Honorable President and
Members of the Board of Education
Cape May County Technical School District
County of Cape May, New Jersey

Dear Board Members:

The comprehensive annual financial report of the Cape May County Technical School District for the fiscal year ended June 30, 2011 is hereby submitted. Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures, rests with the management of the Board of Education. To the best of our knowledge and belief, the data presented in this report is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

The comprehensive annual financial report is presented in four sections: Introductory, Financial, Statistical and Single Audit. The Introductory Section includes this transmittal letter, the District's organizational chart and a list of principal officials. The Financial Section includes the Basic Financial Statements and Schedules, as well as the Auditor's Report thereon. The Statistical Section includes selected financial and demographic information, generally presented on a multi-year basis. The District is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act of 1984 as revised in 1996, and the U.S. Office of Management and Budget Circular A-133, "Audits of States, Local Governments and Nonprofit Organizations," and the state Treasury Circular Letter 04-04 OMB, "Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid." Information related to this single audit, including the Auditor's Report on the Internal Control Structure and Compliance with Applicable Laws and Regulations and Findings and Recommendations, are included in the Single Audit Section of this report.

1. MAJOR INITIATIVES: The District implemented a variety of initiatives during the 2010-2011 school year.

Interdisciplinary and cross curricular project initiatives continue to keep students engaged and focused on learning outcomes. These real world projects offer our students the opportunity to understand the academic relevance of their course work. All courses are academically rigorous and adapted to meet the dynamic demands of the global economy which requires the 21st Century skills taught here at the Technical High School. The District's summer Bridging program provides support for our new, at-risk 9th and 10th grade students. This program helps the new students' transition into the school with stronger study skills and academics. The tutoring program that has been in place for several years continues to help students in all grades to be successful in achieving passing grades in their classes. Students are placed in mandatory tutoring which is provided at no charge to our students by our certified staff.

During the 2010-11 school year, for first-time 11th graders only, 98.6% of the students achieved proficiency or advanced proficiency on the Language Arts section of the High School Proficiency Assessment (HSPA). For the first-time 11th graders only, on the Mathematics section of the HSPA 81.6% achieved proficiency or advanced proficiency.

The District continues to offer online courses for our students through our affiliation with the Middle States accredited Virtual High School. Another new initiative is our hybrid course (online and face to face) to implement the new Financial Literacy course/credits requirement instituted by the NJ Department of Education. Our students also received training on the skills required to participate in online learning. Interdisciplinary teaching and learning enabled the students to engage in project based learning. The academic and technical teachers developed and implemented interdisciplinary projects culminating in the celebration of each with an instructional focus.

The District and our students continued to receive recognition at both the state and national levels during the school year. Our students competed in various SKILLS USA competitions and many received medal recognition. Members of the FFA chapter earned first and second place honors in several different competitions state-wide including a Superior National Chapter Award.

All technical career schedules reflect the needs of students and the requirements of the curriculum with most technical majors operating on a two-period per day schedule. The high school site committees focused on interdisciplinary projects, peer leadership, mentoring and ongoing teacher support. Teachers received training on problem based learning and the integration of academic and career courses using project –based learning.

The technology infrastructure continues to be enhanced each year to support upgraded and new technology and programming. In addition to our being a wireless campus, our online collaborative network that utilizes a Moodle server has ensured students and staff enjoy an advertisement free safe environment for teaching, learning and collaboration. The teachers and students had access to desktop and lap top computers for online research and collaboration in all their courses.

2. INTERNAL ACCOUNTING CONTROLS: Management of the District is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles (GAAP). The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

As a recipient of federal and state financial assistance, the District also is responsible for ensuring that an adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control structure is also subject to periodic evaluation by the District management. As part of the District's single audit described earlier, tests are made to determine the adequacy of the internal control structure, including that portion related to federal and state financial assistance programs, as well as to determine that the District has complied with applicable laws and regulations.

3. BUDGETARY CONTROLS: In addition to internal accounting controls, the District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the Board of School Estimates. Annual appropriated budgets are adopted for the general fund and the special revenue fund. Project-length budgets are approved for the capital improvements accounted for in the capital projects fund. The final budget amount as amended for the fiscal year is reflected in the financial section.

An encumbrance accounting system is used to record outstanding purchase commitments on a line item basis. Open encumbrances at year-end are either canceled or are included as reappropriations of fund balance in the subsequent year. Those amounts to be reappropriated are reported as reservations of fund balance at June 30, 2011.

4. ACCOUNTING SYSTEM AND REPORTS: The District's accounting records reflect generally accepted accounting principles, as promulgated by the Governmental Accounting Standards Board (GASB). The accounting system of the District is organized on the basis of funds. These funds are explained in "Notes to the Financial Statements," Note 1.

5. FINANCIAL INFORMATION AT FISCAL YEAR-END: As demonstrated by the various statements and schedules included in the financial section of this report, the District continues to meet its responsibility for sound financial management. The following schedule presents a summary of the general, special revenue and capital projects fund revenues for the fiscal year ended June 30, 2011 and the amount and percentage of increases in relation to prior year revenues.

<u>Revenue</u>	<u>2010-2011 Amount</u>	<u>Percent of Total</u>	<u>Increase (Decrease) from 2010</u>	<u>Percent of Change</u>
Local Sources	\$ 12,627,062.12	82.59%	\$ (112,254.24)	-0.88%
State Sources	1,988,879.89	13.01%	(200,349.55)	-9.15%
Federal Sources	<u>673,212.57</u>	<u>4.40%</u>	<u>(196,913.69)</u>	<u>-22.63%</u>
	<u>\$ 15,289,154.58</u>	<u>100.00%</u>	<u>\$ (509,517.48)</u>	<u>-3.23%</u>

The decrease in Local Sources is primarily attributed to a decrease in tuition charges. The decrease in State and Federal Sources is due to a reduction in State and Federal Aid.

The following schedule presents a summary of general, special revenue and capital projects fund expenditures for the fiscal year ended June 30, 2011 and the percentage of increases and decreases in relation to prior year amounts.

<u>Expenditures</u>	<u>2010-2011 Amount</u>	<u>Percent of Total</u>	<u>Increase (Decrease) from 2010</u>	<u>Percent of Increase (Decrease)</u>
Current Expense:				
Instruction	\$ 5,468,743.30	36.14%	\$ 38,113.12	0.70%
Undistributed Expenditures	7,804,276.76	51.57%	(16,290.70)	-0.21%
Capital Outlay	571,747.96	3.78%	324,966.21	131.68%
Special Schools	<u>1,287,556.87</u>	<u>8.51%</u>	<u>(657,034.58)</u>	<u>-33.79%</u>
Total	<u>\$ 15,132,324.89</u>	<u>100.00%</u>	<u>\$ (310,245.95)</u>	<u>-2.01%</u>

The increase in Capital Outlay Expenditures is mainly due to an increase in the purchase of various capital equipment.

6. DEBT ADMINISTRATION: All debt of the District is the obligation of the County of Cape May. The County sold \$14,769,000 of bonds in September 2006 to fund the renovations and addition to the Technical High School.

7. CASH MANAGEMENT: The investment policy of the District is guided in large part by state statute as detailed in "Notes to the Financial Statements," Note 2. The District has adopted a cash management plan that requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act ("GUDPA"). GUDPA was enacted in 1970 to protect governmental units from a loss of funds on deposit with a failed banking institution in New Jersey. The law requires governmental units to deposit public funds only in public depositories located in New Jersey, where the funds are secured in accordance with the Act.

8. RISK MANAGEMENT: The Board carries various forms of insurance, including but not limited to general liability, automobile liability and comprehensive/collision, hazard and theft insurance on property and contents, and fidelity bonds.

9. OTHER INFORMATION:

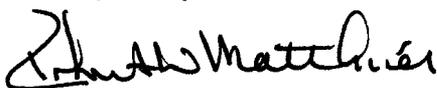

A) Independent Audit - State statutes require an annual audit by independent certified public accountants or registered municipal accountants. The accounting firm of Ford, Scott & Associates, L.L.C., CPAs, was selected by the Board of Education. In addition to meeting the requirements set forth in state statutes, the audit also was designed to meet the requirements of the Single Audit Act of 1984 as revised in 1996, and the related OMB Circular A-133 and New Jersey OMB Circular Letter 04-04. The auditor's report on the general-purpose financial statements and combining and individual fund statements and schedules is included in the financial section of this report. The auditor's reports related specifically to the single audit are included in the single audit section of this report.

10. ACKNOWLEDGMENTS:

With the support of the Board of Chosen Freeholders, the Cape May County Technical School will continue to provide for the educational needs of students of all ages throughout the county. The increased technology in the district will help assure that our high school students are computer literate early in their secondary education and that they will be able to use that technology and knowledge to help create for themselves a challenging and rewarding future. We will continue to offer educational programs for adults who need to upgrade their skills or learn new ones and we will continue to make learning enjoyable and interesting through our varied evening program that provides dozens of vocational and avocational classes.

Our teachers and administration are dedicated to helping students of all ages reach their potential and to help students realize that learning is a journey, not a destination that ends with graduation.

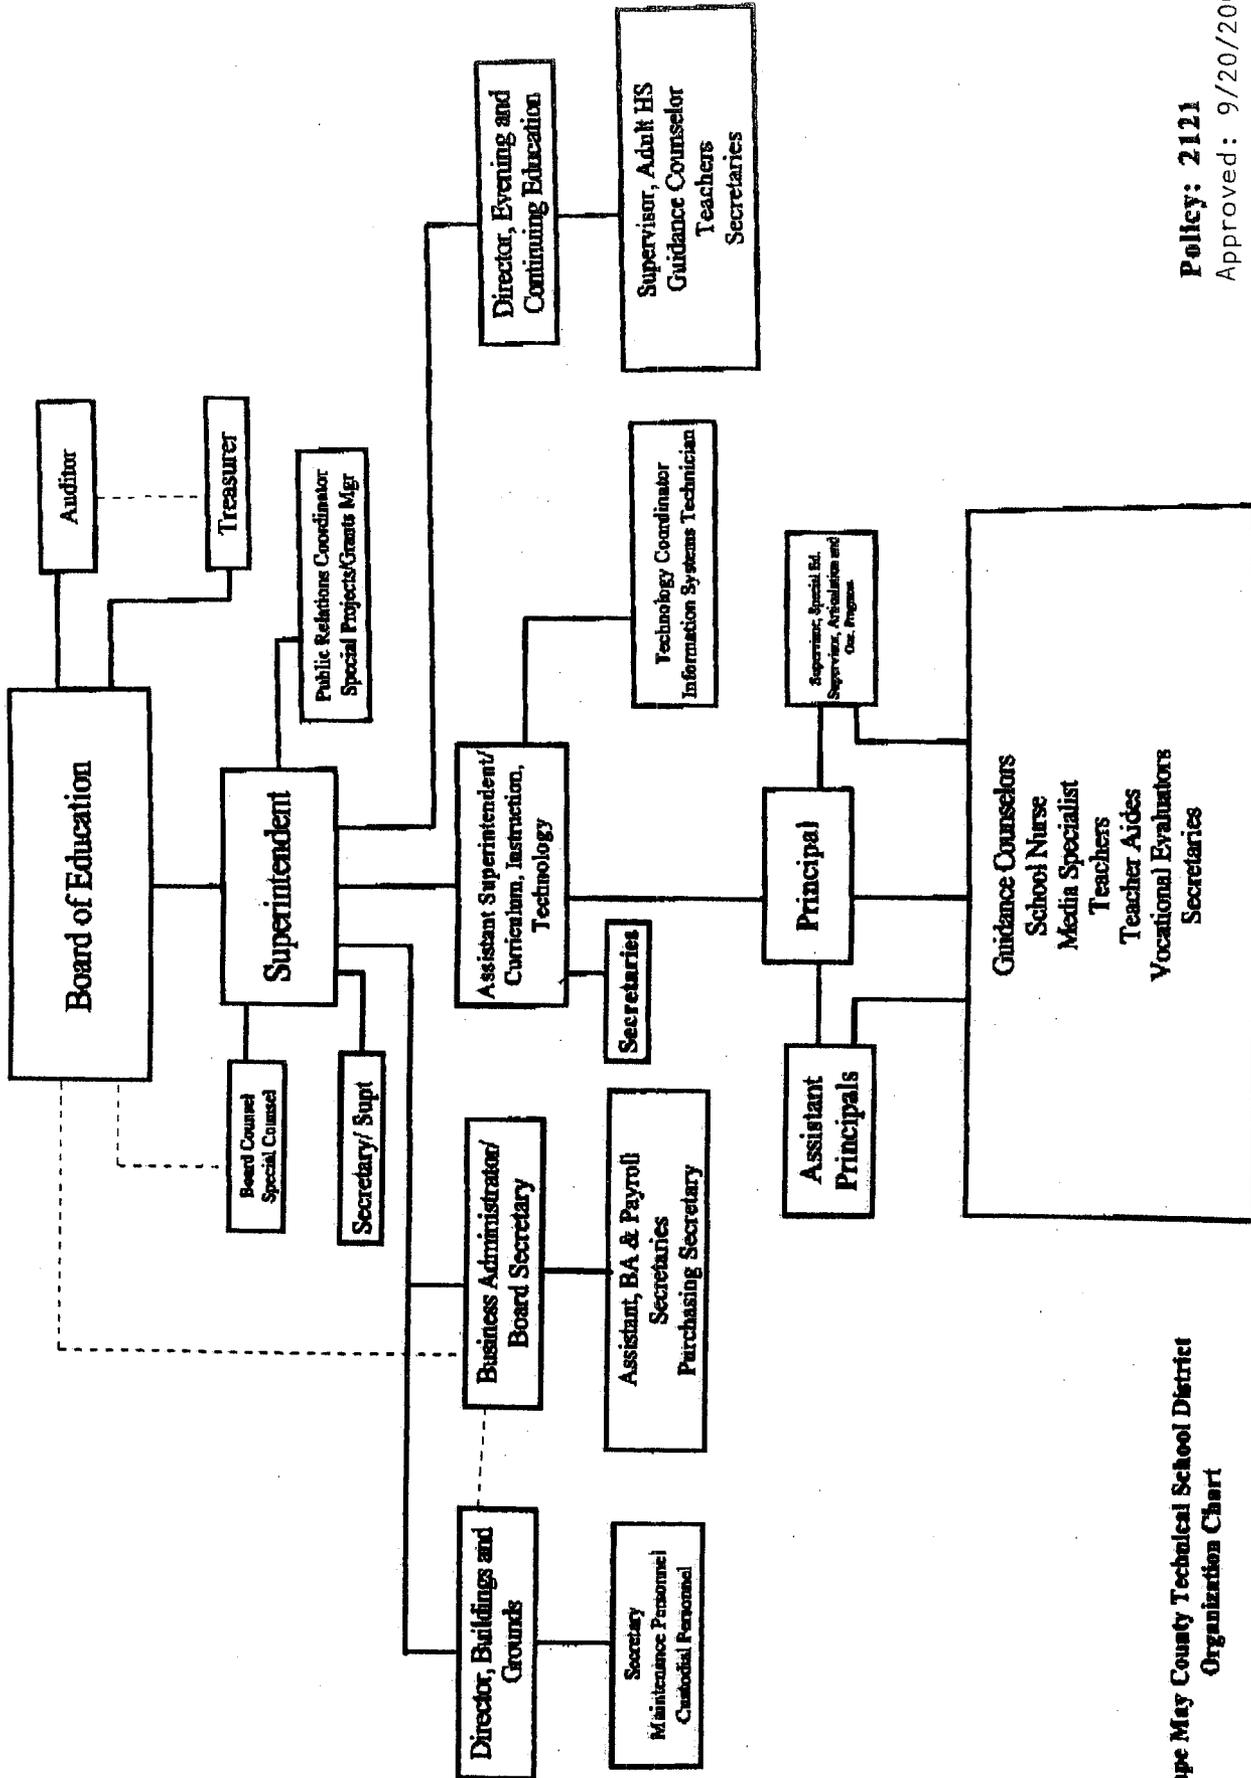

Respectfully submitted,

Robert W. Matthies

INDEPENDENT AUDITOR'S REPORT

The Honorable President and
Members of the Board of Education
For Vocational Schools
County of Cape May, New Jersey

We have audited the accompanying financial statements of the governmental activities, the business-type activities and each major fund of the Board of Education for Vocational Schools, in the County of Cape May, State of New Jersey, as of and for the year ended June 30, 2011, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Board of Education for Vocational School's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and audit requirements as prescribed by the Division of Finance, Department of Education, State of New Jersey. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, of the Board of Education for Vocational Schools, in the County of Cape May, State of New Jersey, as of June 30, 2011, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated November 15, 2011 on our consideration of the Board of Education for Vocational Schools' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of our audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The Management Discussion and Analysis and Budgetary Comparison Information, as listed in the table of contents, are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Board of Education for Vocational Schools' basic financial statements. The accompanying introductory section, combining statements, and related major fund supporting statements and schedules, and statistical information listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining statements and related major fund supporting statements and schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated, in all material respects, in relation to the basic financial statements taken as a whole. The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

The accompanying schedules of expenditures of federal awards and state financial assistance are presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*; and New Jersey OMB's Circular 04-04, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid*, and are not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

**BOARD OF EDUCATION FOR VOCATIONAL SCHOOLS
COUNTY OF CAPE MAY
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2011
UNAUDITED**

The discussion and analysis of Cape May County Technical School District's financial performance provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2011. The intent of this discussion and analysis is to look at the School District's financial performance as a whole; readers should also review the basic financial statements and notes to enhance their understanding of the School District's financial performance.

The Management's Discussion and Analysis (MD&A) is a new element of Required Supplementary Information specified in the Governmental Accounting Standards Board's (GASB) Statement No. 34 - Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments issued in June 1999.

Financial Highlights

Key financial highlights for 2011 are as follows:

- In total, net assets decreased by \$889,462, which represents less than a 3.7 percent decrease from 2010. The difference is due a combination of factors affecting the current year.
- General revenues accounted for \$13,271,190 in revenue or 85 percent of all revenues. Program specific revenues in the form of charges for services and operating grants and contributions accounted for \$2,345,185 or 15 percent of total revenues of \$15,619,379.
- Total assets of governmental activities decreased by \$991,012 as cash and cash equivalents increased by \$137,827, receivables decreased by \$203,549, and capital assets decreased by \$937,691.
- The School District had \$16,505,837 in expenses; only \$2,345,185 of these expenses was offset by program specific charges for services, grants or contributions. General revenues (primarily taxes, county capital appropriation and tuition) of \$13,271,190 provided for these programs.
- Among governmental funds, the General Fund had \$14,500,562 in revenues and \$14,579,173 in expenditures. The General Fund's fund balance decreased \$78,610 over 2010.

Using this Comprehensive Annual Financial Report (CAFR)

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand Cape May County Technical School District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The Statement of Net Assets and Statement of Activities provide information about the activities of the whole School district, presenting both an aggregate view of the School district's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the School district's most significant funds with all other non-major funds presented in total in one column. In the case of Cape May County Technical District, the General Fund is the most significant fund.

Reporting the School District as a Whole

Statement of Net Assets and the Statement of Activities

While this document contains the large number of funds used by the School District to provide programs and activities, the view of the School District as a whole looks at all financial transactions and ask the question, "How did we do financially during 2011?" The Statement of Net Assets and the Statement of Activities answer this question. These statements include all assets and liabilities using the accrual basis of accounting similar to the accounting used by most private-sector businesses. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the School District's net assets and changes in those assets. This change in net assets is important because it tells the reader that, for the school district as a whole, the financial position of the School district have improved or diminished. The causes of this change may be the result of many factors, some financial and some not. Non-financial factors include the School District's property tax base, current laws in New Jersey restricting revenue growth, facility condition, required educational programs and other factors.

In the Statement of Net Assets and the Statement of Activities, the School District is divided into two distinct kinds of activities:

- **Governmental Activities** - All of the School District's programs and services are reported here including instruction, support services, operation and maintenance of plant facilities, pupil transportation and extracurricular activities.
- **Business-Type Activity** - This service is provided on a charge for goods or services basis to recover all the expenses of the goods or services provided. The Food Service enterprise fund is reported as a business activity.

Reporting the School District's Most Significant Funds

Fund Financial Statements

Fund financial reports provide detailed information about the School District's funds. The School District uses many funds to account for a multitude of financial transaction. The School District's governmental funds are the General Fund, Special Revenue Fund, Capital Projects Fund, and Debt Service Fund.

Governmental Funds

The School District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in the future years. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the School district's general government operations and the basic services it provides. Governmental fund information helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Assets and the Statement of Activities) and governmental funds is reconciled in the financial statements.

Enterprise Fund

The enterprise fund uses the same basis of accounting as business-type activities; therefore, these statements are essentially the same.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the District-wide and fund financial statements. The Notes to the Financial Statements can be found on pages 29 to 47 of this report.

The School District as a Whole

Recall that the Statement of Net Assets provides the perspective of the School District as a whole. Net assets may serve over time as a useful indicator of a government's financial position.

The District's financial position is the product of several financial transactions including the net results of activities, the acquisition and payment of debt, the acquisition and disposal of capital assets, and the depreciation of capital assets.

Table 1 provides a summary of the School District's net assets for 2011 and 2010.

Business-Type Activities

Revenues for the District's business-type activities (food service program) were comprised of charges for services and federal and state reimbursements.

- Food service expenses exceeded revenues by \$20,145.
- Charges for services represent \$189,594 of revenue. This represents amounts paid by students and others for daily food service.
- Federal and state reimbursement for meals, including payments for free and reduced lunches and breakfast, and donated commodities was \$77,975.

Governmental Activities

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting those services. Table 3 shows the total cost of services and the net cost of services for 2011 and 2010. The net cost shows the financial burden that was placed on the District's taxpayers by each of these functions.

Governmental Activities (Continued)

Operation and maintenance of facilities involve keeping the school grounds, buildings, and equipment in an effective working condition.

Pupil transportation includes activities involved with the conveyance of students to and from school, as well as to and from school activities, as provided by State law.

"Other" includes unallocated depreciation.

The School District's Funds

All governmental funds (i.e., general fund, special revenue fund and capital projects fund presented in the fund-based statements) are accounted for using the modified accrual basis of accounting. Total revenues amounted to \$15,289,155 and expenditures were \$15,380,935. The net negative change in fund balance for the year was most significant in the General Fund, a decrease of \$78,610.

As demonstrated by the various statements and schedules included in the financial section of this report, the District continues to meet its responsibility for sound financial management. The following schedules present a summary of the revenues of the governmental funds for the fiscal year ended June 30, 2011, and the amount and percentage of total revenues compared to prior year revenues.

General Fund Budgeting Highlights

The School District's budget is prepared according to New Jersey law, and is based on accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the General Fund.

Over the course of the year, the District revised the annual operating budget several times. Revisions in the budget were made to prevent over-expenditures in specific line item accounts. Several of these revisions bear notation:

The District transferred more than \$475,364 into capital outlay equipment line items during the year for capital purchases.

A withdrawal from the capital reserve account was made during 2010/11 in the amount of \$33,325 to fund projects that are part of the Long Range Facilities Plan.

TPAF Social Security and On-Behalf TPAF Pension are recorded as both non-budget revenue and expenditure lines in the budgetary comparison schedule. These amounts reflect contributions made by the State of New Jersey to the District's Teachers retirement plans. This amount was more than \$820,355 during 2010/11.

Capital Assets

At the end of the fiscal year 2011, the School District had \$21,395,266 invested in land, building, furniture and equipment, and vehicles. Table 4 shows fiscal year 2011 balances compared to 2010.

**Table 4
Capital Assets (Net of Depreciation) at June 30**

Total	\$ 21,395,265.83	\$ 22,206,679.00

Overall capital assets decreased \$811,413 from fiscal year 2010 to fiscal year 2011. The decrease in capital assets is due primarily to depreciation expense exceeding the cost of new additions to capital assets. For more detailed information, please refer to the Notes to the Financial Statements.

Debt Administration

The Cape May County Technical School District is a Type I district. As such, all debt of the district is considered the obligation of the County of Cape May. The Board of School Estimates has authorized a capital project in the amount of \$14,769,143 and the County sold bonds in September 2006.

For the Future

The Cape May County Technical School District is in good financial condition presently. The School District is proud of the community and Board of Chosen Freeholder support and of the public schools.

In conclusion, the Cape May County Technical School District has committed itself to financial excellence for many years. In addition, the School District's system for financial planning, budgeting, and internal financial controls are well regarded. The School District plans to continue its sound fiscal management to meet the challenge of the future.

Contacting the School District's Management

of Governmental Funds to the Statement of Activities
For the Year Ended June 30, 2011**

Total Net Change in Fund Balance - Governmental Funds (from B-2) \$ (91,780.31)

Amounts reported for governmental activities in the statement of activities (A-2) are different because:

Capital outlays are reported in governmental funds as expenditures.

However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense.

This is the amount capital outlays exceeded depreciation for the period.

	Depreciation expense	\$ (1,432,217.29)	
	Capital Outlays	<u>497,410.36</u>	
			(934,806.93)

In the statement of activities, only the loss on disposal of capital assets is reported, whereas in the governmental funds, the proceeds from the sale (if any) increases financial resources. Thus, the change in net assets differs from the change in fund balance by book value of the assets disposed.

(2,884.24)

In the statement of activities, certain operating expenses, e.g., compensated absences (vacations) are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are reported in the amount of financial resources used (paid). When the earned amount exceeds the paid amount, the difference is a reduction in the reconciliation (-); when the paid amount exceeds the earned amount, the difference is an addition to the reconciliation (+).

**BOARD OF EDUCATION
FOR VOCATIONAL SCHOOLS, COUNTY OF CAPE MAY
NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2011**

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Board of Education (Board) of Cape May County Technical School District (District) have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the Board's accounting policies are described below.

A. Reporting Entity

The District is an instrumentality of the State of New Jersey, established to function as an educational institution. The Cape May County Technical School District is a Type I District located in the County of Cape May, State of New Jersey. As a Type I District, the School District functions independently through a Board of Education. The Board is comprised of four members appointed to four-year terms, appointed by the Board of Chosen Freeholders, and the County Superintendent of Schools as an ex-officio member. The purpose of the District is to educate students in grades 9-12 for both regular and vocational programs and operate the adult and continuing education programs.

In evaluating how to define the governmental reporting entity, the District follows the provisions of GASB Statement No. 14, *The Financial Reporting Entity*, under which the financial statements include all the organizations, activities, functions, and component units for which the District is financially accountable. Financial accountability is defined as the appointment of a voting majority of the component unit's board and either (1) the District's ability to impose its will over the component unit, or (2) the possibility that the component unit will provide a financial benefit to or impose a financial burden on the District. On this basis, the District's financial reporting entity has no component units. But, as a Type I District, would be considered a component unit of the County of Cape May. The County of Cape May however reports on the statutory basis of accounting which does not recognize component units. If the County followed Generally Accepted Accounting Principles (GAAP) reporting, the Board of Education would be a component unit of the County of Cape May.

B. Basis of Presentation, Measurement Focus and Basis of Accounting

Basis of Presentation

The School District's basic financial statements consist of District-wide statements (i.e. statement of net assets and a statement of activities) and fund financial statements, which provide a more detailed level of financial information.

District-Wide Financial Statements: The statement of net assets and the statement of activities display information about the district as a whole. These statements report the financial activities of the overall District, except for fiduciary activities. Individual funds are not displayed but the statements distinguish governmental activities, generally supported by property taxes, intergovernmental revenues, and other non-exchange transactions from business-type activities, generally financed in whole or in part with fees charged to external parties.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

B. Basis of Presentation, Measurement Focus and Basis of Accounting - Continued

The statement of net assets presents the financial condition of the governmental and business-type activity of the School District at fiscal year end. The statement of activities presents a comparison between direct expenses and program revenues for the business-type activity of the District and for each function of the District's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) charges and fees paid by the recipients of goods or services offered by the programs; and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including taxes, are presented as general revenues. The comparison of direct expenses with program revenues identifies the extent to which each governmental function or business segment is self-financing, or draws from the general revenues of the School District.

Fund Financial Statements: During the fiscal year, the School District segregates transactions related to certain School District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. The fund financial statements provide information about the District's funds, including its fiduciary funds. Separate statements for each fund category – *governmental*, *proprietary*, and *fiduciary* - are presented. The New Jersey Department of Education ("Department") has elected to require New Jersey districts to treat each governmental fund as a major fund in accordance with the option noted in GASB No. 34, paragraph 76. The Department believes that the presentation of all funds as major is important for public interest and to promote consistency among district financial reporting models.

Governmental Funds

The District reports the following governmental funds:

General Fund - The General Fund is the general operating fund of the District and is used to account for all expendable financial resources except those required to be accounted for in another fund. Included are certain expenditures for vehicles and movable instructional or non-instructional equipment, which are classified in the capital outlay sub-fund.

As required by the New Jersey State Department of Education, the District includes budgeted capital outlay in this fund. Generally accepted accounting principles, as they pertain to governmental entities, state that general fund resources may be used to directly finance capital outlays for long-lived improvements as long as the resources in such cases are derived exclusively from unrestricted revenues. Resources for budgeted capital outlay purposes are normally derived from State of New Jersey Aid, district taxes and appropriated fund balance. Expenditures are those that result in the acquisition of or additions to fixed assets for land, existing buildings, improvements of grounds, construction of buildings, additions to or remodeling of buildings and the purchase of built-in equipment. These resources can be transferred from and to Current Expense by board resolution.

Special Revenue Fund - The Special Revenue Fund is used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes.

Capital Projects Fund - The Capital Projects Fund is used to account for all financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by Proprietary Funds). The financial resources are derived from temporary notes or serial bonds that are specifically authorized by the Board of School Estimates. The district does not have an active Capital Projects Fund.

Proprietary Funds

The District reports the following proprietary fund:

Enterprise Funds - Enterprise funds are used to account for operations that are financed and operated in a manner similar to private business operations – where the intent of the District is that the costs of providing goods or services be financed or recovered primarily through user charges.

The District's Enterprise Fund is comprised of the following;

A Food Service Fund, which accounts for all revenues and expenses pertaining to the District's cafeteria operations.

An Early Childhood/Summertime Adventures Fund, which accounts for all revenues and expenses pertaining to these separate programs.

A Job Card Fund, which accounts for all revenues and expenses pertaining to the job cards operated by the district for different vocations such as culinary arts, the bake shop, auto mechanics, etc.

An Educational Technology Training Center Fund, which accounts for all revenues and expenses pertaining to the training center programs.

Fiduciary Funds

Trust and Agency Funds - The Trust and Agency Funds are used to account for assets held by the District in a trustee capacity or as an agent for individuals, private organizations, other governments and/or other funds.

Expendable Trust Fund - An Expendable Trust Fund is accounted for in essentially the same manner as the governmental fund types, using the same measurement focus and basis of accounting. Expendable Trust Funds account for assets where both the principal and interest may be spent. Expendable Trust Funds include the Unemployment Compensation Insurance Trust.

Agency Funds - Agency funds are used to account for the assets that the District holds on behalf of others as their agent. Agency funds are custodial in nature and do not involve measurement of results of operations. Agency funds include payroll and student activities funds.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

B. Basis of Presentation, Measurement Focus and Basis of Accounting - Continued

Measurement Focus and Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements.

The District-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting as are the proprietary fund and the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year in which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Net assets (total assets less total liabilities) are used as a practical measure of economic resources and the operating statement includes all transactions and events that increased or decreased net assets. Depreciation is charged as expense against current operations and accumulated depreciation is reported on the statement of net assets.

The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the fiscal year. Revenue from federal, state and other grants designated for payment of specific school district expenditures is recognized when the related expenditures are incurred; accordingly, when such funds are received, they are recorded as deferred revenues until earned. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments are recorded only when payment is due.

The District applies only those applicable pronouncements of the Financial Accounting Standards Board issued on or before November 30, 1989 in accounting and reporting for its proprietary operations.

C. Budgets/Budgetary Control

Annual appropriated budgets are prepared in the spring of each year for the general, special revenue, and debt service funds. The budgets are submitted to the county office for approval and are voted upon at the annual school election on the third Tuesday in April. Budgets are prepared using the modified accrual basis of accounting, except for special revenue funds. The legal level of budgetary control is established at line item accounts within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in N.J.A.C. 6A:23-2.2(g). All budget amendments/transfer must be approved by School Board resolution. All budget amounts presented in the accompanying supplementary information reflect the original budget and the amended budget (which have been adjusted for legally authorized revisions of the annual budgets during the year.

Appropriations, except remaining project appropriations, encumbrances and unexpended grant appropriations, lapse at the end of each fiscal year. The capital projects fund presents the remaining project appropriations compared to current year expenditures.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

C. Budgets/Budgetary Control - Continued

Formal budgetary integration into the accounting system is employed as a management control device during the year. For governmental funds there are no substantial differences between the budgetary basis of accounting and generally accepted accounting principles with the exception of the legally mandated revenue recognition of the last state aid payment for budgetary purposes only and the special revenue fund as noted below. Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental fund types. Unencumbered appropriations lapse at fiscal year end.

The accounting records of the special revenue fund are maintained on the grant accounting budgetary basis. The grant accounting budgetary basis differs from GAAP in that the grant accounting budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial reports.

D. Encumbrance Accounting

Under encumbrance accounting, purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve a portion of the applicable appropriation. Open encumbrances in governmental funds other than the special revenue fund are reported as reservations of fund balances at fiscal year end as they do not constitute expenditures or liabilities but rather commitments related to unperformed contracts for goods and services.

Open encumbrances in the special revenue fund for which the District has received advances are reflected in the balance sheet as deferred revenues at fiscal year end.

The encumbered appropriation authority carries over into the next fiscal year. An entry will be made at the beginning of the next fiscal year to increase the appropriation reflected in the certified budget by the outstanding encumbrance amount as of the current fiscal year end.

E. Assets, Liabilities and Equity

Cash, Cash Equivalents and Investments

Cash and cash equivalents include petty cash, change funds, bank deposits and all highly liquid investments with a maturity of three months or less at the time of purchase and are stated at cost plus accrued interest. U.S. Treasury and agency obligations and certificates of deposit with maturities of one year or less when purchased are stated at cost. All other investments are stated at fair value.

New Jersey school districts are limited as to the types of investments and types of financial institutions they may invest in. New Jersey statute 18A:20-37 provides a list of permissible investments that may be purchased by New Jersey school districts.

Additionally, the District has adopted a cash management plan that requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act ("GUDPA"). GUDPA was enacted in 1970 to protect governmental units from a loss of funds on deposit with a failed banking institution in New Jersey.

E. Assets, Liabilities and Equity – Continued

Cash, Cash Equivalents and Investments - Continued

N.J.S.A. 17:9-41 et. seq. establishes the requirements for the security of deposits of governmental units. The statute requires that no governmental unit shall deposit public funds in a public depository unless such funds are secured in accordance with the Act. Public depositories include savings and loan institutions, banks (both state and national banks) and savings banks the deposits of which are federally insured. All public depositories must pledge collateral, having a market value at least equal to five percent of the average daily balance of collected public funds, to secure the deposits of Governmental Units. If a public depository fails, the collateral it has pledged, plus the collateral of all other public depositories, is available to pay the full amount of their deposits to the governmental units.

Interfund Transactions

Transfers between governmental and business-type activities on the District-wide statements are reported in the same manner as general revenues.

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after non-operating revenues/expenses in the Enterprise Fund. Repayments from funds responsible for particular expenditure/expenses to the funds that initially paid for them are not presented on the financial statements.

Inventories

Inventories, other than those recorded in the enterprise fund, are recorded as expenditures during the year of purchase. Inventories in the Enterprise Fund are recorded at cost, computed on a first-in, first out method. In the fund based financial statements, commodities received from the U.S. Department of Agriculture are recorded as deferred revenue until consumed.

Capital Assets

The District has established a formal system of accounting for its capital assets. Purchased or constructed capital assets are reported at cost. Donated assets are recorded as capital assets at their estimated fair market value at the date of donation. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. The capitalization threshold used by school districts in the State of New Jersey is \$2,000.

All reported capital assets except for land and construction in progress, are depreciated. Depreciation is computed using the straight-line method over their estimated useful lives. Useful lives vary from 15 to 50 years for land improvements and buildings, and 5 to 15 years for equipment.

Infrastructure improvements such as sidewalks and parking lots are reported as land improvements in the district's capital asset report.

Compensated Absences

The District accounts for compensated absences (e.g., unused sick, vacation leave) as directed by Governmental Accounting Standards Board Statement No. 16 (GASB 16), "Accounting for Compensated Absences". A liability for compensated absences that are attributable to services already rendered, and that are not contingent on a specific event that is outside the control of the District and its employees, is accrued as the employees earn the rights to the benefits. Compensated absences that relate to future services, or that are contingent on a specific event that is outside the control of the District and its employees, are accounted for in the period in which such services are rendered or in which such events take place.

District employees are granted varying amounts of vacation and sick leave in accordance with the District's personnel policies. Upon termination, employees are paid for accrued vacation. The District's policy permits employees to accumulate unused sick leave and carry forward the full amount to subsequent years. Upon retirement, employees shall be paid by the District for the unused sick leave in accordance with the District's agreements with the various employee unions.

The liability for compensated absences was accrued using the termination payment method, whereby the liability is calculated based on the amount of sick leave that is expected to become eligible for payment upon termination. The District estimates its accrued compensated absences liability based on the accumulated sick and vacation days at the balance sheet date by those employees who are currently eligible to receive termination payments.

For the District-Wide Statements, the current portion is the amount estimated to be used in the following year. In accordance with GAAP, for the governmental funds, in the Fund Financial Statements, all of the compensated absences are considered long-term and therefore, are not a fund liability and represents a reconciling item between the fund level and District-wide presentations.

Deferred Revenue

Deferred revenue arises when assets are recognized before revenue recognition criteria have been satisfied. Grants and entitlements received in the Special Revenue Fund before they have been earned are recorded as deferred revenue.

Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities, and long-term obligations are reported on the District-wide financial statements. In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. However, contractually required pension contributions and compensated absences that are paid from governmental funds are reported as liabilities on the fund financial statements only to the extent that they are due for payment during the current year. Bonds are recognized as a liability on the fund financial statements when due.

Net Assets

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt, consists of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any borrowing used for the acquisition, construction, or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use, either through the enabling legislation adopted by the School District, or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. The School District's policy is to first apply restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

Fund Balance Reserves

In accordance with Governmental Accounting Standards Board Statement 54, Fund Balance Reporting and Governmental Fund Type Definitions, the District classified governmental fund balances as follows;

- Non-spendable – Includes fund balance amounts that cannot be spent either because it is not in spendable form or because of legal or contractual restraints.
- Restricted - Includes fund balance amounts that are constrained for specific purposes which are externally imposed by providers such as creditors or amounts constrained due to constitutional provisions or enabling legislation.
- Committed – Includes fund balance amounts that are constrained for specific purposes that are internally imposed by the government through formal action of the highest level of decision making authority and does not lapse at year end.
- Assigned – Includes fund balance amounts that are intended to be used for specific purposes that are neither considered restricted or committed. Fund Balance may be assigned by Board of School Estimates, the Board of Education, Superintendent or Business Administrator.
- Unassigned – Includes positive fund balance within the General Fund which has not been classified within the above mentioned categories and negative fund balances in other governmental funds.

Revenues – Exchange and Nonexchange Transactions

Revenues resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On the modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means the resources will be collected within the current fiscal year, or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means within sixty days of the fiscal year end.

Revenues – Exchange and Nonexchange Transactions - Continued

Nonexchange transactions, in which the School District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On the accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from income taxes is recognized in the period in which the income is earned. Revenue from grants, entitlement, and donations is recognized in the period in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted; matching requirements, in which the School District must provide local resources to be used for a specific purpose; and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis. On the modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year end: property taxes as an advance, interest and tuition.

Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the enterprise fund. For the School District, these revenues are sales for food service. Operating expenses are necessary costs incurred to provide the service that is the primary activity of the enterprise fund.

Allocation of Indirect Expenses

The District reports all direct expenses by function in the Statement of Activities. Direct expenses are those that are clearly identifiable with a function. Indirect expenses are allocated to functions but are reported separately in the Statement of Activities. Employee benefits, including the employer's share of social security, workers compensation, and medical and dental benefits, were allocated based on salaries of that program. Depreciation expense, where practicable, is specifically identified by function and is included in the direct expense column of the Statement of Activities. Depreciation expense that could not be attributed to a specific function is considered an indirect expense and is reported separately on the Statement of Activities. Interest on long-term debt is considered an indirect expense and is reported separately on the Statement of Activities.

Extraordinary and Special Items

Extraordinary items are transactions or events that are unusual in nature and infrequent in occurrence. Special items are transactions or events that are within control of management and are either unusual in nature or infrequent in occurrence.

Management Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

NOTE 9 – PENSION PLANS

Description of Plans - All required employees of the District are covered by either the Public Employees' Retirement System, the Teachers' Pension and Annuity Fund or the Defined Contribution Retirement Program which have been established by state statute and are administered by the New Jersey Division of Pension and Benefits (Division). According to the State of New Jersey Administrative Code, all obligations of the Systems will be assumed by the State of New Jersey should the Systems terminate. The Division issues a publicly available financial report that includes the financial statements and required supplementary information for the Public Employees Retirement System and the Teachers' Pension and Annuity Fund. These reports may be obtained by writing to the Division of Pensions and Benefits, PO Box 295, Trenton, New Jersey, 08625.

Teachers' Pension and Annuity Fund (TPAF) - The Teachers' Pension and Annuity Fund was established as of January 1, 1955, under the provisions of N.J.S.A. 18A:66 to provide retirement benefits, death, disability and medical benefits to certain qualified members. The Teachers' Pension and Annuity Fund is considered a cost-sharing multiple-employer plan with a special funding situation, as under current statute, all employer contributions are made by the State of New Jersey on behalf of the District and the system's other related non-contributing employers. Membership is mandatory for substantially all teachers or members of the professional staff certified by the State Board of Examiners, and employees of the Department of Education who have titles that are unclassified, professional and certified.

Public Employees' Retirement System (PERS) - The Public Employees' Retirement System (PERS) was established as of January 1, 1955 under the provisions of N.J.S.A. 43:15A to provide retirement, death, disability and medical benefits to certain qualified members. The Public Employees' Retirement System is a cost-sharing multiple-employer plan. Membership is mandatory for substantially all full-time employees of the State of New Jersey or any county, municipality, school district, or public agency, provided the employee is not required to be a member of another state-administered retirement system or other state or local jurisdiction.

NOTE 9 – PENSION PLANS - Continued

Defined Contribution Retirement Program (DCRP) - The Defined Contribution Retirement Program (DCRP) was established as of July 1, 2008 under the provisions of Chapter 92, P.L. 2008 and Chapter 103, P.L. 2008 (N.J.S.A. 43:15C-1 et seq.). The DCRP is a cost-sharing multiple-employer defined contribution pension fund. The DCRP provides eligible members, and their beneficiaries with a tax-sheltered, defined contribution retirement benefit, along with life insurance and disability coverage. Vesting and benefit provisions are established by N. J.S.A. 43:15C-1 et. seq.

The contribution requirements of plan members are determined by state statute. In accordance with Chapter 92, P.L. 2008 and Chapter 103, P.L. 2008, plan members are required to contribute 5.5% of their annual covered salary. The State Treasurer has the right under current law to make temporary reductions in member rates based on the existence of surplus plan assets in the retirement system; however statute also requires the return to the normal rate when such surplus pension assets no longer exist. In addition to the employee contributions, the School District's contribution amounts for each pay period are required to be transmitted to Prudential Financial not later than the fifth business day after the date on which the employee is paid for that pay period. The School District has no employees enrolled in the Defined Contribution Retirement Program (DCRP) during the fiscal year ended June 30, 2011.

Vesting and Benefit Provisions - The vesting and benefit provisions for PERS are set by N.J.S.A. 43:15A and 43.3B, and N.J.S.A. 18A:6C for TPAF. All benefits vest after eight to ten years of service, except for medical benefits that vest after 25 years of service. Retirement benefits for age and service are available at age 60 and are generally determined to be 1/60 of the final average salary for each year of service credit, as defined. Final average salary equals the average salary for the final three years of service prior to retirement (or highest three years' compensation if other than the final three years). Members may seek early retirement after achieving 25 years of service credit or they may elect deferred retirement after achieving eight to ten years of service in which case benefits would begin the first day of the month after the member attains normal retirement age. The TPAF and PERS provides for specified medical benefits for members who retire after achieving 25 years of qualified service, as defined, or under the disability provisions of the System. Members are always fully vested for their own contributions and, after three years of service credit, become vested for 2% of related interest earned on the contributions. In the case of death before retirement, members' beneficiaries are entitled to full interest credited to the members' accounts.

Significant Legislation - During the year ended June 30, 1997, legislation was enacted (Chapter 114, P.L. 1997) that changed the asset valuation method from market related value to full-market value. This legislation also contained a provision to reduce the employee contribution rate by 1/2 of 1% to 4.5% for calendar years 1998 and 1999, and to allow for a reduction in the employee's rate after calendar year 1999, providing excess valuation assets are available. The legislation also provided that the Districts' normal contributions to the Fund may be reduced based on the revaluation of assets.

Contribution Requirements - The contribution policy is set by N.J.S.A. 43:15A, Chapter 62, P.L. of 1994, Chapter 115, P.L. of 1997 and N.J.S.A. 18:66, and requires contributions by active members and contributing employers. Plan member and employer contributions may be amended by State of New Jersey legislation. TPAF and PERS provide for employee contributions of 5.5% of employees' annual compensation, as defined. Employers are required to contribute at an actuarially determined rate in both TPAF and PERS. The actuarially determined contribution includes funding for cost-of-living adjustments, noncontributory death benefits, and post-retirement medical premiums. Under current statute the District is a non-contributing employer of the TPAF. The School District's contributions to TPAF for the years ending June 30, 2011, 2010 and 2009 were \$0, \$0, and \$0 respectively, and normally paid by the State of New Jersey on behalf of the board. The State of New Jersey did not make the required contributions for the last three years. The School District's contributions to PERS for the years ending June 30, 2011, 2010, 2009 were \$211,192.00, \$156,084.00, and \$140,372.00 respectively, equal to the required contributions for each year.

During the fiscal year ended June 30, 2011, the State of New Jersey made a contribution to the TPAF for non-contributory insurance and post-retirement benefits on behalf of the District in the amount of \$384,179.00. Also, in accordance with N.J.S.A. 18A:66-66, the State of New Jersey reimbursed the District \$436,175.86 during the year ended June 30, 2011 for the employer's share of social security contributions for TPAF members, as calculated on their base salaries. This amount has been included in the basic financial statements, and the combining and individual fund and account group statements and schedules as a revenue and expenditure in accordance with GASB Statement No. 24.

NOTE 10 – POST-RETIREMENT BENEFITS

P.L. 1987, c. 384 and P.L. 1990, c.6 required Teachers' Pension and Annuity Fund (TPAF) and Public Employees' Retirement System (PERS), respectively, to fund post-retirement medical benefits for those State employees who retire after accumulating 25 years of credited service or on a disability retirement. P.L. 2007, C. 103 amended the law to eliminate the funding and payment of post-retirement medical benefits for retired state employees through TPAF and PERS. It created separate funds outside of the pension plans for the funding and payment of post-retirement medical benefits for retired state employees and retired educational employees. As of June 30, 2010, there were 87,288 retirees eligible for post-retirement medical benefits. The cost of these benefits is funded through contributions by the State in accordance with P.L. 1994, c.62. Funding of post-retirement medical premiums changed from a pre-funding basis to a pay-as-you-go basis beginning in fiscal year 1994.

The State is also responsible for the cost attributable to P.L. 1992 c. 126 which provides free health benefits for members PERS and the Alternative Benefit Program who retired from a board of education or county college with 25 years of service. The State paid \$126.3 million toward Chapter 126 benefits for 14,050 eligible retired members in Fiscal Year 2010.

NOTE 11 – COMPENSATED ABSENCES

The District accounts for compensated absences (e.g., unused vacation, sick leave) as directed by the Governmental Accounting Standards Board Statement No. 16 (GASB 16), "Accounting for Compensated Absences". A liability for compensated absences attributable to services already rendered and not contingent on a specific event that is outside the control of the employer and employee is accrued as employees earn the rights to the benefits.

District employees are granted varying amounts of vacation and sick leave in accordance with the District's personnel policy and negotiated contracts. Upon termination, employees are paid for accrued vacation. The District's policy permits employees to accumulate unused sick leave and carry forward the full amount to subsequent years. Upon retirement, employees are paid by the District for unused sick leave in accordance with the District's negotiated contracts with administrators and various employee unions.

In the district-wide Statement of Net Assets, the liabilities whose average maturities are greater than one year should be reported in two components – the amount due within one year and the amount due in more than one year.

The liability for vested compensated absences of the proprietary fund types is recorded within those funds as the benefits accrue to employees. As of June 30, 2011, the liability for compensated absences in the proprietary funds was \$0.

NOTE 12 – DEFERRED COMPENSATION

The District offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 403(b). The plans, which are administered by the entities listed below, permit participants to defer a portion of their salary until future years. Amounts deferred under the plans are not available to employees until termination, retirement, death or unforeseeable emergency. The plan administrators are as follows:

Lincoln Investment Planning
AXA Equitable
A G Edwards & Son
Vanguard Group

NOTE 13 – CAPITAL RESERVE ACCOUNT

A capital reserve account was established by Board of Education by the inclusion of \$1.00 on October 17, 2000 retroactive to October 13, 2000 for the accumulation of funds for use as capital outlay expenditures in subsequent fiscal years. The capital reserve account is maintained in the general fund and its activity is included in the general fund annual budget.

Funds placed in the capital reserve account are restricted to capital projects in the district's approved Long Range Facilities Plan (LRFP). Upon submission of the LRFP to the department, a district may increase the balance in the capital reserve by appropriating funds in the annual general fund budget certified for taxes or by transfer by board resolution at year end (June 1 to June 30) of any unanticipated revenue or unexpended line-item appropriation amounts, or both. A district may also appropriate additional amounts when the express approval of the Board of School Estimates has been obtained. Pursuant to N.J.A.C. 6A:23A-14.1(g), the balance in the account cannot at any time exceed the local support costs of uncompleted capital projects in its LRFP.

NOTE 14 – RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

Property and Liability Insurance - The District maintains commercial insurance coverage for property, liability and surety bonds. A complete schedule of insurance coverage can be found in the Statistical Section of this Comprehensive Annual Financial Report.

New Jersey Unemployment Compensation Insurance - The District has elected to fund its New Jersey Unemployment Compensation Insurance under the "Benefit Reimbursement Method" until December 2004. Under this plan, the District is required to reimburse the New Jersey Unemployment Trust Fund for benefits paid to its former employees and charged to its account with the State. The District is billed quarterly for amounts due to the State. The District converted to "Contributory Method beginning in January 2005. The following is a summary of District contributions, employee contributions, reimbursements to the State for benefits paid and the ending balance of the District's expendable trust fund for the current and prior year:

<u>Fiscal Year</u>	<u>District Contributions</u>	<u>Employee Contributions</u>	<u>Amount Reimbursed</u>	<u>Ending Balance</u>

2009-2010	-	-	-	4,309.07
2008-2009	-	-	-	4,286.07

NOTE 15 – CONTINGENT LIABILITIES

Federal and State Grants

The District participates in a number of federal and state grant programs. The grant programs are subject to program compliance audits by the grantors or their representatives. The District is potentially liable for expenditures which may be disallowed pursuant to the terms of these grant programs. Management is not aware of any material items of noncompliance would result in the disallowance of program expenditures.

NOTE 16 – FUND BALANCES

Restrictions of funds balances of governmental funds are established to either (1) satisfy legal covenants that require a portion of the fund balance to be segregated or (2) identify the portion of the fund balance that is not appropriate for future expenditures.

The District uses restricted/committed amounts to be spent first when both restricted and unrestricted fund balance is available unless there are legal documents/contracts that prohibit doing this, such as a grant agreement requiring dollar for dollar spending. Additionally, the District does not have a formal fund balance spending policy therefore the default spending order requires committed, assigned and then unassigned to be used be spent first when expenditures are made.

The District follows the State of New Jersey's minimum fund balance policy for New Jersey Vocational Public School Districts (N.J.S.A. 18A:7F-7). Pursuant to that policy, an undesignated fund balance of 6% of the general fund budget or \$250,000, whichever is greater may be maintained.

The District's major sources of special revenue funds is federal grant funding for the No Child Left Behind (NCLB) program, federal grants for special education and adult basic education.

Specific classifications of fund balance are summarized below;

Non-Spendable Fund Balance – The District had no non-spendable fund balance at June 30, 2011.

Restricted Fund Balance

Excess Surplus – \$108,511.11 is restricted as excess surplus in accordance with N.J.S.A. 18A:7F-7 (\$108,511.11 of the total restricted excess surplus has been appropriated and included as anticipated revenue for the year ending June 30, 2012).

Capital Projects – \$3,010.07 is restricted for a Capital Project for additions and renovations to the Technical High School, approved on August 23, 2005.

Capital Reserve Account – Of the \$521,148.76 balance in the capital reserve account at June 30, 2011, \$150,000.00 has been designated for utilization in the 2011-12 budget. These funds are restricted for future capital outlay expenditures for projects in the School District's long range facilities plan (LRFP).

Maintenance Reserve Account – Of the \$647,595.00 balance in the maintenance reserve account at June 30, 2011, \$0 has been designated for utilization in the 2011-12 budget. These funds are restricted for the required maintenance of school facilities in accordance with the Educational Facilities Construction and Financing Act (EFCFA) (N.J.S.A. 18A:7G-9) as amended by P.L. 2004, c. 73 (S1701).

Committed Fund Balance - The District's Committed Fund balance for other purposes of \$33,380.93 consists of construction contracts payable authorized by the Board of Education during 2010-11 for the various capital projects.

Assigned Fund Balance – At June 30, 2011, the District has assigned \$627,064.89 of general fund balance to expenditures in the 2011-12 budget. In addition, the District assigned fund balance in the general fund for other purposes of \$104,623.76. This represents encumbrances resulting from issuing purchase orders as a result of normal purchasing activities approved by District Officials.

Unassigned Fund Balance – At June 30, 2011, the District has \$531,250.67 of unassigned fund balance in the general fund.

NOTE 17 – CALCULATION OF EXCESS SURPLUS

In accordance with N.J.S.A. 18A:7F-7, as amended by P.L. 2006, c. 73 (S1701), the designation for Restricted Fund Balance - Excess Surplus is a required calculation pursuant to the New Jersey Comprehensive Educational Improvement and Financing Act of 1996 (CEIFA). New Jersey school districts are required to restrict General Fund balance at the fiscal year end of June 30 if they did not appropriate a required minimum amount as budgeted fund balance in their subsequent years' budget. The excess fund balance at June 30, 2011 is \$0.00.

NOTE 18 – COMMITMENTS

The District does not have encumbrance policy for the fiscal year end to determine significant encumbrances. All encumbrances are classified as either Assigned Fund Balance in the General Fund, Committed Fund Balance in the Capital Projects Fund or Deferred Revenue in the Special Revenue Fund.

Significant encumbrances at June 30th are as follows;

Fund	Amount
General Fund - Encumbered Orders	\$ 104,623.76
Special Revenue Fund - Encumbered Orders	\$ 29,222.39
Capital Projects Fund - Encumbered Orders	33,380.93
	\$ 167,227.08

NOTE 19 – ECONOMIC DEPENDENCY

The District receives support from federal government and from state governments through local school districts. A significant reduction in the level of support, if this were to occur, would have an effect on the District's programs and activities.

NOTE 20 – SUBSEQUENT EVENTS

Management has reviewed and evaluated all events and transactions that occurred from June 30, 2011 through November 15, 2011, the date that the financial statements were issued for possible disclosure and recognition in the financial statements, and no items have come to the attention of the District that would require disclosure.

FIDUCIARY FUNDS DETAIL STATEMENTS

Trust funds are used to account for gifts and bequests to the school district for a specific purpose.

Unemployment Fund - This trust fund is an expendable trust fund and limits expenses set aside for this purpose in current and prior budgets and contributions from employee withholding in prior years.

Scholarship Fund – this is an expendable trust fund that receives funds from private contributions and disburses funds for scholarships and graduation awards to students.

Agency funds are used to account for assets held by the school district as an agent for individuals, private organizations, other governments and/or other funds.

Student Activity Fund - This agency fund is used to account for student funds held at the schools.

Payroll Fund - This agency fund is used to account for the payroll transactions of the school district.

**K-1 REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

Honorable President and
Members of the Board of Education
for Vocational Schools
County of Cape May, New Jersey

We have audited the financial statements of the Board of Education for Vocational Schools in the County of Cape May, State of New Jersey, as of and for the fiscal year ended June 30, 2011, and have issued our report thereon dated November 15, 2011. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and audit requirements prescribed by the Division of Finance, Department of Education, State of New Jersey.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Board of Education for Vocational Schools in the County of Cape May's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Board of Education for Vocational Schools in the County of Cape May's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Board of Education for Vocational Schools in the County of Cape May's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

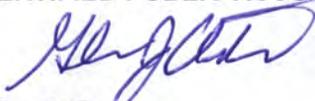

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above. However, We identified certain deficiencies in internal control over financial reporting, described in the accompanying findings and questioned costs that we consider to be significant deficiencies in internal control over financial reporting and listed as item #11-1. A significant deficiency is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Board of Education for Vocational Schools' financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and audit requirements as prescribed by the Division of Finance, Department of Education, State of New Jersey.

This report is intended solely for the information and use of the management of the Board of Education for Vocational Schools in the County of Cape May, the New Jersey State Department of Education (the cognizant audit agency), and other state and federal awarding agencies and is not intended to be and should not be used by anyone other than these parties.

K-2 REPORT ON COMPLIANCE WITH REQUIREMENTS THAT COULD HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133 AND NEW JERSEY OMB CIRCULAR 04-04

Honorable President and
Members of the Board of Education
for Vocational Schools
County of Cape May, New Jersey

Compliance

We have audited the Board of Education for Vocational Schools in the County of Cape May, State of New Jersey's, compliance with types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* and the *New Jersey State Grant Compliance Supplement* that could have a direct and material effect on each of the Board of Education for Vocational Schools in the County of Cape May, State of New Jersey's major federal and state programs for the fiscal year ended June 30, 2011. The Board of Education's major federal and state programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal and state programs is the responsibility of the School District's management. Our responsibility is to express an opinion on the Board of Education's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; the audit requirements as prescribed by the Division of Finance, Department of Education, state of New Jersey; OMB Circular A-133 *Audits of States, Local Governments, and Non-Profit Organizations*; and New Jersey OMB's Circular 04-04, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid*. Those standards, OMB Circular A-133 and New Jersey OMB's Circular 04-04, require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal or state program occurred. An audit includes examining, on a test basis, evidence about the Board of Education's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the Board of Education for Vocational Schools District's compliance with those requirements.

In our opinion, the Board of Education for Vocational Schools in the County of Cape May, New Jersey complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs for the year ended June 30, 2011.

Internal Control Over Compliance

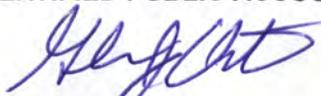

The management of the Board of Education for Vocational Schools District is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal and state programs. In planning and performing our audit, we considered the School District's internal control over compliance with requirements that could have a direct and material effect on a major federal or state program to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133 and New Jersey OMB's Circular 04-04, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct noncompliance with a type of compliance requirement of a federal or state program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of the internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as described above.

This report is intended for the information of the management of the Board of Education for Vocational Schools in the County of Cape May, the New Jersey State Department of Education (the cognizant audit agency), other state and federal awarding agencies and pass-through entities, and is not intended and should not be used by anyone other than these parties.

**BOARD OF EDUCATION FOR VOCATIONAL SCHOOLS
COUNTY OF CAPE MAY
K-5 NOTES TO SCHEDULES OF AWARDS AND FINANCIAL ASSISTANCE
JUNE 30, 2011**

Note 1: General

The accompanying schedules of expenditures of awards and financial assistance present the activity of all federal and state award programs of the Board of Education for Vocational Schools in the County of Cape May. The Board of Education is defined in Note 1(A) to the Board's basic financial statements. All federal and state awards received directly from federal and state agencies, as well as federal awards and state financial assistance passed through other government agencies, is included on the schedule of federal awards and state financial assistance.

Note 2: Basis of Accounting

The accompanying schedules of expenditures of awards and financial assistance are presented using the modified accrual basis of accounting with the exception of programs recorded in the food service fund, which are presented using the accrual basis of accounting, and those recorded in the special revenue fund, which are presented using the budgetary basis of accounting. These bases of accounting are described in Notes 1(C) and 1(D) to the Board's basic financial statements.

Note 3: Relationship to Basic Financial Statements

The basic financial statements present the general fund and special revenue fund on a GAAP basis. Budgetary comparison statements or schedules (RSI) are presented for the general fund and special revenue fund to demonstrate finance-related legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the audit year whereas GAAP reporting, revenue is not recognized until the subsequent year or when the expenditures have been made.

The general fund is presented in the accompanying schedules on the modified accrual basis with the exception of the revenue recognition of the last state aid payment in the current budget year, which is mandated pursuant to P.L. 2003, c.97, (A3521). For GAAP purposes that payment is not recognized until the subsequent budget year due to the state deferral and recording of the last state aid payment in the subsequent year. The special revenue fund is presented in the accompanying schedules on the grant accounting budgetary basis, which recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. The special revenue fund also recognizes the last state aid payment in the current budget year, consistent with N.J.S.A. 18A:22-4.2.

The net adjustment to reconcile from the budgetary basis to the GAAP basis is \$76,588.00 for the general fund and \$28,439.70 for the Special Revenue Fund. See the Notes to Required Supplementary Information for a reconciliation of the budgetary basis to the modified accrual basis of accounting for the general and special revenue funds. Awards and financial assistance revenues are reported in the Board's basic financial statements on a GAAP basis on the following page:

Note 4: Relationship to Federal and State Financial Reports

Amounts reported in the accompanying schedules agree with the amounts reported in the related federal and state financial reports.

Note 5: Other

Revenues and expenditures reported under the Food Distribution Program represent current year value received and current year distributions respectively. The amount reported as TPAF Pension Contributions represents the amount paid by the state on behalf of the district for the year ended June 30, 2011. TPAF Social Security Contributions represents the amount reimbursed by the state for the employer's share of social security contributions for TPAF members for the year ended June 30, 2011.

Note 6: Adjustments

The District has instances where a grant period overlaps fiscal years and the grant has not closed out at the end of the current fiscal year. The adjustments on the following page were a result of prior encumbrances being canceled.

Section II - Financial Statement Findings

Finding 11-1:

As a result of the District's implementation of additional internal controls over Post-Secondary tuition billings and receipts, the District found some cash receipts for student payments of tuition that were not deposited into the school district's bank accounts.

Criteria:

Per N.J.S.A. 18A:17-34, The District shall receive and hold in trust all school moneys belonging to the District from whatever source and be deposited in the designated legal depository.

Condition:

Some student payments of post-secondary tuition that were collected at the School Office were not turned over to the Business Office for deposit to the credit of the School District.

Context:

For the year 2009-2010 there is \$6,360 of un-deposited post-secondary tuition receipts and for the year 2010-2011 there is \$3,005 of un-deposited post-secondary tuition receipts that were not deposited to the credit of the School District.

Effect:

There are funds collected at the School Office for which receipts were issued to students that were not credit as revenue to the District.

Section II - Financial Statement Findings (Continued)

Cause:

Exact cause is under investigation at the time of issuance of this report.

Recommendation:

That internal controls, over the billing and collection of Post-Secondary student tuition, continue to be monitored in order to ensure all funds are deposited into the school district's bank accounts.

Planned corrective action:

A corrective action plan will be filed by the district to address this audit finding.
