The Honorable President and Members of
The Board of Education
Borough of Edgewater School District
County of Bergen, New Jersey

Dear Board Members:

The comprehensive annual financial report of the Borough of Edgewater School District (the "District") for the Fiscal year ended June 30, 2012, is hereby submitted. Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures, rests with the management of the Board of Education (the "Board"). To the best of our knowledge and belief, the data presented in this report is accurate in all material respects and is reported in a manner designed to present fairly the basic financial statements and results of operations of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

The comprehensive annual financial report is presented in four sections: introductory, financial, statistical and single audit. The introductory section includes this transmittal letter, the District's organizational chart and a list of principal officials. The financial section includes the Independent Auditors' Report, management's discussion and analysis, the basic financial statements and notes providing an overview of the District's financial position and operating results, and supplementary schedules providing detailed budgetary information. The statistical section includes selected economic and demographic information, financial trends and the fiscal capacity of the District, generally presented on a multi-year basis. The District is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act Amendments of 1996 and the U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Nonprofit Organizations*, and New Jersey OMB Circular NJOMB 04-04, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid*. Information related to this single audit, including the auditors' reports on the internal control and compliance with applicable laws, regulations, contracts and grants along with findings and questioned costs, is included in the single audit section of this report.

1) REPORTING ENTITY AND ITS SERVICES: The Borough of Edgewater School District is an independent reporting entity within the criteria adopted by the Government Accounting Standards Board ("GASB") in condensation section 2100. All funds of the District are included in this report. The Edgewater Public School System including the Eleanor Van Gelder Elementary School and the George Washington School constitute the District's reporting entity.

2) EDUCATIONAL PROGRAM: The Edgewater Public School System is comprised of one elementary school (Special Education Pre-K to Grade 6), serving approximately 656 students. The public school is accredited by the New Jersey State Department of Education. The District is served by 58.5 (FTE) teachers and 3 (FTE) administrators. Approximately 65% of the faculty has earned masters degrees.

The Honorable President and Members of
 The Board of Education
 Borough of Edgewater School District
 Page 2

The District provides a full range of educational services appropriate to levels PreK through Grade 6. These include reading, language arts, social studies, mathematics, science, computer education, remedial instruction, special education, resource room instruction, family life, physical and health education, career education, world languages and enrichment. The curriculum is aligned with the New Jersey Common Core Standards as required and that of the Leonia Public School System where Edgewater students attend Grades 7-12.

The Edgewater School District continues to perform well on the state assessments. In Language Arts Literacy our proficiency scores exceed the state and DFG mean in every grade. In Mathematics our proficiency scores also exceed the state and DFG mean in every grade. Our general education students scored above the DFG in Language Arts Literacy across all grade levels. Our special education students underperformed relative to the DFG in Language Arts Literacy and our special education students in grades 3 and 5 underperformed relative to the DFG in math. However, our special education students in grades 4 and 6 scored above the state and DFG in math. Our English Language Learners (ELL) generally exceeded the performance of the state and DFG and our economically disadvantaged students outperformed the state in math and Language Arts Literacy.

The District completed the 2011-2012 fiscal year with Pre-K through Grade 6 enrollment of 656 students and Grade 7-12 enrollment of 337 students in Leonia Public Schools, for an overall total of 993 students, which is an increase of 45 students from the previous year's enrollment.

The following table details the changes in the District's average daily enrollment for grade levels Pre-K through 6 as of October 15 over the last five years:

Fiscal Year	Average Daily Enrollment	
	Pre K-6 Enrollment	Percent Change
2011-2012	664	7.44%
2010-2011	618	4.20%
2009-2010	593	22.10%
2008-2009	486	9.21%
2007-2008	445	6.97%

3) ECONOMIC CONDITIONS AND OUTLOOK: The District's primary funding source is property tax revenue. The budget for fiscal year 2011-12 was passed. Overall tax revenue for the General Fund was increased for the 2011-12 school year, but the projected increase in expenditures from inflationary pressures and the enrollment growth has outpaced the additional revenue. As a result, the District, along with many other public school systems in the State, faces some difficult economic situations in the future. The District's administration continues to closely monitor the cost of operations and continues to look for innovative ways to cut costs in addition to finding new funding sources in order to maintain the quality educational services that the District has been accustomed to providing.

The Honorable President and Members of
The Board of Education
Borough of Edgewater School District
Page 3

4) MAJOR INITIATIVES: Specific initiatives for the 2011-2012 school year include the following accomplishments:

- Continuation of the Mentoring Program in second grade
- Curriculum articulation continued between Edgewater and Leonia Schools
- Implemented "push in" math program of special education students in the regular education classrooms
- Continuation of NJ ASK enrichment classes after school
- Continuation of after-school clubs to include scholarships for economically disadvantaged
- Implemented a school-wide Harassment Intimidation and Bullying Policy and program
- Continuation of school wide Conflict Resolution Program
- Provided staff with both in-and-out of district professional development workshops
- Continued to expand our technology program by purchasing additional hardware and software
- Addition of second and fourth grade classrooms

5) INTERNAL ACCOUNTING CONTROLS: Management of the District is responsible for establishing and maintaining an internal control system designed to ensure that the assets of the District are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles (GAAP). The internal control system is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

As a recipient of federal and state awards, the District also is responsible for ensuring that an adequate internal control system is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control system is also subject to periodic evaluation by the District's management.

As part of the District's single audit described earlier, tests are made to determine the adequacy of the internal control system, including that portion related to federal and state award programs, as well as to determine that the District has complied with applicable laws, regulations, contracts and grants.

6) BUDGETARY CONTROLS: In addition to internal accounting controls, the District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the voters of the municipality. Annual appropriated budgets are adopted for the general fund, the special revenue fund and the debt service fund. Project length budgets are approved for the capital improvements accounted for in the capital projects fund. The final budget amount as amended for the fiscal year is reflected in the financial section.

An encumbrance accounting system is used to record outstanding purchase commitments on a line item basis. Open encumbrances at year-end are either canceled or are included as reappropriations of fund balance in the subsequent year. Those amounts to be reappropriated are reported as reservations of fund balance at June 30, 2012.

The Honorable President and Members of
The Board of Education
Borough of Edgewater School District
Page 4
December 4, 2012

7) ACCOUNTING SYSTEM AND REPORTS: The District's accounting records reflect generally accepted accounting principles, as promulgated by the GASB. The accounting system of the District is organized on the basis of funds. These funds are explained in the "Notes to the Basic Financial Statements"; Note 1.

8) DEBT ADMINISTRATION: At June 30, 2010, the District had \$33,733,000 in outstanding statutory debt, comprised entirely of school bonds to improve District facilities, and \$481 of debt authorized but not issued.

9) CASH MANAGEMENT: The investment policy of the District is guided in large part by state statute as detailed in the "Notices to the Basic Financial Statements", Note 3. The District has adopted a cash management plan which requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act ("GUDPA"). GUDPA was enacted in 1970 to protect governmental units from a loss of funds on deposit with a failed banking institution in New Jersey. The law requires governmental units to deposit public funds only in public depositories located in New Jersey, where the funds are secured in accordance with the Act.

10) RISK MANAGEMENT: The Board carries various forms of insurance, including but not limited to, general liability, excess liability, automobile liability and comprehensive/collision, hazard and theft insurance on property and contents, and fidelity bonds.

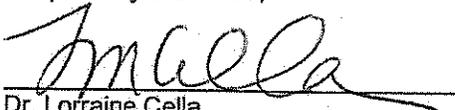

The Board is a member of the New Jersey School Boards Association Insurance Group (the "Group"). The Group is a risk-sharing public entity risk fund that is both an insured and self-administered group of school districts established for the purpose of providing low-cost insurance coverage to its members. Additional information on the Group is included in the "Notes to the Basic Financial Statements", Note 10.

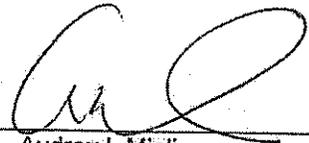

11) OTHER INFORMATION:

Independent Audit – State statutes require an annual audit by independent certified public accountants or registered municipal accountants. The accounting firm of Nisivoccia & Company LLP, CPAs, was selected by the Board of Education. In addition to meeting the requirements set forth in state statutes, the audit also was designed to meet the requirements of the Single Audit Act Amendments of 1996 and the related Federal OMB Circular A-133, *Audits of States, Local Governments, and Nonprofit Organizations*, and New Jersey OMB Circular NJOMB 04-04, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid*. The auditor's report on the basic financial statements and specific required supplementary information is included in the financial section of this report. The auditors' reports related specifically to the single audit are included in the single audit section of this report.

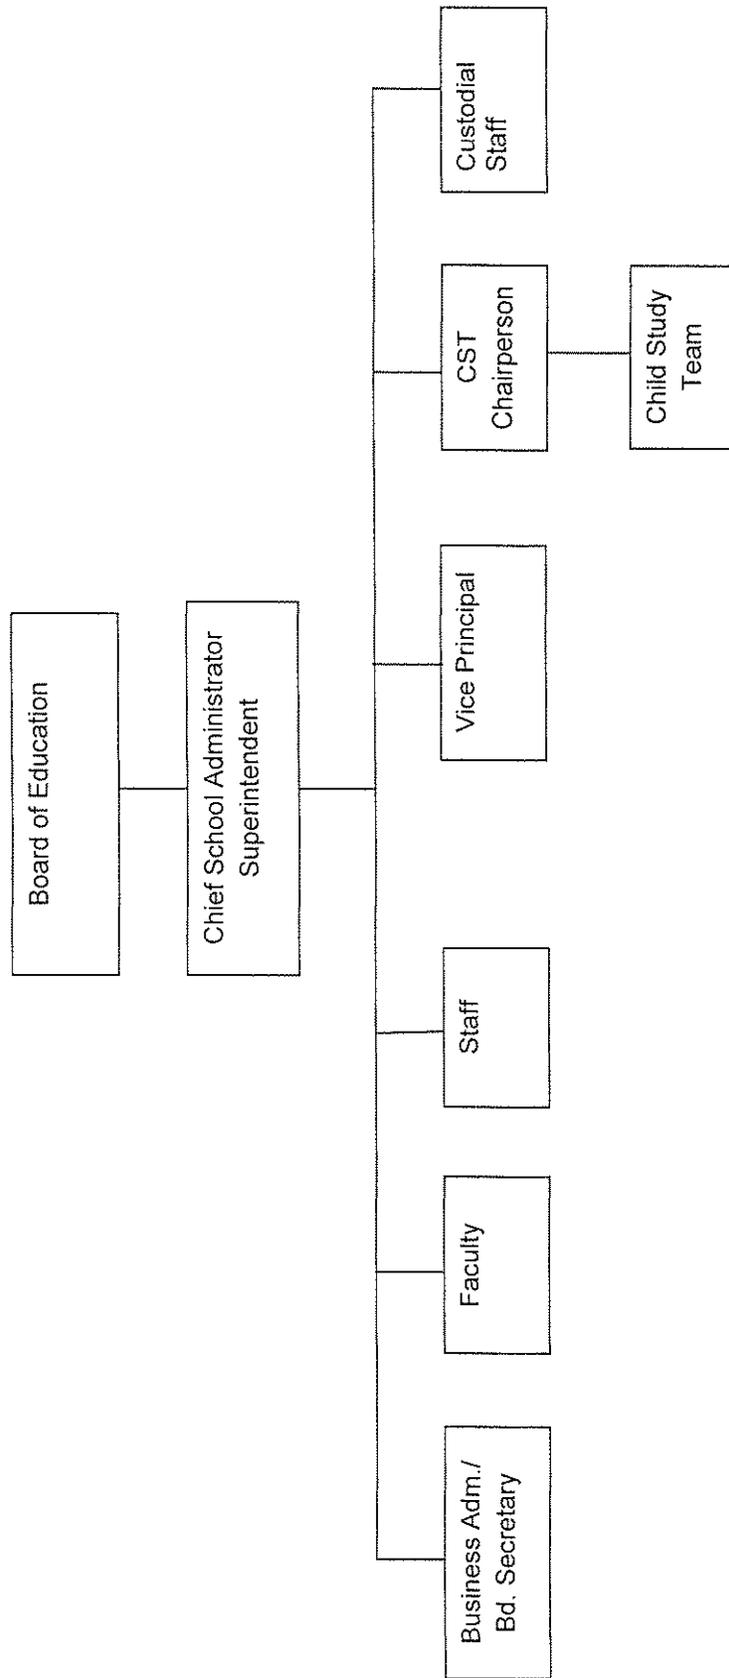

12) ACKNOWLEDGMENTS: We would like to express our appreciation to the member of the Borough of Edgewater School Board for their concern in providing fiscal accountability to the citizens and taxpayers of the School District and thereby contributing their full support to the development and maintenance of our financial operation. The preparation of this report could not have been accomplished without the efficient and dedicated services of the financial and accounting staff.

Respectfully submitted,

Dr. Lorraine Cella

INDEPENDENT AUDITORS' REPORT

The Honorable President and Members
of the Board of Education
Borough of Edgewater School District
County of Bergen
Edgewater, New Jersey 07020

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Borough of Edgewater School District, in the County of Bergen, State of New Jersey, as of and for the year ended June 30, 2012, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Borough of Edgewater School District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and audit requirements as prescribed by the Division of Finance, Department of Education, State of New Jersey. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

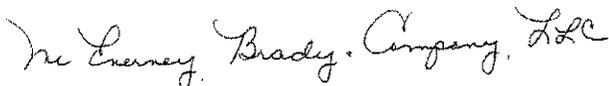

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of the Borough of Edgewater School District, in the County of Bergen, State of New Jersey, as of June 30, 2012, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 4, 2012 on our consideration of the Borough of Edgewater Board of Education's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The Management Discussion and Analysis and Budgetary Comparison Information on pages 13 through 24 are not a required part of the basic financial statements, but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Borough of Edgewater Board of Education's basic financial statements. The accompanying introductory section and other supplementary information, such as the combining and individual fund financial statements, long-term debt schedules, and statistical information, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual fund financial statements and long-term debt schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and statistical information have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

The accompanying schedules of expenditures of federal awards and state financial assistance are presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Nonprofit Organizations*; and NJ OMB's Circular 04-04, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid* respectively, and are not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

BOROUGH OF EDGWATER SCHOOL DISTRICT EDGEWATER, NEW JERSEY

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2012 (UNAUDITED)

This section of Borough of Edgewater School District's annual financial report presents its discussion and analysis of the District's financial performance during the fiscal year ending June 30, 2012. Please read it in conjunction with the transmittal letter at the front of this report and the District's financial statements, which immediately follow this section.

Financial Highlights

- The District's net assets decreased by \$177,484.
- Overall revenue was \$16,573,340.
- Actual local revenue was lower, primarily due to interest revenue.
- Overall expenses were \$16,730,728.
- Pre-K through grade 6 student enrollment in the District reflects marked growth while expenditures increased 2.38%.
- Capital expenditures during the year totaled \$19,459,131 for the new referendum project approved by the voters of the District on December 8, 2009 which authorized the construction of a new elementary school and installation of solar panels at the Eleanor Van Gelder School.

Overview of the Financial Statements

This annual report consists of three parts: management's discussion and analysis (this section), the basic financial statements, and required supplementary information. The basic financial statements include two kinds of statements that present different views of the District:

- The first two statements are *district-wide financial statements* that provide both *short-term* and *long-term* information about the District's *overall* financial status.
- The remaining statements are *fund financial statements* that focus on *individual parts* of the District, reporting the District's operations in *more* detail than the district-wide statements.
- The *governmental funds statements* tell how basic services such as regular and special education were financed in the short-term as well as what remains for future spending.
- *Proprietary funds statements* offer *short- and long-term* financial information about the activities the District operates like a business, such as food services.
- *Fiduciary funds statements* provide information about the financial relationships in which the District acts solely as a trustee or agent for the benefit of others.

The financial statements also include notes that explain some of the information in the statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the financial statements with a comparison of the District's budget for the year. Figure A-1 shows how the various parts of this annual report are arranged and related to one another.

District-wide Statements

The district-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net assets includes all of the District's assets and liabilities. All of the current year's revenue and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two district-wide statements report the District's *net assets* and how they have changed. Net assets - the difference between the District's assets and liabilities - is one way to measure the District's financial health or *position*.

- Over time, increases or decreases in the District's net assets are an indicator of whether its financial position is improving or deteriorating, respectively.
- To assess the District's overall health, you need to consider additional nonfinancial factors such as changes in the District's property tax base and the condition of school buildings and other facilities.

In the district-wide financial statements, the District's activities are divided into two categories:

- *Governmental activities:* Most of the District's basic services are included here, such as regular and special education, transportation and administration. Property taxes and state formula aid finance most of these activities.
- *Business-type activities:* The District charges fees to help it cover the costs of certain services it provides. The District's food service is included here.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds -not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs:

- Some funds are required by state law and by bond covenants.
- The District establishes other funds to control and manage money for particular purposes (such as repaying its long-term debts) or to show that it is properly using certain revenue (such as federal grants).

The District has three kinds of funds:

- *Governmental funds:* Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out, and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the district-wide statements, additional information at the bottom of the governmental funds statements explains the relationship (or difference) between them.

**BOROUGH OF EDGWATER SCHOOL DISTRICT
EDGEWATER, NEW JERSEY**

**MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2012
(UNAUDITED)**

Fund Financial Statements

- *Proprietary funds:* Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the district-wide statements. The District's *enterprise funds* (one type of proprietary fund) are the same as its business-type activities but provide more detail and additional information, such as cash flows. The *internal service funds* (the other kind of proprietary fund) report activities that provide supplies and services for its other programs and activities. The District currently does not maintain any internal service funds.
- *Fiduciary funds:* The District is the trustee, or *fiduciary*, for assets that belong to others, such as scholarship funds and the student activities funds. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. The District excludes these activities from the district-wide financial statements because it cannot use these assets to finance its operations.

Notes to the Basic Financial Statements

The Notes to the Basic Financial Statements provide additional information that is essential to a full understanding of the data provided in the District-wide and fund financial statements. The Notes to the Basic Financial Statements can be found immediately following the fund financial statements.

Changes in Net Assets. Net assets from governmental activities decreased \$(177,484) and net assets from business-type activities increased \$20,095. Net assets invested in capital assets, net of related debt, increased \$338,671 due to \$610,000 of governmental activities debt retired, offset by \$271,113 and \$216 in current year depreciation related to governmental activities and business-type activities, respectively. Restricted net assets decreased by \$(18,527,675). This is primarily the result of the costs of the construction of the new elementary school at June 30, 2012. This balance will continue to be reduced as the construction proceeds. Debt service balance increased due to interest earned on the proceeds of the 2009 bond sale and an increase in the tax levy. Unassigned net assets decreased because of the GAAP accounting requirement relating to capital projects and fixed assets and when they begin to be depreciated. The unassigned balance will increase as the restricted fund balance for capital projects decreases.

Revenue Sources. The District's total revenue for the 2011/12 school year was \$16,573,340 (See Figure A-5). Property taxes and aid accounted for most of the District's revenue, with local taxes accounting for \$14,594,342 of the total, or 88.1%. Another 11.1% came from federal and state categorical grants and the remaining .8% came from miscellaneous sources and charges for services.

The total cost of all programs and services was \$16,730,728. The District's expenses are predominantly related to instructing, caring for (pupil and instruction services) and transporting students (74.28%) (See Figure A-6). The District's administrative and business activities accounted for 4.74% of total costs. The most significant contributors to the cost of maintenance and operations were higher energy costs (including fuel) and insurance. It is important to note that other expenses include \$271,113 of depreciation on the District's capital assets and the interest due on the District's debt service.

FOR THE FISCAL YEAR ENDED JUNE 30, 2012
(UNAUDITED)**

Governmental Activities

The financial position of the District remains strong. Maintaining existing programs with increased regular pupil enrollment and the provision of a multitude of special programs and services for disabled pupils place great demands on the District's resources. In recent years, numerous veteran teachers have retired and have been replaced by teachers of less experience. Such changes have generated significant salary savings, but these have not been sufficient enough to offset increased enrollment, increased special education programs and increased health benefit costs.

It is crucial that the District examine and monitor its expenditures carefully. Increasing parental and student demands for new activities and programs must be evaluated thoroughly.

Figure A-7 presents the cost of six major District activities: instruction, pupil and instructional services, administration and business, maintenance and operations, transportation, and other. The table also shows each activity's net cost (total cost less fees generated by the activities and intergovernmental aid provided for specific programs). The net cost shows the financial burden placed on the District's taxpayers by each of these functions:

**Figure A-7

- The cost of all governmental activities this year was \$16,523,206
- The federal and state governments subsidized certain governmental activities programs with grants, state aid and contributions \$1,825,372.
- Most of the District's governmental activities costs \$14,594,342, however, were financed by District taxpayers.
- The remainder of the funding came from charges for services, miscellaneous revenue and investment earnings.

Business-Type Activities

Net assets from the District's business-type activity increased \$20,095 (Refer to Figure A-4). Food service program revenue and expenses increased uniformly.

Financial Analysis of the District's Funds

The District's financial position has decreased only slightly despite changes in the student population and difficult economic times which have had a direct impact upon the District's revenue sources. Interest from investments declined significantly this year due to lower interest rates. Ratables in the municipality have been growing and could help to support potential increases in the local tax levy in the future. In order to maintain a stable financial position, the District must continue to practice sound fiscal management.

General Fund Budgetary Highlights

Over the course of the year, the District revised the annual operating budget several times. These budget amendments fall into two categories:

- Changes made within budgetary line items for changes in school-based needs for programs, supplies and equipment.
- The preparation of the 2011/2012 budget was difficult as a result of rising costs and the state mandated budget CAP. This resulted in the need for numerous line item transfers during the year.

Capital Asset and Debt Administration

During the 2010/11 school year, the District expended \$19,459,131 for the new referendum project for the construction of a new elementary school and installation of solar panels at the Eleanor Van Gelder School. Current year depreciation for the governmental activities and business-type activities was \$271,113 and \$216, respectively. (More detailed information about the District's capital assets is presented in Note 6 to the Basic Financial Statements).

Long-term Debt

At year-end, the District had \$33,123,000 in general obligation bonds a decrease of \$610,000 from last year -as shown in Figure A-9. (More detailed information about the District's long-term liabilities is presented in Note 7 to the Basic Financial Statements).

- Other long-term liabilities, consisting entirely of compensated absences payable, an increase by the net amount of \$9,919 pursuant to contractual agreements.

Factors Bearing on the District's Future

Presently, the District's financial condition is strong. The District is proud of the support the community gives to the public schools. However, future finances are not without challenges as the community continues to grow and state funding remains relatively unchanged.

At the time these financial statements were prepared and audited, the District was aware of the following existing circumstance that could significantly affect its financial health in the future:

Factors Bearing on the District's Future

- The District's contract with the Edgewater Education Association will expire on June 30, 2013. The Board of Education will begin the negotiations process in January 2013.
- The new George Washington School is scheduled to open September 2012. The opening of a new school presents us with several financial challenges. We will be required to develop a budget which will include the costs associated with George Washington School and continue to adhere to the statutory cap.

The District has been committed to financial excellence for many years. In addition, the District's system for financial planning, budgeting and internal financial controls is well regarded. The District plans to continue to improve its fiscal management to meet the challenges of the future.

Contacting the District's Financial Management

This financial report is designed to provide the District's citizens, taxpayers and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. Amounts Reported for Governmental Activities in the Statement of Activities (A-2) are different because:

Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which depreciation exceeded capital outlays in the period.

The governmental funds report the effect of bond issuance costs when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities over the life of the bonds.

Amortized Expense		(12,012.00)

Repayment of debt service principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in statement of net assets and is not reported in the statement of activities.		610,000.00

In the statement of activities, interest on long-term debt in the statement of activities is accrued, regardless of when accrued, regardless of when due. In the governmental funds, interest is reported when due. When accrued interest exceeds the interest paid, the difference is a reduction in the reconciliation (-); when the interest paid exceeds the accrued interest, the difference is an addition to the reconciliation (+).		8,018.00
---	--	----------

In the statement of activities, certain operating expenses, e.g. compensated absences (vacations), are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are reported in the amount of financial resources used (paid). When the earned amount exceeds the paid amount, the difference is a reduction in the reconciliation (-); when the paid amount exceeds the earned amount, the difference is an addition to the reconciliation (+).		<u>(9,919.05)</u>

NOTES TO THE FINANCIAL STATEMENTS

**BOROUGH OF EDGEWATER SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2012**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Board of Education (the "Board") of the Borough of Edgewater School District (the "District") have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant of the Board's accounting policies are described below.

Reporting Entity:

The Board is an instrumentality of the State of New Jersey, established to function as an educational institution. The Board consists of elected officials and is responsible for the fiscal control of the District. A superintendent is appointed by the Board and is responsible for the administrative control of the District.

Governmental Accounting Standards Board publication, Codification of Governmental Accounting and Financial Reporting Standards, Section 2100, "Defining the Financial Reporting Entity" establishes standards to determine whether a governmental component unit should be included in the financial reporting entity. The basic criterion for inclusion or exclusion from the financial reporting entity is the exercise of oversight responsibility over agencies, boards and commissions by the primary government. The exercise of oversight responsibility includes financial interdependency, selection of governing authority, designation of management, ability to significantly influence operations, and accountability for fiscal matters. In addition, certain legally separate, tax-exempt entities that meet specific criteria (i.e. benefit of economic resources, access/entitlement to economic resources, and significances) should be included in the financial reporting entity. The combined financial statements include all funds of the District over which the Board exercises operating control. The operations of the District include one elementary school located within the Borough of Edgewater. There were no additional entities required to be included in the reporting entity under the criteria as described above, in the current fiscal year. Furthermore, the District is not includable in any other reporting entity on the basis of such criteria.

Basis of Presentation:

District-Wide Financial Statements:

The statement of net assets and the statement of activities present financial information about the District's governmental and business-type activities. These statements include the financial activities of the overall government in its entirety, except those that are fiduciary. Eliminations have been made to minimize the double counting of internal transactions. These statements distinguish between the governmental and business-type activities of the District. Governmental activities generally are financed through taxes, intergovernmental revenue and other nonexchange transactions. Business-type activities are financed in part by fees charged to external parties.

The statement of activities presents a comparison between direct expenses and program revenue for business-type activities and for each function of the District's governmental activities. Direct expenses are those that are specifically associated with and are clearly identifiable to a particular function. Indirect expenses are allocated to the functions using an appropriate allocation method or association with the specific function. Indirect expenses include health benefits, employer's share of payroll taxes, compensated absences and tuition reimbursements. Program revenue includes (a) charges paid by the recipients of goods or services offered by the programs, and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenue that is not classified as program revenue, including all taxes, is presented as general revenue. The comparison of direct expenses with program revenues identifies the extent to which each government function or business segment is self-financing or draws from the general revenues of the District.

**BOROUGH OF EDGEWATER SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2012**

Fund Financial Statements:

During the fiscal year, the District segregates transactions related to certain District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. The fund financial statements provide information about the District's funds, including its fiduciary funds. Separate statements for each fund category -*governmental, proprietary and fiduciary* are presented. The New Jersey Department of Education ("NJDOE") has elected to require New Jersey districts to treat each governmental fund as a major fund in accordance with the option noted in GASB No. 34, paragraph 76. The NJDOE believes that the presentation of all funds as major is important for public interest and to promote consistency among district financial reporting models.

The District reports the following governmental funds:

General Fund: The General Fund is the general operating fund of the District and is used to account for all expendable financial resources except those required to be accounted for in another fund. Included are certain expenditures for vehicles and movable instructional or noninstructional equipment which are classified in the capital outlay subfund.

As required by NJDOE, the District includes budgeted capital outlay in this fund. Accounting principles generally accepted in the United States of America ("GAAP"), as it pertains to governmental entities, states that general fund resources may be used to directly finance capital outlays for long-lived improvements as long as the resources, in such cases, are derived exclusively from unrestricted revenue. Resources for budgeted capital outlay purposes are normally derived from State of New Jersey Aid, District taxes and appropriated fund balance. Expenditures are those that result in the acquisition of or additions to fixed assets for land, existing buildings, improvements of grounds, construction of buildings, additions to or remodeling of buildings and the purchase of built-in equipment.

Special Revenue Fund: The Special Revenue Fund is used to account for the proceeds of specific revenue from State and Federal Governments (other than major capital projects, debt service or the enterprise funds) and local appropriations that are legally restricted to expenditures for specified purposes.

Capital Projects Fund: The Capital Projects Fund is used to account for all financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds). The financial resources are derived from temporary notes or serial bonds that are specifically authorized by the voters as a separate question on the ballot either during the annual election or at a special election.

Debt Service Fund: The Debt Service Fund is used to account for the accumulation of resources for and the payment of principal and interest on bonds issued to finance major property acquisition, construction and improvement programs.

The District reports the following proprietary funds:

Enterprise (Food Service) Fund: The Enterprise Fund accounts for all revenue and expenses pertaining to the District's cafeteria operations. The Food Service Fund is utilized to account for operations that are financed and operated in a manner similar to private business enterprises. The stated intent is that the cost (i.e., expenses including depreciation and indirect costs) of providing goods or services to the students on a continuing basis are financed or recovered primarily through user charges.

**BOROUGH OF EDGEWATER SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2012**

Additionally, the District reports the following fund type:

Fiduciary Funds: The Fiduciary Funds are used to account for assets held by the District on behalf of others and include the Student Activities Fund and Payroll Agency Fund.

Measurement Focus and Basis of Accounting

The District-wide financial statements and the proprietary and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenue is recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash transaction takes place. Nonexchange transactions, in which the District gives or receives value without directly receiving or giving equal value in exchange, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting, a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. Under this method, revenue is recognized when measurable and available. The District considers all revenue reported in the governmental funds to be available if the revenue is collected within sixty days after the end of the fiscal year. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences which are recognized as expenditures to the extent they have matured. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Under the terms of grant agreements, the District may fund certain programs by a combination of specific cost-reimbursement grants, categorical block grants and general revenue. Therefore, when program expenses are incurred, both restricted and unrestricted net assets may be available to finance the program. It is the District's policy to first apply cost-reimbursement grant resources to such programs, followed by general revenue.

Reports for the District's Food Service Fund are prepared following the Financial Accounting Standards Board (FASB) Statements and Interpretations issued on or before November 30, 1989; Accounting Principles Board Opinions; and Accounting Research Bulletins, unless those pronouncements conflict with GASB pronouncements.

Due to the differences in the measurement focus and basis of accounting used on the government fund statements and District-wide statements, certain financial transactions are treated differently. The basic financial statements contain a full reconciliation of these items.

Budgets/Budgetary Control:

Annual appropriated budgets are prepared in the spring of each year for the General, Special Revenue and Debt Service Funds. The budgets are submitted to the County office and are voted upon at the annual school election on the third Tuesday in April. Budgets are prepared using the modified accrual basis of accounting. The legal level of budgetary control is established at line item accounts within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in N.J.A.C. 6:20-2A.2(m)1. Transfers of appropriations may be made by Board resolution at any time during the fiscal year. All budgetary amounts presented in the accompanying supplementary information reflect the original budget and the amended budget which have been adjusted for legally authorized revisions of the annual budgets during the year

**BOROUGH OF EDGEWATER SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2012**

Formal budgetary integration into the accounting system is employed as a management control device during the year. For Governmental Funds, there are no substantial differences between the budgetary basis of accounting and GAAP, with the exception of the Special Revenue Fund as noted below, Encumbrance accounting is also employed as an extension of formal budgetary integration in the Governmental Fund types. Unencumbered appropriations lapse at fiscal year end.

The accounting records of the Special Revenue Fund are maintained on the grant accounting budgetary basis. The grant accounting budgetary basis differs from GAAP in that the grant accounting on the budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenue, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial reports.

The budgetary revenue for the General and Special Revenue Funds differs from GAAP revenue due to a difference in the recognition of the June state aid payments for the current year, Since the State is recording the June state aid payments in the subsequent fiscal year, the District cannot recognize these payments on the GAAP financial statements.

**BOROUGH OF EDGEWATER SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2012**

New Jersey school districts are limited as to type of investments and types of financial institutions they may invest in. New Jersey Statute 18A:20-37 provides a list of permissible investments that may be purchased by New Jersey school districts. Additionally, the District has adopted a cash management plan that requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act (GUDPA or the "Act"). GUDPA was enacted in 1970 to protect governmental units from a loss of funds on deposit with a failed banking institution in New Jersey.

N.J.S.A. 17:9-41 et seq. establishes the requirements for the security of deposits of governmental units. The statute requires that no governmental unit shall deposit public funds in a depository unless such funds are secured in accordance with the Act. Public depositories include Savings and Loan institutions, banks (both state and national banks) and savings banks the deposits of which are federally insured. All public depositories must pledge collateral, having a market value of at least equal to five percent of the average daily balance of collected public funds, to secure the deposits of government units. If a public depository fails, the collateral it has pledged, plus the collateral of all the other public depositories, is available to pay the full amount of their deposits to the governmental units.

Interfund Transactions:

Transfers between governmental and business-type activities on the District-wide statements are reported in the same manner as general revenues. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing source/uses in governmental funds and after non-operating revenues/expenses in the enterprise fund. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

On fund financial statements, short-term interfund loans are classified as interfund receivables/payables. These amounts are eliminated in the statement of net assets, except for amounts due between governmental and business-type activities, which are presented as internal balances.

Allowance for Uncollectible Accounts:

No allowance for uncollectible accounts has been recorded, as all amounts are considered collectible.

Encumbrances:

Under encumbrance accounting, purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve a portion of the applicable appropriation. Open encumbrances in governmental funds other than the special revenue fund are reported as reservations of fund balances at fiscal year end as they do not constitute expenditures or liabilities, but rather commitments related to unperformed contracts for goods and services.

Open encumbrances in the special revenue fund for which the District has received advances are reflected in the Statement of Net Assets as deferred revenue at fiscal year end.

The encumbered appropriation authority carries over into the next fiscal year. An entry will be made at the beginning of the next fiscal year to increase the appropriation reflected in the certified budget by the outstanding encumbrance amount as of the current fiscal year end.

Short-term Interfund Receivables/Payables:

Short-term interfund receivables/payables represent amounts that are owed, other than charges for goods or services rendered to/from a particular fund in the District and that are due within one year.

**BOROUGH OF EDGEWATER SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2012**

Inventories and Prepaid Expenses:

Inventories and prepaid expenses, which benefit future periods, other than those recorded in the enterprise fund, are recorded as an expenditure during the year of purchase.

Enterprise fund inventories are valued at cost, which approximates market, using the first-in, first-out (FIFO) method. Prepaid expenses in the enterprise fund represent payments made to vendors for services that will benefit periods beyond June 30, 2012.

Capital Assets:

During the year ended June 30, 1994, the District established a formal system of accounting for its capital assets. Capital assets acquired or constructed subsequent to June 30, 1994, are recorded at historical cost, including ancillary charges necessary to place the asset into service. Capital assets acquired or constructed prior to the establishment of the formal system are valued at cost based on historical records or through estimation procedures performed by an independent appraisal company. Land has been recorded at estimated historical cost. Donated capital assets are valued at their estimated fair market value on the date received. The cost of normal maintenance and repairs is not capitalized. The District does not possess any infrastructure. Capital assets have been reviewed for impairment and there is no impairment for the year ended June 30, 2012.

The capitalization threshold (the dollar value above which asset acquisitions are added to the capital asset accounts) is \$2,000. The depreciation method is straight-line. The estimated useful lives of capital assets reported in the District-wide statements and proprietary funds are as follows:

	<u>Estimated Useful Life</u>
Buildings	50 years
Buildings Improvement	10 to 50 years
Site Improvements	20 years
Machinery and Equipment	10 to 15 years
Computer and Related Technology	5 years
Vehicles	8 years

In the Fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures in the Governmental Fund upon acquisition. Capital assets are not capitalized and related depreciation is not reported in the fund financial statements.

Long Term Liabilities:

In the District-wide and Enterprise Fund statements of net assets, long-term debt and other long-term obligations are reported as liabilities in the applicable government activities, business-type activities, or enterprise funds. Bond issuance costs, as well as applicable bond premium and discounts, are reported as deferred charges and amortized over the term of the related debt using the straight-line method of amortization. In the Fund financial statements, governmental fund types recognize bond discounts, as well as bond issuance costs, as expenditures in the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses.

Accrued Salaries and Wages:

The District does not allow employees who provide services over the ten-month academic year the option to have their salaries evenly distributed during the entire twelve-month year; therefore, there are no accrued salaries and wages as of June 30, 2012.

**BOROUGH OF EDGEWATER SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2012**

Compensated Absences:

The District accounts for compensated absences (e.g., unused vacation, sick leave) as required by GASB 16, *Accounting for Compensated Absences*. A liability for compensated absences attributable to services already rendered and not contingent on a specific event that is outside the control of the employer and employee is accrued as employees earn the rights to the benefits.

District employees are granted varying amounts of vacation and sick leave in accordance with the District's personnel policy and agreements with the various employee unions. Upon termination, employees are paid for accrued vacation. The District's policy permits employees to accumulate unused sick leave and carry forward the full amount to subsequent years. Upon retirement, employees shall be paid by the District for the unused sick leave in accordance with the District's personnel policy and agreements with the various employee unions.

In the District-wide *Statement of Net Assets*, the liabilities, whose average maturities are greater than one year, should be reported in two components, the amount due within one year and the amount due beyond one year.

Deferred Revenue:

Deferred revenue in the Special Revenue Fund represents cash which has been received but not yet earned. See Note I (D) regarding the Special Revenue Fund.

Fund Balance Reserves:

The NJDOE has established a policy of classifying fund balances in accordance with GASB #54:

Committed Fund Balance – amounts constrained to specific purposes by the NJDOE itself using its highest level of decision-making authority; to be reported as committed, amounts cannot be used for any other purpose unless the NJDOE takes the highest level action to remove or change the constraint. Presently committed are funds Designated for Subsequent Year's Expenditures and Excess Surplus.

Restricted – includes amounts that can be spent only for the specific purposes stipulated by external resource providers or through enabling legislation. Effectively, restrictions may be modified or removed only with the consent of the provider.

Unassigned Fund Balance – amounts that are available for any purpose; these amounts are reported only in the General Fund.

The NJDOE has the authority to express intended use resources in the assignment and restriction of fund balance.

Net Assets:

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt, consists of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any borrowing used for the acquisition, construction, or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. The District's policy is to first apply restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

**BOROUGH OF EDGEWATER SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2012**

Revenue -Exchange and Nonexchange Transactions:

Revenue, resulting from exchange transactions in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On the modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, "available" is defined as "within sixty days of the fiscal year end".

Nonexchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On the accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted; matching requirements, in which the District must provide local resources to be used for a specified purpose; and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On the modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year end: property taxes, interest and tuition.

Operating Revenue and Expenses:

Operating revenue are those revenues that are generated directly from the primary activities of the Enterprise Funds. For the District, these revenues are sales for food service. Operating expenses are necessary costs incurred to provide the services that are the primary activities of the Enterprise Funds.

Management Estimates:

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of revenue and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

2. CASH, CASH EQUIVALENTS AND INVESTMENTS

Cash and cash equivalents include petty cash, change funds, amounts in deposits, money market accounts, and short-term investments with original maturities of three months or less.

Investments are stated at cost, which approximates market. The Board classifies certificates of deposit which have original maturity dates of more than three months but less than twelve months from the date of purchase, as investments.

GASB Statement No. 40, *Governmental Accounting Standards Board Deposit and Investment Risk Disclosures*, requires disclosure of the level of custodial credit risk assumed by the Board in its cash, cash equivalents and investments, if those items are uninsured or unregistered. Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned.

Interest Rate Risk - In accordance with its informal cash management plan, the Board ensures that any deposit or investment matures within the time period that approximates the prospective need for the funds, deposited or invested, so that there is not a risk to the market value of such deposits or investments.

Credit Risk - The Board limits its investments to those authorized in its formal cash management plan which are those permitted under state statute as detailed below and on the following page.

**BOROUGH OF EDGEWATER SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2012**

Deposits

New Jersey statutes permit the deposit of public funds in institutions located in New Jersey, which are insured by the Federal Deposit Insurance Corporation (FDIC) or by any other agencies of the United States that insure deposits or the State of New Jersey Cash Management Fund.

New Jersey statutes require public depositories to maintain collateral for deposits of public funds that exceed insurance limits as follows:

The market value of the collateral must equal 5% of the average daily balance of public funds on deposit, and

In addition to the above collateral requirement, if public funds deposited exceed 75% of the capital funds of the depository, the depository must provide collateral having a market value at least equal to 100% of the amount exceeding 75%.

All collateral must be deposited with the Federal Reserve Bank, the Federal Home Loan Bank Board or a banking institution that is a member of the Federal Reserve System and has capital funds of not less than \$25,000,000.

Investments

New Jersey statutes permit the District to purchase the following types of securities:

- (1) Bonds or other obligations of the United States of America or obligations guaranteed by the United States of America;
- (2) Government money market mutual funds;
- (3) Any obligation that a federal agency or a federal instrumentality has issued in accordance with an act of Congress, which security has a maturity date not greater than 397 days from the date of purchase, provided that such obligation bears a fixed rate of interest not dependent on any index or other external factor;
- (4) Bonds or other obligations, having a maturity date not more than 397 days from the date of purchase, approved by the Division of Investment of the Department of the Treasury for investment by local units;
- (5) Local government investment pools;
- (6) Deposits with the State of New Jersey Cash Management Fund; or
- (7) Agreements for the repurchase of fully collateralized securities if:
 - a) the underlying securities are permitted investments pursuant to paragraphs (1) and (3) above;
 - b) the custody of collateral is transferred to a third party;
 - c) the maturity of the agreement is not more than 30 days;
 - d) the underlying securities are purchased through a public depository as defined in statute; and
 - e) a master repurchase agreement providing for the custody and security of collateral is executed.

As of June 30, 2012, cash and cash equivalents of the District consisted of the following:

	Cash and Cash Equivalents	Capital Reserve Account	Total
Checking Accounts	\$ 5,345,200.67	\$ 1,008,591.73	\$ 6,353,792.40

**BOROUGH OF EDGEWATER SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2012**

During the period ended June 30, 2012, the District did not hold any investments. The carrying amount of the Board's cash and cash equivalents at June 30, 2012 was \$6,353,792.40 and the bank balance was \$9,136,177.24. The carrying amount of the Board's cash and cash equivalents at June 30, 2011 was \$26,249,935.94 and the bank balance was \$26,577,111.08.

3. CAPITAL RESERVE ACCOUNT

A capital reserve account was established by the Board during the 1999-2000 fiscal year for the accumulation of funds for use as capital outlay expenditures in subsequent fiscal years. The capital reserve account is maintained in the general fund and its activity is included in the general fund annual budget.

Funds placed in the capital reserve account are restricted to capital projects in the District's approved Long Range Facilities Plan ("LRFP"). Upon submission of the LRFP to the State Department of Education, a district may increase the balance in the capital reserve by appropriating funds in the annual general fund budget certified for taxes or by transfer by Board resolution at year end of any unanticipated revenue or unexpended line item appropriation amounts or both. A district may also appropriate additional amounts when the express approval of the voters has been obtained either by a separate proposal at budget time or by a special question at one of the four special elections authorized pursuant to N.J.S.A. 19:60-2. Pursuant to N.J.A.C. 6A:23-14.1(g), the balance in the account cannot at any time exceed the local support costs of uncompleted capital projects in its approved LRFP.

The activity of the capital reserve for the July 1, 2011 to June 30, 2012 fiscal year is as follows:

Beginning Balance, July 1, 2011	\$ 1,027,669.29
Interest Earnings	1,162.44
	1,028,831.73
Withdrawals	(20,240.00)
	\$ 1,008,591.73
Ending Balance, June 30, 2012	

The June 30, 2012 Capital Reserve Account balance does not exceed the local support costs of uncompleted capital projects in the District's "LRFP". There was an approved withdrawal from the capital reserve for use in the current fiscal year by Board Resolution dated July 14, 2011.

4. TRANSFERS TO CAPITAL OUTLAY

During the year ended June 30, 2012, the District made a transfer to the capital outlay accounts for facilities acquisition and construction services. The approval of the County Superintendent of Schools as per N.J.A.C. 6A:23A-13.3(h) was not required.

A. Bonds Payable:

Bonds are authorized in accordance with State law by the voters of the municipality through referendums. All bonds are retired in serial installments within the statutory period of usefulness. Bonds issued by the District are general obligation bonds and will be liquidated by the Debt Service Fund.

On December 8, 2009, the voters of the District approved a referendum which authorized debt totaling \$28,728,400 and on May 20, 2010, the District issued \$28,728,000 of school bonds with interest rates ranging from 3.00% to 4.30%.

The District has the following bonds outstanding as of June 30, 2012 as follows:

Date of Issue	Final Maturity	Interest Rate	Amount
05/01/2003	09/01/2022	3.30%-4.15%	\$ 3,740,000.00

B. Bonds Authorized But Not Issued:

As of June 30, 2012, the District had \$481.00 of bonds authorized but not issued.

C. Compensated Absences:

The liability for compensated absences of the governmental fund types is recorded in the current and long-term liabilities. Since there is no current liability for compensated absences at June 30, 2012, the balance of compensated absences of \$273,489.64 is a long-term liability and will be liquidated by the General Fund.

The liability for vested compensated absences of the proprietary fund types is recorded within those funds as the benefits accrue to employees. As of June 30, 2012, no liability existed for compensated absences in the Proprietary Funds.

7. PENSION PLANS

Description of Plans

All required employees of the District are covered by either the Public Employees' Retirement System ("PERS") or the Teachers' Pension and Annuity Fund ("TPAF") which have been established by State statute and are administered by the New Jersey Division of Pension and Benefits (the "Division"). According to the State of New Jersey Administrative Code, all obligations of both systems will be assumed by the State of New Jersey should the systems terminate. The Division issues a publicly available financial report that includes the financial statements and required supplementary information for the Public Employees' Retirement System and the Teachers' Pension and Annuity Fund. These reports may be obtained by writing to the Division of Pensions and Benefits, P. O. Box 295, Trenton, New Jersey 08625.

**BOROUGH OF EDGEWATER SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2012**

Teachers' Pension and Annuity Fund (TPAF)

The Teachers' Pension and Annuity Fund was established as of January 1, 1955, under the provisions of N.J.S.A. 18A:66 to provide retirement benefits, death, disability and medical benefits to certain qualified members. The TPAF is considered a cost-sharing multiple-employer plan with a special funding situation, as under current statute, all employer contributions are made by the State of New Jersey on behalf of the School District and the system's other related noncontributing employers. Membership is mandatory for substantially all teachers or members of the professional staff certified by the State Board of Examiners, and employees of the Department of Education who have titles that are unclassified, professional and certified.

Public Employees' Retirement System (PERS)

The Public Employees' Retirement System was established as of January 1, 1955 under the provisions of N.J.S.A. 43:15A to provide retirement, death, disability and medical benefits to certain qualified members. The PERS is a cost-sharing multiple-employer plan. Membership is mandatory for substantially all full-time employees of the State of New Jersey or any county, municipality, school district or public agency, provided the employee is not required to be a member of another State-administered retirement system or other state or local jurisdiction.

Vesting and Benefit Provisions

The vesting and benefit provisions for PERS are set by N.J.S.A. 43:15A and 43.3B, and N.J.S.A. 18A:6C for TPAF. All benefits vest after eight to ten years of service, except for medical benefits that vest after 25 years of service. Retirement benefits for age and service are available at age 60 and are generally determined to be 1/55 of the final average salary for each year of service credit, as defined. Final average salary equals the average salary for the final three years of service prior to retirement (or highest three years' compensation if other than the final three years). Members may seek early retirement after achieving 25 years of service credit or they may elect deferred retirement after achieving eight to ten years of service in which case benefits would begin the first day of the month after the member attains normal retirement age. The PERS and TPAF provides for specified medical benefits for members who retire after achieving 25 years of qualified service, as defined, or under the disability provisions of the system.

Members are always fully vested for their own contributions and, after three years of service credit, become vested for 2% of related interest earned on the contributions. In the case of death before retirement, members' beneficiaries are entitled to full interest credited to the members' accounts.

Significant Legislation

During the year ended June 30, 1997, legislation was enacted (Chapter 114, P.L. 1997) authorizing the New Jersey Economic Development Authority to issue bonds, notes or other obligations for the purpose of financing, in full or in part, the State of New Jersey's portion of the unfunded accrued liability under the State of New Jersey retirement systems. Additional legislation enacted during the year ended June 30, 1997 (Chapter 115, P.L. 1997) changed the asset valuation method from market related value to full-market value. This legislation also contained a provision to reduce the employee contribution rate by 2 of 1% to 4.5% for calendar years 1998 and 1999, and to allow for a reduction in the employee's rate after calendar year 1999, providing excess valuation assets are available. The legislation also provided that the Districts' normal contributions to the Fund may be reduced based on the revaluation of assets. Due to recognition of the bond proceeds and the change in asset valuation method as a result of enactment of Chapters 114 and 115, all unfunded accrued liabilities were eliminated, except for the unfunded liability for local early retirement incentive benefits, accordingly, the pension costs for PERS and TPAF were reduced.

**BOROUGH OF EDGEWATER SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2012**

Contribution Requirements

The contribution policy is set by New Jersey State statutes and, in most retirement systems, contributions are required by active members and contribution employers. Plan member and employer contributions may be amended by State of New Jersey legislation. The various pension funds provide for employee contributions based on percentages ranging from 3% to 6.5% increasing to 7.5% over the next seven years of employees' annual compensation, as defined. Employers are required to contribute at an actuarially determined rate in both PERS and TPAF. The actuarially determined employer contribution includes funding for cost-of-living adjustments and noncontributory death benefits in the PERS and TPAF. In the PERS and TPAF, the employer contribution includes funding for post-retirement medical premium. During the year ended June 30, 2012 for PERS, which is a cost sharing multi-employer pension plan, the annual pension costs equals the annual required contribution due to the enactment of Chapter 114, P.L. 1997. For TPAF, which is a cost sharing plan with special funding situations, the annual pension costs equals annual required contribution.

June 30, 2010	221,665.00	100%	221,665.00

During the year ended June 30, 2012, the State of New Jersey contributed \$310,215.00 to the TPAF for normal pension and for post-retirement medical benefits on-behalf of the School District. Also, in accordance with N.J.S.A. 18A:66-66, the State of New Jersey reimbursed the School District \$247,148.94 during the year ended June 30, 2012 for the employer's share of social security contributions for TPAF members, as calculated on their base salaries. This amount has been included in the basic financial statements, and the combining and individual fund and account group statements and schedules as a revenue and expenditure in accordance with GASB 24.

Legislation enacted during 1993 provided early retirement incentives for certain members of PERS and TPAF who met certain age and service requirements and who applied for retirement between certain dates in the 1994 fiscal year. The early retirement incentives included: (a) an additional five years of service credit for employees at least age 50 with a minimum of 25 years of service; (b) free health benefits for employees at least 60 years old with at least 20 years of service; and (c) an additional \$500 per month for two years for employees at least age 60 with 10 but less than 20 years of service. The Board assumed the increased cost for the early retirement as it affected their district.

8. POST-RETIREMENT BENEFITS

P.L. 1987, c. 384 and P.L. 1990, c.6 required PERS and TPAF, respectively, to fund post-retirement medical benefits for those State employees who retire after accumulating 25 years of credited service or on a disability retirement. P.L. 2007, c.103 amended the law to eliminate the funding of post-retirement medical benefits through the PERS and TPAF. It created separate funds outside of the pension plans for the funding and payment of post-retirement medical benefits for retired State employees and retired educational employees. As of June 30, 2011, there were 93,323 retirees receiving post-retirement medical benefits. The cost of these benefits is funded through contributions by the State in accordance with P.L. 1994, c.62. Funding of post-retirement medical premiums changed from a pre-funding basis to a pay-as-you-go basis beginning in fiscal year 1994.

The State is also responsible for the cost attributable to P.L. 1992 c.126, which provides free health benefits to members of PERS and the Alternate Benefit Program who retired from a board of education or county college with 25 years of service. The State paid \$144 million toward Chapter 126 benefits for 15,709 eligible retired members in fiscal year 2011.

9. HEALTH BENEFITS

P.L. 2011 Ch. 78 Section 39 established guidelines for implementing employee contributions to the cost of their health insurance coverage.

The benefit cost of coverage is the premium. For State Health Benefit Plan ("SHBP") employers, the cost of coverage is the cost of medical and prescription coverage. For non-SHBP employers, the law requires that the cost of coverage includes all health care benefits; medical, prescription, dental, vision, etc.

The base salary of the employees determines the percent of premium cost that is contributed.

The contribution is phased in at 25% per year:

- a) Immediately, for employees hired on June 28, 2011 and not subject to Collective Negotiations Agreement ("CNA") that is in effect.
- b) when a CNA that is in effect on June 28, 2011 expires or is in almost any way modified

Full contribution (Year 4) takes effect immediately for employees hired after June 28, 2011 who are not covered by a CNA or would be covered by a CNA that has expired.

When contributions begin, if the 1.5% of base salary calculation under Ch. 2 is greater than the standard contribution, that amount is paid until the new contribution percentage is greater.

10. RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets, errors and omissions; injuries to employees; and natural disasters. Health benefits are provided to employees through the State of New Jersey Health Benefits Plan.

Property and Liability Insurance

The Borough of Edgewater School District is a member of the New Jersey School Boards Association Insurance Group (the "Group"). This public entity risk management pool provides general liability, property and automobile coverage and workers' compensation for its members. A complete schedule of insurance coverage can be found in the Statistical Section of this Comprehensive Annual Financial Report.

The Group is a risk-sharing public entity risk pool that is an insured and self-administered group of school boards established for the purpose of providing low-cost insurance for its respective members in order to keep local property taxes to a minimum. Each member appoints an official to represent their respective entity for the purpose of creating a governing body from which officers for the Group are elected.

**BOROUGH OF EDGEWATER SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2012**

As a member of the Group, the District could be subject to supplemental assessments in the event of deficiencies. If the assets of the Group were to be exhausted, members would become responsible for their respective shares of the Group's liabilities. The Group can declare and distribute dividends to members upon approval of the State of New Jersey Department of Banking and Insurance. These distributions are divided among the members in the same ratio as their individual assessment related to the total assessment of the New Jersey Unemployment Compensation Insurance

Financial statements for the Group are available at the Group's Executive Director's Office:

New Jersey Unemployment Compensation Insurance

The District has elected to fund its New Jersey Unemployment Compensation Insurance under the "Contributory Method". Under this plan, the District is required to remit employee withholdings to the State on a quarterly basis. All of the District's claims are paid by the State.

11. ECONOMIC DEPENDENCY

The District receives a substantial amount of its support from federal and state governments. A significant reduction in the level of support, if this were to occur, may have an effect on the District's programs and activities.

12. INTERFUND RECEIVABLES AND PAYABLES

The following interfund balances existed as of June 30, 2012:

<u>Fund</u>	<u>Interfund Receivable</u>	<u>Interfund Payable</u>
General Fund	\$ 1,034,784.84	\$
Special Revenue Fund		17,808.49
Capital Projects Fund		1,068,731.82
Debit Service Fund	68,731.82	
Proprietary Fund - Food Service		1,410.75
Fiduciary Fund - Payroll Agency		15,565.60
	<u>\$ 1,103,516.66</u>	<u>\$ 1,103,516.66</u>

The Capital Projects Fund owes the General Fund for the payment of the Bond Anticipation Note of \$1,000,000.00 by the General Fund and the Debt Service Fund for interest earned and cancellation of funded projects.

13. DEFERRED COMPENSATION

The District offers its employees a choice of the following deferred compensation plans created in accordance with Internal Revenue Code Section 403(b). The plans, which are administered by the entities listed below, permits participants to defer a portion of their salary until future years. Amounts deferred under the plans are not available to employees until termination, retirement, death or unforeseeable emergency. The plan administrators are as follows:

- Equitable
- First Investors
- Lincoln Investment Planning
- Retirement Annuity Consultants
- Vanguard

14. TAX CALENDAR

Property taxes are levied as of January 1 on property values assessed as of the previous calendar year. The tax levy is divided into two billings. The first billing is an estimate of the current year's levy based on the prior year's taxes. The second billing reflects adjustments to the current year's actual levy. The final tax bill is usually mailed on or before June 14th, along with the first half estimated tax bills for the subsequent year.

The first half estimated taxes are divided into two due dates, February 1 and May 1. The final tax bills are also divided into two due dates, August 1 and November 1. A ten-day grace period is usually granted before the taxes are considered delinquent and there is an imposition of interest charges. A penalty may be assessed for any unpaid taxes in excess of \$10,000 at December 31 of the current year. Unpaid taxes of the current and prior year may be placed in lien at a tax sale held after December 10.

Taxes are collected by the constituent municipality and are remitted to the District on a predetermined, agreed-upon schedule.

15. FUND BALANCE

General Fund: Of the \$2,387,119.39 General Fund balance at June 30, 2012, \$71,288.48 is committed for encumbrances; \$1,008,591.73 is restricted in the capital reserve account; \$362,190.00 is restricted for excess surplus in accordance with N.J.S.A. 18A:7F-7, as amended \$426,434.00 is prior year excess surplus and is included as anticipated revenue for the year ending June 30, 2013 and the remaining \$5,534.00 was included as anticipated revenue for the year ending June 30, 2013; and \$513,081.18 is unassigned which is \$21,796.00 less than the calculated maximum unreserved fund balance (budgetary basis) due to the June state aid payments which are not recognized on the GAAP basis until the fiscal year ending June 30, 2013.

Special Revenue Fund: The \$5,561.00 deficit in the Special Revenue Fund at June 30, 2012 is attributable to the recognition of the June state aid payments and is unreserved and undesignated.

Capital Projects Fund: The \$4,229,337.60 Capital Projects Fund balance at June 30, 2012, is assigned and designated for subsequent years expenditures.

Debt Service Fund: Of the \$890,930.95 Debt Service Fund balance at June 30, 2012, \$753,682.00 is assigned and designated for subsequent year's expenditures and the balance of \$137,248.95 is unassigned at June 30, 2012.

Calculation of Excess Surplus: In accordance with N.J.S.A. 18A:7F-7, as amended, the designation for Reserved Fund Balance-Excess Surplus is a required calculation pursuant to the New Jersey Comprehensive Educational Improvement and Financing Act of 1996 (CEIFA). New Jersey school districts are required to reserve General Fund balance at the fiscal year end of June 30 if they did not appropriate a required minimum amount as budgeted fund balance in their subsequent year's budget. The District had excess surplus as noted above.

**BOROUGH OF EDGEWATER SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2012**

The District's unreserved/undesignated fund balance is less on a GAAP basis than the budgetary basis in the General Fund by \$21,796.00 as reported in the fund statements (modified accrual basis) and the Special Revenue Fund by \$5,561.00 as reported in the fund statements (grant accounting budgetary basis). N.J.A.C. 6A:23A-8.5(j); provides that in the event a state school aid payment is not made until the following school budget year, districts must record the delayed one or more state aid payments as revenue, for budget purposes only, in the current school budget year. The bill provides legal authority for school districts to recognize this revenue in the current budget year. For intergovernmental transactions, GASB Statement No. 33 requires that recognition (revenue, expenditure, asset, liability) should be in symmetry, i.e., if one government recognizes an asset, the other government recognizes a liability. Since the State is recording the June state aid payments in the subsequent fiscal year, the school district cannot recognize the June state aid payments on the GAAP financial statements until the year the State records the payable. The excess surplus calculation is calculated using the fund balance reported on the Budgetary Comparison Schedule, including the June state aid payments and not the fund balance reported on the fund statement which excludes the June state aid payments.

Deficit Net Assets/Fund Balance:

The District has a deficit in unrestricted net assets and fund balance in the Special Revenue Fund of \$5,561.00 as of June 30, 2012 due to the recognition of the June state aid payments as explained in Note 1 (P) above. This deficit does not mean that the District is facing financial difficulties and is a permissible practice under GAAP.

16. COMMITMENTS AND CONTINGENCIES

Litigation

The District is periodically involved in claims or lawsuits arising in the normal course of business, including claims regarding employment matters. The Board does not believe that the ultimate outcome of these cases will have a material adverse effect on the District's financial position.

Grant Programs

The District participates in federal and state assisted grant programs. These programs are subject to program compliance audits by the grantors or their representatives. The District is potentially liable for expenditures which may be disallowed pursuant to the terms of these grant programs. Management of the District is not aware of any material items of noncompliance which would result in the disallowance of grant program expenditures.

17. SUBSEQUENT EVENTS

The District has evaluated subsequent events occurring after June 30, 2012 through the date of December 4, 2012, which is the date the financial statements were available to be issued. Based on this evaluation, the District has determined that no subsequent events have occurred which require disclosure in the financial statements.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the District. This schedule estimates the portion of the outstanding debt of those overlapping governments that are borne by residents and businesses of Edgewater. This process recognizes that, when considering the District's ability to issue and repay long-term, the entire debt burden borne by the residents and businesses should be taken into account. However this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping unit.

^a - For debt repaid with property taxes, the percentage of overlapping debt applicable is estimated using taxable equalized property values. Applicable percentages were estimated by determining the portion of another governmental unit's equalized property value that is within the District's boundaries and dividing it by each unit's total equalized property value.

Sources: Assessed value data used to estimate applicable percentages provided by the Bergen County Board of Taxation; debt outstanding data provided by each governmental unit.

SINGLE AUDIT SECTION

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

The Honorable President and Members
of the Board of Education
Borough of Edgewater School District
County of Bergen
Edgewater, New Jersey 07020

We have audited the financial statements of the Board of Education for the Borough of Edgewater School District in the County of Bergen, State of New Jersey, as of and for the year ended June 30, 2012, and have issued our report thereon dated December 4, 2012. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and audit requirements as prescribed by the Division of Finance, Department of Education, State of New Jersey.

Internal Control Over Financial Reporting

Management and the Board of Education of the Borough of Edgewater School District is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered Borough of Edgewater Board of Education's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Borough of Edgewater Board of Education's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Borough of Edgewater Board of Education's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be deficiencies, or significant material weaknesses. We did identify deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

We consider the deficiencies described in the accompanying schedule of findings and questioned to be material weaknesses 2012-1 and 2012-2.

832 McLean Avenue, Yonkers, NY 10704
(914) 237-3676

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Borough of Edgewater Board of Education's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and audit requirements as prescribed by the Division of Finance, Department of Education, State of New Jersey.

We noted certain matters that we reported to the Board of Education of the Borough of Edgewater School District in a separate report entitled *Auditor's Management Report on Administrative Findings – Financial, Compliance and Performance* dated December 4, 2012.

This report is intended for the information and use of the audit committee, management, the Borough of Edgewater Board of Education, the New Jersey State Department of Education, and other federal and state awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Report on Compliance With Requirements That Could Have a Direct and Material Effect on Each Major Program and on Internal Control Over Compliance in Accordance with OMB Circular A-133 and New Jersey OMB Circular 04-04

The Honorable President and Members
of the Board of Education
Borough of Edgewater School District
County of Bergen
Edgewater, New Jersey 07020

Compliance

We have audited Borough of Edgewater School District's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement and New Jersey OMB Circular 04-04* that could have a direct and material effect on each of Borough of Edgewater School District's major federal and state programs for the year ended June 30, 2012. Borough of Edgewater School District's major federal and state programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of Borough of Edgewater School District's management. Our responsibility is to express an opinion on Borough of Edgewater School District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133 and New Jersey OMB Circular 0-04 and audit requirements as prescribed by the Division of Finance, Department of Education – OMB Circular 04-04. Those standards and OMB Circular A-133 and NJ OMB Circular 04-04 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal programs occurred. An audit includes examining, on a test basis, evidence about Borough of Edgewater School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of Borough of Edgewater School District's compliance with those requirements.

In our opinion, Borough of Edgewater School District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs for the year ended June 30, 2012.

Internal Control Over Compliance

Management of Borough of Edgewater School District is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal and state programs. In planning and performing our audit, we considered Borough of Edgewater School District's internal control over compliance with the requirements that could have a direct and material effect on a major federal and state programs to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133 and NJ OMB Circular 04-04, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Borough of Edgewater School District's internal control over compliance.

A *deficiency* in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of federal or state programs on a timely basis. A *material weakness* in internal control over compliance is a deficiency, or combination of deficiencies, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented, or detected and corrected, on a timely basis.

Our consideration in internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did identify one deficiency in internal control over compliance that we consider to be *material weaknesses*, as defined above. They are reported under Finding 2012-3.

Borough of Edgewater School District's responses to the finding identified in our audit are described in the accompanying schedule of finding and questioned costs. We did not audit Borough of Edgewater School District's responses and accordingly, we express no opinion on the responses.

This report is intended solely for the information and use of the audit committee, management, the Borough of Edgewater Board of Education, the New Jersey State Department of Education, and other federal and state awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

**BOROUGH OF EDGEWATER SCHOOL DISTRICT
NOTES TO THE SCHEDULES OF EXPENDITURES OF FEDERAL AND STATE AWARDS AND
FINANCIAL ASSISTANCE
JUNE 30, 2012**

1. GENERAL

The accompanying schedules of expenditures of federal and state awards and financial assistance include federal and state award activities of the Board of Education, Borough of Edgewater School District. The Board of Education is defined in Note 1 to the Board's basic financial statements. All federal and state awards received directly from federal and state agencies passed through other government agencies are included on the schedules of expenditures of federal awards and state awards.

2. BASIS OF ACCOUNTING

The accompanying schedules of expenditures of federal and state awards are presented using the budgetary basis of accounting with the exception of programs recorded in the Food Service Fund, which are presented using the accrual basis of accounting. These bases of accounting are described in Note 1 to the Board's basic financial statements. The information in these schedules is presented in accordance with the requirements of Federal OMB Circular A-133, *Audits of States, Local Governments and Non-Profit Organizations* and New Jersey's OMB Circular NJOMB 0404, *Single Audit Policy for Recipients of Federal Grants, State Grant, and State Aid*. Therefore, some amounts presented in these schedules may differ from amounts presented in, or used in the preparation of basic financial statements.

3. RELATIONSHIP TO BASIC FINANCIAL STATEMENTS

The basic financial statements present the General, Special Revenue and Capital Projects Fund on a GAAP basis. Budgetary comparison statements or schedules (RSI) are presented for the General and Special Revenue Fund to demonstrate finance-related legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the audit year, whereas for GAAP reporting, revenue is not recognized until the subsequent year or when expenditures have been made.

The General and Special Revenue Funds are presented in the accompanying schedules on the modified accrual basis with the exception of the revenue recognition of the last state aid payments in the current budget year, which is mandated pursuant to P.L. 2003, C.97. For GAAP purposes that payment is not recognized until the subsequent budget year due to the state deferral and recording of the last state aid payment in the subsequent year. Additionally, on the grant accounting budgetary basis, the Special Revenue Fund recognizes encumbrances as expenditures and also recognizes the related revenue, whereas the GAAP basis does not.

The net adjustment to reconcile from the budgetary basis to the GAAP basis is \$(19,329.00) for the general fund and \$(4,233.00) for the special revenue fund. See Exhibit C-3 for a reconciliation of the budgetary basis to the modified accrual basis of accounting for general and special revenue funds. Additionally, the schedule of expenditures of state awards does not include the on-behalf TPAF Post Retirement Medical Benefits and Non-Contributory Insurance Contributions revenue of \$310,215.00. Awards and financial assistance revenues are reported in the Board's basic financial statements on a GAAP basis as presented on the following page:

4. RELATIONSHIP TO FEDERAL AND STATE FINANCIAL REPORTS

Amounts reported in the accompanying schedules agree with the amounts reported in the related federal and state financial reports.

5. FEDERAL AND STATE LOANS OUTSTANDING

The Borough of Edgewater School District had no loans outstanding as of June 30, 2012.

6. OTHER

TPAF Social Security contributions represents the amount reimbursed by the State for the employers' share of social security contributions for TPAF members for the year ended June 30, 2012. Revenue and expenditures reported under the Federal Food Distribution Program represent current year value received and current year distributions, respectively.

7. SCHOOL WIDE PROGRAM FUNDS

Schoolwide programs are not separate federal programs as defined in OMB Circular A-133; amounts used in schoolwide programs are included in the total expenditures of the program contributing the funds in the Schedule of Expenditures of Federal and State awards. The following funds by program are included in schoolwide programs in the District:

Program

Title I Part A: *Improving Basic Programs Operated by Local Education Agencies*
 Title II Part A: *Teacher and Principal Training and Recruiting*
 Title III: *Language*
 Title III: *Immigrant*

Section II - Financial Statement Findings

Finding 2012-1 (M)

Criteria:

In accordance with the New Jersey Department of Education rules and regulations all activity of the District must be recorded on the books of the District.

Condition and Effect:

During the course of our audit, it was noted that not all cash receipts and cash disbursements were recorded on the books of the District.

Cause:

The cause is that District personnel responsible for the accounting records do not have appropriate experience in accounting to properly account for all of the District's activity.

Recommendation:

It is recommended that the District hire employees knowledgeable in school district accounting requirements.

Finding 2012-2 (M)

Criteria:

New Jersey State Department of Education requirements state that all bank accounts be reconciled.

Condition and Effect:

During the course of our audit, it was noted that all bank accounts of the District were not properly reconciled. This has required numerous adjustments and could have a significant effect on the operations, as well as the financial condition, of the District. The effect on the District could be a potential overstatement of cash, non-compliance with DOE requirements and misuse of funds.

Cause

Accounting records are not properly maintained, including transactions not being posted and reconciliations not being performed.

Recommendation:

It is recommended that the District implement month end closing procedures, which include reconciliation of all bank accounts.

Finding 2012-3 (S)

Criteria:

The School District's budget must be in agreement with all approved resolutions and grant budgets.

Condition and Effect:

Both the general fund budget and the special revenue fund budget do not represent the true approved budgets of the District.

Cause:

The staff is not maintaining the accounting records on a current basis.

Recommendation:

That all approved grant budget and board resolution be posted to the District's school records.
