Honorable President and
Members of the Board of Education
Union Township School District, Hunterdon County
165 Perryville Road
Hampton, NJ 08827

Dear Board Members and Constituents of Union Township:

The comprehensive annual financial report of the Union Township School District (district) for the fiscal year ended June 30, 2014, is hereby submitted. Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures, rests with the management of the Board of Education (Board). To the best of our knowledge and belief, the data presented in this report is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds and account groups of the District. All discourse necessary to enable the reader to gain an understanding of the District's financial activities have been included.

The comprehensive annual financial report is presented in four sections: introductory, financial, statistical, and single audit. The introductory section includes the transmittal letter, the District's organizational chart and a list of principal officials. The financial section includes general purpose financial statements and schedules, as well as the auditor's report thereon. The statistical section includes selected financial and demographic information, generally presented on a multi-year basis. The District is required to undergo an annual single audit in conformity with the provisions of the Single Audit of 1996 and the U.S. Office of Management and Budget A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and New Jersey OMB's Circular 04-04, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid*. Information related to the single audit, including the auditor's report on the internal control structure and compliance with applicable laws and regulations, findings and recommendations, are included in the single audit section of this report.

1) REPORTING ENTITY AND ITS SERVICES

Union Township District is an independent reporting entity within the criteria adopted by the Governmental Accounting Standards Board (GASB) as established by Statement No. 14. All funds and account groups of the District are included in this report.

The district provides a full range of educational services appropriate to the regular education grade levels of K-8 and additional services for Pre-School Special Needs children aged 3-5. The student population at the end the fiscal year was approximately 493 students, a number that demonstrates a reduction in enrollment in the school.

During the last five years, enrollment numbers have dropped.

School Year	Student Enrollment	Percent Change
2013-14	493	+3.7
2012-13	475	-3.7
2011-12	493	-4.6
2010-11	517	-2.3
2009-10	529	-8.5
2008-09	574	-5.7
2007-08	607	-.16
2006-07	608	0

2) ECONOMIC CONDITION AND OUTLOOK

Twenty five percent of the land in Union Township is state owned. The state owned land included Spruce Run Recreation Area and the Clinton Hunting and Fishing Grounds. It also includes the Edna Mahan Correctional Facility and part of the Hunterdon Developmental Center. The correctional facility produces no strain on the school budget.

Single family residential housing remains the most common type of new development, there are few new homes being constructed in the district. A large international corporation, the township's largest taxpayer has corporate offices within the township. A private recycling operation also operates a facility within the township. Tax ratable increase is mainly dependent upon homes. The increase in business within the township is minimal.

3) MAJOR INITIATIVES

The district continues to work hard to expand its continuum of services despite the budgeting limitations imposed by legislation. The major facility issue facing the district is the maintenance and necessary upgrades to the waste water treatment plant; the district is also dealing with the increasing cost of utilities and the maintenance and needed renovations of a 50 year old facility. The major educational initiative continues on the previous goals relating to technology, the district also emphasizes math, language arts, and science achievement. The district has made incredible progress in the replacement of obsolete hardware and has expanded hardware inventory to include interactive presentation boards.

The Board continues to be part of the transportation jointure with North Hunterdon Voorhees Regional High School District to maximize savings.

4) INTERNAL ACCOUNTING CONTROLS

Management of the district is responsible for establishing and maintaining the internal control structure designed to ensure that the assets of the district are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statement in conformity with generally accepted accounting principles (GAAP). The internal control structure is designed to provide reasonable, but

not absolute assurance that these objectives are met. The concept of reasonable assurance recognizes that:

1. The cost of a control should not exceed the benefits likely to be derived;
2. The valuation of costs and benefits requires estimates and judgments by management.

Whereas the district receives limited but important federal and state financial assistance, it is responsible for ensuring that the internal control structure is subject to periodic evaluation by the district's management.

As part of the district's single audit described earlier, tests are made to determine the adequacy of the internal control structure, including that portion related to federal and state financial assistance programs, as well as to determine that the district has complied with applicable laws and regulations.

5) BUDGETARY CONTROLS

In addition to internal accounting controls, the district maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the Board of Education. Annual appropriated budgets are adopted for the general fund, the special revenue fund, and the debt service fund. Project length budgets are approved for the capital improvements accounted for the capital projects fund. The final budget amount, as amended for the fiscal year, is reflected in the financial section.

An encumbrance accounting system is used to record outstanding purchase commitments on a line item basis. Open encumbrances at the end of the year are included as re-appropriations of fund balance in the subsequent year or are cancelled. The re-appointment amounts are reported as reservations of fund balance at June 30, 2014.

6) ACCOUNTING SYSTEM AND REPORTS

The district's accounting records reflect generally accepted accounting principles, as promulgated by the Governmental Accounting Standards Board. The accounting system of the district is organized on the basis of funds and account groups. These funds and the account groups are explained in "Notes to the Financial Statements," Note 1.

7) CASH MANAGEMENT

The investment policy of the district is guided by statute as detailed in "Notes to the Financial Statements," Note 1. The district has adopted a cash management plan, which requires it to deposit public funds in public depositories, protected from loss under the provision of the Governmental Unit Deposit Protection Act (GUDPA). This was enacted in 1970 to protect governmental units from loss of funds on deposit with a failed banking institution in New Jersey. The law requires governmental units to deposit public funds only in public depositories located in New Jersey, where the funds are secured in accordance with the act.

8) RISK MANAGEMENT

The Board carries various forms of insurance including, but not limited to general liability, excess liability, automobile liability and comprehensive/collision, hazard, and theft insurance on property and contents, and fidelity bonds.

9) OTHER INFORMATION

Independent Audit – State statutes require an annual audit by independent certified public accountants or registered municipal accountants. The accounting firm of William Colantano Jr., CPA was selected by the Board of Education. The audit meets the requirements set forth in state statutes the 1996 Single Audit Act and the related U.S. OMB Circular A-133 and NJ OMB's Circular 04-04. The auditor's report on the general purpose financial statements and combining and individual fund statements and schedules is included in the financial section of this report.

10) ACKNOWLEDGMENTS

I would like to express appreciation to the members of the Union Township Board of Education for their concern and work in providing fiscal accountability to the citizens and taxpayers of the school district and thereby contributing their full support to the development and maintenance of the financial operation. I would also like to commend and thank the accounting staff, their hard work and dedication has greatly contributed to the financial state of the district.

Respectfully,

Jeffrey Bender
Superintendent
Union Township School District

INDEPENDENT AUDITOR'S REPORT

September 26, 2014

Honorable President and
Members of the Board of Education
Union Township School District
County of Hunterdon, New Jersey

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Board of Education of the Union Township School District (the District) in the County of Hunterdon, as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the Board's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the District, as of June 30, 2014, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information identified in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The combining and individual non-major fund financial statements and schedule of expenditures of federal awards, as required by Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations and the schedule of state financial assistance as required by NJ OMB 04-04 and the introductory and statistical sections are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual non-major fund financial statements, schedule of expenditures of federal awards, as required by Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, the schedule of and the schedule of state financial assistance as required by NJ OMB 04-04 is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements.

Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America.

In our opinion, the combining and individual non-major fund financial statements, schedule of expenditures of federal awards, as required by Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, and the schedule of state financial assistance as required by NJ OMB 04-04 is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subject to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated September 26, 2014 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the District's internal control over financial reporting and compliance.

REQUIRED SUPPLEMENTARY INFORMATION-PART I

**MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2014
UNAUDITED**

The discussion and analysis of Union Township Public School District's financial performance provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2014. The intent of this discussion and analysis is to look at the School District's financial performance as a whole; readers should also review the notes to the basic financial statements and financial statements to enhance their understanding of the School District's financial performance.

Financial Highlights

Key financial highlights for 2014 are as follows:

- In total, net position increased \$412,469 which represents a 5.60 percent increase from 2012.
- General revenues accounted for \$ 10,048,004 in revenue or 95.4 percent of all revenues. Program specific revenues in the form of charges for services, operating grants and contributions, and capital grants and contributions accounted for \$480,588 or 4.6 percent to total revenues of \$10,528,592.

Total assets of governmental activities decreased by \$18,404 as cash and cash equivalents increased by \$480,097, receivables increased by \$ 7,620, and capital assets decreased by \$506,121.

- The School District had \$ 10,255,623 in expenses; only \$ 480,588 of these expenses was offset by program specific charges for services, grants or contributions. General revenues (primarily property taxes) of \$10,048,004 were adequate to provide for these programs.
- Among major funds, the General Fund had \$ 9,205,580 in revenues, \$ 8,870,080 in expenditures and \$243,992 in other financing uses. The General Fund's balance increased \$91,508 over 2013. This increase was the result of effective cost cutting measures implemented by the District.

Using this Generally Accepted Accounting Principals Report (GAAP)

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand Union Township Public School District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The Statement of Net Position and Statement of Activities provide information about the activities of the whole School District, presenting both an aggregate view of the School District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending.

**MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2014
UNAUDITED**

The fund financial statements also look at the School District's most significant funds with all other non-major funds presented in total in one column. In the case of Union Township Public School District, the General Fund is by far the most significant fund.

Reporting the School District as a Whole

Statement of Net Position and the Statement of Activities

While this document contains the large number of funds used by the School District to provide programs and activities, the view of the School District as a whole looks at all financial transactions and asks the question. "How did we do financially during 2014?" The Statement of Net Position and the Statement of Activities answer this question. These statements include all assets and liabilities using the accrual basis of accounting similar to the accounting used by most private-sector companies. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the School District's net assets and changes in those assets. This change in net position is important because it tells the reader that, for the school district as a whole, the financial positions of the School District has improved or diminished. The causes of this change may be the result of many factors, some financial, and some not. Financial factors include the School District's property tax base, current laws in New Jersey restricting revenue growth, facility condition, required educational programs and other factors.

In the Statement of Net Position and the Statement of Activities, the School District reports governmental activities. Governmental activities are the activities where most of the School District's programs and services are reported including, but not limited to, instruction, support services, operation and maintenance of plant facilities, pupil transportation and extracurricular activities.

Reporting the School District's Most Significant Funds

Fund Financial Statements

The analysis of the School Districts major funds begins on page 17. Fund financial reports provide detailed information about the School District's major funds. The School District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the School District's most significant funds. The School District's major governmental funds are the General Fund, Special Revenue Fund, Capital Projects Fund and Debt Service Fund.

**MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2014
UNAUDITED**

Governmental Funds

The School District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in the future years. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the School District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

The School District as a Whole

Recall that the Statement of Net Position provides the perspective of the School District as a whole.

Total assets decreased \$ 17,400. Cash and cash equivalents increased by \$482,837, receivables increased by \$7,422, capital assets decreased by \$507,461 and other assets decreased by \$198.00

Unrestricted net position, the part of net position that can be used to finance day to day activities without constraints, established by grants or legal requirements of the School District, increased by \$ 2,847. This was the result of effective cost cutting measures implemented by the District offset by an increase in restricted net assets for capital, maintenance, and emergency reserves of \$482,900 to be utilized in future years for new capital projects and unanticipated expenditures necessary to ensure a thorough and efficient education.

Table 2 provides a summary of the District's changes in Net Position in fiscal year ending 6/30/2014 with comparisons to 6/30/2013.

Governmental Activities

The unique nature of property taxes in New Jersey creates the need to routinely seek voter approval for the School District operations. Property taxes made up 83.7 percent of revenues for governmental activities for the Union Township Public School district for fiscal year 2013.

Instruction comprises 53.7 percent of district expenses. Support services expenses make up 40.4 percent of the expenses. Interest on long-term debt makes up 5.9 percent of the expenses.

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting those services.

Instruction expenses include activities directly dealing with the teaching of pupils and the interaction between teacher and student.

Pupils and instructional staff include the activities involved with assisting staff with the content and process of teaching to students.

General administration, school administration and business include expenses associated with administrative and financial supervision of the district.

Operation and maintenance of facilities activities involve keeping the school grounds, buildings and equipment in an effective working condition.

Pupil transportation includes activities involved with the conveyance of students to and from school, as well as to and from school activities, as provided by state law.

Extracurricular activities includes expenses related to student activities provided by the School District which are designed to provide opportunities for students to participate in school events, public events, or a combination of these for the purposes of motivation, enjoyment and skill improvement.

Interest and fiscal charges involve the transactions associated with the payment of interest and other related charges to debt of the School District.

**MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2014

The dependence upon tax revenues is apparent. For all activities tax revenue support is 82.7 percent. The community, as a whole, is the primary support for the Union Township School District.

The School District's Funds

Information about the School District's major funds starts on page 17. These funds are accounted for using the modified accrual basis of accounting. All governmental funds had total revenues of \$ 10,390,967 and expenditures of \$ 10,086,751 and other financing uses of \$145,500. The net positive change in fund balance for the year of \$449,716 was mostly significant in the Capital Projects Fund, an increase of \$358,207. This reflects effective cost-cutting measures implemented by the District.

General Fund Budgeting Highlights

The School District's budget is prepared according to New Jersey law, and is based on accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the General Fund.

During the course of the fiscal 2014 the School District amended its General Fund budget as needed. The School District uses program based budgeting and the budgeting systems are designed to lightly control total program budgets but provide flexibility for program management.

For the General Fund, budget basis revenue was \$ 8,522,501 which was \$85,572 below original budgeted estimates of \$ 8,436,929. This difference was due primarily to state aid realized above original estimates of \$68,610.

The General Fund revenues and other financing sources of the School District were more than expenditures and other financing uses by \$96,044.

Capital Assets

At the end of the fiscal year 2014 the School District had \$ 17,405,497 invested in land, buildings, furniture and equipment, and construction in progress.

Overall capital assets decreased **\$507,461** from fiscal year 2013 to fiscal year 2014. Increases in capital assets (primarily buildings and improvements, machinery and equipment) were offset by depreciation expenses for the year. Major capital asset additions in fiscal year 2014 included a Ford F-250 truck, chain link fencing at the Elementary School, and window upgrades at the Elementary School.

For the Future

Our available free balance surplus on a budgetary basis is currently **\$315,545**. The Union Township Public School District is at an **excellent** financial condition presently. A major concern is future finances with the 2% budget cap and reduced state aid.

Union Township is primarily a residential community, with very few ratables; thus the burden is focused on homeowners to absorb the tax burden.

In conclusion, the Union Township Public School District has committed itself to financial excellence for many years. In addition, the School District's system for financial planning, budgeting, and internal financial controls are well regarded. The School District plans to continue its sound fiscal management to meet the challenge of the future.

NOTES TO FINANCIAL STATEMENTS

UNION TOWNSHIP SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2014

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Board of Education (Board) of the Union Township School District (District) have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to local governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant accounting policies of the District are described below.

The basic financial statements include:

A Management's Discussion and Analysis (MD&A) providing an analysis of the Districts over-all financial position and results of operations.

Basic financial statements prepared using full-accrual accounting for all of the District's activities.

A. Reporting Entity

The District is a Type II district located in the County of Hunterdon, State of New Jersey. As a Type II district, the School District functions independently through a Board of Education. The Board is comprised of nine members elected to three-year-terms. The purpose of the district is to educate students in Grades K-8. The District had an approximate enrollment at June 30, 2014 of 493 students.

The primary criterion for including activities within the District's reporting entity as set forth in Section 2100 of the GASB Codification of Governmental Accounting and Financial Reporting Standards, is whether:

1. The organization is legally separate (can sue or be sued in their own name.)
2. The District holds the corporate powers of the organization.
3. The District appoints a voting majority of the organization's board.
4. The District is able to impose its will on the organization.
5. The organization has the potential to impose a financial benefit/ burden on the District.
6. There is a fiscal dependency by the organization on the District.

Based on the aforementioned criteria, the District has no component units.

B. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of changes in net position) report information on all of the nonfiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements.

The statement of activities demonstrates the degree to which the direct expenses of a given program are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific program. Program revenues include 1) charges to students or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function.

Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. The District has elected to treat all of its governmental funds as major funds and they are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, early retirement, arbitrage rebates, and post employment healthcare benefits, are recorded only when payment is due.

Property taxes, tuition and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. As under New Jersey State Statute, a municipality is required to remit to its school district the entire property tax balance, in the amount voted upon or certified prior to the end of the school year. The District records the entire approved tax levy as revenue (accrued) at the start of the fiscal year, since the revenue is both measurable and available. The District is entitled to receive moneys under the established payment schedule and the unpaid amount is considered to be an accounts receivable. All other revenue items are considered to be measurable and available only when the District receives cash.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Cont'd)

Amounts reported as program revenues include 1) charges to students for tuition, fees, rental, material, supplies, or services, provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all property taxes, and unrestricted state aids.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted, as they are needed.

The District reports the following major governmental funds:

General Fund - The General Fund is the general operating fund of the District and is used to account for all financial resources except those required to be accounted for in another fund. Included are certain expenditures for vehicles and movable instructional or noninstructional equipment, which are classified in the Capital Outlay sub fund.

As required by the New Jersey State Department of Education, the District includes budgeted Capital Outlay in this fund. Generally accepted accounting principles as they pertain to governmental entities state that General Fund resources may be used to directly finance capital outlays for long-lived improvements as long as the resources in such cases are derived exclusively from unrestricted revenues.

Resources for budgeted capital outlay purposes are normally derived from State of New Jersey aid, district taxes and appropriated fund balance. Expenditures are those that result in the acquisition of or additions to fixed assets for land, existing buildings, improvements of grounds, construction of buildings, additions to or remodeling of buildings and the purchase of built-in equipment. These resources can be transferred from and to Current Expense by board resolution.

Special Revenue Fund - The District accounts for the proceeds of specific revenue sources from State and Federal Government (other than major capital projects, Debt Service or the Enterprise Funds) and local appropriations that are legally restricted to expenditures for specified purposes in the Special Revenue Fund.

Capital Projects Fund - The Capital Projects Fund is used to account for all financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by Proprietary Funds). The financial resources are derived from temporary notes or serial bonds that are specifically authorized by the voters as a separate question on the ballot either during the annual election or at a special election.

Debt Service Fund - The Debt Service Fund is used to account for the accumulation of resources for, and the payment of principal and interest on bonds issued to finance major property acquisition, construction and improvement programs.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Cont'd)

Additionally, the District reports the following fund types:

Proprietary Fund Types

Proprietary Fund - The focus of Proprietary Fund measurement is upon determination of net income, financial position and cash flows. The generally accepted accounting principles applicable are those similar to businesses in the private sector. The following is a description of the Proprietary Funds of the District:

Enterprise Fund - The Enterprise Fund is utilized to account for operations that are financed and operated in a manner similar to private business enterprises. The stated intent is that the cost (i.e. expenses including depreciation and indirect costs) of providing goods or services to the students on a continuing basis are financed or recovered primarily through user charges; or, where the District has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes.

The District's Enterprise Fund is comprised of the Food Service Fund.

All proprietary funds are accounted for on a current financial resources measurement focus. This means that all assets and liabilities, whether current or noncurrent, associated with their activity are included on their balance sheets. Their reported fund equity (total net assets) is segregated into contributed capital and unreserved retained earnings, if applicable. Proprietary fund type operating statements present increases (revenues) and decreases (expenses) in total net assets.

Depreciation of all exhaustive fixed assets used by proprietary funds is charged as an expense against their operations. Accumulated depreciation is reported on proprietary fund balance sheets. Depreciation has been provided over the estimated useful lives using the straight-line method. The estimated useful lives are as follows:

Equipment	12 Years
Light Trucks & Vehicles	4 Years
Heavy Trucks & Vehicles	6 Years

Fiduciary Fund Types

Trust and Agency Funds - The Trust and Agency Funds are used to account for assets held by the District in a trustee capacity or as an agent for individuals, private organizations, other governments and/ or other funds. Agency funds are custodial in nature and do not involve measurement of results of operations. The following is a description of the Trust and Agency Funds of the District.

Unemployment Compensation Trust Fund – This fund is used to account for the portion of employee deductions for unemployment compensation required to be deposited and accumulated for future unemployment claims under the “Benefit Reimbursement Method.”

Student Activities Agency Fund – This fund is used to account for funds derived from athletic events or other activities of pupil organizations and accumulated for payment of student group activities.

Payroll Agency Fund – This fund accounts for the withholding and remittance of employee salary deductions.

D. Budgets/Budgetary Control

Annual appropriated budgets are prepared in the spring of each year for the General, Special Revenue, and Debt Service Funds. The budgets are submitted to the county office and, if required, are voted upon at the annual school election in November. Budgets are prepared using the modified accrual basis of accounting. The legal level of budgetary control is established at line item accounts within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in NJAC 6:20-2A.2(m)1. All budget amendments must be approved by School Board resolution. Budget amendments during the year ended June 30, 2014 were insignificant.

Formal budgetary integration into the accounting system is employed as a management control device during the year. For Governmental Funds there are no substantial differences between the budgetary basis of accounting and generally accepted accounting principles with the exception of the legally mandated revenue recognition of the last state aid payment for budgetary purposes only and the special revenue fund as noted below. Encumbrance accounting is also employed as an extension of formal budgetary integration in the Governmental Fund Types. Unencumbered appropriations lapse at fiscal year end.

UNION TOWNSHIP SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2014

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

D. Budgets/Budgetary Control (Cont'd)

The accounting records of the Special Revenue Fund are maintained on the grant accounting budgetary basis. The grant accounting budgetary basis differs from GAAP in that the grant accounting budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial reports.

E. Encumbrances

Under encumbrance accounting purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve a portion of the applicable appropriation. Open encumbrances in Governmental Funds other than the Special Revenue Fund are reported as reservations of fund balances at fiscal yearend as they do not constitute expenditures or liabilities but rather commitments related to unperformed contracts for goods and services.

Open encumbrances in the Special Revenue Fund for which the District has received advances are reflected in the balance sheet as unearned revenues at fiscal year end.

The encumbered appropriation authority carries over into the next fiscal year. An entry will be made at the beginning of the next fiscal year to increase the appropriation reflected in the certified budget by the outstanding encumbrance amount as of the current fiscal year end.

F. Tuition Receivable

Tuition charges were established by the Board of Education based on estimated costs. The charges are subject to adjustment when the final costs have been determined.

G. Tuition Payable

Tuition charges for the fiscal years 2013-2014 and 2012-2013 were based on rates established by the receiving district. These rates are subject to change when the actual costs have been determined.

H. Short-Term Interfund Receivables/Payables

Short-Term Interfund receivables/payables, represents amounts that are owed, other than charges for goods or services rendered to/from a particular fund in the District and that are due within one year.

I. Inventories and Prepaid Items

Inventories and prepaid items, which benefit future periods, other than those recorded in the Enterprise Fund are recorded as an expenditure during the year of purchase.

Enterprise Fund inventories are valued at cost, which approximates market, using the first-in-first-out (FIFO) method. The commodities inventory value at balance sheet date is reported as a unearned revenue as title does not pass to the school district until the commodities are used. Prepaid items in the Enterprise Fund represent payments made to vendors for services that will benefit periods beyond June 30, 2014.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

J. Capital Assets

Capital assets, which include land, land improvements, buildings and improvements, vehicles and furniture and equipment, are reported in the government-wide financial statements. The District defines capital assets as assets with an initial, individual cost of more than \$2,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

All reported capital assets, except for land and construction in progress, of the District are depreciated using the straight-line method over the following estimated lives:

<u>Assets</u>	<u>Years</u>
Buildings	40
Building Improvements & Portable Classroom	40
Land Improvements	20
Furniture	20
Maintenance Equipment	15
Musical Instruments	10
Athletic Equipment	10
Audio Visual Equipment	10
Office Equipment	5 to 10
Computer Equipment	5 to 10
Software	5

K. Compensated Absences

The District accounts for compensated absences (e.g., unused vacation and sick leave) as directed by Governmental Accounting Standards Board statement number 16 (GASB 16), "Accounting for Compensated Absences." A liability for compensated absences attributable to services already rendered and not contingent on a specific event that is outside the control of the employer and employee is accrued as employees earn the rights to the benefits.

District employees are granted varying amounts of vacation and sick leave in accordance with the District's personnel policy. The District's policy permits employees to accumulate unused sick leave and carry forward the full amount to subsequent years. Upon retirement employees shall be paid by the District for the unused sick leave in accordance with the Districts' agreements with the various employee unions.

The liability for compensated absences was accrued using the vesting method, whereby the liability is calculated by vesting balances as of the balance sheet date for which a payment is probable. Salary related payments for the employer's share of social security and medicare taxes are included.

For the government-wide statements, the current portion is the amount estimated to be used in the following year. In accordance with GAAP, in the fund financial statements, all of the compensated absences are considered long-term and therefore are not a fund liability. This represents a reconciling item between the fund and government-wide presentations.

UNION TOWNSHIP SCHOOL DISTRICT
 NOTES TO THE FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

L. Unearned Revenue

Unearned revenue in the General Fund and Special Revenue Fund represents cash, which has been received but not yet earned. See Note 1 (E) regarding the Special Revenue Fund.

Unearned revenue in the Enterprise Fund includes United States government commodity inventories at year-end. The aid revenue associated with this commodity inventory is deferred until it is used in the operations of the Food Service Fund. Prepaid lunch debit card revenue balances at year-end are also included in unearned revenue.

M. Long-Term Obligations

In the government-wide financial statements and in internal service fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method which approximates the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuance are reported as other financing uses.

N. Fund Balances-Governmental Funds

In the fund financial statements, governmental funds report the following classifications of fund balance:

- Non-spendable—includes amounts that cannot be spent because they are either not spendable in form or are legally or contractually required to be maintained intact.
- Restricted—includes amounts restricted by external sources (creditors, laws of other governments, etc.) or by constitutional provision or enabling legislation.
- Committed—includes amounts that can only be used for specific purposes. Committed fund balance is reported pursuant to resolutions passed by the Board of Education, the District's highest level of decision making authority. Commitments may be modified or rescinded only through resolutions approved by the Board of Education.
- Assigned—includes amounts that the District intends to use for a specific purpose, but do not meet the definition of restricted or committed fund balance. Under the District's policy, amounts may be assigned by the Business Administrator.

UNION TOWNSHIP SCHOOL DISTRICT
 NOTES TO THE FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

N. Fund Balances-Governmental Funds (cont'd)

- Unassigned—includes amounts that have not been assigned to other funds or restricted, committed or assigned to a specific purpose within the General Fund. The District reports all amounts that meet the unrestricted General Fund Balance Policy described below as unassigned:

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balance are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed.

O. Comparative Data/Reclassifications

Comparative total data for the prior year have been presented in selected sections of the accompanying financial statements in order to provide an understanding of the changes in the District's financial position and operations. Also, certain immaterial amounts presented in the prior year data have been reclassified in order to be consistent with the current year's presentation.

P. Allocation of Indirect Expenses

Certain expenses, which have not been charged to a specific function in the District's fund financial statements, have been allocated to the functions for the government-wide statements. Employee benefits, on-behalf TPAF pension contributions, reimbursed TPAF social security contributions and compensated absences accruals have been allocated based on salaries by function. Depreciation expense which was not specifically identified by function has been allocated based on the current year expenses by function.

NOTE 2. TAX ASSESSMENTS AND PROPERTY TAXES

Property valuations (assessments) are determined on true values as arrived at by a cost approach, market data approach and capitalization of net income where appropriate. Current assessments are the results of new assessments on a like basis with established comparable properties for newly assessed or purchased properties. This method assures equitable treatment to like property owners.

Upon the filing of certified adopted budgets by the municipality, the municipality's local school districts, and the county, the tax rate is struck by the County Board of Taxation based on the certified amounts in each of the taxing districts for collection to fund the budgets. The statutory provision for the assessment of property, levying of taxes and the collection thereof are set forth in NJSA 54:4 et seq. Special taxing districts are permitted in New Jersey for various special services rendered to the properties located within the special districts.

Tax bills are mailed annually in June. The taxes are due August 1 and November 1 respectively, and are adjusted to reflect the current fiscal year's total tax liability. The preliminary taxes due February 1 and May 1 of the succeeding fiscal year are based upon one-half of the current year's total tax.

UNION TOWNSHIP SCHOOL DISTRICT
 NOTES TO THE FINANCIAL STATEMENTS
 JUNE 30, 2014
 (Continued)

NOTE 2. TAX ASSESSMENTS AND PROPERTY TAXES (Cont'd)

Tax installments not paid on or before the due date are subject to interest penalties of eight per cent per annum on the first \$1,500 of the delinquency and eighteen percent per annum on any amount in excess of \$1,500. Pursuant to Chapter 75, PL 1991, the governing body may also fix a penalty to be charged to a taxpayer with a delinquency in excess of \$10,000 who fails to pay that delinquency prior to the end of the calendar year. The penalty so fixed shall not exceed six percent of the amount of the delinquency. These interest and penalties are the highest permitted under the New Jersey statutes. Delinquent taxes are annually included in a tax sale in accordance with New Jersey statutes.

School taxes are guaranteed as to amount of collection by the municipality, the collection agency, and are transmitted to the school district in accordance with the schedule of tax installments as certified by the school district's Board of Education on an annual basis.

NOTE 3. DEPOSITS AND CASH EQUIVALENTS AND INVESTMENTS

Cash and cash equivalents include petty cash, change funds, cash in banks and all highly liquid investments with a maturity of three months or less at the time of purchase and are stated at cost plus accrued interest. US Treasury and agency obligations and certificates of deposit with maturities of one year or less when purchased are stated at amortized cost. All other investments are stated at fair value.

New Jersey school districts are limited as to the types of investments and types of financial institutions they may invest in. New Jersey statute 18A:20-37 provides a list of permissible investments that may be purchased by New Jersey school districts.

Additionally, the District has adopted a cash management plan that requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act ("GUDPA"). GUDPA was enacted in 1970 to protect Governmental Units from a loss of funds on deposit with a failed banking institution in New Jersey.

NJSA 17:9-41 e.t. seq establishes the requirements for the security of deposits of governmental units. The statute requires that no governmental unit shall deposit public funds in a public depository unless such funds are secured in accordance with the Act. Public depositories include Savings and Loan institutions, banks (both state and national banks) and saving banks the deposits of which are federally insured. All public depositories must pledge collateral, having a market value at least equal to five percent of the average daily balance of collected public funds, to secure the deposits of Governmental Units. If a public depository fails, the collateral it has pledged, plus the collateral of all other public depositories, is available to pay the full amount of their deposits to the Governmental Units.

Deposits at June 30, 2014 appear in the financial statements as summarized below:

NOTE 3. DEPOSITS AND CASH EQUIVALENTS AND INVESTMENTS (Cont'd)

Deposits – The District's carrying amount of bank deposits at June 30, 2014 is \$4,755,136 and the bank balance is \$4,899,702. Of the bank balance, \$250,000 is covered by federal depository insurance and \$4,649,702 is insured by GUDPA.

Deposit and Investment Risk

GASB Statement No. 40 "Deposit and Investment Risk Disclosures" requires state and local governments to communicate key information about deposit and investment risks. Required disclosures are as follows:

1. Custodial credit risk disclosures are required for:
 - deposits that are uninsured and either (a) uncollateralized or (b) collateralized with securities held by the pledging financial institution, or its trust department or agent but not in the government's name
 - Investment securities that are uninsured, are not registered in the name of the government, and are held by either (a) the counterparty or (b) the counterparty's trust department or agent but not in the government's name

As the district has no such investments, this disclosure is not applicable.

2. Credit quality ratings for investments in debt securities, external investment pools, money market funds, bond mutual funds, and other pooled investments of fixed-income securities. As the district has no such investments, this disclosure is not applicable.
3. Disclosure of investments by amount and issuer for any issuer that represents five percent of more of total investments. This requirement does not apply to investments issued or explicitly guaranteed by the US government and investments in mutual funds or pools. This disclosure is reported below under Concentration of Credit Risk.
4. Interest rate risk disclosures are required for all debt investments and non-money market like pools. As the district has no such investments, this disclosure is not applicable.
5. Investments that are exposed to foreign currency risk should be disclosed. As the district has no such investments, this disclosure is not applicable.

Concentration of Credit Risk

The State of New Jersey does not place any limit on the amount that the district may invest with any one issuer. As of June 30, 2014, the district had no investments.

NOTE 6. PENSION PLANS

Description of Systems

Substantially all of the Board's employees participate in one of the following contributory defined benefit public employee retirement systems which have been established by State statute: the Teachers' Pension and Annuity Fund (TPAF), Public Employees' Retirement System (PERS) and the Defined Contribution Retirement Program (DCRP). The PERS and TPAF systems are sponsored and administered by the State of New Jersey. The DCRP system is administered by Prudential Financial for the Division of Pensions and Benefits. The Teachers' Pension and Annuity Fund retirement system is considered a cost-sharing multiple-employer plan with a special funding situation, as under current statute, all employer contributions are made by the State of New Jersey on behalf of the Board and the system's other related non-contributing employers. The Public Employees Retirement System and Defined Contribution Retirement Program are considered cost sharing multiple-employer plans.

A. Teachers' Pension and Annuity Fund - The Teachers' Pension and Annuity Fund was established in January, 1955 under the provisions of NJSA 18A:66 to provide coverage including post-retirement health care to substantially all full time public school employees in the State. Membership is mandatory for such employees and vesting occurs after 10 years of service for pension benefits and 25 years for health care coverage. Members are eligible for retirement at age 55 with an annual benefit generally determined to be 1/55th of the average annual compensation for the highest three fiscal years' compensation for each year of membership during years of creditable service. Early retirement is available to those under age 55 with 25 or more years of credited service. Anyone who retires early and is under age 55 receives retirement benefits as calculated in the above mentioned formula but at a reduced rate (one quarter of one percent for each month the member lacks of attaining age 55).

B. Public Employees' Retirement System - The Public Employees' Retirement System was established in January, 1955 under the provisions of NJSA 43:15A to provide coverage including post-retirement health care to substantially all full time employees of the State or any county, municipality, school district or public agency provided the employee is not a member of another State-administered retirement system. Membership is mandatory for such employees and vesting occurs after 8 to 10 years of service and 25 years for health care coverage. Members are eligible for retirement at age 55 with an annual benefit generally determined to be 1/55th of the average annual compensation for the highest three fiscal years' compensation for each year of membership during years of creditable service. Early retirement is available to those under age 55 with 25 or more years of credited service. Anyone who retires early and is under age 55 receives retirement benefits as calculated in the above mentioned formula but at a reduced rate (one quarter of one percent for each month the member lacks of attaining age 55).

C. Defined Contribution Retirement Program - The Defined Contribution Retirement Program (DCRP) was established under the provisions Ch 92, PL 2007 and expanded under the provisions of Ch 89, PL 2008 and Ch 1, PL 2010 to provide eligible members with a tax sheltered, defined contribution retirement benefit, along with life insurance and disability coverage. Employees eligible to enroll in the program include the following: First, employees enrolled in the Public Employees Retirement System (PERS) or Teachers Pension and Annuity Fund (TPAF) on or after July 1, 2007 who earn salary in excess of maximum compensation limits. Also, employees otherwise eligible to enroll in the TPAF and PERS who do not earn the minimum salary (\$7,700 in 2010) but who earn salary of at least \$5,000 annually are eligible to participate. The program administrator, Prudential Financial, makes information regarding the program available on its New Jersey Defined Contribution Program Web Site: www.prudential.com/njdcprp.

The State of New Jersey, Department of the Treasury, Division of Pensions and Benefits, issues publicly available financial reports that include the financial statement and required supplementary information for TPAF and PERS. The financial reports may be obtained by writing to the State of New Jersey, Department of the Treasury, Division of Pensions and Benefits, PO Box 295, Trenton, New Jersey 08625-0295.

Significant Legislation

During the year ended June 30, 1997, legislation was enacted authorizing the New Jersey Economic Development Authority (the "Authority") to issue bonds, notes or other obligations for the purpose of financing, in full or in part, the State of New Jersey's portion of the unfunded accrued liability under the State of New Jersey retirement systems. On June 30, 1997, the Authority issued bonds pursuant to this legislation and \$1,547,688,633 and \$241,106,642 from the proceeds of the bonds were deposited into the investment account of TPAF and PERS, respectively.

Significant Legislation (cont'd)

As a result of additional legislation enacted during the year ended June 30, 1997 (Ch 115, PL 1997), the asset valuation method was changed from market related value to full market value for the valuation reports dated March 31, 1996. The legislation also provides for a reduction in the normal contributions of the State to the systems from excess assets for FY's 1997 and 1998, and local employers for FY 1999, and, thereafter, authorizes the State Treasurer to reduce the normal contributions of State and local employers to the systems, to the extent possible, from up to 100% of excess assets through FY 2002, and on a declining maximum percentage of excess thereafter.

Due to the enactment of the legislation described above, the State of New Jersey's portion of the unfunded accrued liability under each retirement system was eliminated except for the unfunded liability for local early retirement incentive benefits; accordingly, the pension costs for TPAF and PERS were reduced.

Contribution Requirements

The contribution policy is set by state statutes and contributions are required by active members and contributing employers. Plan member and employer contributions may be amended by State of New Jersey legislation. Significant legislation which became effective October 1, 2011 will gradually increase the employee contribution rate for PERS and TPAF members. Effective October 1, 2011 the rate increased from 5.50% to 6.50% of annual contractual compensation for employees enrolled in the TPAF and PERS pension plans. The rate will increase each year on the first of July over a seven year phase-in period until the withholding rate reaches 7.50% effective July 1, 2018. Contribution rates for DCRP provide for employee contributions of 5.50% of annual contractual compensation as defined. Employers are required to contribute at an actuarially determined rate in TPAF, PERS and DCRP. The actuarially determined contribution includes funding for cost-of-living adjustments, non-contributory death benefits and post-retirement medical premiums. Under current statute, the Board is a noncontributing employer of the TPAF.

NOTE 6. PENSION PLANS (Cont'd)

During the year ended June 30, 2014, the State of New Jersey contributed \$289,779 to the TPAF for post-retirement medical benefits and \$12,851 for the non-contributory insurance premiums, and \$145,587 for TPAF normal costs and accrued liability costs on behalf of the Board. Also, in accordance with NJSA 18A:66-66 the State of New Jersey reimbursed the Board \$269,398 during the year ended June 30, 2014 for the employer's share of social security contributions for TPAF members calculated on their base salaries. These amounts have been included in the financial statements and the combining and individual fund and account group statements and schedules as revenues and expenditures in accordance with GASB 27.

NOTE 7. POST-RETIREMENT BENEFITS

Chapter 384 of PL 1987 and Ch 6 of PL 1990 required TPAF and PERS, respectively, to fund post-retirement medical benefits for those State employees who retire after accumulating 25 years of credited service or on a disability retirement. PL 2007, Ch 103 amended the law to eliminate the funding of post-retirement medical benefits through the TPAF and PERS. It created separate funds outside the pension plans for the funding and payment of post-retirement medical benefits for retired state employees and retired educational employees. As of June 30, 2013, there were 100,134 retirees eligible for post-retirement medical benefits. The cost of these benefits is funded through contributions by the State in accordance with Ch 62, PL 1994. Funding of post-retirement medical premiums changed from a prefunding basis to a pay-as-you-go basis beginning the fiscal year 1994.

The State is also responsible for the cost attributable to Ch 126, PL 1992, which provides free health benefits to members of PERS and the Alternate Benefit Program who retired from a board of education or county college with 25 years of service. In fiscal year 2013, the State paid \$173.8 million toward Ch 126 benefits for 17,356 eligible retired members.

GASB Statement 45 requires certain disclosures relating to governmental entities obligations for other post-employment benefits (OPEB), which are post-employment benefits other than pensions. The District's only material OPEB obligation is for healthcare provided to eligible retirees through the NJ State Health Benefits Program.

Plan Description-The School District contributes to the State Health Benefits Program (SHBP), a cost-sharing, multiple-employer defined benefit post-employment healthcare plan administered by the State of New Jersey Division of Pensions and Benefits. SHBP was established in 1961 under NJSA 52:14-17.25 et seq., to provide health benefits to State employees, retirees, and their dependents. Rules governing the operation and administration of the program are found in Title 17, Chapter 9 of the New Jersey Administrative Code, SHBP provides medical, prescription drugs, mental health/substance abuse, and Medicare Part B reimbursement to retirees and their covered dependents.

The SHBP was extended to employees, retirees, and dependents of participating local public employers in 1964. The school district adopted a resolution to participate in the SHBP. The State Health Benefits Commission is the executive body established by the statute to be responsible for the operation of the SHBP. The State of New Jersey Division of Pensions and Benefits issues a publicly available financial report that includes financial statements and required supplementary information for the SHBP. That report may be obtained by writing to: State of New Jersey Division of Pensions and Benefits, PO Box 295, Trenton, NJ 08625-0295 or by visiting their website at (www.nj.gov/treasury/pensions).

NOTE 7. POST-RETIREMENT BENEFITS (Cont'd)

Funding Policy-Participating employers are contractually required to contribute based on the amount of premiums attributable to their retirees. Post-retirement medical benefits under the plan have been funded on a pay-as-you-go basis since 1994. Prior to 1994, medical benefits were funded on an actuarial basis. Information regarding the State's annual contributions, annual OPEB cost and net OPEB obligations is available through the State as noted in the previous paragraph.

NOTE 8. DEFERRED COMPENSATION

The Board offers its employees a choice of the following deferred compensation plans created in accordance with Internal Revenue Code Section 403 (b). The plans, which are administered by the entities listed below, permit participants to defer a portion of their salary until future years. Amounts deferred under the plans are not available to employees until termination, retirement, death or unforeseeable emergency. The plan administrators are as follows:

AXA Equitable
Lincoln Financial Group
Lincoln Investment Planning Inc.

NOTE 9. INTERFUND RECEIVABLE AND PAYABLES

The following interfund balances remained on the balance sheet as of June 30, 2014:

NOTE 11. CONTINGENT LIABILITIES

In the opinion of management there are no matters pending that will have a material adverse effect on the financial position of the District.

NOTE 12. RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

Property and Liability Insurance - The District maintains commercial insurance coverage for property, liability, and student accident and surety bonds. There was no significant reduction in insurance coverage from coverage of the prior year. The District did not have any insurance settlements which exceeded insurance coverage for the past three years. A complete schedule of insurance coverage can be found in the Statistical Section of the Comprehensive Annual Financial Report.

New Jersey Unemployment Compensation Insurance - The District has elected to fund its NJ Unemployment Compensation Insurance under the "Benefit Reimbursement Method." Under this plan, the District is required to reimburse the NJ Unemployment Trust Fund for benefits paid to its former employees and charged to its account with the State. The District is billed quarterly for amounts due to the State. The following is a summary of District contributions, and interest earnings, employee contributions, reimbursements to the State for benefits paid and the ending balance of the Districts expendable trust fund for the current and previous two years:

NOTE 13. LEGAL RESERVE ACCOUNTS

A capital reserve account was established by the District by inclusion of \$1 on September 25, 2000 for the accumulation of funds for use as capital outlay expenditures in subsequent fiscal years. The capital reserve account is maintained in the general fund and its activity is included in the general fund annual budget.

Funds placed in the capital reserve account are restricted to capital projects in the districts approved Long Range Facilities Plan (LRFP) and updated annually in the Quality Assurance Annual Report (QAAR). Upon submission of the LRFP to the Department of Education, a district may deposit funds into the capital reserve at any time upon board resolution through the transfer of undesignated, unreserved general fund balance or of excess undesignated, unreserved general fund balance that is anticipated in the budget certified for taxes. Pursuant to NJAC 6:23A-5.1 (d) 7, the balance in the account cannot at any time exceed the local support costs of uncompleted capital projects in its approved LRFP.

Districts are allowed as per NJSA 18A:7F-41(a) & 41(b) to deposit to the legal reserves by board resolution during the month of June for any unanticipated revenue and/or unexpended line-item appropriation amounts. Pursuant to this state statute, the District deposited \$330,000 to their Capital Reserve account, \$2,900 to their Maintenance Reserve account and \$150,000 to their Emergency Reserve account by board resolution in June 2014.

The following schedule is a summarization of the District's Legal Reserve Accounts:

NOTE: NJSA 18A:7F-5d limits the amount that the district can submit for a general fund tax levy. The levy when added to other components of the district's net budget may not exceed the prebudget by more than the spending growth limitation calculated as follows: the prebudget year net budget increased by the cost of living or 2.5 percent, whichever is greater, plus any spending growth adjustments.

- (a) The district's basic tax rate is calculated from the A4F form which is submitted with the budget and the Net valuation taxable.
- (b) Rates for debt service are based on each year's requirements.

Sources: Assessed value data used to estimate applicable percentages provided by the county Board of Taxation. Debt outstanding data provided by each governmental unit.

NOTE: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the District. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the municipality. This process recognizes that when considering the District's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident and, therefore, responsible for repaying the debt of each overlapping payment.

- (a) For debt repaid with property taxes, the percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of another governmental unit's taxable value that is within the District's boundaries and dividing it by each unit's total taxable value.

INDEPENDENT AUDITOR'S REPORT

September 26, 2014

Honorable President and
Members of the Board of Education
Union Township School District
County of Hunterdon, New Jersey

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Board of Education of the Union Township School District, as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the Board of Education's basic financial statements, and have issued our report thereon dated September 26, 2014.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Board of Education's control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements but not for the purpose of expressing an opinion on the effectiveness of the Board of Education's internal control. Accordingly, we do not express an opinion on the effectiveness of the Board of Education's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Board of Education's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT

September 26, 2014

Honorable President and
Members of the Board of Education
Union Township School District
County of Hunterdon, New Jersey

Report on Compliance for Each Major Federal and State Program

We have audited the Board of Education of the Union Township School District's (the District) compliance with the types of compliance requirements described in the OMB Circular A-133 Compliance Supplement and the New Jersey OMB State Grant Compliance Supplement that could have a direct and material effect on each of the Board of Education's major federal and state programs for the year ended June 30, 2014. The Board of Education's major federal and state programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal and state programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the Board of Education's major federal and state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations and New Jersey OMB 04-04. Those standards, OMB Circular A-133 and NJ OMB 04-04 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal or state program occurred. An audit includes examining, on a test basis, evidence about the Board of Education's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal and state program. However, our audit does not provide a legal determination of the Board of Education's compliance.

Opinion on Each Major Federal and State Program

In our opinion, the Board of Education complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs for the year ended June 30, 2014.

Report on Internal Control Over Compliance

Management of The Board of Education is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Board of Education's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal and state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133 and NJ OMB 04-04, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Board of Education's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal or state program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal or state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

**Report on Schedules of Expenditures of Federal Awards Required by OMB Circular A-133
and Expenditures of State Financial Assistance Required by NJ OMB 04-04**

We have audited the financial statements of the District as of and for the year ended June 30, 2014, and have issued our report thereon dated September 26, 2014, which contained an unmodified opinion on those financial statements. Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying schedules of expenditures of federal awards and state financial assistance are presented for purposes of additional analysis as required by OMB Circular A-133 and NJ Circular 04-04 and are not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditure of federal awards is fairly stated in all material respects in relation to the financial statements as a whole.

UNION TOWNSHIP SCHOOL DISTRICT
NOTES TO THE SCHEDULES OF AWARDS AND FINANCIAL ASSISTANCE
JUNE 30, 2014

NOTE 1. GENERAL

The accompanying schedules of financial assistance present the activity of all federal and state financial assistance programs of the Board of Education, Union Township School District. The Board of Education is defined in Note 1 (A) to the Board's financial statements. All federal financial assistance received directly from federal agencies, as well as federal financial assistance passed through other government agencies, is included on the schedule of federal financial assistance.

NOTE 2. BASIS OF ACCOUNTING

The accompanying schedules of financial assistance are presented using the budgetary basis of accounting with the exception of programs recorded in the food service fund, which are presented using the accrual basis of accounting. These bases of accounting are described in Notes 1 (C) and 1 (D) to the Board's financial statements.

NOTE 3. RELATIONSHIP OF FINANCIAL STATEMENTS

The financial statements present the general fund and special revenue fund on a GAAP basis. Budgetary comparison statements or schedules are presented for the general fund and special revenue fund to demonstrate finance-related legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the audit year, whereas for GAAP reporting, revenue is not recognized until the subsequent year or when expenditures have been made.

The general fund is presented in the accompanying schedules on the modified accrual basis with the exception of the revenue recognition of the last state aid payment in the current budget year, which is mandated pursuant to PL 2004, Ch 97 (A3521). For GAAP purposes, that payment is not recognized until the subsequent budget year due to the state deferred and recording of the last state aid payment in the subsequent year. The special revenue fund is presented in the accompanying schedules on the grant accounting budgetary basis, which recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not.

The net adjustment to reconcile from the budgetary basis to the GAAP basis is (\$4,536) for the general fund, (\$683) for the special revenue fund and (\$259,662) for the Capital Projects Fund. See Exhibit C-3 for a reconciliation of the budgetary basis to the modified accrual basis of accounting for the general and special revenue funds.

Financial assistance revenues are reported in the Board's financial statements on a GAAP basis as follows:

	<u>Local</u>	<u>Federal</u>	<u>State</u>	<u>Total</u>
General Fund			\$ 1,311,013	\$ 1,311,013
Special Revenue Fund	\$ 2,500	\$ 143,561		146,061
Food Service Fund		25,762	1,456	27,218
	<u>\$ 2,500</u>	<u>\$ 169,323</u>	<u>\$ 1,312,469</u>	<u>\$ 1,484,292</u>

NOTE 4. RELATIONSHIP TO FEDERAL AND STATE FINANCIAL REPORTS

Amounts reported in the accompanying schedules agree with the amounts reported in the related federal and state financial reports.
