The Honorable President and Members of
the Board of Education
Borough of Hillsdale School District
County of Bergen, New Jersey

Dear Board Members:

The comprehensive annual financial report of the Borough of Hillsdale School District (the "District") for the fiscal year ended June 30, 2010, is hereby submitted. Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures, rests with the management of the Board of Education (the "Board"). To the best of our knowledge and belief, the data presented in this report is accurate in all material respects and is reported in a manner designed to present fairly the basic financial statements and results of operations of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

The comprehensive annual financial report is presented in four sections: introductory, financial, statistical and single audit. The introductory section includes this transmittal letter, the District's organizational chart and a list of principal officials. The financial section includes the Independent Auditors' Report, management's discussion and analysis, the basic financial statements and notes providing an overview of the District's financial position and operating results, and supplementary schedules providing detailed budgetary information. The statistical section includes selected economic and demographic information, financial trends and the fiscal capacity of the District, generally presented on a multi-year basis. The District is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act Amendments of 1996 and the U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Nonprofit Organizations*, and the New Jersey OMB Circular Letter NJOMB 04-04, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid*. Information related to this single audit, including the auditors' reports on the internal control and compliance with applicable laws, regulations, contracts and grants along with findings and questioned costs, is included in the single audit section of this report.

1) REPORTING ENTITY AND ITS SERVICES: The Borough of Hillsdale School District is an independent reporting entity within the criteria adopted by the Government Accounting Standards Board ("GASB") in codification section 2100. All funds of the District are included in this report. The Borough of Hillsdale School District and all its schools constitute the District's reporting entity.

The District provides a full range of educational services appropriate to grade levels Pre-K through 8. These include regular, vocational as well as special education for handicapped youngsters. The District completed the 2009-2010 fiscal year with an average daily enrollment of 1,461 students, which is a decrease of 3 students from the previous year's enrollment. The following details the changes in the average daily student enrollment of the District over the last five years:

The Honorable President and Members of
the Board of Education
Borough of Hillsdale School District
Page 2
October 1, 2010

<u>Fiscal Year</u>	<u>Average Daily Enrollment</u>	
	<u>Student Enrollment</u>	<u>Percent Change</u>
2009-2010	1,461	-0.20%
2008-2009	1,464	1.81%
2007-2008	1,438	-1.57%
2006-2007	1,461	0.62%
2005-2006	1,452	5.22%

2) ECONOMIC CONDITION AND OUTLOOK: The Borough of Hillsdale is almost fully developed and has not experienced or expects to experience any significant growth in the immediate future. The District has had an approximate increase in enrollment of 250 students since the 1999-2000 school year but that consistent growth pattern is beginning to stabilize throughout the District. The Board of Education completed a building expansion project in September 2004 to accommodate the additional enrollment growth.

3) MAJOR INITIATIVES: During the 2009-2010 school year, the District completed curriculum reviews in penmanship and study skills. The District also completed the state monitoring process entitled "Quality Single Accountability Continuum (QSAC)" at the "high performing" level distinction. As a result, the District is certified for a period of three years.

The District also developed a budget for 2010-2011 with a reduction in state aid of approximately \$900,000. This loss of state revenue resulted in a decrease of staff of over 10.2 positions, loss of long time programs, and the privatization of the District's mid-shift custodians.

School objectives were also developed in concert with School Level Planning Committees and a wide range of student activities continued throughout the schools.

4) INTERNAL ACCOUNTING CONTROLS: Management of the District is responsible for establishing and maintaining an internal control system designed to ensure that the assets of the District are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles (GAAP). The internal control system is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

As a recipient of federal and state awards, the District also is responsible for ensuring that an adequate internal control system is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control system is also subject to periodic evaluation by the District's management.

As part of the District's single audit described earlier, tests are made to determine the adequacy of the internal control system, including that portion related to federal and state award programs, as well as to determine that the District has complied with applicable laws, regulations, contracts and grants.

5) BUDGETARY CONTROLS: In addition to internal accounting controls, the District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the voters of the municipality. Annual appropriated budgets are adopted for the general fund, the special revenue fund and the debt service fund. Project length budgets are approved for the capital improvements accounted for in the capital projects fund. The final budget amount as amended for the fiscal year is reflected in the financial section.

The Honorable President and Members of
 the Board of Education
 Borough of Hillsdale School District

An encumbrance accounting system is used to record outstanding purchase commitments on a line item basis. Open encumbrances at year-end are either canceled or are included as reappropriations of fund balance in the subsequent year. Those amounts to be reappropriated are reported as reservations of fund balance at June 30, 2010.

6) ACCOUNTING SYSTEM AND REPORTS: The District's accounting records reflect generally accepted accounting principles, as promulgated by the GASB. The accounting system of the District is organized on the basis of funds. These funds are explained in "Notes to the Basic Financial Statements", Note 1.

7) DEBT ADMINISTRATION: At June 30, 2010, the District had \$7,154,000 in outstanding bonded debt. Bond referendums were approved by the affirmative vote of a majority of the legal voters present and voting at the School District elections on April 15, 1997 and January 28, 2003, which authorized the issuance of the school bonds. The proceeds of these bond issues were placed in the District's capital projects fund for use to provide funds for various capital improvements to the District's buildings and grounds. The District also has a capital lease for the purchase of computer technology and cafeteria equipment. A principal payment on the lease was \$59,926 during the fiscal year, and the balance at June 30, 2010 was \$125,702. Other details about the District's debt are included in Note 7 to the Basic Financial Statements.

At June 30, 2010, the District had no debt authorized but not issued.

8) CASH MANAGEMENT: The investment policy of the District is guided in large part by state statute as detailed in "Notes to the Basic Financial Statements", Note 3. The District has adopted a cash management plan which requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act ("GUDPA"). GUDPA was enacted in 1970 to protect governmental units from a loss of funds on deposit with a failed banking institution in New Jersey. The law requires governmental units to deposit public funds only in public depositories located in New Jersey, where the funds are secured in accordance with the Act.

9) RISK MANAGEMENT: The Board carries various forms of insurance, including, but not limited to, general liability, excess liability, automobile liability and comprehensive/collision, hazard and theft insurance on property and contents, and fidelity bonds.

The Board is a member of the Northeast School Board Insurance Group (the "Group"). The Group is a risk-sharing public entity risk fund that is both an insured and self-administered group of school districts established for the purpose of providing low-cost insurance coverage to its members. Additional information on the Group is included in Note 10 to the Basic Financial Statements.

10) OTHER INFORMATION:

Independent Audit - State statutes require an annual audit by independent certified public accountants or registered municipal accountants. The accounting firm of Nisivocchia & Company LLP, CPAs, was selected by the Board's audit committee. In addition to meeting the requirements set forth in state statutes, the audit also was designed to meet the requirements of the Single Audit Act Amendments of 1996 and the related Federal OMB Circular A-133, *Audits of States, Local Governments, and Nonprofit Organizations*, and the New Jersey Treasury Circular Letter NJOMB 04-04, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid*. The auditors' report on the basic financial statements and specific required supplementary information is included in the financial section of this report. The auditors' reports related specifically to the single audit are included in the single audit section of this report.

11) ACKNOWLEDGMENTS: We would like to express our appreciation to the members of the Borough of Hillsdale School Board for their concern in providing fiscal accountability to the citizens and taxpayers of the School District and thereby contributing their full support to the development and maintenance of our financial operation. The preparation of this report could not have been accomplished without the efficient and dedicated services of the financial and accounting staff.

Independent Auditors' Report

The Honorable President and Members
 of the Board of Education
 Borough of Hillsdale School District
 County of Bergen, New Jersey

We have audited the accompanying financial statements of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of the Board of Education of the Borough of Hillsdale School District in the County of Bergen as of and for the fiscal year ended June 30, 2010 which collectively comprise the School District's basic financial statements, as listed in the foregoing table of contents. These financial statements are the responsibility of the Board of Education's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and audit requirements as prescribed by the Division of Finance, Department of Education, State of New Jersey. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business type activities, each major fund and the aggregate remaining fund information of the Board of Education of the Borough of Hillsdale School District in the County of Bergen as of June 30, 2010, and the respective changes in financial position and, where applicable, cash flows thereof for the fiscal year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated October 1, 2010 on our consideration of the Board of Education of the Borough of Hillsdale School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The Honorable President and Members
of the Board of Education
Borough of Hillsdale School District
Page 2

The Management's Discussion and Analysis section and the Budgetary Comparison Information in Exhibits C-1 through C-3 and I-3 are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Board of Education of the Borough of Hillsdale School District's basic financial statements. The accompanying introductory section, other supplementary information such as the combining and individual fund financial statements, and the statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. Additionally, the schedules of expenditures of federal and state awards are presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments and Nonprofit Organizations*; and New Jersey OMB's Circular NJOMB 04-04, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid*, and are not a required part of the basic financial statements. The supplementary combining and individual fund financial statements, supplementary schedules, and the schedules of expenditures of federal and state awards have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

**REQUIRED SUPPLEMENTARY INFORMATION
MANAGEMENT'S DISCUSSION AND ANALYSIS**

**BOROUGH OF HILLSDALE SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2010
(UNAUDITED)**

This section of Borough of Hillsdale School District's annual financial report presents its discussion and analysis of the District's financial performance during the fiscal year ending June 30, 2010. Please read it in conjunction with the transmittal letter at the front of this report and the District's financial statements, which immediately follow this section.

Management's Discussion and Analysis (MD&A) is an element of Required Supplementary Information specified in the Governmental Accounting Standards Board's (GASB) Statement No. 34 – *Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments* adopted in June, 1999. Certain comparative information between the current year (2009-2010) and the prior year (2008-2009) is required to be presented in the MD&A.

Financial Highlights

- The District's financial status improved during the fiscal year.
- Overall revenue was \$21.32 million.
- Overall expenditures were \$20.92 million.
- Actual local revenue was \$131,876 lower than expected, primarily in tuition.
- The District's outstanding long-term debt decreased due to the paydown of \$525,000 of general obligation bonds.

Overview of the Financial Statements

This annual report consists of three parts: management's discussion and analysis (this section), the basic financial statements, and required supplementary information. The basic financial statements include two kinds of statements that present different views of the District:

- The first two statements are *district-wide financial statements* that provide both *short-term* and *long-term* information about the District's *overall* financial status.
- The remaining statements are *fund financial statements* that focus on *individual parts* of the District, reporting the District's operations in *more* detail than the district-wide statements.
- The *governmental funds statements* tell how basic services such as regular and special education were financed in the short-term as well as what remains for future spending.
- *Proprietary funds statements* offer *short-* and *long-term* financial information about the activities the District operates like a business, such as food services.
- *Fiduciary funds statements* provide information about the financial relationships in which the District acts solely as a trustee or agent for the benefit of others.

The financial statements also include notes that explain some of the information in the statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the financial statements with a comparison of the District's budget for the year. Figure A-1 shows how the various parts of this annual report are arranged and related to one another.

Figure A-1

Figure A-2 summarizes the major features of the District's financial statements, including the portion of the District's activities they cover and the types of information they contain. The remainder of this overview section of management's discussion and analysis highlights that structure and contents of each of the statements.

District-wide Statements

The district-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net assets includes all of the District's assets and liabilities. All of the current year's revenue and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two district-wide statements report the District's *net assets* and how they have changed. Net assets – the difference between the District's assets and liabilities – is one way to measure the District's financial health or *position*.

- Over time, increases or decreases in the District's net assets are an indicator of whether its financial position is improving or deteriorating, respectively.
- To assess the District's overall health, you need to consider additional nonfinancial factors such as changes in the District's property tax base and the condition of school buildings and other facilities.

In the district-wide financial statements, the District's activities are divided into two categories:

- *Governmental activities*: Most of the District's basic services are included here, such as regular and special education, transportation and administration. Property taxes and state formula aid finance most of these activities.
- *Business-type activities*: The District charges fees to help it cover the costs of certain services it provides. The District's food service is included here.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds – not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs:

- Some funds are required by state law and by bond covenants.
- The District establishes other funds to control and manage money for particular purposes (such as repaying its long-term debts) or to show that it is properly using certain revenue (such as federal grants).

The District has three kinds of funds:

- *Governmental funds*: Most of the District's basic services are included in governmental funds, which generally focus on {1} how cash and other financial assets that can readily be converted to cash flow in and out, and {2} the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the district-wide statements, additional information at the bottom of the governmental funds statements explains the relationship (or difference) between them.
- *Proprietary funds*: Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the district-wide statements. The District's *enterprise funds* (one type of proprietary fund) are the same as its business-type activities but provide more detail and additional information, such as cash flows. The *internal service funds* (the other kind of proprietary fund) report activities that provide supplies and services for its other programs and activities. The District currently does not maintain any internal service funds.

- *Fiduciary funds:* The District is the trustee, or *fiduciary*, for assets that belong to others, such as scholarship funds and the student activities funds. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. The District excludes these activities from the district-wide financial statements because it cannot use these assets to finance its operations.

Notes to Financial Statements

Provide additional information essential to full understanding of District-wide and fund financial statements.

Financial Analysis of the District as a Whole

Net Assets. The District's net assets are shown in Figure A-3. It is important to note here that depreciation of the District's capital assets is computed into the totals. The depreciation factored into the District's net assets for 2009/2010 is \$395,865. This same amount is also factored in as an expense in the current year's financial statements. A second factor affecting the net assets was the pay-down of long-term debt in the amount of \$525,000 which decreased debt and increased net assets.

Revenue Sources. The District's total revenue for the 2009/2010 school year was \$21,321,638 (See Figure A-4). Property taxes and state formula aid accounted for most of the District's revenue, with local taxes accounting for \$17,270,828 of the total, or 81.00% (See Figure A-5). Another 17.50% came from state and federal aid and the remainder from miscellaneous sources and charges for services.

Governmental Activities

As discussed elsewhere in this commentary, the financial position of the District declined in this past year. Maintaining existing programs with increased regular pupil enrollment and the provision of a multitude of special programs and services for disabled pupils place great demands on the District's resources. In recent years, numerous veteran teachers have retired and have been replaced by teachers of less experience. Such changes have generated significant salary savings, but these have not been sufficient enough to offset increased enrollment, increased special education programs and increased health benefit costs.

Careful management of expenses remains essential for the District to sustain its financial health. Among the many significant cost savings actions implemented during the year were:

- Region II, a joint venture with other area school districts, provides all of the transportation routes to out-of-District special education schools.
- The District has utilized aides to assist the special education students and provide more support for those students.
- Standard practice has been to maintain lower costs by seeking competitive proposals each year for services.

It is crucial that the District examine its expenditures carefully. Increasing parental and student demands for new activities and programs must be evaluated thoroughly. District resources are at their tightest level in a decade.

Figure A-7 presents the cost of six major District activities: instruction, pupil and instructional services, administration and business, maintenance and operations, transportation, and other. The table also shows each activity's net cost (total cost less fees generated by the activities and intergovernmental aid provided for specific programs). The net cost shows the financial burden placed on the District's taxpayers by each of these functions:

Figure A-7

- The cost of all governmental activities this year was \$20,650,098.
- The federal and state governments subsidized certain programs with grants and contributions (\$3.73 million).
- Most of the District's costs were financed by District taxpayers.

Business-Type Activities

Net assets from the District's business-type activity increased \$10,087 (Refer to Figure A-4). Factors contributing to these results included:

- Food services revenues exceeded expenses by \$10,087, accounting for the entire increase in the net assets of the business-type activities. The Food Services Management company continues to improve the food product and the delivery of that product to the students and faculty with the goal of increasing participation in the school lunch program.

Financial Analysis of the District's Funds

The District's financial position improved due to significant changes in the student clientele and despite difficult economic times. Expenditures during the recent year decreased significantly as the District made a concerted effort to control costs.

Difficult economic times have had a direct impact upon the District's revenue sources. Interest from General Fund investments remained unfavorable as compared to years past. Ratables in the municipality remain more or less stable, thus generating concern for the local tax levy in the future.

These factors are likely to continue for the next few years. To maintain a stable financial position, the District must continue to practice sound fiscal management.

General Fund Budgetary Highlights

Over the course of the year, the District revised the annual operating budget several times. These budget amendments fall into three categories:

- Changes made within budgetary line items for changes in school-based needs for programs, supplies and equipment.
- The preparation of the 2009/2010 budget was difficult as a result of rising costs and the state mandated lower fund balance position of the District. This resulted in the need for numerous line item transfers during the year.
- Allowable appropriations of fund balance.

The decrease in capital assets is due to depreciation totaling \$395,865 offset by the acquisition of equipment as well as building and land improvements totaling \$192,681. Additionally, assets with historical cost of \$5,600 and accumulated depreciation of \$5,600, or net book value of \$ -0-, were disposed during the year. In addition, accumulated depreciation was adjusted by \$15,099 due to a change in the life of the assets. More detailed information about the District's capital assets is presented in Note 6 to the Basic Financial Statements.

Long-term Debt

At year-end, the District had \$7,154,000 in general obligation bonds outstanding which were offset by deferred interest of \$63,199 and reported as a net of \$7,090,801. The decrease from the previous year represents bond principal payments of \$525,000. The Capital leases payable balance at year-end is \$125,702. The District accrued the net amount of \$40,924 with regard to compensated absences payable. More detailed information about the District's long-term liabilities is presented in Note 7 to the Basic Financial Statements.

Factors Bearing on the District's Future Revenue/Expense Changes

At the time these financial statements were prepared and audited, the District was aware of the following existing circumstance that could significantly affect its financial health in the future:

- The District completed construction for the renovation and expansion of both of its elementary schools and the middle school to meet enrollment and curriculum demands.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES
IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED JUNE 30, 2010

Total Net Change in Fund Balances - Governmental Funds (from B-2) \$ 75,170

Amounts Reported for Governmental Activities in the Statement of Activities (A-2) are Different Because:

Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays differ from depreciation in the period.

	Depreciation expense	\$ (395,865)	
	Disposal of Capital Assets, Net of Accumulated Depreciation	(15,099)	
	Amortization of bond issuance costs	6,863	
	Capital outlays	<u>185,818</u>	(218,283)

Repayment of debt service principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets and is not reported in the statement of activities. 525,000

In the statement of activities, interest on long-term debt in the statement of activities is accrued, regardless of when accrued, regardless of when due. In the governmental funds, interest is reported when due. When the accrued interest exceeds the interest paid, the difference is a reduction in the reconciliation (-); when the interest paid exceeds the accrued interest, the difference is an addition to the reconciliation (+). 5,453

Repayment of capital leases is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets and is not reported in the statement of activities. 59,926

In the statement of activities, certain operating expenses, e.g., compensated absences (vacations) are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are reported in the amount of financial resources used (paid). When the earned amount exceeds the paid amount, the difference is a reduction in the reconciliation (-); when the paid amount exceeds the earned amount the difference is an addition to the reconciliation (+). (40,924)

The governmental funds report the bond premium as revenue when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. 5,700

The governmental funds report the effect of deferred interest cost relative to advance refunding when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. (7,900)

The governmental funds report the effect of issuance costs when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. (13,726)

BOROUGH OF HILLSDALE SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2010

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Board of Education (the "Board") of the Borough of Hillsdale School District (the "District") have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the Board's accounting policies are described below.

A. Reporting Entity:

The Board is an instrumentality of the State of New Jersey, established to function as an educational institution. The Board consists of elected officials and is responsible for the fiscal control of the District. A superintendent is appointed by the Board and is responsible for the administrative control of the District.

Governmental Accounting Standards Board publication, Codification of Governmental Accounting and Financial Reporting Standards, Section 2100, "Defining the Financial Reporting Entity" establishes standards to determine whether a governmental component unit should be included in the financial reporting entity. The basic criterion for inclusion or exclusion from the financial reporting entity is the exercise of oversight responsibility over agencies, boards and commissions by the primary government. The exercise of oversight responsibility includes financial interdependency, selection of governing authority, designation of management, ability to significantly influence operations, and accountability for fiscal matters. In addition, certain legally separate, tax-exempt entities that meet specific criteria (i.e. benefit of economic resources, access/entitlement to economic resources, and significances) should be included in the financial reporting entity. The combined financial statements include all funds of the District over which the Board exercises operating control. The operations of the District include elementary schools located within the Borough of Hillsdale. There were no additional entities required to be included in the reporting entity under the criteria as described above, in the current fiscal year. Furthermore, the District is not includable in any other reporting entity on the basis of such criteria.

B. Basis of Presentation:

District-Wide Financial Statements:

The statement of net assets and the statement of activities present financial information about the District's governmental and business-type activities. These statements include the financial activities of the overall government in its entirety, except those that are fiduciary. Eliminations have been made to minimize the double counting of internal transactions. These statements distinguish between the governmental and business-type activities of the District. Governmental activities generally are financed through taxes, intergovernmental revenue and other nonexchange transactions. Business-type activities are financed in part by fees charged to external parties.

The statement of activities presents a comparison between direct expenses and program revenue for business-type activities and for each function of the District's governmental activities. Direct expenses are those that are specifically associated with and are clearly identifiable to a particular function. Indirect expenses are allocated to the functions using an appropriate allocation method or association with the specific function. Indirect expenses include health benefits, employer's share of payroll taxes, compensated absences and tuition reimbursements. Program revenue includes (a) charges paid by the recipients of goods or services offered by the programs, and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenue that is not classified as program revenue, including all taxes, is presented as general revenue. The comparison of direct expenses with program revenues identifies the extent to which each government function or business segment is self-financing or draws from the general revenues of the District.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

B. Basis of Presentation: (Cont'd)

Fund Financial Statements:

During the fiscal year, the School District segregates transactions related to certain School District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. The fund financial statements provide information about the District's funds, including its fiduciary funds. Separate statements for each fund category - *governmental, proprietary and fiduciary* - are presented. The New Jersey Department of Education (NJDOE) has elected to require New Jersey districts to treat each governmental fund as a major fund in accordance with the option noted in GASB No. 34, paragraph 76. The NJDOE believes that the presentation of all funds as major is important for public interest and to promote consistency among district financial reporting models.

The District reports the following governmental funds:

General Fund: The General Fund is the general operating fund of the District and is used to account for all expendable financial resources except those required to be accounted for in another fund. Included are certain expenditures for vehicles and movable instructional or noninstructional equipment which are classified in the capital outlay subfund.

As required by NJDOE, the District includes budgeted capital outlay in this fund. GAAP, as it pertains to governmental entities, states that general fund resources may be used to directly finance capital outlays for long-lived improvements as long as the resources in such cases are derived exclusively from unrestricted revenue. Resources for budgeted capital outlay purposes are normally derived from State of New Jersey Aid, district taxes and appropriated fund balance. Expenditures are those that result in the acquisition of or additions to fixed assets for land, existing buildings, improvements of grounds, construction of buildings, additions to or remodeling of buildings and the purchase of built-in equipment.

Special Revenue Fund: The Special Revenue Fund is used to account for the proceeds of specific revenue from State and Federal Governments (other than major capital projects, debt service or the enterprise funds) and local appropriations that are legally restricted to expenditures for specified purposes.

Capital Projects Fund: The Capital Projects Fund is used to account for all financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds). The financial resources are derived from temporary notes or serial bonds that are specifically authorized by the voters as a separate question on the ballot either during the annual election or at a special election.

Debt Service Fund: The Debt Service Fund is used to account for the accumulation of resources for and the payment of principal and interest on bonds issued to finance major property acquisition, construction and improvement programs.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

B. Basis of Presentation: (Cont'd)

The District reports the following proprietary fund:

Enterprise (Food Service) Fund: The Enterprise Fund accounts for all revenue and expenses pertaining to the Board's cafeteria operations. The food service fund is utilized to account for operations that are financed and operated in a manner similar to private business enterprises. The stated intent is that the cost (i.e., expenses including depreciation and indirect costs) of providing goods or services to the students on a continuing basis are financed or recovered primarily through user charges.

Additionally, the District reports the following fund type:

Fiduciary Funds: The Fiduciary Funds are used to account for assets held by the District on behalf of others and includes the Student Activities Fund, Payroll Agency Fund and Unemployment Compensation Insurance Trust Fund.

C. Measurement Focus and Basis of Accounting

The district-wide financial statements and the proprietary and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenue is recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash transaction takes place. Nonexchange transactions, in which the District gives or receives value without directly receiving or giving equal value in exchange, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenue is recognized when measurable and available. The District considers all revenue reported in the governmental funds to be available if the revenue is collected within sixty days after the end of the fiscal year. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences which are recognized as expenditures to the extent they have matured. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Under the terms of grant agreements, the District may fund certain programs by a combination of specific cost-reimbursement grants, categorical block grants and general revenue. Therefore, when program expenses are incurred, both restricted and unrestricted net assets may be available to finance the program. It is the District's policy to first apply cost-reimbursement grant resources to such programs, followed by general revenue.

Reports for the District's Food Service Fund are prepared following the Financial Accounting Standards Board (FASB) Statements and Interpretations issued on or before November 30, 1989; Accounting Principles Board Opinions; and Accounting Research Bulletins, unless those pronouncements conflict with Governmental Accounting Standards Board (GASB) pronouncements.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

D. Budgets/Budgetary Control:

Annual appropriated budgets are prepared in the spring of each year for the general, special revenue and debt service funds. The budgets are submitted to the County office and are voted upon at the annual school election on the third Tuesday in April. Budgets are prepared using the modified accrual basis of accounting. The legal level of budgetary control is established at line item accounts within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in N.J.A.C. 6:20-2A.2(m)1. Transfers of appropriations may be made by School Board resolution at any time during the fiscal year. All budgetary amounts presented in the accompanying supplementary information reflect the original budget and the amended budget (which have been adjusted for legally authorized revisions or the annual budgets during the year). Budget amendments during the year ended June 30, 2010 were numerous but not considered significant.

Formal budgetary integration into the accounting system is employed as a management control device during the year. For governmental funds, there are no substantial differences between the budgetary basis of accounting and generally accepted accounting principles, with the exception of the special revenue fund as noted below. Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental fund types. Unencumbered appropriations lapse at fiscal year end.

The accounting records of the special revenue fund are maintained on the grant accounting budgetary basis. The grant accounting budgetary basis differs from GAAP in that the grant accounting budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenue, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial reports.

The General Fund budgetary revenue differs from GAAP revenue due to a difference in recognition of the last two state aid payments for the current year. Since the State is recording the last two state aid payments in the subsequent fiscal year, the District cannot recognize this payment on the GAAP financial statements.

E. Cash and Cash Equivalents and Investments:

Cash and cash equivalents include petty cash and cash in banks. Certificates of deposit with maturities of one year or less when purchased are stated at cost.

New Jersey school districts are limited as to type of investments and types of financial institutions they may invest in. New Jersey Statute 18A:20-37 provides a list of permissible investments that may be purchased by New Jersey school districts. Additionally, the District has adopted a cash management plan that requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act (GUDPA). GUDPA was enacted in 1970 to protect governmental units from a loss of funds on deposit with a failed banking institution in New Jersey.

N.J.S.A. 17:9-41 et seq. establishes the requirements for the security of deposits of governmental units. The statute requires that no governmental unit shall deposit public funds in a depository unless such funds are secured in accordance with the Act. Public depositories include Savings and Loan institutions, banks (both state and national banks) and savings banks the deposits of which are federally insured. All public depositories must pledge collateral, having a market value of at least equal to five percent of the average daily balance of collected public funds, to secure the deposits of government units. If a public depository fails, the collateral it has pledged, plus the collateral of all the other public depositories, is available to pay the full amount of their deposits to the governmental units.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

F. Interfund Transactions:

Transfers between governmental and business-type activities on the District-wide statements are reported in the same manner as general revenues. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing source/uses in governmental funds and after non-operating revenues/expenses in the enterprise fund. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

On fund financial statements, short-term interfund loans are classified as interfund receivables/payables. These amounts are eliminated in the statement of net assets, except for amounts due between governmental and business-type activities, which are presented as internal balances.

G. Allowance for Uncollectible Accounts:

No allowance for uncollectible accounts has been recorded as all amounts are considered collectible.

H. Encumbrances:

Under encumbrance accounting purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve a portion of the applicable appropriation. Open encumbrances in governmental funds other than the special revenue fund are reported as reservations of fund balances at fiscal year end as they do not constitute expenditures or liabilities but rather commitments related to unperformed contracts for goods and services.

Open encumbrances in the special revenue fund for which the District has received advances are reflected in the balance sheet as deferred revenue at fiscal year end.

The encumbered appropriation authority carries over into the next fiscal year. An entry will be made at the beginning of the next fiscal year to increase the appropriation reflected in the certified budget by the outstanding encumbrance amount as of the current fiscal year end.

I. Short-term Interfund Receivables/Payables:

Short-term interfund receivables/payables represent amounts that are owed, other than charges for goods or services rendered to/from a particular fund in the District and that are due within one year.

J. Inventories and Prepaid Expenses:

Inventories and prepaid expenses, which benefit future periods, other than those recorded in the enterprise fund, are recorded as an expenditure during the year of purchase.

Enterprise fund inventories are valued at cost, which approximates market, using the first-in, first-out (FIFO) method. Prepaid expenses in the enterprise fund represent payments made to vendors for services that will benefit periods beyond June 30, 2010.

BOROUGH OF HILLSDALE SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2010
(Continued)

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

K. Capital Assets:

During the year ended June 30, 1994, the District established a formal system of accounting for its capital assets. Capital assets acquired or constructed subsequent to June 30, 1994, are recorded at historical cost, including ancillary charges necessary to place the asset into service. Capital assets acquired or constructed prior to the establishment of the formal system are valued at cost based on historical records or through estimation procedures performed by an independent appraisal company. Land has been recorded at estimated historical cost. Donated capital assets are valued at their estimated fair market value on the date received. The cost of normal maintenance and repairs is not capitalized. The District does not possess any infrastructure. Capital assets have been reviewed for impairment.

The capitalization threshold (the dollar value above which asset acquisitions are added to the capital asset accounts) is \$2,000. The depreciation method is straight-line. The estimated useful lives of capital assets reported in the district-wide statements and proprietary funds are as follows:

	<u>Estimated Useful Life</u>
Buildings	30 years
Site Improvements	20 years
Machinery and Equipment	10 to 15 years
Computer and Related Technology	5 years
Vehicles	8 years

In the fund financial statements, fixed assets used in governmental fund operations are accounted for as capital outlay expenditures in the governmental fund upon acquisition. Fixed assets are not capitalized and related depreciation is not reported in the fund financial statements.

L. Long Term Liabilities:

In the District-wide and enterprise fund statements of net assets, long-term debt and other long-term obligations are reported as liabilities in the applicable government activities, business-type activities, or enterprise funds. Bond issuance costs, as well as applicable bond premium and discounts, are reported as deferred charges and amortized over the term of the related debt using the straight-line method of amortization. In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, as expenditures in the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses.

M. Accrued Salaries and Wages:

The District does not allow employees who provide services over the ten-month academic year the option to have their salaries evenly distributed during the entire twelve-month year, therefore, there are no accrued salaries and wages as of June 30, 2010.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

N. Compensated Absences:

The District accounts for compensated absences (e.g., unused vacation, sick leave) as directed by Governmental Accounting Standards Board Statement No. 16 (GASB 16), *Accounting for Compensated Absences*. A liability for compensated absences attributable to services already rendered and not contingent on a specific event that is outside the control of the employer and employee is accrued as employees earn the rights to the benefits.

District employees are granted varying amounts of vacation and sick leave in accordance with the District's personnel policy. Upon termination, employees are paid for accrued vacation. The District's policy permits employees to accumulate unused sick leave and carry forward the full amount to subsequent years. Upon retirement, employees shall be paid by the District for the unused sick leave in accordance with the District's agreements with the various employee unions.

In the District-wide Statement of Net Assets, the liabilities, whose average maturities are greater than one year, should be reported in two components - the amount due within one year and the amount due in more than one year.

O. Deferred Revenue:

Deferred revenue in the special revenue fund represents cash which has been received but not yet earned. See Note 1(D) regarding the special revenue fund.

P. Fund Balance Appropriated:

General Fund: Of the \$874,811 General Fund fund balance at June 30, 2010, \$301,574 is reserved for encumbrances; \$8,205 is reserved in the capital reserve account; \$18,034 has been appropriated and included as anticipated revenue for the year ended June 30, 2011; \$225,608 is excess surplus as described below and \$321,390 is unreserved and undesignated.

Capital Projects Fund: Of the \$11,075 Capital Projects Fund fund balance at June 30, 2010, \$6,585 is reserved for encumbrances and \$4,490 is unreserved and undesignated.

Debt Service Fund: The Debt Service Fund fund balance at June 30, 2010 is \$42,174; of that amount \$42,108 has been appropriated and included as anticipated revenue for the year ended June 30, 2011.

Calculation of Excess Surplus: In accordance with N.J.S.A. 18A:7F-7, as amended by P.L. 2004, C.73 (S1701), the designation for Reserved Fund Balance-Excess Surplus is a required calculation pursuant to the New Jersey Comprehensive Educational Improvement and Financing Act of 1996 (CEIFA). New Jersey school Districts are required to reserve General Fund fund balance at the fiscal year end of June 30 if they did not appropriate a required minimum amount as budgeted fund balance in their subsequent year's budget. The District has excess surplus of \$225,608 at June 30, 2010.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

P. Fund Balance Appropriated: (Cont'd)

The District's unreserved/undesignated fund balance in the General Fund is less on a GAAP basis than the budgetary basis by \$97,206 as reported in the fund statements (modified accrual basis). P.L. 2003, C.97 provides that in the event a state school aid payment is not made until the following school budget year, districts must record the last two state aid payments as revenue, for budget purposes only, in the current school budget year. The bill provides legal authority for school districts to recognize this revenue in the current budget year. For intergovernmental transactions, GASB Statement No. 33 requires that recognition (revenue, expenditure, asset, liability) should be in symmetry, i.e., if one government recognizes an asset, the other government recognizes a liability. Since the State is recording the last two state aid payments in the subsequent fiscal year, the school district cannot recognize the last two state aid payments on the GAAP financial statements until the year the State records the payable. The excess surplus calculation is calculated using the fund balance reported on the Budgetary Comparison Schedule, including the two final state aid payments and not the fund balance reported on the fund statement which excludes the last two state aid payments.

Q. Fund Balance Reserves:

The School District reserves those portions of fund balance which are legally segregated for a specific future use or which do not represent available expendable resources and, therefore, are not available for appropriation or expenditures. Unreserved fund balance indicates that portion which is available for appropriation in future periods. Fund balance reserves have been established for encumbrances, excess surplus and capital reserve.

R. Deficit Fund Balances/Net Assets

The District has no deficit fund balances as of June 30, 2010, but does have a deficit in unrestricted net assets for governmental activities of \$669,819.

S. Net Assets:

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt, consists of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any borrowing used for the acquisition, construction, or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the School District or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. The School District's policy is to first apply restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

T. Revenue - Exchange and Nonexchange Transactions:

Revenue, resulting from exchange transactions in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On the modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means within sixty days of the fiscal year end.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

T. Revenue - Exchange and Nonexchange Transactions: (Cont'd)

Nonexchange transactions, in which the School District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On the accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted; matching requirements, in which the School District must provide local resources to be used for a specified purpose; and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis. On the modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year end: property taxes, interest and tuition.

U. Operating Revenue and Expenses:

Operating revenue are those revenues that are generated directly from the primary activity of the Enterprise Fund. For the School District, these revenues are sales for food service. Operating expenses are necessary costs incurred to provide the service that is the primary activity of the Enterprise Fund.

V. Management Estimates:

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of revenue and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

NOTE 2. EXPLANATION OF CERTAIN DIFFERENCES BETWEEN GOVERNMENTAL FUND STATEMENTS AND DISTRICT-WIDE STATEMENTS

Due to the differences in the measurement focus and basis of accounting used on the government fund statements and district-wide statements, certain financial transactions are treated differently. The basic financial statements contain a full reconciliation of these items.

NOTE 3. CASH AND CASH EQUIVALENTS AND INVESTMENTS

Cash and cash equivalents include petty cash, change funds, amounts in deposits, money market accounts, and short-term investments with original maturities of three months or less.

Investments are stated at cost, which approximates market. The Board classifies certificates of deposit which have original maturity dates of more than three months but less than twelve months from the date of purchase, as investments.

GASB Statement No. 40, *Governmental Accounting Standards Board Deposit and Investment Risk Disclosures*, requires disclosure of the level of custodial credit risk assumed by the Board in its cash, cash equivalents and investments, if those items are uninsured or unregistered. Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned.

NOTE 3. CASH AND CASH EQUIVALENTS AND INVESTMENTS (Cont'd)

Interest Rate Risk – In accordance with its formal cash management plan, the Board ensures that any deposit or investment matures within the time period that approximates the prospective need for the funds, deposited or invested, so that there is not a risk to the market value of such deposits or investments.

Credit Risk – The Board limits its investments to those authorized in its formal cash management plan which are those permitted under state statute as detailed on the following pages.

Deposits:

New Jersey statutes permit the deposit of public funds in institutions located in New Jersey, which are insured by the Federal Deposit Insurance Corporation (FDIC) or by any other agencies of the United States that insure deposits or the State of New Jersey Cash Management Fund.

New Jersey statutes require public depositories to maintain collateral for deposits of public funds that exceed insurance limits as follows:

The market value of the collateral must equal 5% of the average daily balance of public funds on deposit, and

In addition to the above collateral requirement, if public funds deposited exceed 75% of the capital funds of the depository, the depository must provide collateral having a market value at least equal to 100% of the amount exceeding 75%.

All collateral must be deposited with the Federal Reserve Bank, the Federal Home Loan Bank Board or a banking institution that is a member of the Federal Reserve System and has capital funds of not less than \$25,000,000.

Investments

New Jersey statutes permit the Borough to purchase the following types of securities:

- (1) Bonds or other obligations of the United States of America or obligations guaranteed by the United States of America;
- (2) Government money market mutual funds;
- (3) Any obligation that a federal agency or a federal instrumentality has issued in accordance with an act of Congress, which security has a maturity date not greater than 397 days from the date of purchase, provided that such obligation bears a fixed rate of interest not dependent on any index or other external factor;
- (4) Bonds or other obligations, having a maturity date not more than 397 days from the date of purchase, approved by the Division of Investment of the Department of the Treasury for investment by local units;
- (5) Local government investment pools;
- (6) Deposits with the State of New Jersey Cash Management Fund; or

- (7) Agreements for the repurchase of fully collateralized securities if:
- (a) the underlying securities are permitted investments pursuant to paragraphs (1) and (3) above;
 - (b) the custody of collateral is transferred to a third party;
 - (c) the maturity of the agreement is not more than 30 days;
 - (d) the underlying securities are purchased through a public depository as defined in statute; and
 - (e) a master repurchase agreement providing for the custody and security of collateral is executed.

As of June 30, 2010, cash and cash equivalents and investments of the District consisted of the following:

	<u>Cash and Cash Equivalents</u>	<u>Capital Reserve Account</u>	<u>Total</u>
Checking Accounts	\$ 898,531	\$ 8,205	\$ 906,736
Money Market	11,523		11,523

	<u>\$ 924,295</u>	<u>\$ 8,205</u>	<u>\$ 932,500</u>

During the period ended June 30, 2010, the District did not hold any investments. The carrying amount of the Board's cash and cash equivalents at June 30, 2010 was \$932,500 and the bank balance was \$1,224,651. The \$14,241 in the State of New Jersey Cash Management Fund is uninsured and unregistered.

NOTE 4. CAPITAL RESERVE ACCOUNT

A capital reserve account was established by Board resolution by inclusion of \$1 on September 25, 2001 for the accumulation of funds for use as capital outlay expenditures in subsequent fiscal years. The capital reserve account is maintained in the general fund and its activity is included in the general fund annual budget.

Funds placed in the capital reserve account are restricted to capital projects in the District's approved Long Range Facilities Plan (LRFP). Upon submission of the LRFP to the State Department of Education, a District may increase the balance in the capital reserve by appropriating funds in the annual general fund budget certified for taxes or by transfer by board resolution at year end of any unanticipated revenue or unexpended line item appropriation amounts, or both. A District may also appropriate additional amounts when the express approval of the voters has been obtained either by a separate proposal at budget time or by a special question at one of the four special elections authorized pursuant to N.J.S.A. 19:60-2. Pursuant to N.J.A.C. 6:23A-5.1(d)7, the balance in the account cannot at any time exceed the local support costs of uncompleted capital projects in its approved LRFP.

A. Bonds Payable:

Bonds are authorized in accordance with State law by the voters of the municipality through referendums. All bonds are retired in serial installments within the statutory period of usefulness. Bonds issued by the Board are general obligation bonds and are liquidated through the debt service fund.

On April 30, 2008, the District issued \$2,340,000 Refunding School Bonds at 3.30% for the refunding of a portion of its 1997 School Bonds issued in the original principal amounts of \$3,983,000. The District advance refunded a \$2,293,000 portion of the 1997 School Bond maturing on June 15, 2017 at 5.25%. The District's net present value savings as a result of the refunding was \$361,790 over the life of the issue. The proceeds of the issue are being held by an escrow agent until the School Bonds can be redeemed.

The District had bonds outstanding as of June 30, 2010 as follows:

D. Compensated Absences:

The liability for compensated absences of the governmental fund types is recorded in the current and long-term liabilities. The long-term liability balance of compensated absences is \$936,482.

The liability for vested compensated absences of the proprietary fund types is recorded within those funds as the benefits accrue to employees. As of June 30, 2010, no liability existed for compensated absences in the Food Service Fund.

NOTE 8. PENSION PLANS

Substantially all of the Board's employees participate in one of the two contributory, defined benefit public employee retirement systems: the Teachers' Pension and Annuity Fund (TPAF) or the Public Employee's Retirement System (PERS) of New Jersey. These systems are sponsored and administered by the State of New Jersey. The TPAF is considered a cost-sharing, multiple employer plan with a special funding situation, as under current statute, all employer contributions are made by the State of New Jersey on behalf of the Board and the system's other noncontribution employers. The PERS is also considered a cost-sharing, multiple-employer plan.

Employees who are members of TPAF or PERS and retire at or after age 55 are entitled to a retirement benefit based upon a formula which takes 1/55th of the average annual compensation for the highest three fiscal years' compensation for each year of membership during years of creditable service. Vesting occurs after 8 to 10 years of service.

The State of New Jersey, Department of the Treasury, Division of Pensions and Benefits, issues publicly available financial reports that include the financial statements and required supplementary information of each of the above systems. The financial reports may be obtained by writing to the State of New Jersey, Department of the Treasury, Division of Pensions and Benefits, PO Box 295, Trenton, New Jersey, 08625-0295.

The contribution policy is set by New Jersey State Statutes and, in most retirement systems, contributions are required by active members and contributing employers. Plan member and employer contributions may be amended by State of New Jersey regulation. Employee contributions are based on percentages of 5.50% for TPAF and 5.50% for PERS of employees' annual compensation, as defined. Employers are required to contribute at an actuarially determined rate.

The actuarially determined employer contribution includes funding for cost-of-living adjustments and noncontributory death benefits, and post-retirement medical premiums. Under current statute, the District is a noncontributing employer of the TPAF.

The State's on behalf APC contributions to TPAF amounted to \$ - 0 - , \$ - 0 - and \$641,196 for 2010, 2009, and 2008, respectively which represented 100% of its net pension obligation (NPO).

NOTE 8. PENSION PLANS (Cont'd)

Effective July 1, 2003, Chapter 108, P.L. 2003 provides for a reduction or "phase-in" of the required pension contribution to PERS for local employers for State fiscal years 2005-2008. The local employer PERS normal and accrued liability contributions required for State fiscal years 2005-2008 are as follows:

- 20% for payments due in State fiscal year 2005
- Not more than 40% for payments due in State fiscal year 2006
- Not more than 60% for payments due in State fiscal year 2007
- Not more than 80% for payments due in State fiscal year 2008

NOTE 9. POST-RETIREMENT BENEFITS

P.L. 1987, c.384 and P.L. 1990, c.6 required the TPAF and PERS, respectively, to fund post-retirement medical benefits for those State employees who retire after accumulating 25 years of credited service or on a disability retirement. Chapter 103 Public Laws 2007 amended the law to eliminate the funding of post-retirement medical benefits through the TPAF and PERS. It created separate funds outside of the pension plans for the funding and payment of post-retirement medical benefits for retired State employees and retired education employees. As of June 30, 2009, there were 84,590 retirees eligible for post-retirement medical benefits. The cost of these benefits is funded through contributions by the State in accordance with P.L. 1994, c.62. Funding of the post-retirement medical benefits changed from a pre-funding basis to a pay-as-you-go basis beginning in Fiscal Year 1994.

The State is also responsible for the cost attributed to P.L. 1992, c.126 which provides free health benefits to members of PERS and the Alternate Benefit Program who retired from a board of education or county college with 25 years of service. The State paid \$116.9 million toward Chapter 126 benefits for 13,320 eligible retired members for Fiscal Year 2009.

The State's on behalf Post Retirement Medical Contributions to TPAF for the District amounted to \$552,859, \$537,482 and \$619,123 for 2010, 2009 and 2008 respectively.

NOTE 10. RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets, errors and omissions; injuries to employees; and natural disasters.

Property, Liability and Health Benefits

The Borough of Hillsdale School District is a member of the Northeast Bergen County School Board Insurance Group, (the "Group"). This public entity risk management pool provides general liability, property and automobile coverage for its members. A complete schedule of insurance coverage can be found in the Statistical Section of this Comprehensive Annual Financial Report. Health benefits are provided to employees through the State of New Jersey Health Benefits Plan.

The Group is a risk-sharing public entity risk pool that is an insured and self-administered group of school boards established for the purpose of providing low-cost insurance for its respective members in order to keep local property taxes to a minimum. Each member appoints an official to represent their respective entity for the purpose of creating a governing body from which officers for the Group are elected.

As a member of the Group, the District could be subject to supplemental assessments in the event of deficiencies. If the assets of the Group were to be exhausted, members would become responsible for their respective shares of the Group's liabilities. The Group can declare and distribute dividends to members upon approval of the State of New Jersey Department of Banking and Insurance. These distributions are divided among the members in the same ratio as their individual assessment related to the total assessment of the membership body.

New Jersey Unemployment Compensation Insurance

The District has elected to fund its New Jersey Unemployment Compensation Insurance under the "Benefit Reimbursement Method". Under this plan, the District is required to reimburse the New Jersey Unemployment Trust Fund for benefits paid to its former employees and charged to its account with the State. The District is billed quarterly for amounts due to the State. The following is a summary of District contributions, interest earned, employee contributions, reimbursements to the State for benefits paid and the ending balance of the District's expendable trust fund for the current and previous two years.

Special Revenue Fund		141,416
Capital Projects Fund		448
Fiduciary Fund	777	
	<u>\$ 142,641</u>	<u>\$ 142,641</u>

The interfund receivable in General Fund and the interfund payable in Special Revenue Fund represents the grants receivable in Special Revenue Fund. The interfund payable in General Fund and the interfund receivable in Fiduciary Fund represents additional payroll expenditures and withholdings not transferred as of June 30, 2010.

During the fiscal year, the Capital Projects Fund earned \$448 in interest income which was not transferred to the General Fund as of June 30, 2010.

NOTE 13. DEFERRED COMPENSATION

The Board offers its employees a choice of the following deferred compensation plans created in accordance with Internal Revenue Code Section 403(b). The plans, which are administered by the entities listed below, permit participants to defer a portion of their salary until future years. Amounts deferred under the plans are not available to employees until termination, retirement, death or unforeseeable emergency. The plan administrators are as follows:

NOTE 14. TAX CALENDAR

Property taxes are levied as of January 1 on property values assessed as of the previous calendar year. The tax levy is divided into two billings. The first billing is an estimate of the current year's levy based on the prior year's taxes. The second billing reflects adjustments to the current year's actual levy. The final tax bill is usually mailed on or before June 14th, along with the first half estimated tax bills for the subsequent year. The first half estimated taxes are divided into two due dates, February 1 and May 1. The final tax bills are also divided into two due dates, August 1 and November 1. A ten- day grace period is usually granted before the taxes are considered delinquent and there is an imposition of interest charges. A penalty may be assessed for any unpaid taxes in excess of \$10,000 at December 31 of the current year. Unpaid taxes of the current and prior year may be placed in lien at a tax sale held after December 10.

Taxes are collected by the constituent municipality and are remitted to the School District on a predetermined, agreed-upon schedule.

NOTE 15. COMMITMENTS AND CONTINGENCIES

The Board is periodically involved in claims or lawsuits arising in the normal course of business, including a claim regarding employment matters. The Board does not believe that the ultimate outcome of these cases will have a material adverse effect on the District's financial position.

The District participates in federal and state assisted grant programs. These programs are subject to program compliance audits by the grantors or their representatives. The District is potentially liable for expenditures which may be disallowed pursuant to the terms of these grant programs. Management of the District is not aware of any material items of noncompliance which would result in the disallowance of grant program expenditures.

Budgets/Budgetary Control:

Annual appropriated budgets are prepared in the spring of each year for the general, special revenue and debt service funds. The budgets are submitted to the County office and are voted upon at the annual school election on the third Tuesday in April. Budgets are prepared using the modified accrual basis of accounting. The legal level of budgetary control is established at line item accounts within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in N.J.A.C. 6:20-2A.2(m)1. Transfers of appropriations may be made by School Board resolution at any time during the fiscal year. All budgetary amounts presented in the accompanying supplementary information reflect the original budget and the amended budget (which have been adjusted for legally authorized revisions or the annual budgets during the year).

Formal budgetary integration into the accounting system is employed as a management control device during the year. For governmental funds, there are no substantial differences between the budgetary basis of accounting and generally accepted accounting principles, with the exception of the special revenue fund as noted below. Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental fund types. Unencumbered appropriations lapse at fiscal year end.

The accounting records of the special revenue fund are maintained on the grant accounting budgetary basis. The grant accounting budgetary basis differs from GAAP in that the grant accounting budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenue, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial reports.

The General Fund budgetary revenue differs from GAAP revenue due to a difference in recognition of the last two state aid payments for the current year. Since the State is recording the last two state aid payments in the subsequent fiscal year, the District cannot recognize this payment on the GAAP financial statements.

RATIOS OF OVERLAPPING GOVERNMENTAL ACTIVITIES DEBT
AS OF JUNE 30, 2010
UNAUDITED

<u>Governmental Unit</u>	<u>Debt Outstanding</u>	<u>Estimated Percentage Applicable ^a</u>	<u>Estimated Share of Overlapping Debt</u>
Debt Repaid with Property Taxes:			
Borough of Hillsdale	\$ 5,518,908	100.00 %	\$ 5,518,908

Borough of Hillsdale School District Direct Debt			<u>7,154,000</u>
Total Direct and Overlapping Debt			<u><u>19,832,600</u></u>

^a For debt repaid with property taxes, the percentage of overlapping debt applicable is estimated using taxable equalized property values. Applicable percentages were estimated by determining the portion of another governmental unit's equalized property value that is within the district's boundaries and dividing it by each unit's total equalized property value.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the District. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by residents and businesses of Hillsdale. This process recognizes that, when considering the District's ability to issue and repay long-term, the entire debt burden borne by the residents and businesses should be taken into account. However this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping unit.

Sources: Assessed value data used to estimate applicable percentages provided by the Bergen County Board of Taxation; debt outstanding data provided by each governmental unit.

Independent Auditors' Report on Internal Control Over Financial Reporting and on
Compliance and Other Matters Based on an Audit of Financial Statements Performed in
Accordance with Government Auditing Standards

The Honorable President and Members
of the Board of Education
Borough of Hillsdale School District
County of Bergen, New Jersey

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Board of Education of the Borough of Hillsdale School District, in the County of Bergen (the "Board") as of, and for the fiscal year ended June 30, 2010, which collectively comprise the School District's basic financial statements and have issued our report thereon dated October 1, 2010. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, audit requirements as prescribed by the Division of Finance, Department of Education, State of New Jersey, and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Board's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing our opinion on the effectiveness of the Board's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Board's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Board's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Board's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of

Financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and audit requirements as prescribed by the Division of Finance, Department of Education, State of New Jersey. However, we noted certain matters that we have reported to the Board in the *Auditor's Management Report on Administrative Findings – Financial, Compliance and Performance* dated October 1, 2010.

This report is intended solely for the information and use of management, the members of the Board of Education, and to meet the requirements for filing with the New Jersey State Department of Education, and other state and federal awarding agencies and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.

Independent Auditors' Report on Compliance with Requirements that could have a Direct
And Material Effect on Each Major Program and on Internal Control Over Compliance in Accordance with
OMB Circular A-133 and New Jersey's OMB Circular NJOMB 04-04

The Honorable President and Members
of the Board of Education
Borough of Hillsdale School District
County of Bergen, New Jersey

Compliance

We have audited the compliance of the Board of Education of the Borough of Hillsdale School District in the County of Bergen (the "Board") with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133 Compliance Supplement* and the New Jersey *State Aid/Grant Compliance Supplement* that could have a direct and material effect on each of its major federal and state programs for the fiscal year ended June 30, 2010. The Board's major federal and state programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal and state programs is the responsibility of the Board's management. Our responsibility is to express an opinion on the Board's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; audit requirements prescribed by the Division of Finance, Department of Education, State of New Jersey (the "Department"); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; OMB Circular A-133, *Audits of States, Local Governments and Nonprofit Organizations*, and New Jersey's OMB Circular NJOMB 04-04, *Single Audit Policy for Recipients of Federal Grants, State Grants, and State Aid*. Those standards, OMB Circular A-133 and New Jersey's OMB Circular NJOMB 04-04 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal or state program occurred. An audit includes examining, on a test basis, evidence about the Board's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the Board's compliance with those requirements.

In our opinion, the Board complied, in all material respects, with the requirements referred to above that that could have a direct and material effect on each of its major federal and state programs for the fiscal year ended June 30, 2010.

The Honorable President and Members
of the Board of Education
Borough of Hillsdale School District
Page 2

Internal Control Over Compliance

The management of the Board is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal and state programs. In planning and performing our audit, we considered the Board's internal control over compliance with requirements that could have a direct and material effect on a major federal or state program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133 and the *New Jersey State Aid/ Grant Compliance Supplement*, but not for the purpose of expressing our opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Board's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal or state program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of management, the members of the Board of Education, and to meet the requirements for filing with the New Jersey State Department of Education, and other federal and state awarding agencies and pass-through entities, and is not intended to be and should not be, used by anyone other than these specified parties.

BOROUGH OF HILLSDALE SCHOOL DISTRICT
NOTES TO THE SCHEDULES OF EXPENDITURES OF FEDERAL AND STATE AWARDS
FOR THE FISCAL YEAR ENDED JUNE 30, 2010

NOTE 1. GENERAL

The accompanying schedules of expenditures of federal and state awards include federal and state award activities of the Board of Education, Borough of Hillsdale School District. The Board of Education is defined in Note 1 to the Board's basic financial statements. All federal and state awards received directly from federal and state agencies, as well as federal and state awards passed through other government agencies is included on the schedules of expenditures of federal and state awards.

NOTE 2. BASIS OF ACCOUNTING

The accompanying schedules of expenditures of federal and state awards are presented using the budgetary basis of accounting with the exception of programs recorded in the Food Service Fund, which are presented using the accrual basis of accounting. These bases of accounting are described in Note 1 to the Board's basic financial statements. The information in these schedules is presented in accordance with the requirements of Federal OMB Circular A-133, *Audits of State and Local Governments, and Non-Profit Organizations* and New Jersey's OMB Circular Letter NJOMB 04-04, *Single Audit Policy for Recipients of Federal Grants, State Grants, and State Aid*. Therefore, some amounts presented in these schedules may differ from amounts presented in, or used in the preparation of, the basic financial statements.

NOTE 3. RELATIONSHIP TO BASIC FINANCIAL STATEMENTS

The basic financial statements present the general fund, special revenue fund and capital projects fund on a GAAP basis. Budgetary comparison statements or schedules (RSI) are presented for the general fund and special revenue fund to demonstrate finance-related legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the audit year, whereas for GAAP reporting, revenue is not recognized until the subsequent year or when expenditures have been made.

The general fund is presented in the accompanying schedules on the modified accrual basis with the exception of the revenue recognition of the last two state aid payments in the current budget year, which is mandated pursuant to P.L. 2003, C.97 (A3521). For GAAP purposes that payment is not recognized until the subsequent budget year due to the state deferral and recording of the last two state aid payments in the subsequent year. The special revenue fund is presented in the accompanying schedules on the grant accounting budgetary basis which recognizes encumbrances as expenditures and also recognizes the related revenue, whereas the GAAP basis does not. The capital projects fund is presented in the accompanying schedules on the budgetary basis with the exception of the revenue recognition of the Educational Facilities Construction and Financing Act grants which are realized as revenue upon their award, whereas the GAAP basis recognizes the revenue to the extent of actual expenditures.
