Members of the Board of Education  
City of Ventnor School District  
County of Atlantic

Dear Board Members:

The Comprehensive Annual Financial Report of the City of Ventnor School District for the fiscal year ending June 30, 2014, is hereby submitted. Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures, rests with the management of the Board of Education. To the best of our knowledge and belief, the data presented in this report is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

The Comprehensive Annual Financial Report is presented in four sections: introductory, financial, statistical and single audit. The introductory section includes this transmittal letter, the District's organizational chart and a list of the principal officials. The financial section includes the basic financial statements and schedules, management's discussion and analysis, as well as the auditor's report thereon. The statistical section includes selected financial and demographic information, generally presented on a multi-year basis. The District is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act of 1996 and the U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments and Non-Profit Organizations* and the New Jersey OMB Circular Letter 04-04, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid Payments*. Information related to this single audit, including the auditor's report on the internal control structure and compliance with applicable laws and regulations and findings and recommendations, are included in the single audit section report.

1) **REPORTING ENTITY AND ITS SERVICES:** The City of Ventnor School District is an independent reporting entity within the criteria set forth in Section 2100 of the *GASB Codification of Governmental Accounting and Financial Reporting Standards*. All funds of the District are included in this report. The City of Ventnor Board of Education and all its schools constitute the District's reporting entity.

The Ventnor City Public School District operates two schools located on the same land site known as the Ventnor Educational Community Complex. The Elementary School houses grades Pre-Kindergarten through grade four. The Pre-Kindergarten and Kindergarten grades are housed in the Early Childhood Center. The Middle School houses grades five through eight. The district provides a full range of educational services appropriate to grade levels Pre-Kindergarten through eight. These programs include the following: a half-day four year old pre-school, a full-day kindergarten, state of the art technology opportunities for all children, computer assisted research and services through the Media Center, complete Art and Music curricula, Basic Skills, Drug Resistance Education, Gifted and Talented, World Languages study in Spanish, Health and Physical Education including intramurals and interscholastic opportunities, Regular and Special Education Programs, and a variety of community and recreational programs. The VECC houses a pre-school Headstart program provided by an outside agency for the children of staff members. The district completed the 2013-2014 fiscal year with an enrollment of 817 students. The following details the changes in the student enrollment of the district over the last six years:

<u>Year</u>	<u>Enrollment</u>
2013 – 2014	817
2012 – 2013	872
2011 - 2012	905
2010 - 2011	936
2009 - 2010	981
2008 - 2009	995
2007 - 2008	946

2) **ECONOMIC CONDITION AND OUTLOOK:** The Ventnor City Public School District is located in a downbeach community whose children, in grades PK through eight, constitute the student population of the District. Ventnor is immediately adjacent to Atlantic City and Margate City, approximately 60 miles from Philadelphia. Ventnor's year round (resident) population is a mixed socio-economic group. Geographically, Ventnor is located on an island. It is 1.7 miles in length and approximately three quarters of a mile in width, comprising 2.1 square miles overall. Ventnor is bounded on the northeast by Atlantic City, on the Southwest by Margate City, on the southeast by the Atlantic Ocean, and the northwest by the centerline of the main channel in the Beach Thoroughfare.

A three-person Board of Commissioners, elected at large every four years, governs the city. They govern a city that is almost entirely residential, whose year round population of about 11,500 increases to approximately 28,000 during the summer months. There are various houses of worship, which reflect the diverse population of Ventnor City.

The over-all responsibility for the education of the PK-8 children lies with the District's Board of Education. The Board is a Type I Board of Education comprised of seven members, appointed by the Mayor for a term of three years. The New Jersey Department of Education classifies the Ventnor School District as District Factor B. The District Factor Group is based on socio-economic status.

The original school was built in 1970 with additions/renovations conducted in 1974, 1983 and 1997. The District newest renovations were completed in 2001 and a multimillion dollar renovation project was completed over the summer of 2010. The 2001 project included 16 classrooms, new roofing over the oldest section of the building, renovated cafeteria and kitchen, some classrooms, and a new gym. The summer 2010 consisted of renovation of the oldest portions of the facility to include a new roof, windows and new HVAC systems.

Upon promotion from grade eight at the Ventnor Complex, students attend Atlantic City High School through a sending-receiving relationship that has existed since the 1920's. The district paid tuition for 278 regular education and for 29 special education students to the high school during the 2013-14 school year at a tuition rate of \$19,800 and \$25,835 to \$35,700 per student respectively. A number of additional resident students attend local parochial and public schools including Ocean City and Mainland Regional at both the elementary and high school levels.

A Board of School Estimate works closely with both city and school officials and is responsible for approving the district's budget annually. For the 2014-2015 school year, the district will operate with a budget of \$21,612,926. The district's management team consists of a superintendent, business administrator/board secretary, an elementary school principal and a middle school principal, a supervisor of special services and an NCLB coordinator. The staff team employed by the district consists of 83 full or part-time certified instructional staff, 4 secretaries, 6 full clerk typists, 12 full time support staff, and 24 part-time support personnel. The Child Study Team consists of a school social worker, a learning disabilities teacher consultant, a school psychologist and speech, occupational and physical therapists.

The Board of Education continues its efforts to increase curricular offerings to meet student needs. Among these offerings are improved math and science instruction delivery systems [STEM lab], up to date curricula (common core), technology programs, language arts, world language programs, gifted and talented programs, and a county recognized music program. Other noteworthy program services to students include guidance services, after school homework club, accelerated reading programs, summer reading programs, drug awareness programs, peer mediation programs, character education programs, and ESL programs provided on a regular basis during the school year with

participation based on student needs. The school district's student population has consistently decreased in recent years showing its highest enrollment of 1150 students in the 2002-2003 school year. The Board of Education and the Board of School Estimate established a four-phase building program based on enrollment growth at that time.

Phase I, completed in 1996, included the renovations of existing space into classrooms and Phase II included a 16,000 square foot addition of eight full-sized classrooms, four small group instruction classrooms, a computer lab, computer network infrastructure and a media center. Phase III added 16 classrooms including the Early Childhood Center, a new gymnasium, reading room, child study team offices, board office area, music classrooms (instrumental and vocal), renovated kitchen/cafeteria and additional parking. Phase IV added air conditioning and a new roof and windows to the older sections of the building.

The district had five construction grants approved in 2013/2014 for boiler replacement, emergency generator replacement, gym HVAC replacement, HVAC replacement and roof replacement. The boiler and emergency generator replacement are in progress while the HVAC and roof replacements are budgeted for 2014/2015 with a summer 2015 target start date.

Ventnor City and its public school are richly diverse and multi-cultural. At the school site, the minority student population has increased from 9% in 1989 to 62.0% in October 2013. Our ESL (English as a Second Language) Program assists in supporting a complement of programs to meet the needs of all of our students.

The Board of Education's goals continue to focus on high academic achievement. The Board provides a multi-cultural environment that promotes student growth and development of all our children. Our mission is to provide all students with quality education programs that will assist in preparing them for a fruitful and productive future.

The Board established three district goals. The Superintendent, in cooperation with the Board of Education, and the Administrative Team, will **Ensure Fiscal Responsibility** via conservative spending, generating revenue, and creatively cutting costs. The Superintendent, in cooperation with the Board of Education, and the Administrative Team, will **Increase Test Scores** as a result of strengthening curriculum, obtaining additional resources for areas of weakness, providing professional development for staff, and increasing attendance. The Superintendent, in cooperation with the Board of Education, and the Administrative Team, will **Foster Community Involvement/Communication** as we modernize website, collaborate with families and community members, establish partnerships with area businesses and institutions, and provide incentives for teachers to become more involved.

The district curricula review and revision supports the correlation to the New Jersey Common Core Curriculum Standards and the review is on going. The school district promotes character-building programs. "Character Counts" which stresses conduct of "Respect, Responsibility and Citizenship," Social Skills Streaming programs, and

Violence and Vandalism Awareness are among the programs offered in this area. The district is fortunate to have an active HSA (Home School Association) that works to assist in funding student programs and activities. Atlantic County officials have also commended us for our meaningful intergenerational programs and activities aimed at strengthening the bonds between seniors and students in the community.

The Ventnor City Public School is a community concerned and committed to providing a quality education that meets the needs of its students.

**3) MAJOR INITIATIVES:** The Board of Education has endorsed many initiatives for the district. It continues its commitment to providing cutting edge opportunities to incorporate technology into the classroom setting and instruction. Students receive regular instruction in the use of technology. In addition, a majority of classrooms have at least four computers. In addition they have HDTV's linked to the Internet for instructional purposes. Internet access is available to all students and staff in the district through stand alone and laptop computers. The district has updated all curricula and aligned them with the Common Core Curriculum Standards.

2014-2015 technology upgrades include the installation of 70 Wireless Access Points and additional security cameras in key areas throughout the building and outside. Additional hard drives facilitated off site backups for unanticipated power outages and security support. Sixty two desktop computers were replaced with tablets or All-in-One touchscreen computers and the STEM lab received 10 new tablets. Fifty legacy laptops were replaced with tablets on mobile carts. Four Short-throw projectors and four additional SmartBoards were installed in classrooms. The district designed a more dynamic and user friendly website.

**4) INTERNAL ACCOUNTING CONTROLS:** Management of the District is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are protected from loss, theft or misuse, and to ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with Generally Accepted Accounting Principals (GAAP). The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

As a recipient of federal and state financial assistance, the District also is responsible for ensuring that an adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control structure is also subject to periodic evaluation by the District management.

As part of the District's single audit described earlier, tests are made to determine the adequacy of the internal control structure, including that portion related to federal and state financial assistance programs, as well as to determine that the District has complied with applicable laws and regulations.

5) **BUDGETARY CONTROLS:** In addition to internal accounting controls, the District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the Board of School Estimates of the municipality. Annual appropriated budgets are adopted for the general fund and the special revenue fund. Project-length budgets are approved for the capital improvements accounted for in the capital projects fund. The final budget amount as amended for the fiscal year is reflected in the financial section.

An encumbrance accounting system is used to record outstanding purchase commitments on a line item basis. Open encumbrances at year-end are either canceled or are included as re-appropriations of fund balance in the subsequent year. Those amounts to be re-appropriated are reported as reservations to fund balance at June 30, 2014.

6) **ACCOUNTING SYSTEM AND REPORTS:** The District's accounting records reflect generally accepted accounting principles, as promulgated by the Governmental Accounting Standards Board (GASB). The accounting system of the District is organized on the basis of funds and account groups. These funds and account groups are explained in "Notes to the Financial Statements," Note 1.

7) **DEBT ADMINISTRATION:** The District is a Type I district, which means that none of the debt is included on the books of the school district. Debt service is budgeted and paid by the City of Ventnor.

8) **CASH MANAGEMENT:** The investment policy of the District is guided in large part by state statute as detailed in "Notes to the Financial Statements", Note 1. The District has adopted a cash management plan which requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act ("GUDPA"). GUDPA was enacted in 1970 to protect Governmental Units from a loss of funds on deposit with a failed banking institution in New Jersey. The law requires governmental units to deposit public funds only in public depositories located in New Jersey, where the funds are secured in accordance with the Act.

9) **RISK MANAGEMENT:** The Board carries various forms of insurance, including, but not limited to general liability, automobile liability and comprehensive/collision, hazard and theft on property and contents, and fidelity bonds.

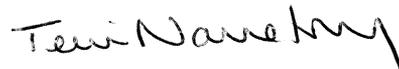

10) **OTHER INFORMATION:** Independent Audit – State statutes require an annual audit by independent certified public accountants or registered municipal accountants. The Accounting firm of Ford, Scott & Associates, LLC, CPAs, was selected by the Board’s Finance Committee. In addition to meeting the requirements set forth in the state statutes, the audit is designed to meet the requirements of the Single Audit Act of 1996 and the related OMB Circular A-133 and New Jersey OMB Circular Letter 04-04. The auditor’s report on the basic financial statements and combining and individual fund statements and schedules are included in the financial section of this report. The auditor’s reports related specifically to the single audit are included in the single audit section of this report.

11) **ACKNOWLEDGEMENTS:** We would like to express our appreciation to the members of the City of Ventnor School Board for their concern in providing fiscal accountability to the citizens and taxpayers of the school district and thereby contributing their full support to the development and maintenance of our financial operation. The preparation of this report could not have been accomplished without the efficient and dedicated services of our financial and accounting staff.

Respectfully submitted,

## **Independent Auditor's Report**

Honorable President and  
Members of the Board of Education  
City of Ventnor School District  
County of Atlantic, New Jersey

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Board of Education of the City of Ventnor School District (a component unit of the City of Ventnor) in the County of Atlantic, State of New Jersey, as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the Board's basic financial statements as listed in the table of contents.

### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### ***Auditor's Responsibility***

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk

assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### ***Opinions***

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Ventnor Board of Education (a component unit of the City of Ventnor), in the County of Atlantic, State of New Jersey, as of June 30, 2014, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### ***Other Matters***

#### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the *management's discussion and analysis and budgetary comparison information* identified in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### *Other Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Pleasantville Board of Education's basic financial statements. The combining and individual non-major fund financial statements and schedule of expenditures of federal awards, as required by Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* and the schedule of expenditures of state financial assistance as required by NJ OMB 04-04 and the introductory and statistical sections are presented for

purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual non-major fund financial statements, schedule of expenditures of federal awards, as required by Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, the schedule of and the schedule of state financial assistance as required by NJ OMB 04-04 is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual non-major fund financial statements, schedule of expenditures of federal awards, as required by Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and the schedule of state financial assistance as required by NJ OMB 04-04 is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subject to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

#### **Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated September 15, 2014 on our consideration of the City of Ventnor Board of Education's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Ventnor Board of Education's internal control over financial reporting and compliance.

## MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of the City of Ventnor School District ("District") annual financial report presents our discussion and analysis of the District's financial performance during the fiscal year that ended on June 30, 2014. Please read it in conjunction with the transmittal letter at the front of this report and the District's financial statement.

### FINANCIAL HIGHLIGHTS

- The net position of the District decreased \$64,480.54. The decrease is immaterial.
- The State of New Jersey reimbursed the District \$504,370.00 during the fiscal year ended June 30, 2014 for the employer's share of social security contributions and pension contributions for TPAF members as calculated on their base salaries. Also, the State of New Jersey paid \$720,005.00 on behalf of the District for TPAF Pension Contributions. These amounts, which are not budgeted, are included as both a revenue and appropriation in the financial statements.
- As indicated by New Jersey State Statutes, the unreserved fund balance of the general fund is limited to 2% of the total general fund expenditures. Any excess is required to be designated as Reserved Fund Balance – Excess Surplus and included in the next year's budget as budgeted fund balance. As of June 30, 2014, the District had excess fund balance in the amount of \$1,484,060.00 of which \$416,186.00 has been included in the 2014-2015 budget and the remaining \$1,067,874.00 will be included in the 2015-2016 budget.
- During the fiscal year ended June 30, 2014, the District's revenues exceeded expenditures and special items by \$2,531,502.54. This was mainly a result of the district entering into a land lease for \$2,100,000.00. During the prior fiscal year, expenditures exceeded revenues and special items by \$137,369.00.
- In the District's business-type activities, net assets decreased \$47,168.67 due to costs of operation exceeding revenues.

### OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of four parts – *management's discussion and analysis* (this section), the basic *financial statements*, *required supplementary information*, and an optional section that presents *combining statements for special revenue, proprietary, and fiduciary funds*. The basic financial statements include two kinds of statements that present different views of the District.

- The first two statements are *government-wide financial statements* that provide both *long-term* and *short-term* information about the District's *overall* financial status.
- The remaining statements are *fund financial statements* that focus on individual parts of the District's government, reporting on the District's operations in *more detail* than the government-wide statements.
  - The *governmental funds* statements tell how *general government* services like instruction were financed in the *short term* as well as what remains for future spending.
  - *Proprietary fund* statements offer *short-* and *long-term* financial information about the activities the District operates like businesses, such as the food service and after school program.
  - *Fiduciary fund* statements provide information about the financial relationships – like the unemployment trust fund – in which the District acts solely as a *trustee or agent* for the benefit of others, to whom the resources in question belong.

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the information in the financial statements. Figure A-1 shows how the required parts of this annual report are arranged and relate to one another.

Figure A-1 summarizes the major features of the District's financial statements, including the portion of the District's government they cover and the types of information they contain. The remainder of this overview section of management's discussion and analysis explains the structure and contents of each of the statements.

### Government-wide Statements

The government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes *all* of the government’s assets and liabilities. All of the current year’s revenues and expenses are accounted for in the statement of changes in net position regardless of when cash is received or paid.

The two government-wide statements report the District’s *net position* and how they have changed. Net position – the difference between the District’s assets and liabilities – is one way to measure the District’s financial health, or *position*.

- Over time, increases or decreases in the District’s net position are an indicator of whether its financial health is improving or deteriorating, respectively.
- To assess the overall health of the District you need to consider additional non-financial factors such as changes in the City’s property tax base and the condition of the District’s facilities.

The government-wide financial statements of the District are divided into two categories:

- *Governmental activities* – most of the District’s basic services are included here, such as instruction, transportation, administration, and plant operations. Property taxes and state and federal grants finance most of these activities.
- *Business-type activities* – the District charges fees to customers to help it cover the costs of certain services it provides. The District’s food program and after school program are included here.

## **Fund Financial Statements**

The fund financial statements provide more detailed information about the District's most significant *funds* – not the District as a whole. Funds are accounting devices that the District uses to keep track of specific sources of funding and spending for particular purposes.

The District has three kinds of funds:

- *Governmental funds* – Most of the District's basic services are included in governmental funds, which focus on (1) how *cash and other financial assets* that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed *short-term* view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide additional information at the bottom of the governmental funds statement that explains the relationship (or differences) between them.
- *Proprietary funds* – Services for which the District charges customers a fee are generally reported in proprietary funds. Proprietary funds, like the government-wide statements, provide both long- and short-term financial information. In fact, the District's *enterprise funds* (one type of proprietary fund) are the same as its business-type activities, but provide more detail and additional information, such as cash flows.
- *Fiduciary funds* – The District is the trustee, or *fiduciary*, for other assets that - because of a trust arrangement – can be used only for the trust beneficiaries. The District is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the District's fiduciary activities are reported in separate statement of fiduciary net assets and a statement of changes in fiduciary net assets. We exclude these activities from the District's government-wide financial statements because the District cannot use these assets to finance its operations.

## **FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE**

**Net position:** The District's governmental activities net position decreased \$17,311.87 between fiscal years 2013 and 2014. The business-type activities net assets decreased \$47,168.67 due to operating costs in excess of revenues.

**Changes in net position.** The total general fund revenue of the District increased approximately \$74,000 due to an increase in federal and state aid. The local tax levy is 77.77% of total revenues. The municipality levies this tax on properties located in the City and remits the collections on a monthly basis to the District.

Approximately 14.8% of the District's revenue comes from the State of New Jersey in the form of non-restricted state aid. This aid is based on the District's enrollment as well as other factors such as legislative funding of the SFRA formula. The District expenses are primarily related to instruction, administration, and plant operations.

### **Business-type Activities**

Operating revenues of the District's business-type activities decreased \$47,169 over the previous year and expenditures decreased by \$42,296.

### **FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS**

As of the year end, the governmental funds reported a combined fund balance of \$4,103,085.54 which is \$2,531,502.54 higher than the beginning of the year. This is mainly a result of the district entering into a land lease for \$2,100,000.00.

### **General Fund Budgetary Highlights**

As further explained in the notes to the Financial Statements, annual appropriated budgets are prepared in the spring of each year for the general and special revenue funds. The budgets are submitted to the County office and, as a Type I School District, are approved by the Board of School Estimates annually. Transfers of appropriations that do not exceed 10% on a cumulative basis may be made by Board resolution at any time during the fiscal year. Transfers of appropriations that exceed 10% on a cumulative basis must be approved by the Commissioner of Education. The District is permitted to encumber funds throughout the year for purchases ordered but not yet received. Any open encumbrances as of June 30<sup>th</sup> carry over to the next fiscal year and are added to the appropriation reflected in the certified budget.

After adjusting total revenue reported on Exhibit C-1 for the Reimbursed TPAF Social Security Contribution and on-behalf TPAF Pension Contributions, which are not budgeted, the District's actual revenue was more than the budget by \$178,799.66. This is a result prior year federal fund adjustment in the current year. Again, after adjusting for the Reimbursed TPAF Social Security Contribution, on-behalf TPAF Pension Contributions, actual expenditures were \$1,271,427.06 less than the budgeted appropriations. This is result of lower tuition costs and instruction costs.

## FUND FINANCIAL STATEMENTS

The combining and individual fund statements and schedules present more detailed information for the individual funds in a format that segregates information by fund type. The statements are segregated as follows:

**Governmental Funds** - This section consists of the general, special revenue, capital projects funds.

**Proprietary Funds** - This section consists of the food service fund and after school program. This fund is operated in a manner similar to a private business enterprise.

**Fiduciary Funds** - This section consists of the unemployment compensation insurance trust fund, the student activity fund, and the payroll agency fund.

Amounts reported for governmental activities in the statement of activities (A-2) are different because:

Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense.

This is the amount by which capital outlays exceeded depreciation in the period.

Depreciation expense	(930,597.00)	
Loss on disposal of capital assets	(9,621.00)	
Capital outlays	<u>392,149.00</u>	(548,069.00)

Repayment of capital leases is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets and is not reported in the statement of activities. 41,794.74

Lease proceeds are reported in governmental funds as revenues. However, in the statement of activities, the proceeds are recorded as a long-term liability and amortized over the term of the lease. (2,100,000.00)

In the statement of activities, interest on capital leases in the statement of activities is accrued, regardless of when due. In the governmental funds, interest is reported when due. The accrued interest is an reduction in the reconciliation. (-) 1,192.85

In the statement of activities, certain operating expenses, e.g., compensated absences (vacations) are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are reported in the amount of financial resources used (paid). When the earned amount exceeds the paid amount, the difference is reduction in the reconciliation (-); when the paid amount exceeds the earned amount the difference is an addition to the reconciliation (+). 56,267.00

## PROPRIETARY FUNDS

Enterprise funds are used to account for operations that are financed and operated in a manner similar to private business enterprises - where the intent of the district's board is that the costs of providing goods or services be financed through user charges.

**Food Services Fund** - This fund provides for the operation of food services in all schools within the school district.

**After School Program**- This fund accounts for the operation of an after school program for all children within the district.

**NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The City of Ventnor School District is an instrumentality of the State of New Jersey, established to function as an educational institution. The Board consists of appointed officials and is responsible for the fiscal control of the District. A superintendent is appointed by the Board and is responsible for the administrative control of the District.

The financial statements of the Board of Education (Board) of the City of Ventnor School District (District) have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. In its accounting and financial reporting, the District follows the pronouncements of the Governmental Accounting Standards Board (GASB). The more significant accounting policies established in GAAP and used by the District are discussed below.

**A. REPORTING ENTITY:**

The City of Ventnor School District is a Type I district located in the County of Atlantic, State of New Jersey. As a Type I district, the Board of Education members are appointed by the Mayor. The Board is comprised of seven members appointed to three-year terms. The purpose of the district is to educate students in grades K-8. The City of Ventnor School District had an approximate enrollment at June 30, 2014 of 817 students.

The primary criterion for including activities within the District's reporting entity, as set forth in Section 2100 of the GASB Codification of Governmental Accounting and Financial Reporting Standards, is whether:

- the organization is legally separate (can sue or be sued in their own name)
- the District holds the corporate powers of the organization
- the District appoints a voting majority of the organization's board
- the District is able to impose its will on the organization
- the organization has the potential to impose a financial benefit/burden on the District
- there is a fiscal dependency by the organization on the District

Based on the aforementioned criteria, the District has no component units but, as a Type I School District, would be considered a component unit of the City of Ventnor. The City however reports on a regulatory basis of accounting which does not recognize component units. If the City followed generally accepted accounting principles (GAAP) reporting, the Board of Education would be a component unit of the City of Ventnor.

**B. BASIC FINANCIAL STATEMENTS – GOVERNMENT-WIDE STATEMENTS:**

The District's basic financial statements include both government-wide (reporting the District as a whole) and fund financial statements (reporting the District's major funds). Both the government-wide and fund financial statements categorize primary activities as either governmental or business type. The District's general, special revenue and capital project activities are classified as

**City of Ventnor School District  
(A Component Unit of the City of Ventnor)  
Notes to Financial Statements  
June 30, 2014**

governmental activities. The District's food service and after school program are classified as business-type activities.

In the governmental-wide Statement of Net Position, both the governmental and business-type activities columns (a) are presented on a consolidated basis by column, (b) and are reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The District's net position are reported in three parts-invested in capital assets, net of related debt; restricted net position; and unrestricted net position. The District first utilizes restricted resources to finance qualifying activities.

The government-wide Statement of Activities reports both the gross and net cost of each of the District's functions and business-type activities (food service and after school program). The functions are also supported by general government revenues (property taxes, transportation, certain intergovernmental revenues, etc.). The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants. Program revenues must be directly associated with the function (regular instruction, special education, student & instruction related services, etc.) or a business-type activity. Operating grants include operating-specific and discretionary (either operating or capital) grants while the capital grants column reflects capital-specific grants.

The net costs (by function or business-type activity) are normally covered by general revenue (property taxes, transportation, interest income, etc.).

- a. The District does allocate indirect costs such as depreciation expense, compensated absences, On-behalf TPAF Pension Contributions, and Reimbursed TPAF Social Security Contributions.

The government-wide focus is more on the sustainability of the District as an entity and the change in the District's net position resulting from the current year's activities. Fiduciary funds are not included in the government-wide statements.

### **C. BASIC FINANCIAL STATEMENTS – FUND FINANCIAL STATEMENTS**

The financial transactions of the District are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprise its assets, liabilities, reserves, fund equity, revenues and expenditures/expenses. The various funds are reported by generic classification within the financial statements.

The emphasis in fund financial statements is on the major funds in either the governmental or business-type activities categories. Nonmajor funds by category are summarized into a single column. GASB No. 34 sets forth minimum criteria (percentage of the assets, liabilities, revenues or expenditures/expenses of either fund category or the governmental and enterprise combined) for the determination of major funds. The nonmajor funds are combined in a column in the fund financial statements. The State of New Jersey Department of Education has mandated that all New Jersey School Districts must report all governmental funds as major, regardless of the fund meeting the GASB definition of a major fund. However, the criteria is applied to proprietary funds.

**City of Ventnor School District  
(A Component Unit of the City of Ventnor)  
Notes to Financial Statements  
June 30, 2014**

The following fund types are used by the District:

**1. Governmental Funds:**

The focus of the governmental funds' measurement (in the fund statements) is upon determination of financial position and changes in financial position (sources, uses, and balances of financial resources) rather than upon net income. The following is a description of the governmental funds of the District.

- a. **General fund** is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund.
- b. **Special revenue** funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for a specific purpose. The special revenue fund is specifically used to account for state and federal grant monies that have been allocated to the District.
- c. **Capital projects** funds are used to account for all financial resources to be used for the acquisition or construction of major capital facilities. The financial resources are derived from temporary notes or serial bonds. As a Type I School District all debt is borne by the municipality rather than the school district.

**Fund Balances – Governmental Funds**

In the fund financial statements, governmental funds report the following classifications of fund balance:

Nonspendable – includes amounts that cannot be spent because they are either not spendable in form or are legally or contractually required to be maintained intact.

Restricted – includes amounts restricted by external sources (creditors, laws of other governments, etc.) or by constitutional provision or enabling legislation.

Committed – includes amounts that can only be used for specific purposes. Committed fund balance is reported pursuant to resolutions passed by the Board of Education, the District's highest level of decision making authority. Commitments may be modified or rescinded only through resolutions approved by the Board of Education.

Assigned – includes amounts that the District intends to use for a specific purpose, but do not meet the definition of restricted or committed fund balance. Under the District's policy, amounts may be assigned by the Business Administrator.

Unassigned – includes amounts that have not been assigned to other funds or restricted, committed or assigned to a specific purpose within the General Fund. The District reports all amounts that meet the unrestricted General Fund Balance Policy described below as unassigned:

The details of the fund balances are included in the Governmental Funds Balance Sheet. When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is

**City of Ventnor School District**  
**(A Component Unit of the City of Ventnor)**  
**Notes to Financial Statements**  
**June 30, 2014**

available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balance are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed.

**2. Proprietary Funds:**

The focus of proprietary fund measurement is upon determination of operating income, changes in net position, financial position, and cash flows. The generally accepted accounting principles applicable are those similar to businesses in the private sector. The following is a description of the proprietary funds of the District:

- a. **Enterprise funds** are required to be used to account for operations for which a fee is charged to external users for goods or services and the activity (a) is financed with debt that is solely secured by a pledge of the net revenues, (b) has third party requirements that the cost of providing services, including capital costs, be recovered with fees and charges or (c) establishes fees and charges based on a pricing policy designated to recover similar costs. The District's enterprise funds consist of a food service fund and an after school program.

**3. Fiduciary Funds:**

Fiduciary funds are used to report assets held in a trustee or agency capacity for others and therefore are not available to support District programs. The reporting focus is on net position and changes in net position, and are reported using accounting principles similar to proprietary funds.

The District's fiduciary funds are presented in the fiduciary fund financial statements by type (pension, private purpose and agency). Since by definition these assets are being held for the benefit of a third party (other local governments, private parties, pension participants, etc.) and cannot be used to address activities or obligations of the government, these funds are not incorporated into the government-wide statements.

All fund internal activity is eliminated when carried to the Government-wide statements.

**D. BASIS OF ACCOUNTING**

Basis of accounting refers to the point at which revenues or expenditures/expenses are recognized in the accounts and reported in the financial statements. It relates to the timing of the measurements made regardless of the measurement focus applied.

**1. Accrual:**

Both governmental and business-type activities in the government-wide financial statements and the proprietary and fiduciary fund financial statements are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.

**City of Ventnor School District  
(A Component Unit of the City of Ventnor)  
Notes to Financial Statements  
June 30, 2014**

**2. Modified Accrual:**

The governmental fund financial statements are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e., both measurable and available. "Available" means collectible within the current period or within 60 days after year end. Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred. The exception to this general rule is that principal and interest on general obligation long-term debt, if any, is recognized when due.

**E. FINANCIAL STATEMENT AMOUNTS**

**1. Cash and Cash Equivalents:**

Cash and cash equivalents include petty cash, change funds, cash in banks and all highly liquid investments with a maturity of three months or less at the time of purchase and are stated at cost plus accrued interest. U.S. Treasury and agency obligations and certificates of deposit with maturities of one year or less when purchased are stated at cost. All other investments are stated at fair value.

New Jersey school districts are limited as to the types of investments and types of financial institutions they may invest in. New Jersey statute 18A:20-37 provides a list of permissible investments that may be purchased by New Jersey school districts.

Additionally, the District has adopted a cash management plan that requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act ("GUDPA"). GUDPA was enacted in 1970 to protect Governmental Units from a loss of funds on deposit with a failed banking institution in New Jersey.

NJSA 17:9-41 et. seq. establishes the requirements for the security of deposits of governmental units. The statute requires that no governmental unit shall deposit public funds in a public depository unless such funds are secured in accordance with the Act. Public depositories include Savings and Loan institutions, banks (both state and national banks) and savings banks the deposits of which are federally insured. All public depositories must pledge collateral, having a market value at least equal to five percent of the average daily balance of collected public funds, to secure the deposits of Governmental Units. If a public depository fails, the collateral it has pledged, plus the collateral of all other public depositories, is available to pay the full amount of their deposits to the Governmental units.

**2. Investments:**

Investments, including deferred compensation and pension funds, are stated at fair value, (quoted market price or the best available estimate). Interest earned on investments in the Capital Projects Fund is recognized as a reserve to pay future debt service or transferred to the general fund.

(A Component Unit of the City of Ventnor)  
Notes to Financial Statements

**3. Inventories:**

Inventories in the general fund consist of expendable supplies held for the District’s use and are carried at cost using the first-in, first-out method. Inventories in the enterprise fund are valued at cost, which approximates market, using the first-in, first –out method. As of June 30, 2014, the District did not have inventory in the general fund and had the following inventory in the enterprise fund:

Food	\$ 692.09
Supplies	3,613.22
Total	<u>\$ 4,305.31</u>

The value of Federal donated commodities is the difference between market value and cost of the commodities at the date of purchase and has been included as an item of non-operating revenue in the financial statements. The value of commodities included in the food inventory on June 30, 2014 is \$25,272.10.

**4. Capital:**

Capital assets purchased or acquired with an original cost of \$2,000 or more are reported at historical cost or estimated historical cost. Contributed assets are reported at fair market value as of the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Depreciation on all assets is provided on the straight-line basis over the following estimated useful lives:

Buildings	10-50 years
Machinery and equipment	5-20 years
Improvements	10-20 years

Infrastructure assets include roads, parking lots, underground pipe, etc. The District includes all infrastructure assets as depreciable assets in the financial statements.

**5. Revenues:**

Substantially all governmental fund revenues are accrued. Property taxes are susceptible to accrual and under New Jersey State Statutes a municipality is required to remit to its school district the entire balance of taxes in the amount voted upon or certified, prior to the end of the school year. The District records the entire approved tax levy as revenue (accrued) at the start of the fiscal year, since the revenue is both measurable and available. Subsidies and grants to proprietary funds, which finance either capital or current operations, are reported as non operating revenue. In respect to grant revenues, the provider recognizes liabilities and expenses and the recipient recognizes receivables and revenue when the applicable eligibility requirements, including time requirements are met. Resources transmitted before eligibility requirements are met are reported as advances by the provider and deferred revenue by the recipient. Program revenues, including tuition revenue are reported as reductions to expenses in the statement of activities.

**City of Ventnor School District  
(A Component Unit of the City of Ventnor)  
Notes to Financial Statements  
June 30, 2014**

**6. Expenditures:**

Expenses are recognized when the related fund liability is incurred. Inventory costs are reported in the period when inventory items are used, rather than in the period purchased.

**7. Compensated absences:**

Compensated absences are those absences for which employees will be paid, such as vacation, sick leave, and sabbatical leave. A liability for compensated absences that are attributable to services already rendered, and that are not contingent on a specific event that is outside the control of the District and its employees, is accrued as the employees earn the rights to the benefits. Compensated absences that relate to future services, or that are contingent on a specific event that is outside the control of the District and its employees, are accounted for in the period in which such services are rendered or in which such events take place.

In governmental and similar trust funds, compensated absences that are expected to be liquidated with expendable available financial resources are reported as an expenditure and fund liability in the fund that will pay for the compensated absences. The remainder of the compensated absences liability is reported in the District-wide Financial Statements as a Governmental Activity.

In proprietary and similar trust funds, compensated absences are recorded as an expense and liability of the fund that will pay for them.

**8. Interfund Activity:**

Interfund activity is reported as either loans, services provided, reimbursements or transfers. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related costs as reimbursement. All other interfund transactions are treated as transfers. Transfers between governmental or proprietary funds are netted as part of the reconciliation to the government-wide financial statements.

**9. Budgets/Budgetary Control:**

Annual appropriated budgets are prepared in the spring of each year for the general and special revenue funds. The budgets are submitted to the county office for approval and are approved by the board of school estimates. Budgets are prepared using the modified accrual basis of accounting, except for the special revenue fund as described later. The legal level of budgetary control is established at line item accounts within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in N.J.A.C. 6:23-2(g). Transfers of appropriations may be made by School Board resolution at any time during the fiscal year and are subject to two-thirds majority vote by the School Board and under certain circumstances require approval by the County Superintendent of Schools.

The following are the major transfers made during the year.

**City of Ventnor School District**

Facility Construction	62,698.52	

Formal budgetary integration into the accounting system is employed as a management control device during the year. For governmental funds there are no substantial differences between the budgetary basis of accounting and generally accepted accounting principles with the exception of the legally mandated revenue recognition of the last state aid payment for budgetary purposes only and the special revenue fund as noted below. Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental fund types. Unencumbered appropriations lapse at fiscal year end.

The accounting records of the special revenue fund are maintained on the grant accounting budgetary basis. The grant accounting budgetary basis differs from GAAP in that the grant accounting budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial reports.

**10. Encumbrances**

Under encumbrance accounting purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve a portion of the applicable appropriation. Open encumbrances in governmental funds, other than the special revenue fund, are reported as reservations of fund balances at fiscal year end as they do not constitute expenditures or liabilities but rather commitments related to unperformed contracts for goods and services.

Open encumbrances in the special revenue fund, for which the District has received advances, are reflected in the balance sheet as deferred revenues at fiscal year end.

The encumbered appropriation authority carries over into the next fiscal year. An entry will be made at the beginning of the next fiscal year to increase the appropriation reflected in the certified budget by the outstanding encumbrance amount as of the current fiscal year end.

(A Component Unit of the City of Ventnor)  
Notes to Financial Statements  
June 30, 2014**

**11. Tuition Payable**

Tuition charges for the fiscal years 2013/14 were based on rates established by the receiving district. These rates are subject to change when the actual costs have been determined.

**12. Use of Estimates**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those results.

**13. Allocation of Costs**

In the government-wide statement of activities, the District has allocated unallocated benefits to various programs based on the actual expenditures by program.

**F. RECENT ACCOUNTING PRONOUNCEMENTS NOT YET EFFECTIVE**

In June 2012, GASB issued Statement No. 67 “Financial Reporting for Pension Plans – an amendment of GASB Statement No. 25”. This statement, which is effective for fiscal periods beginning after June 15, 2013, will not have any effect on the District’s financial reporting.

In June 2012, GASB issued Statement No. 68 “Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27”. This statement, which is effective for fiscal periods beginning after June 15, 2014, will have a significant effect on the District’s financial reporting.

In January 2013, GASB issued Statement No. 69 “Government Combinations and Disposals of Government Operations”. This statement, which is effective for fiscal periods beginning after December 15, 2013, will not have any effect on the District’s financial reporting.

In November 2013, Governmental Accounting Standards Board (GASB) issued Statement No. 71 “Pension Transition for Contributions Made Subsequent to the Measurement Date-an amendment of GASB Statement No. 68”. The provisions of this statement are required to be applied simultaneously with the provisions of Statement 68 which is effective for periods beginning after June 15, 2014. The impact of this statement on the net position of the entity is not presently determinable; but it is anticipated to be significant.

**NOTE 2. INVESTMENTS**

As of June 30, 2014, the District had no investments.

**Interest Rate Risk.** The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. However, New Jersey Statutes 18A:20-37 limits the length of time for most investments to 397 days.

**Credit Risk.** New Jersey Statutes 18A:20-37 limits District investments to those specified in the Statutes. The type of allowable investments are Bonds of the United States of America or of the District or the local units in which the District is located; obligations of federal agencies not exceeding 397 days; government money market mutual funds; the State of New Jersey Cash Management Plan; local government investment pools; or repurchase of fully collateralized securities.

**Concentration of Credit Risk.** The District places no limit on the amount the District may invest in any one issuer.

**NOTE 3. CASH**

**Custodial Credit Risk – Deposits.** Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The District's policy is based on New Jersey Statutes requiring cash be deposited only in New Jersey based banking institutions that participate in the New Jersey Governmental Depository Protection Act (GUDPA) or in qualified investments established in New Jersey Statutes 18A:20-37 that are treated as cash equivalents. As of June 30, 2014 \$0 of the District's bank balance of \$5,400,723.56 was exposed to custodial credit risk.

**B. Capital Leases** – The district is leasing technology equipment totaling \$188,948 under capital leases. The leases are for terms of four and five years and includes interest at a rate of 3.20% to 5.90% per annum.

The district entered into a Land Lease on June 27, 2014 for \$2,100,000.00. The lease is for a term of five years and includes interest at a rate of 1.6114%. The proceeds will be used as the Districts share of the ROD grants.

The following is a schedule of the future minimum lease payments under the capital lease, and the present value of the net minimum lease payments at June 30, 2014.

Year Ended June 30,	Principal	Interest	Total

The following schedule lists the equipment, along with the accumulated depreciation, that has been obtained through capital leases:

In December 2010 and September 2011 the District entered into a capital leases for various technology equipment and Retro-lighting. The equipment cost was less then the client’s capitalization threshold and therefore is not being depreciated.

**NOTE 6. PENSION PLANS**

*Description of Plans*

All required employees of the District are covered by either the Public Employees’ Retirement System or the Teacher’s Pension and Annuity Fund cost-sharing multiple-employer defined benefit pension plans which have been established by state statute and are administered by the New Jersey Division of Pension and Benefits (Division). According to the State of New Jersey Administrative Code, all obligations of both Systems will be assumed by the State of New Jersey should the Systems terminate.

The Division issues a publicly available financial report that includes the financial statements and required supplementary information for the Public Employees Retirement System and the Teachers’ Pension and Annuity Fund. These reports may be obtained by writing to the Division of Pensions and Benefits, PO Box 295, Trenton, New Jersey, 08625 or the reports can be accessed on the internet at [http://www.state.nj.us/treasury/pensions/annrpts\\_archive.htm](http://www.state.nj.us/treasury/pensions/annrpts_archive.htm).

*Teachers' Pension and Annuity Fund*

The Teachers' Pension and Annuity Fund was established in January, 1955 under the provisions of N.J.S.A. 18A:66 to provide retirement benefits, death, disability and medical benefits to certain qualified members. The Teachers' Pension and Annuity Fund is considered a cost-sharing multiple-employer plan with a special funding situation, as under current statute, all employer contributions are made by the State of New Jersey on behalf of the District and the system's other related non-contributing employers. Membership is mandatory for substantially all teachers or members of the professional staff certified by the State Board of Examiners, and employees of the Department of Education who have titles that are unclassified, professional and certified.

*Public Employees' Retirement System*

The Public Employees' Retirement System was established in January, 1955 under the provisions of N.J.S.A. 43:15A to provide retirement, death, disability and medical benefits to certain qualified members. The Public Employees' Retirement System is a cost-sharing multiple-employer plan. Membership is mandatory for substantially all full time employees of the State or any county, municipality, school district or public agency provided the employee is not required to be a member of another State-administered retirement system or other state or local jurisdiction.

*Funding Policy*

The contribution policy is set by N.J.S.A. 43:15A, Chapter 62, P.L. of 1994, Chapter 115, P.L. of 1997 and N.J.S.A. 18:66, and requires contributions by active members and contributing employers. Plan member and employer contributions may be amended by State of New Jersey legislation. TPAF and PERS provide for employee contributions of 5.5% of employees' annual compensation, as defined. Employers are required to contribute at an actuarially determined rate in both TPAF and PERS. The current TPAF rate is 6.8% and the PERS rate is 6.8% of covered payroll. The School District's contributions to TPAF for the years ending June 30, 2014, 2013, and 2012 were \$0, \$0, and \$0, respectively, and paid by the State of New Jersey on behalf of the board, equal to the required contributions for 2008. However, the contributions for 2011 and 2010 were not made by the State. The School District's contributions to PERS for the years ending June 30, 2014, 2013, and 2012 were \$114,878, \$118,738, and \$154,545, respectively, equal to the required contributions for each year.

During the fiscal years ended June 30, 2014, 2013, and 2012, the State of New Jersey contributed \$720,005, \$950,352, and \$654,774, respectively, to the TPAF for post-retirement medical benefits on behalf of the Board. Also, in accordance with NJSA 18A:66-66 the State of New Jersey reimbursed the Board \$504,370, \$499,160, and \$531,620 during the same fiscal years for the employer's share of social security contributions for TPAF members as calculated on their base salaries. These amounts, which are not required to be budgeted, have been included in the financial statements, and the combining and individual fund and account group statements and schedules as revenues and expenditures in accordance in GASB 27.

*Significant Legislation*

Chapter 78, P.L. 2011, effective June 28, 2011 made various changes to the manner in which the Public Employees' Retirement System (PERS) and the Police and Firemen's Retirement System (PFRS) operate and to the benefit provisions of those systems.

Chapter 78's provisions impacting employee pension and health benefits include:

- New members of the PERS hired on or after June 28, 2011 (Tier 5 members) will need 30 years of creditable service and age 65 for receipt of the early retirement benefit without a reduction of  $\frac{1}{4}$  of 1% for each month that the member is under age 65.
- The eligibility age to qualify for a service retirement in the PERS is increased from age 63 to 65 for Tier 5 members.
- The annual benefit under special retirement for new PFRS members enrolled after June 28, 2011 (Tier 3 members), will be 60% instead of 65% of the member's final compensation plus 1% for each year of creditable service over 25 years but not to exceed 30 years.
- Increases in active member contribution rates. PERS active member rates increase from 5.5% of annual compensation to 6.5% plus an additional 1% phased-in over 7 years; PFRS active member rate increase from 8.5% to 10%. For fiscal year 2012, the member contribution rates increased in October 2011. The phase-in of the additional incremental member contribution rates for PES members will take place in July of each subsequent fiscal year.
- The payment of automatic cost-of-living adjustment (COLA) additional increases to current and future retirees and beneficiaries is suspended until reactivated as permitted by this law.
- New employee contribution requirements towards the cost of employer-provided health benefit coverage. Employees are required to contribute a certain percentage of the cost of coverage. The rate of contribution is determined based on the employee's annual salary and the selected level of coverage. The increased employee contributions will be phased in over a 4-year period for those employed prior to Chapter 78's effective date with a minimum contribution required to be at least 1.5% of salary.
- In addition, this new legislation changes the method for amortizing the pension systems' unfunded accrued liability (from a level percent of pay method to a level dollar of pay).

Chapter 1, P.L. 2010, effective May 21, 2010, made a number of changes to the State-administered retirement systems concerning eligibility, the retirement allowance formula, the definition of compensation, the positions eligible for service credit, the non-forfeitable right to a pension, the prosecutor's part of the PERS, special retirement under the PFRS, and employer contributions to the retirement systems.

Also, Chapter 1, P.L. 2010 changed the membership eligibility criteria for new members of PERS from the amount of annual compensation to the number of hours worked weekly. Also, it returned the benefit multiplier for new members of PERS to  $\frac{1}{60}$ <sup>th</sup> from  $\frac{1}{55}$ <sup>th</sup>, and it provided that new members of PERS have the retirement allowance calculated using the average annual compensation for the last five years of service instead of the last three years of service. New members of PERS will no longer receive pension service credit from more than one employer. Pension service credit will be earned for the highest paid position only. For new members of the PFRS, the law capped the maximum

compensation that can be used to calculate a pension from these plans at the annual wage contribution base for social security, and requires the pension to be calculated using a three year average annual compensation instead of the last year's salary. This law also closed the Prosecutors Part of the PERS to new members and repealed the law for new members that provided a non-forfeitable right to receive a pension based on the laws of the retirement system in place at the time 5 years of pension service credit is attained. The law also requires the State to make its full pension contribution, defined a 1/7<sup>th</sup> of the required amount, beginning in fiscal years 2012.

Chapter 3, P.L. 2010, effective May 21, 2010, replaced the accidental and ordinary disability retirement for new members of the PERS with disability insurance coverage similar to that provided by the State to individuals enrolled in the State's Defined Contribution Retirement Program.

Chapter 92, P.L. 2007 implemented certain recommendations contained in the December 1, 2006 report of the Joint Legislative Committee on Public Employee Benefits Reform; established a DCRP for elected and certain appointed officials, effective July 1, 2007; the new pension loan interest rate became 4.69% per year, and an \$8.00 processing fee per loan was charged, effective January 1, 2008. The legislation also removed language from existing law that permits the State Treasurer to reduce employer pension contributions needed to fund the Funds and Systems when excess assets are available.

**NOTE 7. POST-RETIREMENT BENEFITS**

Chapter 384 of Public Laws 1987 and Chapter 6 of Public Laws 1990 required Teachers' Pensions and Annuity Fund (TPAF) and the Public Employees' Retirement System (PERS), respectively, to fund post-retirement medical benefits for those State employees who retire after accumulating 25 years of credited service or on a disability retirement. P.L. 2007, c.103 amended the law to eliminate the funding of post-retirement medical benefits through the TPAF and PERS. It created separate funds outside of the pension plans for the funding and payment of post-retirement medical benefits for retired State employees and retired educational employees. As of June 30, 2013, there were 100,134 retirees eligible for post-retirement medical benefits. The cost of these benefits is funded through contributions by the State in accordance with P.L. 1994 c. 62. Funding of post-retirement medical premiums changed from a prefunding basis to a pay-as-you-go basis beginning in fiscal year 1994.

The State is also responsible for the cost attributable to P.L. 1992 c. 126, which provides free health benefits to members of PERS and the Alternate Benefit Program who retired from a board of education or county college with 25 years of service. The State paid \$173.8 million toward Chapter 126 benefits for 16,618 eligible retired members in Fiscal Year 2013.

**NOTE 8. COMPENSATED ABSENCES**

The District accounts for compensated absences (e.g. unused vacation, sick leave) as directed by Governmental Accounting Standards Board Statement No. 16 (GASB 16), "Accounting for Compensated Absences". A liability for compensated absences attributable to services already rendered and not contingent on a specific event that is outside the control of the employer and employee is accrued as employees earn the rights to the benefits.

**City of Ventnor School District  
(A Component Unit of the City of Ventnor)  
Notes to Financial Statements  
June 30, 2014**

District employees are granted varying amounts of vacation and sick leave in accordance with the District's personnel policies. In the event of termination, an employee is reimbursed for accumulated vacation. Sick leave benefits provide for ordinary sick pay and begin vesting with the employee and are capped based on the terms stated in the various contracts.

In the District-wide Statement of Net Position, the liabilities whose average maturities are greater than one year should be reported in two components – the amount due within one year and the amount due in more than one year.

The liability for vested compensated absences of the governmental fund types is recorded in the general long-term debt account group. The current portion of the compensated absence balance is not considered material to the applicable funds total liabilities, and is therefore not shown separately from the long-term liability balance of compensated absences.

**NOTE 9. DEFERRED COMPENSATION**

The Board offers its employees a choice of the following deferred compensation plans created in accordance with Internal Revenue Code Section 403(b). The plans, which are administered by the entities listed below, permits participants to defer a portion of their salary until future years. Amounts deferred under the plans are not available to employees until termination, retirement, death or unforeseeable emergency. The plan administrators are as follows:

Lincoln Investment Planning  
Franklin Templeton  
GWN Securities  
Invesco  
American Funds  
Syracusa  
Morgan Stanley  
Amerprise  
Legend Employee Benefit Account  
Metlife Associates  
Prudential  
AXA Equitable

**NOTE 10. RISK MANAGEMENT**

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

**Property and Liability Insurance** - The District maintains commercial insurance coverage for property, liability and surety bonds. During the fiscal year ended June 30, 2014 the District did not incur claims in excess of their coverage and the amount of coverage did not significantly decrease.

**City of Ventnor School District  
(A Component Unit of the City of Ventnor)  
Notes to Financial Statements  
June 30, 2014**

**NOTE 11. INTERFUND RECEIVABLES AND PAYABLES**

The following interfund balances remained on the balance sheet at June 30, 2014:

<u>Fund</u>	<u>Interfund Receivable</u>	<u>Interfund Payable</u>
General Fund	\$ 423,949.00	
Special Revenue Fund		220,288.88
Capital Projects Fund		91,695.00
Food Service Fund		111,965.12
Total	<u>\$ 423,949.00</u>	<u>423,949.00</u>

Interfunds were created throughout the year due to short term borrowings to cover cash flow needs in the various funds. It is anticipated that all interfunds will be liquidated during the fiscal year. All governmental fund interfunds are eliminated in the governmental-wide statements, except for Due From Agency, which is a Fiduciary Fund.

**NOTE 12. ECONOMIC DEPENDENCY**

The District is heavily reliant on local property taxation through the City of Ventnor to fund the District's operations. Property taxes funded 77.73% of the Districts 2013-2014 governmental operations.

**NOTE 13. FUND BALANCE APPROPRIATED**

General Fund – Of the \$2,078,128.44 General Fund fund balance at June 30, 2014, \$18,845.88 is reserved for encumbrances; \$1,484,060.00 is reserved as excess surplus in accordance with N.J.S.A. 18A:7F-7 (\$416,186 of the total reserve for excess surplus has been appropriated and also included as anticipated revenue for the year ending June 30, 2015); \$0.00 has been legally restricted and included as anticipated revenue for the year ending June 30, 2015; \$9,700.00 has been reserved in the Maintenance Reserve Account; \$250,000.00 has been reserved in the Capital Reserve Account and \$315,522.56 is unreserved and undesignated.

**NOTE 14. CALCULATION OF EXCESS SURPLUS**

In accordance with NJSA 18A:7F-7, as amended by P.L. 2004, C.73 (S1701), the designation for Reserved Fund Balance – Excess Surplus is a required calculation. New Jersey school districts are required to reserve General Fund fund balance at the fiscal year end of June 30 if they did not appropriate a required minimum amount as budgeted fund balance in their subsequent years' budget. The excess fund balance at June 30, 2014 is \$1,484,060.00, of which \$416,186.00 has been appropriated and included as anticipated revenue for the year ended June 30, 2015.

**NOTE 15. LITIGATION**

From time to time, the District is a defendant in legal proceedings relating to its operations as a school district. In the best judgment of the District's management, the outcome of any legal proceedings will not have any adverse affect on the accompanying financial statements.

**NOTE 16. DEFICIT FUND BALANCES**

The District has a deficit fund balance of \$(20,025.90) in the Special Revenue Fund as of June 30, 2014 as reported in the fund statements (modified accrual basis). N.J.S.A.18A:22-44.2 provides that in the event a state school aid payment is not made until the following school budget year, districts must record the last state aid payment as revenue, for budget purposes only, in the current school budget year. The bill provides legal authority for school districts to recognize this revenue in the current budget year. For intergovernmental transactions, GASB Statement No. 33 requires that recognition (revenue, expenditure, asset, liability) should be in symmetry, i.e., if one government recognizes an asset, the other government recognizes a liability. Since the State is recording the last state aid payment in the subsequent fiscal year, the school district cannot recognize the last state aid payment on the GAAP financial statements until the year the State records the payable. Due to the timing difference of recording the last state aid payment, the Special Revenue Fund balance deficit does not alone indicate that the district is facing financial difficulties. The District has a deficit in Food Service Fund of \$(30,314.19).

**NOTE 17. SUBSEQUENT EVENT**

The District has evaluated events through September 15, 2014, the date on which the financial statements were available to be issued and no additional items were noted for disclosure.

**Note:** Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the District. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of Ventnor City. This process recognizes that, when considering the District's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping payment.

- a** For debt repaid with property taxes, the percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of another governmental unit's taxable value that is within the district's boundaries and dividing it by each unit's total taxable value.

## INDEPENDENT AUDITOR'S REPORT

Honorable President and  
Members of the Board of Education  
City of Ventnor School District  
County of Atlantic, New Jersey

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, and each major of the Ventnor City School District, as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the Board's basic financial statements, and have issued our report thereon dated September 15, 2014.

### **Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered District's control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements but not for the purpose of expressing an opinion on the effectiveness of District's internal control. Accordingly, we do not express an opinion on the effectiveness of District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Ventnor City School District's basic financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of basic financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and audit requirements prescribed by the Division of Finance, Department of Education, and State of New Jersey.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

## Independent Auditor's Report

Honorable President and  
Members of the Board of Education  
City of Ventnor School District  
County of Atlantic, New Jersey

### **Report on Compliance for Each Major Federal and State Program**

We have audited the City of Ventnor Board of Education's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* and the New Jersey *OMB State Grant Compliance Supplement* that could have a direct and material effect on each of the City of Ventnor Board of Education's major federal and state programs for the year ended June 30, 2014. The City of Ventnor Board of Education's major federal and state programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

#### ***Management's Responsibility***

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal and state programs.

#### ***Auditor's Responsibility***

Our responsibility is to express an opinion on compliance for each of the City of Ventnor Board of Education's major federal and state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* and New Jersey OMB 04-04. Those standards, OMB Circular A-133 and NJ OMB 04-04 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal or state program occurred. An audit includes examining, on a test basis, evidence about the City of Ventnor Board of Education's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal and state program. However, our audit does not provide a legal determination of the City of Ventnor Board of Education's compliance.

### ***Opinion on Each Major Federal and State Program***

In our opinion, the City of Ventnor Board of Education complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs for the year ended June 30, 2014.

### **Report on Internal Control Over Compliance**

Management of the City of Ventnor Board of Education is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City of Ventnor Board of Education's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal and state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133 and NJ OMB 04-04, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City of Ventnor Board of Education's internal control over compliance.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal or state program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal or state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

**Report on Schedules of Expenditures of Federal Awards Required by OMB Circular A-133 and Expenditures of State Financial Assistance Required by NJ OMB 04-04**

We have audited the financial statements of the governmental activities, the business-type activities and each major fund and the aggregate remaining fund of the City of Ventnor Board of Education as of and for the year ended June 30, 2014, and have issued our report thereon dated September 15, 2014, which contained an unmodified opinion on those financial statements. Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying schedules of expenditures of federal awards and state financial assistance are presented for purposes of additional analysis as required by OMB Circular A-133 and NJ Circular 04-04 and are not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditure of federal awards is fairly stated in all material respects in relation to the financial statements as a whole

The accompanying Notes to Schedules of Expenditures of Awards and Financial Assistance are an integral part of this schedule

**City of Ventnor School District**  
**Notes to the Schedules of Financial Assistance**  
**June 30, 2014**

NOTE 1. GENERAL

The accompanying schedules of expenditures of federal awards and state financial assistance include federal and state award activity of the Board of Education, City of Ventnor School District. The Board of Education is defined in Note 1(A) to the Board's basic financial statements. All federal and state awards received directly from federal and state agencies, as well as federal awards and state financial assistance passed through other government agencies is included on the schedule of expenditures of federal awards and state financial assistance.

NOTE 2. BASIS OF ACCOUNTING

The accompanying schedules of expenditures of awards and financial assistance are presented on the budgetary basis of accounting with the exception of programs recorded in the food service fund, which are presented using the accrual basis of accounting. These bases of accounting are described in Note 1 to the Board's basic financial statements.

NOTE 3. RELATIONSHIP TO GENERAL PURPOSE FINANCIAL STATEMENTS

The basic financial statements present the general fund and special revenue fund on a GAAP basis. Budgetary comparison statements or schedules (RSI) are presented for the general fund and special revenue fund to demonstrate finance-related legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the audit year, whereas for GAAP reporting, revenue is not recognized until the subsequent year or when expenditures have been made.

The general fund is presented in the accompanying schedules on the modified accrual basis with the exception of the revenue recognition of the last state aid payment in the current budget year, which is mandated pursuant to P.L. 2003, c.97 (A3521). For GAAP purposes that payment is not recognized until the subsequent budget year due to the state deferral and recording of the last state aid payment in the subsequent year. The special revenue fund is presented in the accompanying schedules on the grant accounting budgetary basis which recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not.

See the following schedules and Note 1(D) for a reconciliation of the budgetary basis to the modified accrual basis of accounting for the general and special revenue funds. There are no differences in the reporting of the food service funds. Awards and financial assistance revenues are reported in the Board's basic financial statements on a GAAP basis as follows:
