and net transfers out were \$1,351.00. The net increase in fund balance for the year was \$124,810.19.

As demonstrated by the various statements and schedules included in the financial section of this report, the District continues to meet its responsibility for sound financial management. The following schedules present a summary of the revenues of the governmental funds for the year ended June 30, 2008, and the amount and percentage of increases and decreases in relation to prior year revenues.

Revenue	Amount	Percent of Total	Increase (Decrease) from 2008	Percent of Increase (Decrease)
Local Sources	\$ 15,062,538.12	43.67%	\$ (44,381.23)	-0.29%
State Sources	18,327,689.81	53.13%	1,205,407.19	7.04%
Federal Sources	1,104,725.36	3.20%	(137,337.94)	-11.06%
Total	<u>\$ 34,494,953.29</u>	100.00%	<u>\$ 1,023,688.02</u>	3.06%

Local revenues increased by \$1,023,688.02. The increase in local revenue was predominately due to the increase in taxes raised.

The increase of \$1,205,407.19 from state sources is predominately due to an increase in the on behalf TPAF Pension payments made by the State of New Jersey and the new state aid categories for the 2007 / 2008 School Year.

The following schedule represents a summary of general fund, special revenue fund, and debt service fund expenditures for the year ended June 30, 2008, and the percentage of increases and decreases in relation to prior year amounts:

Expenditures	Amount	Percent of Total	Increase (Decrease) from 2008	Percent of Increase (Decrease)
Current expense:				
Instruction	\$ 14,369,962.44	41.81%	\$ 541,023.82	3.91%
Undistributed expenditures	18,468,990.88	53.74%	348,662.02	1.92%
Capital Outlay	48,769.22	0.14%	14,291.65	41.45%
Debt Service	1,481,069.56	4.31%	19,344.08	1.32%
Total	<u>\$ 34,368,792.10</u>	100.00%	<u>\$ 923,321.57</u>	2.76%

The increases to Undistributed, Capital Outlay and Debt Service expenditures were insignificant. Instructional Expenditures increased predominately due to the required the terms of collective bargaining agreements. Undistributed expenditures increased primarily due to the increase in employee benefits for the 2007/2008 School Year.

General Fund Budgeting Highlights

The School District's budget is prepared according to New Jersey law, and is based on accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the General Fund.

Over the course of the year, the District revised the annual operating budget several times. Revisions in the budget were made to recognize revenues that were not anticipated and to prevent over-expenditures in specific line item accounts. Several of these revisions bear notation:

- Transfers were made to reflect the movement of teachers from one classification to another.
- Health Benefit costs increased at a rate lower than budgeted.

Capital Assets

At the end of the year 2008, the School District had \$13,846,797.05. invested in land, building, furniture and equipment, and vehicles. Table 4 shows year 2008 balances compared to 2007.

**Table 4

At June 30, 2008, the School District was within its legal debt margin. Please refer to Notes to the Financial Statements for more detailed information.

For the Future

The Pine Hill School District is in good financial condition presently. The School District is proud of its community support of the public schools. A major concern is the continued cost increases without corresponding increases in state aid, which increases reliance on local property taxes.

The Pine Hill School District's budget for 2007-08 was not approved by the voters and subsequently reviewed and adjusted by the Borough of Pine Hill in accordance with the Statues.

In conclusion, the Pine Hill School District has committed itself to financial excellence for many years. In addition, the School District's system for financial planning, budgeting, and internal financial controls are well regarded. The School District plans to continue its sound fiscal management to meet the challenges of the future.

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances
of Governmental Funds to the Statement of Activities
For the Year Ended June 30, 2008

Total Net Change in Fund Balance - Governmental Funds (from B-2) \$ 124,810.19

Amounts reported for governmental activities in the statement of activities (A-2) are different because:

Capital outlays are reported in governmental funds as expenditures.

However, on the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense.

This is the amount by which capital outlays exceeded depreciation in the current fiscal year.

Depreciation Expense	\$(668,620.00)	
Loss on Disposal of Fixed Assets	(19,403.77)	
Capital Outlay	48,769.22	<u>(639,254.55)</u>

Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long - term liabilities in the statement of net assets and is not reported in the statement of activities.

Bonds	870,000.00
Amortization of Deferred Loss on Refunding Bonds	(4,770.25)
Capital Lease Payments	52,832.50
Regional Asset Distribution	398,681.41
Early Retirement Program	177,444.20

In the statement of activities, certain operating expenses, e.g., compensated absences (vacations and sick pay) are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are reported in the amount of financial resources used (paid). When the earned amount exceeds the paid amount, the difference is a reduction in the reconciliation; when the paid amount exceeds the earned amount, the difference is an addition to the reconciliation.

1,830.96

In the statement of activities, interest on long - term debt is accrued, regardless of when due. In the governmental funds, interest is reported when due. The accrued interest is a deduction in the reconciliation.

NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2008**

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Board of Education (Board) of Pine Hill School District (District) have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the Board's accounting policies are described below.

In June 1999, the Governmental Accounting Standards Board (GASB) unanimously approved Basic Financial Statements and Managements Discussion and Analysis for State and Local Governments (Statement No, 34). The Statement provides for the most significant change in financial reporting in over twenty years and is scheduled for a phase-in implementation period (based on amount of revenues) starting with fiscal years ending 2002 (for larger governments). The School District has also implemented GASB Statement No. 37, *Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments: Omnibus* and Statement No, 38, *Certain Financial Statement Note Disclosures*.

A. Reporting Entity

The District is an instrumentality of the State of New Jersey, established to function as an educational institution. The Board consists of elected officials and is responsible for the fiscal control of the District. A superintendent is appointed by the Board and is responsible for the administrative control of the District. The purpose of the district is to educate students in grades K-12. The District operates two elementary schools, one intermediate school and one high school, located in Pine Hill, New Jersey.

The primary criterion for including activities within the District's reporting entity, as set forth in Section 2100 of the GASB Codification of Governmental Accounting and Financial Reporting Standards, is whether:

- the organization is legally separate (can sue or be sued in their own name);
- the District holds the corporate powers of the organization;
- the District appoints a voting majority of the organization's board;
- the District is able to impose its will on the organization;
- the organization has the potential to impose a financial benefit/burden on the District;
- there is a fiscal dependency by the organization on the District;

Based on the aforementioned criteria, the District has no component units.

B. Basis of Presentation, Measurement Focus and Basis of Accounting

Basis of Presentation

The School District's basic financial statements consist of District-wide statements (i.e. statement of net assets and a statement of activities) and fund financial statements, which provide a more detailed level of financial information.

District-Wide Financial Statements: The statement of net assets and the statement of activities display information about the district as a whole. These statements report the financial activities of the overall District, except for fiduciary activities. Individual funds are not displayed but the statements distinguish governmental activities, generally supported by property taxes, intergovernmental revenues, and other non-exchange transactions from business-type activities, generally financed in whole or in part with fees charged to external parties.

The statement of net assets presents the financial condition of the governmental and business-type activity of the School District at fiscal year end. The statement of activities presents a comparison between direct expenses and program revenues for the business-type activity of the District and for each function of the District's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) charges and fees paid by the recipients of goods or services offered by the programs; and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including taxes, are presented as general revenues. The comparison of direct expenses with program revenues identifies the extent to which each governmental function or business segment is self-financing, or draws from the general revenues of the School District.

Fund Financial Statements: During the fiscal year, the School District segregates transactions related to certain School District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. The fund financial statements provide information about the District's funds, including its fiduciary funds. Separate statements for each fund category – *governmental*, *proprietary*, and *fiduciary* - are presented. The New Jersey Department of Education ("Department") has elected to require New Jersey districts to treat each governmental fund as a major fund in accordance with the option noted in GASB No. 34, paragraph 76. The Department believes that the presentation of all funds as major is important for public interest and to promote consistency among district financial reporting models.

B. Basis of Presentation, Measurement Focus and Basis of Accounting - Continued

Governmental Funds

The District reports the following governmental funds:

General Fund – The General Fund is the general operating fund of the District and is used to account for all expendable financial resources except those required to be accounted for in another fund. Included are certain expenditures for vehicles and movable instructional or non-instructional equipment, which are classified in the capital outlay sub-fund.

As required by the New Jersey State Department of Education, the District includes budgeted capital outlay in this fund. Generally accepted accounting principles, as they pertain to governmental entities, state that general fund resources may be used to directly finance capital outlays for long-lived improvements as long as the resources in such cases are derived exclusively from unrestricted revenues. Resources for budgeted capital outlay purposes are normally derived from State of New Jersey Aid, district taxes and appropriated fund balance. Expenditures are those that result in the acquisition of or additions to fixed assets for land, existing buildings, improvements of grounds, construction of buildings, additions to or remodeling of buildings and the purchase of built-in equipment. These resources can be transferred from and to Current Expense by board resolution.

Special Revenue Fund - The Special Revenue Fund is used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes.

Capital Projects Fund - The Capital Projects Fund is used to account for all financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by Proprietary Funds). The financial resources are derived from temporary notes or serial bonds that are specifically authorized by the voters as a separate question on the ballot either during the annual election or at a special election.

Debt Service Fund - The Debt Service Fund is used to account for the accumulation of resources for, and the payment of, principal and interest on bonds issued to finance major property acquisition, construction and improvement programs.

Proprietary Funds

The District reports the following proprietary fund:

Enterprise Funds – Enterprise funds are used to account for operations that are financed and operated in a manner similar to private business operations – where the intent of the District is that the costs of providing goods or services be financed or recovered primarily through user charges.

The District's Enterprise Funds are comprised of the Food Service Fund, which accounts for all revenues and expenses pertaining to the District's cafeteria operations and the Community Education Fund, which accounts for all revenues and expenses pertaining to the District's community education program operations.

Fiduciary Funds

Trust and Agency Funds - The Trust and Agency Funds are used to account for assets held by the District in a trustee capacity or as an agent for individuals, private organizations, other governments and/or other funds.

Expendable Trust Fund - An Expendable Trust Fund is accounted for in essentially the same manner as the governmental fund types, using the same measurement focus and basis of accounting. Expendable Trust Funds account for assets where both the principal and interest may be spent. Expendable Trust Funds include the Unemployment Compensation Insurance Trust.

Nonexpendable Trust Fund - A Nonexpendable Trust Fund is used to account for assets held under the terms of a formal trust agreement, whereby the District is under obligation to maintain the trust principal. Currently, the District does not maintain this type of fund.

Agency Funds – Agency funds are used to account for the assets that the District holds on behalf of others as their agent. Agency funds are custodial in nature and do not involve measurement of results of operations. Agency funds include payroll and student activities funds.

Measurement Focus and Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements.

The District-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting as are the proprietary fund and the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year in which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Net assets (total assets less total liabilities) are used as a practical measure of economic resources and the operating statement includes all transactions and events that increased or decreased net assets. Depreciation is charged as expense against current operations and accumulated depreciation is reported on the statement of net assets.

B. Basis of Presentation, Measurement Focus and Basis of Accounting - Continued

Measurement Focus and Basis of Accounting - Continued

The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the fiscal year. Revenue from federal, state and other grants designated for payment of specific school district expenditures is recognized when the related expenditures are incurred; accordingly, when such funds are received, they are recorded as deferred revenues until earned. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments are recorded only when payment is due.

The District applies only those applicable pronouncements of the Financial Accounting Standards Board issued on or before November 30, 1989 in accounting and reporting for its proprietary operations.

C. Budgets/Budgetary Control

Annual appropriated budgets are prepared in the spring of each year for the general, special revenue, and debt service funds. The budgets are submitted to the county office for approval and are voted upon at the annual school election on the third Tuesday in April. Budgets are prepared using the modified accrual basis of accounting, except for special revenue funds. The legal level of budgetary control is established at line item accounts within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in N.J.A.C. 6A:23-2.2(g). All budget amendments/transfer must be approved by School Board resolution. All budget amounts presented in the accompanying supplementary information reflect the original budget and the amended budget (which have been adjusted for legally authorized revisions of the annual budgets during the year.

Appropriations, except remaining project appropriations, encumbrances and unexpended grant appropriations, lapse at the end of each fiscal year. The capital projects fund presents the remaining project appropriations compared to current year expenditures.

Formal budgetary integration into the accounting system is employed as a management control device during the year. For governmental funds, there are no substantial differences between the budgetary basis of accounting and generally accepted accounting principles with the exception of the legally mandated revenue recognition of the last state aid payment for budgetary purposes only and the special revenue fund as noted below. Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental fund types. Unencumbered appropriations lapse at fiscal year end.

C. Budgets/Budgetary Control - Continued

The accounting records of the special revenue fund are maintained on the grant accounting budgetary basis. The grant accounting budgetary basis differs from GAAP in that the grant accounting budgetary basis recognizes encumbrances as expenditures and recognizes the related revenues, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial reports. The following table presents a reconciliation of the differences between the budgetary basis and GAAP basis in the general and special revenue funds at June 30, 2008 and 2007:

D. Encumbrance Accounting

Under encumbrance accounting, purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve a portion of the applicable appropriation. Open encumbrances in governmental funds other than the special revenue fund are reported as reservations of fund balances at fiscal year end as they do not constitute expenditures or liabilities but rather commitments related to unperformed contracts for goods and services.

Open encumbrances in the special revenue fund for which the District has received advances are reflected in the balance sheet as deferred revenues at fiscal year end.

The encumbered appropriation authority carries over into the next fiscal year. An entry will be made at the beginning of the next fiscal year to increase the appropriation reflected in the certified budget by the outstanding encumbrance amount as of the current fiscal year end.

E. Assets, Liabilities and Equity

Cash, Cash Equivalents and Investments

Cash and cash equivalents include petty cash, change funds, bank deposits and all highly liquid investments with a maturity of three months or less at the time of purchase and are stated at cost plus accrued interest. U.S. Treasury and agency obligations and certificates of deposit with maturities of one year or less when purchased are stated at cost. All other investments are stated at fair value.

New Jersey school districts are limited as to the types of investments and types of financial institutions they may invest in. New Jersey statute 18A:20-37 provides a list of permissible investments that may be purchased by New Jersey school districts.

Additionally, the District has adopted a cash management plan that requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act ("GUDPA"). GUDPA was enacted in 1970 to protect governmental units from a loss of funds on deposit with a failed banking institution in New Jersey.

N.J.S.A. 17:9-41 et. seq. establishes the requirements for the security of deposits of governmental units. The statute requires that no governmental unit shall deposit public funds in a public depository unless such funds are secured in accordance with the Act. Public depositories include savings and loan institutions, banks (both state and national banks) and savings banks the deposits of which are federally insured. All public depositories must pledge collateral, having a market value at least equal to five percent of the average daily balance of collected public funds, to secure the deposits of Governmental Units. If a public depository fails, the collateral it has pledged, plus the collateral of all other public depositories, is available to pay the full amount of their deposits to the governmental units.

Interfund Transactions

Transfers between governmental and business-type activities on the District-wide statements are reported in the same manner as general revenues.

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after non-operating revenues/expenses in the Enterprise Fund. Repayments from funds responsible for particular expenditure/expenses to the funds that initially paid for them are not presented on the financial statements.

Inventories

Inventories, other than those recorded in the enterprise fund, are recorded as expenditures during the year of purchase. Inventories in the Enterprise Fund are recorded at cost, computed on a first-in, first out method. In the fund based financial statements, commodities received from the U.S. Department of Agriculture are recorded as deferred revenue until consumed.

Capital Assets

The District has established a formal system of accounting for its capital assets. Purchased or constructed capital assets are reported at cost. Donated assets are recorded as capital assets at their estimated fair market value at the date of donation. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. The capitalization threshold used by school districts in the State of New Jersey is \$2,000.

All reported capital assets except for land and construction in progress, are depreciated. Depreciation is computed using the straight-line method over their estimated useful lives. Useful lives vary from 20 to 50 years for land improvements and buildings, and 5 to 20 years for equipment.

The District does not possess any material amounts of infrastructure capital assets, such as sidewalks and parking lots. Such items are considered to be part of the cost of buildings or other improvable property.

Compensated Absences

The District accounts for compensated absences (e.g., unused sick, vacation leave) as directed by Governmental Accounting Standards Board Statement No. 16 (GASB 16), "Accounting for Compensated Absences". A liability for compensated absences that are attributable to services already rendered, and that are not contingent on a specific event that is outside the control of the District and its employees, is accrued as the employees earn the rights to the benefits. Compensated absences that relate to future services, or that are contingent on a specific event that is outside the control of the District and its employees, are accounted for in the period in which such services are rendered or in which such events take place.

District employees are granted varying amounts of vacation and sick leave in accordance with the District's personnel policies. Upon termination, employees are paid for accrued vacation. The District's policy permits employees to accumulate unused sick leave and carry forward the full amount to subsequent years. Upon retirement, employees shall be paid by the District for the unused sick leave in accordance with the District's agreements with the various employee unions.

The liability for compensated absences was accrued using the termination payment method, whereby the liability is calculated based on the amount of sick leave that is expected to become eligible for payment upon termination. The District estimates its accrued compensated absences liability based on the accumulated sick and vacation days at the balance sheet date by those employees who are currently eligible to receive termination payments.

For the District-wide Statements, the current portion is the amount estimated to be used in the following year. In accordance with GAAP, for the governmental funds, in the Fund Financial Statements, all of the compensated absences are considered long-term and therefore, are not a fund liability and represents a reconciling item between the fund level and District-wide presentations.

E. Assets, Liabilities and Equity - Continued

Deferred Revenue

Deferred revenue arises when assets are recognized before revenue recognition criteria have been satisfied. Grants and entitlements received in the Special Revenue Fund before they have been earned are recorded as deferred revenue.

Accrued Liabilities and Long-term Obligations

All payables, accrued liabilities, and long-term obligations are reported on the District-wide financial statements. In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. However, contractually required pension contributions and compensated absences that are paid from governmental funds are reported as liabilities on the fund financial statements only to the extent that they are due for payment during the current year. Bonds are recognized as a liability on the fund financial statements when due.

Net Assets

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt, consists of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any borrowing used for the acquisition, construction, or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use, either through the enabling legislation adopted by the School District, or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. The School District's policy is to first apply restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

Fund Balance Reserves

The School District reserves those portions of fund balance which are legally segregated for a specific future use or which do not represent available expendable resources and, therefore, are not available for appropriation or expenditure. Unreserved fund balance indicates that portion which is available for appropriation in future periods. A fund balance reserve has been established for encumbrances.

Revenues – Exchange and Nonexchange Transactions

Revenues resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On the modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means the resources will be collected within the current fiscal year, or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means within sixty days of the fiscal year end.

Nonexchange transactions, in which the School District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On the accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from income taxes is recognized in the period in which the income is earned. Revenue from grants, entitlement, and donations is recognized in the period in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted; matching requirements, in which the School District must provide local resources to be used for a specific purpose; and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis. On the modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year end: property taxes as an advance, interest and tuition.

Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the enterprise fund. For the School District, these revenues are sales for food service. Operating expenses are necessary costs incurred to provide the service that is the primary activity of the enterprise fund.

Allocation of Indirect Expenses

The District reports all direct expenses by function in the Statement of Activities. Direct expenses are those that are clearly identifiable with a function. Indirect expenses are allocated to functions but are reported separately in the Statement of Activities. Employee benefits, including the employer's share of social security, workers compensation, and medical and dental benefits, were allocated based on salaries of that program. Depreciation expense, where practicable, is specifically identified by function and is included in the direct expense column of the Statement of Activities. Depreciation expense that could not be attributed to a specific function is considered an indirect expense and is reported separately on the Statement of Activities. Interest on long-term debt is considered an indirect expense and is reported separately on the Statement of Activities.

Extraordinary and Special Items

Extraordinary items are transactions or events that are unusual in nature and infrequent in occurrence. Special items are transactions or events that are within control of management and are either unusual in nature or infrequent in occurrence. Neither of these types of transactions occurred during the fiscal year.

Management Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

NOTE 2 – CASH AND CASH EQUIVALENTS AND INVESTMENTS

GASB Statement No. 3 amended by Statement No. 40 requires disclosure of the level of custodial credit risk assumed by the District in its cash, cash equivalents and investments.

The cash deposits not covered by depository insurance held at financial institutions are categorized as follows:

- a. Deposits are uncollateralized.
- b. Deposits are collateralized with securities held by the pledging financial institution.
- c. Deposits collateralized with securities held by the pledging financial institution's trust department or agent but not in the depositor-government's name.

At June 30, 2008, the carrying amount of the District's deposits (cash and cash equivalents) was \$1,205,592.21 and the bank balance was \$2,213,130.22.

Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The State of New Jersey has certain collateral requirements for governmental units. These requirements are disclosed in detail as part of Note 1E.

As of June 30, 2008, the District's bank balance was exposed to custodial credit risk as follows:

	Cash and Cash Equivalents
FDIC Insured	\$ 200,000.00
Uninsured and collateral held by pledging bank's trust department not in the District's name	2,013,130.22
	\$ 2,213,130.22

Bank balances of cash amounted to \$2,213,130.22 as of June 30, 2008 of which \$200,000.00 was FDIC insured. Bank balances in excess of the insured amounts are collateralized in accordance with the Governmental Deposit Protection Act (GUDPA) adopted by the State of New Jersey.

Investments

The District did not have any investments at June 30, 2008.

NOTE 8 – PENSION PLANS

Description of Plans - All required employees of the District are covered by either the Public Employees' Retirement System or the Teachers' Pension and Annuity Fund which have been established by state statute and are administered by the New Jersey Division of Pension and Benefits (Division). According to the State of New Jersey Administrative Code, all obligations of both Systems will be assumed by the State of New Jersey should the Systems terminate. The Division issues a publicly available financial report that includes the financial statements and required supplementary information for the Public Employees Retirement System and the Teachers' Pension and Annuity Fund. These reports may be obtained by writing to the Division of Pensions and Benefits, PO Box 295, Trenton, New Jersey, 08625.

NOTE 8 – PENSION PLANS - Continued

Teachers' Pension and Annuity Fund (TPAF) - The Teachers' Pension and Annuity Fund was established as of January 1, 1955, under the provisions of N.J.S.A. 18A:66 to provide retirement benefits, death, disability and medical benefits to certain qualified members. The Teachers' Pension and Annuity Fund is considered a cost-sharing multiple-employer plan with a special funding situation, as under current statute, all employer contributions are made by the State of New Jersey on behalf of the District and the system's other related non-contributing employers. Membership is mandatory for substantially all teachers or members of the professional staff certified by the State Board of Examiners, and employees of the Department of Education who have titles that are unclassified, professional and certified.

Public Employees' Retirement System (PERS) - The Public Employees' Retirement System (PERS) was established as of January 1, 1955 under the provisions of N.J.S.A. 43:15A to provide retirement, death, disability and medical benefits to certain qualified members. The Public Employees' Retirement System is a cost-sharing multiple-employer plan. Membership is mandatory for substantially all full-time employees of the State of New Jersey or any county, municipality, school district, or public agency, provided the employee is not required to be a member of another state-administered retirement system or other state or local jurisdiction.

Vesting and Benefit Provisions - The vesting and benefit provisions for PERS are set by N.J.S.A. 43:15A and 43.3B, and N.J.S.A. 18A:6C for TPAF. All benefits vest after eight to ten years of service, except for medical benefits that vest after 25 years of service. Retirement benefits for age and service are available at age 60 and are generally determined to be 1/60 of the final average salary for each year of service credit, as defined. Final average salary equals the average salary for the final three years of service prior to retirement (or highest three years' compensation if other than the final three years). Members may seek early retirement after achieving 25 years of service credit or they may elect deferred retirement after achieving eight to ten years of service in which case benefits would begin the first day of the month after the member attains normal retirement age. The TPAF and PERS provides for specified medical benefits for members who retire after achieving 25 years of qualified service, as defined, or under the disability provisions of the System.

Members are always fully vested for their own contributions and, after three years of service credit, become vested for 2% of related interest earned on the contributions. In the case of death before retirement, members' beneficiaries are entitled to full interest credited to the members' accounts.

Significant Legislation - During the year ended June 30, 1997, legislation was enacted (Chapter 114, P.L. 1997) that changed the asset valuation method from market related value to full-market value. This legislation also contained a provision to reduce the employee contribution rate by 1/2 of 1% to 4.5% for calendar years 1998 and 1999, and to allow for a reduction in the employee's rate after calendar year 1999, providing excess valuation assets are available. The legislation also provided that the Districts' normal contributions to the Fund may be reduced based on the revaluation of assets.

Contribution Requirements - The contribution policy is set by N.J.S.A. 43:15A, Chapter 62, P.L. of 1994, Chapter 115, P.L. of 1997 and N.J.S.A. 18:66, and requires contributions by active members and contributing employers. Plan member and employer contributions may be amended by State of New Jersey legislation. TPAF and PERS provide for employee contributions of 5.5% of employees' annual compensation, as defined. Employers are required to contribute at an actuarially determined rate in both TPAF and PERS. The actuarially determined contribution includes funding for cost-of-living adjustments, noncontributory death benefits, and post-retirement medical premiums. Under current statute, the District is a non-contributing employer of the TPAF.

NOTE 9 – POST-RETIREMENT BENEFITS

Chapter 384 of Public Laws 1987 and Chapter 6 of Public Laws 1990 required TPAF and PERS, respectively, to fund post-retirement medical benefits for those State employees who retire after accumulating 25 years of credited service or on a disability retirement. As of June 30, 2007, there were 75,860 retirees eligible for post-retirement medical benefits. The cost of these benefits is funded through contributions by the State in accordance with P.L. 1994, c.62. Funding of post-retirement medical premiums changed from a pre-funding basis to a pay-as-you-go basis beginning in fiscal year 1994 with an additional contribution beginning in fiscal year 1996 to maintain a medical reserve by one half of one percent of the active State payroll.

The State made post – retirement (PRM) contributions of \$592.7 million for TPAF and \$224.3 million for PERS in fiscal year 2007.

The State is also responsible for the cost attributable to Chapter 126, P.L. 1992, which provides free health benefits to members of PERS and the Alternate Benefit Program who retired from a board of education or county college with 25 years of service. The State paid \$110.3 toward Chapter 126 benefits for 11,747 eligible retired members in fiscal year 2007.

NOTE 10 – COMPENSATED ABSENCES

The liability for vested compensated absences for the governmental fund types is recorded in current and long-term liabilities. The current portion of the compensated absences balance of the governmental funds is not considered material to the applicable funds total liabilities, and therefore is not shown separately from the long-term liability of compensated absences.

The liability for vested compensated absences of the proprietary fund types is recorded within those funds as the benefits accrue to employees. As of June 30, 2008, no liability existed for compensated absences in the Food Service Enterprise Fund.

NOTE 11 – DEFERRED COMPENSATION

The District offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 403(b). The plans, which are administered by outside entities permit participants to defer a portion of their salary until future years. Amounts deferred under the plans are not available to employees until termination, retirement, death or unforeseeable emergency. The plan administrators are as follows:

Thomas Seely Agency, Inc.
Retirement Annuity Consultants

Lincoln Investment Planning, Inc.
Aetna Life and Annuity

NOTE 12 – CAPITAL RESERVE ACCOUNT

Pine Hill Board of Education established a capital reserve account by the inclusion of \$1.00 in September 2000 for the accumulation of funds for use as capital outlay expenditures in subsequent fiscal years. The capital reserve account is maintained in the general fund and its activity is included in the general fund annual budget. There is a total balance of \$242,000.00 at June 30, 2008.

Funds placed in the capital reserve account are restricted to capital projects in the district’s approved Long Range Facilities Plan (LRFP) and updated annually in the Quality Assurance Annual Report (QAAR). Upon submission of the LRFP to the department, a district may increase the balance in the capital reserve by appropriating in the annual general fund budget certified for taxes. A district may also appropriate additional amounts when the express approval of the voters has been obtained either by a separate proposal at budget time or by special question at one of the four special elections authorized pursuant to *N.J.S.A. 19:60-2*. Pursuant to *N.J.A.C. 6A:26-9.1(d)1*, the balance in the account cannot at any time exceed the local support costs of uncompleted capital projects in its LRFP.

The activity in the capital reserve for the July 1, 2007 to June 30, 2008 fiscal year is as follows:

Beginning Balance, July 1, 2007		\$	78,000.00	
Interest Earnings	\$		2,000.00	
Deposits				
June 24, 2008			200,000.00

NOTE 13 – RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

Property and Liability Insurance - The District maintains commercial insurance coverage for property, liability and surety bonds. A complete schedule of insurance coverage can be found in the Statistical Section of this Comprehensive Annual Financial Report.

New Jersey Unemployment Compensation Insurance - The District has elected to fund its New Jersey Unemployment Compensation Insurance under the "Benefit Reimbursement Method". Under this plan, the District is required to reimburse the New Jersey Unemployment Trust Fund for benefits paid to its former employees and charged to its account with the State. The District is billed quarterly for amounts due to the State. The following is a summary of District contributions, employee contributions, reimbursements to the State for benefits paid and the ending balance of the District's expendable trust fund for the current and prior two years:

Fiscal Year	Interest on Investments	Contributions	Amount Reimbursed	Ending Balance
2007-2008	\$ 559.86	\$	\$ 23,012.63	\$ 25,054.62
2006-2007	1,207.02	60,000.00	21,119.86	47,507.39
2005-2006	705.41	15,000.00	42,176.95	7,420.23

NOTE 14 – CONTINGENT LIABILITIES

Federal and State Grants

The District participates in a number of federal and state grant programs. The grant programs are subject to program compliance audits by the grantors or their representatives. The District is potentially liable for expenditures which may be disallowed pursuant to the terms of these grant programs. Management is not aware of any material items of noncompliance would result in the disallowance of program expenditures.

NOTE 15 – FUND BALANCE APPROPRIATED

General Fund - Of the \$823,333.69 General Fund fund balance at June 30, 2008, \$0.00 is reserved for encumbrances; \$342,944.02 is reserved as excess surplus in accordance with N.J.S.A. 18A:7F-7 \$242,000.00 has been reserved in the Capital Reserve Account; \$254,349.00 has been utilized in the subsequent years budget; and there is a deficit of \$15,959.33 unreserved and undesignated. The General Fund Deficit in Fund Balance represents the deferral, by the State of New Jersey, of the final State Aid Payment for the 2007 / 2008 school year.

Special Revenue Fund Deficit – The \$69,200.00 Special Revenue Fund Deficit in Fund Balance represents the deferral, by the State of New Jersey, of the final State Aid Payment for the 2007 / 2008 school year. This deficit will be reversed in the subsequent year.

Debt Service Fund – There is no fund balance in the Debt Service Fund at June 30, 2008.

NOTE 16 – CALCULATION OF EXCESS SURPLUS

In accordance with N.J.S.A. 18A:7F-7, as amended by P.L. 2005, c.73 (S1701), the designation for Reserved Fund Balance - Excess Surplus is a required calculation pursuant to the New Jersey Comprehensive Educational Improvement and Financing Act of 1996 (CEIFA). New Jersey school districts are required to reserve General Fund fund balance at the fiscal year end of June 30 if they did not appropriate a required minimum amount of budgeted fund balance in their subsequent years' budget. The excess fund balance at June 30, 2008 is \$342,944.02.

NOTE 17 – REGIONAL DISSOLUTION LIABILITY

In accordance with the Lower Camden County Regional High School dissolution agreement, effective July 1, 2001, the Pine Hill School District became liable to four districts within the regional high school system for assets transferred to the Pine Hill School District in excess of those assets transferred to other districts. The original liability in the amount of \$2,235,635.00 was determined by the Camden County Superintendent of Schools. During the 03/04 year the award was increased an additional \$706,840.05 by the Commissioner of Education. The liability bears no interest rate and is payable in equal installments to the various other districts over a period of five years which began July 1, 2002.

NOTE 18 – ARBITRAGE

The Tax Reform Act of 1986 placed restrictions on investment of the proceeds of certain tax-exempt bonds issued after December 31, 1986. Specifically, investment earnings which are above the arbitrage bond yield are required to be rebated to the United States Treasury Department within sixty days of the end of the fifth bond year. A bond year is defined as ending on the anniversary date of bond settlement.

The District issued bonds dated May 1, 1999, entitled School Bonds, Series 1999, in the amount of \$13,996,000, which had a settlement date of May 11, 1999. As of June 30, 2007, the District has a potential rebate due to the Internal Revenue Service in the amount of \$71,461.50. The District has established a Reserve for Arbitrage in the Capital Projects Fund in case a rebate is required as a result of the occurrence of future events.

PROPRIETARY FUND DETAIL STATEMENTS

Proprietary funds are used to account for operations that are financed and operated in a manner similar to private business enterprises - where the intent of the district's board is that the costs of providing goods or services be financed through user charges.

Food Service Fund - This fund provides for the operation of food services in all schools within the school district.

Community Education Program - This fund provides for the operation of community education in the district.

**THIS SECTION HAS ALREADY BEEN INCLUDED IN STATEMENTS
B-4, B-5 AND B-6.**

FIDUCIARY FUNDS DETAIL STATEMENTS

Fiduciary Funds are used to account for funds received by the school district for a specific purpose.

Unemployment Compensation Fund - This Trust Fund is an expendable trust fund and limits expenses set aside for this purpose in current and prior budgets and contributions from employee withholding in prior years.

Agency funds are used to account for assets held by the school district as an agent for individuals, private organizations, other governments and/or other funds.

Student Activity Fund - This agency fund is used to account for student funds held at the schools.

Payroll Fund - This agency fund is used to account for the payroll transactions of the school district.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Honorable President and
Members of the Board of Education
Pine Hill School District
County of Camden
Pine Hill, New Jersey

We have audited the basic financial statements of the Board of Education of the Pine Hill School District, State of New Jersey, as of and for the fiscal year ended June 30, 2008, and have issued our report thereon dated October 15, 2008. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and audit requirements prescribed by the Division of Finance, Department of Education, State of New Jersey.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Pine Hill Board of Education's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the basic financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Pine Hill Board of Education's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Pine Hill Board of Education's internal control over financial reporting.

Our consideration of the internal control over financial reporting was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. However as discussed below, we identified certain deficiencies in internal control over financial reporting that we that we consider to be significant deficiencies.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control. We consider the deficiency described in the accompanying schedule of findings and responses to be a significant deficiency in internal control over financial reporting. This finding is reported as 2008-1.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. However, we consider the significant deficiency described above to be a material weakness.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Pine Hill Board of Education's basic financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and audit requirements as prescribed by the Division of Finance, Department of Education, State of New Jersey.

This report is intended for the information of management, the Pine Hill Board of Education, the New Jersey State Department of Education (the cognizant audit agency), and other federal and state awarding agencies and pass-through entities, and is not intended and should not be used by anyone other than these specified parties.

REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133 AND NEW JERSEY OMB CIRCULAR 04-04

The Honorable President and
Members of the Board of Education
Pine Hill School District
County of Camden
Pine Hill, New Jersey

Compliance

We have audited the compliance of the Board of Education of the Pine Hill School District in the County of Camden, with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement and the New Jersey State Grant Compliance Supplement that are applicable to each of its major federal and state programs for the year ended June 30, 2008. Pine Hill Board of Education's major federal and state programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal and state programs is the responsibility of Pine Hill Board of Education's management. Our responsibility is to express an opinion on Pine Hill Board of Education's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; the audit requirements as prescribed by the Division of Finance, Department of Education, State of New Jersey, OMB Circular A-133 *Audits of States, Local Governments, and Non-Profit Organizations*; and New Jersey OMB's Circular 04-04, Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid. Those standards, OMB Circular A-133 and New Jersey OMB's Circular 04-04, require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal and state program occurred. An audit includes examining, on a test basis, evidence about Pine Hill Board of Education's compliance with those requirements and performing such other procedures, as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of Pine Hill Board of Education's compliance with those requirements.

In our opinion Board of Education of the Pine Hill School District, in the County of Camden, State of New Jersey, complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal and state programs for the year ended June 30, 2008.

Internal Control Over Compliance

The management of the Board of Education of the Pine Hill School District is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal and state programs. In planning and performing our audit, we considered the Pine Hill Board of Education's internal control over compliance with requirements that could have a direct and material effect on a major federal or state program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Pine Hill Board of Education's internal control over compliance.

A *control deficiency* in an entity's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal or state program on a timely basis. A *significant deficiency* is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to administer a federal program such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a federal or state program that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented or detected by the entity's internal control.

Our consideration of the internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended for the information of the management of the Pine Hill Board of Education, the New Jersey State Department of Education (cognizant audit agency), other state and federal awarding agencies and pass-through entities, and is not intended and should not be used by anyone other than these parties.

**PINE HILL SCHOOL DISTRICT
NOTES TO THE SCHEDULES OF EXPENDITURES OF AWARDS
AND FINANCIAL ASSISTANCE
FOR THE YEAR ENDED JUNE 30, 2008**

NOTE 1. GENERAL

The accompanying schedules of financial assistance present the activity of all federal and state financial assistance programs of the Board of Education, Township of Pine Hill School District. The Board of Education is defined in Note 1 (A) to the Board's basic financial statements. All federal and state assistance received directly from federal and state agencies, as well as federal financial assistance passed through other government agencies is included on the schedule of federal and state financial assistance.

NOTE 2. BASIS OF ACCOUNTING

The accompanying schedules of financial assistance are presented on the budgetary basis of accounting with the exception of programs recorded in the enterprise fund, which are presented using the accrual basis of accounting. These bases of accounting are described in Notes 1 (C) and 1 (D) to the Board's basic financial statements.

NOTE 3. RELATIONSHIP TO BASIC FINANCIAL STATEMENTS

The basic financial statements present the general fund and special revenue fund on a GAAP basis. Budgetary comparison statements or schedules (RSI) are presented for the general fund and special revenue fund to demonstrate finance-related legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the audit year, whereas for GAAP reporting, revenue is not recognized until the subsequent year or when expenditures have been made.

The general fund is presented in the accompanying schedules on the modified accrual basis with the exception of revenue recognition of the last state aid payment in the current budget year, which is mandated pursuant to P.L. 2003,c.97.(A3521). For GAAP purposes that payment is not recognized until the subsequent budget year due to the state deferral and recording of the last state aid payment in the subsequent year. The special revenue fund is presented in the accompanying schedules on the grant accounting budgetary basis, which recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not.

The net adjustment to reconcile from the budgetary basis to the GAAP basis is \$52,210.00 for the general fund and \$7,615.00 for the special revenue fund. See the Notes to Required Supplementary Information for a reconciliation of the budgetary basis to the GAAP basis of accounting for the general and special revenue funds. Awards and financial assistance revenues are reported in the Board's basic financial statements on a GAAP basis as follows:

	<u>Federal</u>		<u>State</u>		<u>TPAF Pension</u>		<u>Total</u>
General Fund	\$ 4,845.71	\$	16,046,459.81	\$	(1,780,016.00)	\$	14,271,289.52
Special Revenue Fund	1,099,879.65		1,423,509.00				2,523,388.65
Debt Service Fund			857,721.00				857,721.00
Food Service Fund	<u>432,844.32</u>		<u>21,465.06</u>				<u>454,309.38</u>
	<u>\$ 1,537,569.68</u>	<u>\$</u>	<u>18,349,154.87</u>	<u>\$</u>	<u>(1,780,016.00)</u>	<u>\$</u>	<u>18,106,708.55</u>

The On-Behalf Pension Contributions made for the district by the State of New Jersey are recognized as revenue in the basic financial statements, but are not considered in the major program determination.

II. FINDINGS RELATING TO THE FINANCIAL STATEMENTS WHICH ARE REQUIRED TO BE REPORTED IN ACCORDANCE WITH GENERALLY ACCEPTED GOVERNMENTAL AUDITING STANDARDS

Finding #2008-1:

A deposit to the IRS for Payroll Taxes withheld was made 3 ½ months late.

Criteria:

Payroll Taxes withheld were due to the IRS the day after the pay date.

Condition:

The deposit was late and not detected by the district until the IRS contacted the district.

Cause:

The Payroll Clerk made a mistake by not finalizing the Electronic Funds Transfer (E.F.T.). Contributing to the error was the fact that the Payroll Agency Account balance was not properly analyzed and reconciled to the Bank Balance. Had the Payroll Agency Account been properly analyzed, the underpayment would have been detected in the month of occurrence.

Effect:

The IRS imposed and levied a significant penalty and interest against the district.

Recommendation:

That the Payroll Agency Account balance be analyzed and reconciled monthly and that all Payroll Withholdings be remitted to the proper agencies in a timely manner.

Response of Management:

The balance in the Payroll Agency Account has been analyzed and reconciled and will be done monthly for now on.

Also, A new procedure has been implemented that requires verification of all E.F.T. Acknowledgement Receipts by an employee independent of the Payroll Office.

Finally an appeal was initiated to the IRS requesting that the penalty imposed be abated due to the fact that the error in question was an isolated case that was unintentional and would not re-occur. Through the Appeal Process the IRS did agree to refund 90% of the amount originally assessed.

III. FEDERAL AWARDS AND STATE FINANCIAL ASSISTANCE FINDINGS AND QUESTIONED COSTS
