Honorable President and Members  
of the Board of Education  
Jackson School District  
County of Ocean, New Jersey 08527

Dear Board Members:

The comprehensive annual financial report of the Jackson School District for the fiscal year ended June 30, 2015, is hereby submitted. Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures, rests with the management of the Jackson Board of Education. To the best of our knowledge and belief, the data presented in this report is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

The comprehensive annual financial report is presented in four sections; introductory, financial, statistical and single audit. The introductory section includes this transmittal letter, the District's organizational chart and a list of principal officials. The financial section includes the management's discussion and analysis, general-purpose financial statements and schedules, as well as the auditor's report thereon. The statistical section includes selected financial and demographic information, generally presented on a multi-year basis. The District is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act of 1984 and the U.S. Office of Management and Budget Circular A-133, "Audits of State, Local Governments and Non-Profit Organizations," and the state Treasury Circular Letter 04-04. Information related to this single audit, including the auditor's report on the internal control structure and compliance with applicable laws and regulations and findings and recommendations are included in the single audit section of this report.

**1. REPORTING ENTITY AND ITS' SERVICES:** Jackson School District is an independent reporting entity within the criteria adopted by the GASB as established by NCGA Statement No. 3. All funds of the District are included in this report. The Jackson Board of Education and all its schools constitute the District's reporting entity.

The District provides a full range of educational services appropriate to grade levels K through 12. These include regular, vocational, as well as special education for handicapped children. The District completed the 2014-2015 fiscal-year with an average daily enrollment of 8,707 students, which is 234 students below the previous year's enrollment. The following details the changes in the student enrollment of the District over the last ten years:

**Average Daily Enrollment**

<b><u>Fiscal Year</u></b>	<b><u>Student Enrollment</u></b>	<b><u>Percent Change</u></b>
2014/15	8,707	-2.6%
2013/14	8,941	-2.3%
2012/13	9,149	-2.7%
2011/12	9,398	-2.0%
2010/11	9,588	0.0%
2009/10	9,595	-2.0%
2008/09	9,748	0.0%
2007/08	9,753	1.1%
2006/07	9,651	.4%
2005/06	9,609	1.3%

**2. ECONOMIC CONDITION AND OUTLOOK:** The Jackson Township School District continues to experience a modest decline in enrollment. Student population is expected to level off at approximately the current level. A number of new housing developments have broken ground in the town, this new housing will bring additional students into the district schools, thus increasing enrollment. The Jackson Township School District is committed to continued fiscal responsibility, full compliance to regulations and the understanding of the difficult economic conditions of our taxpayers while continuing to provide the highest quality instruction to all our students.

**3. EDUCATION PROGRAM**

*Mission Statement: The Jackson School District is a partnership of dedicated staff, learners and community members committed to developing the unique abilities of each student through compelling learning experiences in a safe and nurturing environment.*

*Our comprehensive, engaging and technology-enriched programs inspire, educate and motivate students to become independent, creative and critical thinkers who will thrive in a diverse, evolving global society.*

*We are resolved that through commitment to scholarship, character and initiative, our students will succeed beyond the expectations of New Jersey and Common Core Standards as they excel in their life-long pursuit of knowledge.*

The Jackson School District educational program spans Pre-Kindergarten to 12<sup>th</sup> grade in six elementary schools, two middle schools and two high schools. Over 8,700 students have an opportunity to participate in a variety of programs which include, but are not limited to, the following:

Basic Skills Literacy  
Basic Skills Math  
Enrichment  
English as a Second Language  
Special Education

The elementary curriculum features a developmentally appropriate approach to learning and an emphasis on activities that promote early literacy. The secondary program offers required and elective courses, which are aligned to the Core Curriculum Content Standards.

The District continues to adapt the educational program to the standards set forth in the No Child Left Behind Legislation. Thus, a five-year curriculum plan was created in math, literacy and science. Staff development activities are geared toward fulfilling the “Highly Qualified” standards for certified and non-certified personnel.

**4. INTERNAL ACCOUNTING CONTROLS:** Management of the District is responsible for establishing and maintaining an internal audit control structure designed to ensure that the assets of the District are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles (GAAP). The internal control structure is designed to provide reasonable, but not absolute, assurance that these objects are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

As a recipient of federal and state financial assistance, the District also is responsible for ensuring that an adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control structure is also subject to periodic evaluation by the District management.

As part of the District’s single audit described earlier, tests are made to determine the adequacy of the internal control structure, including that portion related to federal and state financial assistance programs, as well as to determine that the District has complied with applicable laws and regulations.

**5. BUDGETARY CONTROLS:** In addition to internal accounting controls, the District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the voters of the municipality. Annual appropriated budgets are adopted for the general fund, the special revenue fund, and the debt service fund. Project-length budgets are approved for the capital improvements accounted for in the capital projects funds. The final budget amount as amended for the fiscal year is reflected in the financial section.

The encumbrance accounting system is used to record outstanding purchase commitments on a line item basis. Open encumbrances at year-end are either canceled or are included as re-appropriations of fund balance in the subsequent year. Those amounts to be re-appropriated are reported as reservations of fund balance at June 30, 2015.

**6. ACCOUNTING SYSTEM REPORTS:** The District's accounting records reflect generally accepted accounting principles, as promulgated by the Governmental Accounting Standards board (GASB). The accounting system of the District is organized on the basis of various funds. These funds are explained in "Notes to the Financial Statements," Note 1.

**7. CASH MANAGEMENT:** The investment policy of the District is guided in large part by state statute as detailed in "Notes to the Financial Statements," Note 2. The District has adopted a cash management plan, which requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act ("GUDPA"). GUDPA was enacted in 1970 to protect Governmental Units from a loss of funds on deposit with a failed banking institution in New Jersey where the funds are secured in accordance with the Act. The law requires governmental units to deposit public funds only in public depositories located in New Jersey.

**8. RISK MANAGEMENT:** The Board carries various forms of insurance, including but not limited to general liability, automobile liability and comprehensive/collision hazard and theft insurance on property and contents, and fidelity bonds.

**9. OTHER INFORMATION:**

**A. Independent Audit** – State statutes require an annual audit by independent certified public accountants or registered municipal accountants. The Board selected the accounting firm of Suplee, Clooney, & Company. In addition to meeting the requirements set forth in state statutes, the audit also was designed to meet the requirements of the Single Audit Act of 1984 and the related OMB Circular A-133 and State Treasury Circular Letter 04-04. The auditor's report on the general-purpose financial statements and combining and individual fund statements and schedules is included in the financial section of this report. The auditor's reports related specifically to the single audit are included in the single audit section of this report.

**10. FUTURE GROWTH:** The District continues to monitor its population through demographic studies in preparation of any needed facility changes.

**11. ACKNOWLEDGEMENTS:** We would like to express our appreciation to the members of the Jackson School Board for their concern in providing fiscal accountability to the citizens and taxpayers of the school district and thereby contributing their full support to the development and maintenance of our financial operations. The preparation of this report could not have been accomplished without the efficient and dedicated services of our financial and accounting staff.

Respectfully submitted,

## **INDEPENDENT AUDITOR'S REPORT**

Honorable President and Members  
of the Board of Education  
Jackson School District  
County of Ocean  
Jackson, New Jersey 08527

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Jackson School District, County of Ocean, New Jersey as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditor's Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, audit requirements prescribed by the Division of Finance, Department of Education, State of New Jersey, the provisions of U.S. Office of Management and Budget (OMB) *Circular A-133* "Audits of States, Local Governments and Non-Profit Organizations" and State of New Jersey *OMB Circular 04-04* "Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid." Those standards and provisions require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

## SUPLEE, CLOONEY & COMPANY

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### **Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Jackson School District, County of Ocean, New Jersey as of June 30, 2015, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### **Emphasis of Matter**

#### *Change in Accounting Principle*

As discussed in Note 17 to the basic financial statements, in 2015, the District adopted Governmental Accounting Standards Board Statement No. 68, Accounting and Financial Reporting for Pensions and Statement No. 71, Pension Transition for Contributions Made Subsequent to the Measurement Date (an amendment of GASB Statement 68). Our opinions are not modified with respect to this matter.

### **Other Matters**

#### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and budgetary comparison information in Exhibit C-1 through C-3 and the schedules related to accounting and reporting for pensions in Exhibit L-1 through L-4 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

# SUPLEE, CLOONEY & COMPANY

## *Other Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Jackson School District's basic financial statements. The accompanying supplementary information schedules such as the combining and individual fund financial statements and the Schedules of Expenditures of Federal Awards and State Financial Assistance, as listed in the table of contents, as required by U.S. Office of Management and Budget Circular A-133, "Audits of States, Local Governments and Nonprofit Organization," New Jersey's OMB Circular 04-04, "Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid," and the State of New Jersey, Department of Education, Division of Finance, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The accompanying supplementary information schedules such as the combining and individual fund financial statements and the Schedules of Expenditures of Federal Awards and State Financial Assistance, as listed in the table of contents, as required by U.S. Office of Management and Budget Circular A-133, "Audits of States, Local Governments and Nonprofit Organization," New Jersey's OMB Circular 04-04, "Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid," and the State of New Jersey, Department of Education, Division of Finance is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the accompanying supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The other information, such as the introductory and statistical sections, has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

## **Other Reporting Required by Government Auditing Standards**

In accordance with Government Auditing Standards, we have also issued our report dated November 30, 2015 on our consideration of the Jackson School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Jackson School District's internal control over financial reporting and compliance.

**MANAGEMENT'S DISCUSSION AND ANALYSIS**

**JACKSON TOWNSHIP BOARD OF EDUCATION  
JACKSON, NEW JERSEY  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2015  
UNAUDITED**

The discussion and analysis of Jackson School District's financial performance provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2015. The intent of this discussion and analysis is to look at the School District's financial performance as a whole; readers should also review the basic financial statements and notes to enhance their understanding of the School District's financial performance.

The Management's Discussion and Analysis (MD&A) is an element of Required Supplementary Information specified in the Governmental Accounting Standards Board's (GASB) Statement No. 34 – *Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments* issued in June 1999. Certain comparative information between the current year (2014-2015) and the prior year (2013-2014) is required to be presented in the MD&A. In FY2015 the District implemented GASB 68 "Accounting and Financial Reporting for Pensions". Information necessary to restate the financial information provided for FY2014 was not available; therefore, the information has not been restated.

**Financial Highlights**

Key financial highlights for 2015 are as follows:

In the District Wide Statements:

- ◆ In total, net position increased \$4,461,045 which represents a 7.75 percent increase from 2014.
- ◆ General revenues accounted for \$136,665,092 in revenue or 81 percent of all revenues. Program specific revenues in the form of charges for services and operating grants and contributions accounted for \$33,295,798 or 19 percent of total revenues of \$169,960,890.
- ◆ Total assets of governmental activities increased by \$2,770,982 cash and cash equivalents increased by \$941,993. Receivables increased by \$1,652,584 and capital assets increased by \$176,405.
- ◆ The School District had \$165,499,844 in expenses; \$33,295,798 of these expenses were offset by program specific charges for services, grants or contributions. General revenues of \$136,665,092 were adequate to provide for these programs.

In the Fund Financial Statements:

- ◆ The General Fund had \$139,250,271 in revenues and \$137,410,648 in expenditures.
- ◆ The District transferred \$7,912,748 in Capital Reserve Fund Balance from the General Fund to the Capital Projects Fund to fund the local share of the District's HVAC and Security Upgrade projects.
- ◆ The District recognized \$960,671.00 in proceeds from a Capital Lease
- ◆ Overall the General Fund's fund balance decreased \$5,112,454 from 2014.

**Using this Comprehensive Annual Financial Report (CAFR)**

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand Jackson School District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The *Statement of Net Assets* and *Statement of Activities* provide information about the activities of the whole School district, presenting both an aggregate view of the School district's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the School district's most significant funds with all other non-major funds presented in total in one column. In the case of Jackson School District, the General Fund is by far the most significant fund.

## **Reporting the School District as a Whole**

### **Statement of Net Assets and the Statement of Activities**

While this document contains most of the funds used by the School District to provide programs and activities, the view of the School district as a whole looks at all financial transactions and asks the question, “How did we do financially during 2015?” The Statement of Net Assets and the Statement of Activities answers this question. These statements include all assets and liabilities using the accrual basis of accounting similar to the accounting used by most private-sector businesses. This basis of accounting takes into account all of the current year’s revenues and expenses regardless of when cash is received or paid.

These two statements report the School District’s net assets and changes in those assets. This change in net assets is important because it tells the reader that, for the school district as a whole, the financial position of the School district has improved or diminished. The causes of this change may be the result of many factors, some financial and some not. Non-financial factors include the School District’s property tax base, current laws in New Jersey restricting revenue growth, and other factors.

In the Statement of Net Assets and the Statement of Activities, the School District is divided into two distinct kinds of activities:

- ◆ Governmental activities – All of the School District’s programs and services are reported here including instruction, support services, operation and maintenance of plant facilities, pupil transportation and extracurricular activities.
- ◆ Business-Type Activity – This service is provided on a charge for goods or services basis to recover all the expenses of the goods or services provided. The Food Service, Child Care Program, Community School Program, Preschool Program, Digital Media Program and Extended Enrichment Kindergarten Program enterprise funds are reported as business activities.

## **Reporting the School District’s Most Significant Funds**

### **Fund Financial Statements**

Fund financial reports provide detailed information about the School District’s funds. The School District uses many funds to account for a multitude of financial transactions. The School District’s governmental funds are the General Fund, Special Revenue Fund, Capital Projects Fund, and Debt Service Fund.

### **Governmental Funds**

The School District’s activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in the future years. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the School district’s general government operations and the basic services it provides. Governmental fund information helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Assets and the Statement of Activities) and governmental funds is reconciled in the financial statements.

### **Enterprise Fund**

The enterprise fund uses the same basis of accounting as business-type activities.

**Notes to the Financial Statements**

The notes provide additional information that is essential to a full understanding of the data provided in the District-wide and fund financial statements. The notes to the financial statements can be found immediately following the fund financial statements.

**The School District as a Whole**

Recall that the Statement of Net Assets provides the perspective of the School District as a whole. Net assets may serve over time as a useful indicator of a government’s financial position. The District’s financial position is the product of several financial transactions including the net results of activities, the acquisition and payment of debt, the acquisition and disposal of capital assets, and the depreciation of capital assets.

Table 1 provides a summary of the School District’s net assets for 2015. In accordance with GASB Statement 34, net asset comparisons to fiscal year 2014 are presented.

Table 2 shows changes in net assets for fiscal year 2015. In accordance with GASB Statement 34, revenue and expense comparisons to fiscal year 2014 is presented to comparatively analyze district-wide data.

As previously noted, the information for FY2014 has not been restated to reflect the effect of the District's implementation of GASB 68 and the related pension liability. Both revenues and expenses increased mainly as a result of the district recognizing a larger on-behalf TPAF contribution as a revenue and as an expense based upon the State's Actuarial report

**Governmental Activities**

As shown in Table 2 the District’s total revenue from Governmental Activities was \$165,342,824. Property taxes made up 50 percent of these revenues. Federal, state, and local grants and state aid accounted for another 49 percent of revenue.

**Sources of Revenue for Fiscal Year 2015 (District-Wide Basis)**

Also on Table 2, the total cost of Governmental programs and services was \$161,002,334. Direct instruction comprises 57 percent of District expenses.

**Expenses for Fiscal Year 2015 (District-Wide Basis)**

**Business-Type Activities**

Revenues for the District’s business-type activities (food service, child care, extended enrichment kindergarten, community school, pre-school programs, digital media and summer elective) were comprised of charges for services and federal and state reimbursements.

- ◆ Business Type revenues exceeded expenses by \$120,555.
- ◆ Charges for services represent \$3,749,289 of revenue. This represents amounts paid by patrons for the various program services.
- ◆ Federal and state reimbursement for meals, including payments for free and reduced lunches, and donated commodities was \$1,046,105.

**Governmental Activities**

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting those services. Table 3 shows the total cost of services and the net cost of services. The total costs include compensating absences, unallocated benefits, and depreciation and is reduced by grants and specific state aid. The net cost shows the financial burden that was placed on the District’s taxpayers by each of these functions. In accordance with GASB Statement 34, a comparison to fiscal year 2014 is presented.

**Instruction** expenses include the activities involving the interaction between teachers and students in a school classroom, another location such as a home or hospital, and in other learning situations such as those involving co-curricular activities.

**Support Services** includes expenses for pupils and instructional staff providing administrative, technical, and logistical support to facilitate and enhance instruction. This area includes Attendance and Social Work Services, Health Services, Child Study Team Services, Curriculum Development, Staff Training, and School Library Services.

**School Administration, General Administration, Central Service & Administrative Technology** includes expenses associated with administrative responsibility for the schools: Supervision of the schools, evaluation of school staff members, fiscal services, human resources, strategic planning, purchasing, payroll, and management of the district's information technology system.

**Operation and Maintenance of Facilities** involve keeping the physical plant open, comfortable, and safe for use, and keeping the grounds, buildings, and equipment in effective working condition.

**Pupil Transportation** includes activities involved with the conveyance of students to and from school, as well as to and from school activities, as provided by Federal and State law.

**Interest** on debt involves the transactions associated with the payment of interest and other related charges to debt of the School District.

**Business Type Activities** involves the transactions associated with the operation of the Food Service, Child Care, Community School, Preschool, Extended Enrichment Kindergarten, Digital Mass Media, and Summer Elective Programs.

**Other** includes special schools and unallocated depreciation.

**The School District's Funds**

All governmental funds (i.e., general fund, special revenue fund, capital projects fund and debt service fund presented in the fund-based statements) are accounted for using the modified accrual basis of accounting. Total revenues amounted to \$152,855,286 and expenditures were \$154,110,099. The District also had \$1,161,019 in other financing sources consisting mainly of capital lease proceeds. The net negative change in fund balance for the year was \$93,795.

As demonstrated by the various statements and schedules included in the financial section of this report, the District continues to meet its responsibility for sound financial management. The following schedules present a summary of the revenues of the general fund, special revenue fund and debt service fund for the fiscal year ended June 30, 2015, and the amount and percentage of increases and decreases in relation to prior year revenues.

REVENUES (FUND-BASED FINANCIAL STATEMENTS):

	<u>Amount</u>	<u>Percentage</u>	<u>Increase/Decrease from 2014</u>	<u>Percentage Change</u>
Local Sources	\$84,310,528	55.81%	\$2,589,343	3.17%
State Sources	63,671,909	42.15%	1,882,952	3.05%
Federal Sources	<u>3,076,708</u>	<u>2.04%</u>	<u>195,505</u>	<u>6.79%</u>
	<u>\$151,059,145</u>	<u>100.00%</u>	<u>\$4,667,799</u>	<u>3.19%</u>

The slight increase in State sources is the result of the State's increase in state formula aid to school districts.

Federal revenues increased due to the District's increased participation in the Medical Assistance program (SEMI).

The following schedule represents a summary of general fund, special revenue fund, and debt service fund expenditures for the fiscal year ended June 30, 2015, and the percentage of increases and decreases in relation to prior year amounts.

EXPENDITURES (FUND BASED FINANCIAL STATEMENTS)

	<u>Amount</u>	<u>Percentage</u>	<u>Increase/Decrease from 2014</u>	<u>Percentage Change</u>
Current Expense:

Interest	3,915,078	2.61%	(287,987)	-6.85%
Total	<u>\$149,792,660</u>	<u>100.00%</u>	<u>\$2,916,525</u>	<u>1.99%</u>

Changes in expenditures were the results of varying factors. The decrease in Capital Outlay is the result of less capital projects being undertaken.

**General Fund Budgeting Highlights**

The School District’s budget is prepared according to New Jersey law, and is based on accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the General Fund.

Over the course of the year, the District revised the annual operating budget as needed. Revisions in the budget were made to recognize revenues that were not anticipated and to prevent over-expenditures in specific line item accounts. Several of these revisions bear notation:

- ◆ The District received \$1,155,166 in extraordinary aid, which is state aid for special education students whose individual program cost exceeds program guidelines; this was \$255,166 more than anticipated. There was no guarantee from the Department of Education that these funds would be available.
- ◆ TPAF, which is the state’s contribution to the pension fund, is neither a revenue item nor an expenditure item to the District but is required to be reflected in the financial statements. This number is reflective of the amount of money the New Jersey Department of Education pays on-behalf of certified staff for pension and FICA purposes. Salaries of regular instruction continue to increase in proportion with negotiated contracts.
- ◆ The District’s philosophy is to include special education students in regular academic classes whenever possible but with additional services. Students who may have been originally scheduled for Resource Room classes were scheduled for Inclusion classes. This necessitates the cost for additional instructional aides and teachers to accommodate resource students.
- ◆ Tuition for special education students has decreased from 2014 due a decrease in the number of students requiring out of district placement as prescribed by their IEP.

## Capital Assets

At the end of the fiscal year 2015, the School District had \$131,535,016 invested in land, building, furniture and equipment, and vehicles. Table 4 shows fiscal year 2015 balances compared to 2014.

**Table 4**  
**Capital Assets (Net of Depreciation) at June 30**

	<u>2015</u>	<u>2014</u>
Land	\$15,707,450	\$15,707,450

<b>Total</b>	<b><u>\$131,535,016</u></b>	<b><u>\$131,358,611</u></b>

Overall capital assets increased \$176,405 from fiscal year 2014 to fiscal year 2015. The increase in capital assets is due primarily to site improvements undertaken by the District in FY2015. For more detailed information, please refer to the Notes to the Financial Statements.

## Debt Administration

At June 30, 2015, the School District had \$138,190,846 of outstanding debt. Of this amount, \$5,083,298 is for compensated absences; \$2,433,911 for various capital leases; \$82,065,000 of serial bonds for school construction; \$777,003 in unamortized bond premium and \$47,831,634 in net pension liability.

Table 5 illustrates the balances of the District's various bonds issues outstanding at June 30, 2015 and June 30, 2014.

**Table 5**  
**Outstanding Debt at June 30,**

	<b>2015</b>	<b>2014</b>
2003 ERIP Refunding Bonds	\$655,000	\$1,275,000
2006 Refunding Bonds	72,210,000	76,165,000
2007 General Obligation Bonds	1,350,000	9,796,000
2014 Refunding Bonds	7,850,000	
<b>Total</b>	<b><u>\$82,065,000</u></b>	<b><u>\$87,236,000</u></b>

At June 30, 2015, the School District's overall legal debt margin was \$175,357,069.

**For the Future**

The Jackson School District is in good financial condition presently. The School District is proud of its community support of the public schools. During the 2014-2015 school year, the state slightly increased state aid. There is uncertainty regarding the method and amount of funding the states portion of educational aid in the future. The Board and Administration continue to find creative means to fill the gap between funding, and the cost to provide education to Jackson's students.

In addition, the School District's system for financial planning, budgeting and internal financial controls are well regarded. The School District plans to continue its sound fiscal management to meet the challenge of the future. In conclusion, the Jackson School District has committed itself to financial excellence for many years.

**Contacting the School District's Financial Management**

This financial report is designed to provide our citizens, taxpayers, investors, and creditors with a general overview of the School District's finances and to show the School District's accountability for the money it receives. If you have questions about this report or need additional information, contact Ms. Michelle D. Richardson, Business Administrator/Board Secretary at Jackson Township Board of Education, Administration Building, 151 Don Connor Blvd., Jackson, NJ 08527. ## **BASIC FINANCIAL STATEMENTS**

The basic financial statements provide a financial overview of the District's operations. These financial statements present the financial position and operating results of all funds as of June 30,2015

## **DISTRICT-WIDE FINANCIAL STATEMENTS**

The statement of net position and the statement of activities display information about the District. These statements include the financial activities of the overall district, except for fiduciary activities. Eliminations have been made to minimize the double counting of internal activities. These statements distinguish between the governmental and business-type activities of the District.

JACKSON TOWNSHIP SCHOOL DISTRICT  
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES  
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS  
TO THE STATEMENT OF ACTIVITIES  
FOR THE FISCAL YEAR ENDED JUNE 30, 2015

Total net change in fund balances - governmental funds (from B-2)		(\$93,794.57)
<p>Amounts reported for governmental activities in the statement of activities (A-2) are different because:</p> <p>Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the period.</p>		
Depreciation expense		(5,565,127.36)
Capital outlays	\$6,041,660.55	
Less: Capital Outlays not capitalized	<u>(296,467.00)</u>	
		5,745,193.55
<p>Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position and is not reported in the statement of activities.</p>		
Bonds Paid by Budget		5,245,000.00
<p>Proceeds from debt issues are a financing source in governmental funds. They are not revenue in the statement of activities; issuing debt increases long-term liabilities in the statement of net position.</p>		
Capital lease proceeds - Current Year		(962,000.00)
<p>Repayment of long-term debt is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position and is not reported in the statement of activities.</p>		
Payment of capital lease payable		975,812.76
<p>In the statement of activities, interest on long-term debt is accrued, regardless of when due. In governmental funds, interest is reported when due. The accrued interest is an addition in the reconciliation.</p>		
		(99,364.59)
<p>Bond Issue costs are reported in the Governmental Funds as expenditures in the year the bonds are issued. However, on the Statement of Activities the costs are amortized over the life of the Bonds.</p>		
		(201,190.48)
<p>In the statement of activities, only the gain on the disposal of capital assets is reported, whereas in the governmental funds, the proceeds from a sale increase financial resources. Thus, the change in net position will differ from the change in fund balance by the cost of the asset removed(-).</p>		
		(3,661.20)
<p>District pension contributions are reported as expenditures in the governmental funds when made. However, they are reported as deferred outflows of resources in the Statement of Net Position because the reported net pension liability is measured a year before the District's report date. Pension expense, which is the change in the net pension liability adjusted for changes in deferred outflows and inflows of resources related to pensions, is reported in the Statement of Activities.</p>		
District pension contributions	2,106,087.00	
Less: Pension expense	<u>(2,555,402.00)</u>	
		(449,315.00)
<p>In the statement of activities, certain expenses, e.g., compensated absences (vacations) are measured by the amounts earned during the year. In governmental funds, however, expenditures for these items are reported in the amount of financial resources used (paid). When the earned amount exceeds the paid amount, the difference is a reduction in the reconciliation (-). When the paid amount exceeds the earned amount the difference is an addition to the reconciliation (+).</p>		
		<u>(251,062.73)</u>
Change in net position of governmental activities (A-2)		<u>\$4,340,490.38</u>

**Jackson Township School District**  
**Notes to the Financial Statements**  
**For the Fiscal Year Ending June 30, 2015**

**NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The financial statements of the Township of Jackson School District (the "District") have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the District's accounting policies are described below:

**Reporting Entity**

The Township of Jackson School District is a Type II District located in Ocean County, New Jersey. The School District is an instrumentality of the State of New Jersey, established to function as an educational institution. The Board of Education of the Jackson School District, comprised of seven elected individuals, is the primary governing authority of the District. A superintendent is appointed by the Board and is responsible for the administrative control of the District.

The primary criterion for including activities within the District's reporting entity, are set forth in Statement No. 39 of the Governmental Accounting Standards Board entitled "*Determining Whether Certain Organizations are Component Units*" (GASB 39), as codified in Section 2100 of the GASB Codification of Governmental Accounting and Financial Reporting Standards.

Organizations that are legally separate, tax-exempt entities and meet *all* of the following criteria should be discretely presented as component units. These criteria are:

1. The economic resources received or held by the separate organization are entirely or almost entirely for the direct benefit of the primary government
2. The primary government, or its component unit, is entitled to, or has the ability to otherwise access, a majority of the economic resources of the organization
3. The economic resources received or held by an *individual organization* that the specific primary government, or its component units, is entitled to, or has the ability to otherwise access, are significant to that primary government

**Jackson Township School District**  
**Notes to the Financial Statements**  
**For the Fiscal Year Ending June 30, 2015**

**NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**Reporting Entity (Continued)**

The combined financial statements include all funds of the District over which the Board exercises operating control. The operations of the District include elementary schools, middle schools and high schools, located in the Township of Jackson. There were no additional entities required to be included in the reporting entity under the criteria as described above, in the current fiscal year. Furthermore, the District is not includable in any other reporting entity on the basis of such criteria.

**Basis of Presentation**

The District's basic financial statements consist of District-wide statements, including a statement of net position and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

*District-wide Statements:* The statement of net position and the statement of activities display information about the District as a whole. These statements include the financial activities of the overall District, except for fiduciary activities. Eliminations have been made to minimize the double-counting of internal activities. These statements distinguish generally between the governmental and business-type activities of the District. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange transactions. Business-type activities are financed in whole or in part by fees charged to external parties.

The statement of net position presents the financial condition of the governmental and business-type activities of the District at fiscal year end. The statement of activities presents a comparison between direct expenses and program revenues for the business-type activity of the District and for each function of the District's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) fees and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirement of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues. The comparison of direct expenses with program revenues identifies the extent to which each governmental function or business segment is self-financing or draws from the general revenues of the District.

**Notes to the Financial Statements**  
**For the Fiscal Year Ending June 30, 2015**

**NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**Basis of Presentation (Continued)**

*Fund Financial Statements:* During the fiscal year, the District segregates transactions related to certain District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. The fund financial statements provide information about the District's funds, including its fiduciary funds. Separate statements are presented for each fund category-governmental, proprietary, and fiduciary. The New Jersey Department of Education (NJDOE) has elected to require New Jersey districts to treat each governmental fund as a major fund in accordance with the option noted in GASB No. 34, paragraph 76. The NJDOE as the oversight entity believes that the presentation of all funds as major is important for the public interest and to promote consistency among District financial reporting models.

**Governmental Funds**

**General Fund** The general fund is the general operating fund of the District and is used to account for all expendable financial resources except those required to be accounted for in another fund. Included are certain expenditures for vehicles and movable instructional or non instructional equipment which are classified in the capital outlay sub-fund.

As required by the New Jersey Statement Department of Education, the District includes budgeted capital outlay in this fund. U.S. Generally Accepted Accounting Principles as they pertain to governmental entities state that general fund resources may be used to directly finance capital outlays for long-lived improvements as long as the resources in such cases are derived exclusively from unrestricted revenues. Resources for budgeted capital outlay purposes are normally derived from State of New Jersey Aid, district taxes, and appropriated fund balance. Expenditures are those that result in the acquisition of or additions to capital assets for land, existing buildings, improvements of grounds, construction of buildings, additions to or remodeling of buildings and the purchase of built-in equipment. These resources can be transferred from and to the current expense by Board resolution; in certain instances approval by the County Superintendent of Schools may also be required.

**Special Revenue Fund** The special revenue fund is used to account for the proceeds of specific revenue sources from State and Federal Government (other than those for major capital projects, debt service or proprietary funds) and local appropriations that are legally restricted to expenditures for specified purposes.

**Jackson Township School District**  
**Notes to the Financial Statements**  
**For the Fiscal Year Ending June 30, 2015**

**NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**Capital Projects Funds** The capital projects fund is used to account for all financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds). The financial resources are derived from temporary notes or serial bonds that are specifically authorized by the voters as a separate question on the ballot either during the annual election or at a special election.

**Debt Service Fund** The debt service fund is used to account for the accumulation of resources for, and the payment of principal and interest on debt issued to finance major property acquisition, construction and improvement programs.

**Proprietary Funds**

**Enterprise Fund** The enterprise fund accounts for all revenues and expenses pertaining to the District's Food Service Child Care, Community School, Preschool, Digital Media and Extended Enrichment Kindergarten programs operations. These funds are utilized to account for operations that are financed and operated in a manner similar to private business enterprises. The stated intent is that the cost (*i.e.* expenses including depreciation and indirect costs) of providing goods or services to the students on a continuing basis are financed or recovered primarily through user charges.

**Fiduciary Funds**

**Agency Funds** The agency funds are used to account for assets held by the District on behalf of outside parties, including other governments, or on behalf of other funds within the District. The agency funds included are as follows:

**Payroll and Student Activities Funds** These are agency funds used to account for the assets that the District holds on behalf of others as their agent. Agency funds are custodial in nature and do not involve measurement of results of operations.

**Private Purpose Trust Funds** These trust funds are used to account for assets donated by individuals that will provide for the payment of awards and other purposes.

**Unemployment Insurance Trust Funds** An expendable trust fund used to account for unemployment compensation claims as they arise.

**NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**Basis of Accounting-Measurement Focus**

Basis of accounting determines when transactions are recorded in the financial records and reported in the financial statements.

District-wide, Proprietary, and Fiduciary Fund Financial Statements: The District-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Differences in the accrual and modified accrual basis of accounting arise in the recognition of revenue, the recording of unearned revenue, and in the presentation for expenses versus expenditures. Ad Valorem (Property) Taxes are susceptible to accrual as under New Jersey State Statute a municipality is required to remit to its school district the entire balance of taxes in the amount voted upon or certified, prior to the end of the school year. The District records the entire approved tax levy as revenue (accrued) at the start of the fiscal year, since the revenue is both measurable and available.

The District is entitled to receive monies under the established payment schedule and the unpaid amount is considered to be an "accounts receivable". Revenue from grants, entitlements, and donations are recognized in the fiscal year in which all eligibility requirements have been satisfied. Governmental Fund Financial Statements: Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. "Measurable" means the amount of the transactions can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds from the issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

**Notes to the Financial Statements**  
**For the Fiscal Year Ending June 30, 2015**

**NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**Budgets/Budgetary Control**

Annual appropriated budgets are prepared in the spring of each year for the general, special revenue, and debt service funds. The budgets are submitted to the county office for approval. In accordance with P.L. 2011, c. 202, which became effective January 17, 2012, the District elected to move the April 2013 school Board election to the date of the November general election thereby eliminating the vote on the annual base budget. Budgets are prepared using the modified accrual basis of accounting. The legal level of budgetary control is established at line item accounts within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in N.J.A.C. 6A:23-2.2(f)1. Expenditures may not legally exceed budgeted appropriations at the line item level. All budget amendments and transfers must be approved by School Board resolution. Budget amendments during the year ended June 30, 2015 totaled \$8,363,998.00 which came from the District's Capital Reserve Account to support the local share of their SDA HVAC and Security Upgrade projects.

All budget amounts presented in the accompanying supplementary information reflect the original budget and the amended budget (which have been adjusted for legally authorized revisions of the annual budgets during the year).

Appropriations, except remaining project appropriations, encumbrances, and unexpended grant appropriations, lapse at the end of each fiscal year. The capital projects fund presents the remaining project appropriations compared to current year expenditures. Formal budgetary integration into the accounting system is employed as a management control device during the fiscal year. For governmental funds, there are no substantial differences between the budgetary basis of accounting and generally accepted accounting principles (GAAP) with the exception of the legally mandated (NJSA 18A:22-44.2) revenue recognition of one or more deferred State Aid payments for budgetary purposes only due to the State deferral of such payments into the subsequent budget year and the accounting treatment of encumbrances in the special revenue fund as described below. Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental fund types. Unencumbered appropriations lapse at fiscal year end.

**Jackson Township School District**  
**Notes to the Financial Statements**  
**For the Fiscal Year Ending June 30, 2015**

**NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**Budgets/Budgetary Control (Continued)**

The accounting records of the special revenue fund are maintained on the grant accounting budgetary basis. The grant accounting budgetary basis differs from GAAP in that the grant accounting budgetary basis recognized encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial records.

**Encumbrance Accounting**

Under encumbrance accounting purchase orders, contracts and other commitments for the expenditures of resources are recorded to reserve a portion of the applicable appropriation. Open encumbrances in governmental funds other than the special revenue fund are reported as assigned fund balances at fiscal year end as they do not constitute expenditures or liabilities but rather commitments related to unperformed contracts for goods and services.

Open encumbrances in the special revenue and capital project funds for which the District has received advances are reflected in the balance sheet as unearned revenues at fiscal year end.

The encumbered appropriation authority carries over into the next fiscal year. An entry will be made at the beginning of the next fiscal year to increase the appropriation reflected in the certified budget by the outstanding encumbrance amount as of the current fiscal year end.

**Interfunds**

Interfund receivables and payables arise from transactions between particular funds and are considered short term in duration. The interfund transactions are recorded by all funds affected in the period in which the transactions are executed and are part of the district's available spendable resources.

**Inventories and Prepaid Expenses**

Inventories of materials and supplies held for consumption in the governmental funds are recorded as expenditures at the time of purchase and year end balances are not reported in the financial statements.

Inventories of food and/or supplies in the food service fund are recorded at cost on a first-in, first-out basis or, in the case of Food Distribution Commodities, at stated value which approximates market.

Prepaid expenses which benefit future periods, other than those recorded in the enterprise fund, are recorded as expenditures in the year of purchase.

**Jackson Township School District**  
**Notes to the Financial Statements**  
**For the Fiscal Year Ending June 30, 2015**

**NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**Capital Assets**

The District has an established formal system of accounting for its capital assets. Capital Assets used for governmental purposes, which include land, buildings and improvements and furniture and equipment, are only reported in the district-wide financial statements. The District generally defines capital assets as assets with an initial cost of \$2,000.00 or more and an estimated useful life in excess of one year. Purchased or constructed capital assets are reported at cost. Donated capital assets are valued at their estimated fair market value on the date received. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Capital assets are depreciated in the district-wide statements using the straight-line method over the following estimated useful lives:

	<u>Estimated Life</u>
School Buildings	50
Building Improvements	20
Electrical/Plumbing	30
Vehicles	8
Office and Computer Equipment	10
Instructional Equipment	10
Grounds Equipment	15

**Compensated Absences**

The District accounts for compensated absences (e.g., unused vacation, sick leave) as directed by Governmental Accounting Standards Board Statement No. 16 (GASB 16), "Accounting for Compensated Absences." A liability for compensated absences attributable to services already rendered and not contingent on a specific event that is outside the control of the employer and employee is accrued as employees earn the rights to the benefits.

District employees are granted varying amounts of vacation and sick leave in accordance with the District's personnel policy and/or collective bargaining unit contracts. Upon termination, employees are paid for accrued vacation. Sick leave benefits provide for ordinary sick pay and begin vesting with the employee after four years of service.

**NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**Compensated Absences (Continued)**

The liability for compensated absences was accrued using the termination payment method, whereby the liability is calculated based on the amount of sick leave and vacation days that are expected to become eligible for payment upon termination. The District estimates its accrued compensated absences liability based on the accumulated sick and vacation days at the balance sheet date by those employees who are currently eligible to receive termination payments.

For the district-wide statements, the current portion is the amount estimated to be used in the following year. For the governmental funds in the fund financial statements, a liability is reported only for to the extent of the amount actually due at year end as a result of employee resignations/retirements. Compensated absences are a reconciling item between the fund level and district-wide presentations.

**Fund Equity**

Fund balance restrictions are used to indicate that portion of the fund balance that is not available for expenditures or is legally segregated for a specific future use. Designation of portions of the fund balances are established to indicate tentative plans for financial utilization in a future period. The unassigned fund balances represent the amount available for future budgetary operations.

**Unearned Revenue**

Unearned revenue in the special revenue and proprietary funds represents funds which have been received but not yet earned. A corresponding accounts receivable has also been established for any open encumbrances at year end which is an allowable practice under generally accepted accounting principles.

**Accrued Liabilities and Long-Term Obligations**

All payables, accrued liabilities, and long-term obligations are reported on the district-wide financial statements. In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. However, contractually required pension contributions and compensated absences that are paid from governmental funds are reported as liabilities on the fund financial statements only to the extent that they are due for payment during the current year. Long term debt is recognized as a liability on the fund financial statements when due.

**Net Position**

In compliance with GASB 68, the Statement of Net Assets has been renamed the Statement of Net Position. Net Position represents the difference between assets and liabilities. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any borrowing used for the acquisition, construction, or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. The District's policy is to first apply restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net positions are available.

**Fund Balance Restrictions**

GASB Statement 54, "Fund Balance Reporting and Governmental Fund Type Definitions" modifies fund balance reporting and clarifies fund type definitions. This Statement aims to enhance the usefulness of fund balance information by providing clearer fund balance clarifications that can be applied more consistently.

Under the standard, in the fund financial statements, governmental funds report the following classifications of fund balance:

Nonspendable – includes amounts that cannot be spent because they are either not spendable in form or are legally or contractually required to be maintained intact.

Restricted – includes amounts restricted by external sources (creditors, laws of other governments, etc.) or by constitutional provision or enabling legislation. The District reports the Capital Reserve and Excess Surplus as Restricted Fund Balance.

Committed – includes amounts that can only be used for specific purposes. Committed fund balance is reported pursuant to resolutions passed by the Board of Education, the District's highest level of decision making authority. Commitments may be modified or rescinded only through resolutions approved by the Board of Education. The District report amounts Designated for Subsequent Year's Expenditures as Committed Fund balance.

**Fund Balance Restrictions (Continued)**

Assigned – includes amounts that the District intends to use for a specific purpose, but do not meet the definition of restricted or committed fund balance. Under the District’s policy, amounts may be assigned by the Business Administrator. The District reports Year End Encumbrances as Assigned Fund Balance.

Unassigned – includes amounts that have not been assigned to other funds or restricted, committed or assigned to a specific purpose within the General Fund. The District reports all amounts that meet the unrestricted General Fund Balance Policy described below as unassigned:

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balance are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed.

The general fund is the only fund that will report a negative unassigned fund balance. For all other governmental funds the amount of a residual deficit would be classified as unassigned.

**Revenues Exchange and Non-exchange Transactions**

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On the modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, “available” means within sixty days of the fiscal year end.

Non-exchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, entitlements, and donations. On the accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from property taxes is recognized in the period in which the income is earned. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

**NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**Revenues Exchange and Non-exchange Transactions (Continued)**

Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted; matching requirements, in which the District must provide local resources to be used for a specific purpose; and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On the modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered both measurable and available at fiscal year end: property taxes available as an advance, interest, and tuition.

**Operating Revenues and Expenses**

Operating revenues are those revenues that are generated directly from the primary activity of the enterprise fund. For the District, these revenues are sales in the Enterprise Funds. Operating expenses are necessary costs incurred to provide the service that is the primary activity of the enterprise fund.

**Allocation of Indirect Expenses**

The District reports all direct expenses by function in the Statement of Activities. Direct expenses are those that are clearly identifiable with a function. Indirect expenses are allocated to functions but are reported separately in the Statement of Activities. Employee benefits, including the employer's share of social security, workers compensation, and medical and dental benefits, were allocated based on salaries of the program. Depreciation expense, where practicable, is specifically identified by function and is included in the indirect expense column of the Statement of Activities. Depreciation expense that could not be attributed to a specific function is considered an indirect expense and is reported separately on the Statement of Activities.

**Extraordinary and Special Items**

Extraordinary items are transactions or events that are unusual in nature and infrequent of occurrence. Special items are transactions or events that are within control of management and are either unusual in nature or infrequent in occurrence. Neither of these types of transactions occurred during the fiscal year.

**Management Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

**NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**Accounting and Financial Reporting for Pensions**

In fiscal year 2015, the District implemented GASB 63. This Statement amends GASB Statement No. 27. It improves accounting and financial reporting by state and local governments for pensions. It also improves information provided by state and local government employers about financial support for pensions that is provided by other entities. This Statement results from a comprehensive review of the effectiveness of existing standards of accounting and financial reporting for pensions with regard to providing decision useful information, supporting assessments of accountability and interperiod equity, and creating additional transparency. This Statement replaces the requirement of Statement No. 27, *Accounting for Pension by State and Local Governmental Employers*, as well as the requirements of Statement No. 50, *Pension Disclosures*, as they relate to pensions that are provided through pension plans administered as trusts or equivalent arrangements that meet certain criteria. The requirements of Statements 27 and 50 remain applicable for pensions that are not covered by the scope of this Statement. This statement is effective for periods beginning after June 15, 2014.

The District has also implemented GASB Statement 71, Pension Transition for Contributions made Subsequent to the Measurement Date-an amendment to GASB No. 68. The objective of this Statement is to address an issue regarding application of the transition provisions of Statement No. 68, *Accounting and Financial Reporting for Pensions*. The issue relates to amounts associated with contributions, if any, made by a state or local government employer or nonemployer contributing entity to a defined benefit pension plan after the measurement date of the government's beginning net pension liability. Statement 68 requires a state or local government employer (or nonemployer contributing entity in a special funding situation) to recognize a net pension liability measured as of a date (the measurement date) no earlier than the end of its prior fiscal year. If a state or local government employer or nonemployer contributing entity makes a contribution to a defined benefit pension plan between the measurement date of the reported net pension liability and the end of the government's reporting period, Statement 68 requires that the government recognize its contribution as a deferred outflow of resources.

**Jackson Township School District**  
**Notes to the Financial Statements**  
**For the Fiscal Year Ending June 30, 2015**

**NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**Accounting and Financial Reporting for Pensions (Continued)**

In addition, Statement 68 requires recognition of deferred outflows of resources and deferred inflows of resources for changes in the net pension liability of a state or local government employer or nonemployer contributing entity that arise from other types of events. At transition to Statement 68, if it is not practical for an employer or nonemployer contributing entity to determine the amounts of all deferred outflows of resources and deferred inflows of resources related to pensions, paragraph 137 of Statement 68 required that beginning balances for deferred outflows of resources and deferred inflows of resources not be reported. Consequently, if it is not practical to determine the amounts of all deferred outflows of resources and deferred inflows of resources related to pensions, contributions made after the measurement date of the beginning net pension liability could not have been reported as deferred outflows of resources at transition. This could have resulted in a significant understatement of an employer or nonemployer contributing entity's beginning net position and expense in the initial period of implementation.

This Statement amends paragraph 137 of Statement 68 to require that, at transition, a government recognize a beginning deferred outflow of resources for its pension contributions, if any, made subsequent to the measurement date of the beginning net pension liability. Statement 68, as amended, continues to require that beginning balances for other deferred outflows of resources and deferred inflows of resources related to pensions be reported at transition only if it is practical to determine all such amounts.

**Deferred Outflows/Inflows of Resources**

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. Currently, the District has two items that qualify for reporting in this category, deferred amounts from refunding debt and deferred items that are pension related.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. Currently, the District has only one item that qualifies for reporting in this category, deferred amounts that are pension related.

**NOTE 2: CASH AND CASH EQUIVALENTS AND INVESTMENTS**

The Board considers petty cash, change funds, cash in banks, and short term investments with original maturities of three months or less as cash and cash equivalents. Investments are stated at cost, which approximates market.

**Deposits**

New Jersey statutes permit the deposit of public funds in public depositories which are located in New Jersey and which meet the requirements of the Governmental Unit Deposit Protection Act (GUDPA). GUDPA requires a bank that accepts public funds to be a public depository. A public depository is defined as a state bank, a national bank, or a savings bank, which is located in the State of New Jersey, the deposits of which are insured by the Federal Deposit Insurance Corporation. The statutes also require public depositories to maintain collateral for deposits of public funds that exceed certain insurance limits. Each depository participating in the GUDPA system must pledge collateral equal to 5% of the average amount of its public deposits and 100% of the average amount of its public funds in excess of 75% of its capital funds. No collateral is required for amounts covered by FDIC insurance. The collateral which may be pledged to support these deposits includes obligations of the State and federal governments, insured securities and other collateral approved by the Department. When the capital position of the depository deteriorates or the depository takes an unusually large amount of public deposits, the Department of Banking and Insurance requires additional collateral to be pledged. Under (GUDPA), if a public depository fails, the collateral it has pledged, plus the collateral of all other public depositories, is available to pay the full amount of the deposits to the governmental unit

**Deposits**

Custodial Credit Risk - Deposits - Custodial credit risk is the risk that in the event of a bank failure, the deposits may not be returned. The District does not have a specific deposit policy for custodial credit risk other than those policies that adhere to the requirements of statute. As of June 30, 2015, based upon the coverage provided by FDIC and NJGUDPA, no amount of the bank balance was exposed to custodial credit risk. Of the cash on balance in the bank of \$26,805,797.19, \$250,000.00 was covered by Federal Depository Insurance and \$26,555,797.19 was covered under the provisions of NJGUDPA.

**Investments**

The types of investments which may be purchased by the District are strictly limited by the express authority of the N.J.S.A. 18A:20-37 Education, Administration of School Districts. Permitted investments include any of the following type of securities:

1. Bonds or other obligations of the United States of America or obligations guaranteed by the United States of America;
2. Government money market mutual funds which are purchased from an investment company or investment trust which is registered with the Securities and Exchange Commission under the "Investment Company Act of 1940," 15 U.S.C. 80a1 et seq., and operated in accordance with 17 C.F.R. § 270.2a7 and which portfolio is limited to U.S. Government securities that meet the definition of an eligible security pursuant to 17 C.F.R. § 270.2a7 and repurchase agreements that are collateralized by such U.S. Government securities in which direct investment may be made pursuant to paragraphs (1) and (3) of N.J.S.A. 18A:2037. These funds are also required to be rated by a nationally recognized statistical rating organization.
3. Any obligation that a federal agency or a federal instrumentality has issued in accordance with an act of Congress, which security has a maturity date not greater than 397 days from the date of purchase, provided that such obligation bears a fixed rate of interest not dependent on any index or other external factor;

Bonds are issued by the District pursuant to the provisions of Title 18A, Education, of the New Jersey Statutes and are required to be approved by the voters of the municipality through referendum. The proceeds of bonds are recorded in the Capital Projects Fund and are restricted to the use for which they were approved in the bond referendum. All bonds are retired in annual installments within the statutory period of usefulness

School Bonds issued by the District are entitled to and benefit from the provision of the New Jersey School Board Reserve Act P.L. 1980 c.72. Basically, funds are held by the State of New Jersey within its State Fund for the Support of Free Public Schools as a school bond reserve pledged by law to secure payment of principal and interest due on such bonds in the event of the inability of the issuer to make payments.

**Refunding School Bonds**

**2006 Refunding**

The district issued \$87,650,000.00 in Refunding School bonds to advance refund \$83,425,000.00 of the districts previously issued and outstanding school bonds. The reacquisition price exceeded the net carrying amount by \$4,225,000.00. This amount is being amortized over the remaining life of the refunded debt, which is shorter than the life of the new debt issued. The current year portion charged to the Statement of Activities was \$201,190.48 leaving a balance of \$2,414,285.71 which is reflected on the Statement of Net Assets as a Deferred Outflow. Under the escrow agreement, the escrow is irrevocably pledged to the payment of principal and interest on the refunded bonds. As a result, the \$83,425,000.00 of the refunded obligations are considered to be defeased and the liability for those bonds has been removed from the financial statements.

**2014 Refunding**

The district issued \$7,890,000.00 in Refunding School bonds to advance refund \$7,716,000.00 of the districts previously issued and outstanding school bonds. The reacquisition price exceeded the net carrying amount by \$74,000.00. The District also received an original issue premium of \$777,003.25 as part of the proceeds of the sale. These amounts are being amortized over the remaining life of the refunded debt, which is shorter than the life of the new debt issued. The balance of \$851,003.25 is reflected on the Statement of Net Assets as a Deferred Outflow. Under the escrow agreement, the escrow is irrevocably pledged to the payment of principal and interest on the refunded bonds. As a result, the \$7,716,000.00 of the refunded obligations are considered to be defeased and the liability for those bonds has been removed from the financial statements.

**Bonds Authorized But Not Issued**

As of June 30, 2015, the District had \$973.00 in Bonds Authorized but not issued.

**NOTE 5: PENSION PLANS**

**Description of Plans** All required employees of the District are covered by the Public Employees' Retirement System, the Teachers' Pension and Annuity Fund or the Defined Contribution Retirement Program which have been established by state statute and are administered by the New Jersey Division of Pension and Benefits (Division). According to the State of New Jersey Administrative Code, all obligations of each system will be assumed by the State of New Jersey should the system terminate. The Division issues a publicly available financial report that includes the financial statements and required supplementary information for each of the above systems. These reports may be obtained by writing to the Division of Pensions and Benefits, PO Box 295, Trenton, New Jersey, 08625 or on line at [www.state.nj.us/treasury/pensions](http://www.state.nj.us/treasury/pensions).

**Teachers' Pension and Annuity Fund (TPAF)** The Teachers' Pension and Annuity Fund was established as of January 1, 1955, under the provisions of N.J.S.A. 18A:66 to provide retirement benefits, death, disability and medical benefits to certain qualified members. The Teachers' Pension and Annuity Fund is considered a cost-sharing multiple employer plan with a special funding situation, as under current statute, all employer contributions are made by the State of New Jersey on behalf of the District and the system's other related non-contributing employers. Membership is mandatory for substantially all teachers or members of the professional staff certified by the State Board of Examiners, and employees of the Department of Education who have titles that are unclassified, professional and certified.

**Public Employees' Retirement System (PERS)** The Public Employees' Retirement System (PERS) was established as of January 1, 1955 under the provision of N.J.S.A. 43:15A to provide retirement, death, disability and medical benefits to certain qualified members. The Public Employees' Retirement System is a cost-sharing multiple employer plan. Membership is mandatory for substantially all full-time employees of the State of New Jersey or any county, municipality, school district, or public agency, provided the employee is not required to be a member of another state administered retirement system or other state or local jurisdiction.

**Defined Contribution Retirement Program (DCRP)** The Defined Contribution Retirement Program (DCRP) was established under the provision of Chapter 92, P.L. 2007 and Chapter 103, P.L. 2007 to provide coverage elected and certain appointed officials, effective July 1, 2007. Membership is mandatory for such individuals with vesting occurring after one year of membership.

**Significant Legislation**

Effective June 28, 2011, P.L. 2011, c. 78 enacted certain changes in the operations and benefit provisions of the TPAF and the PERS systems.

**Pension Plan Design Changes**

Effective June 28, 2011, P.L. 2011, c. 78, new members of TPAF and PERS, hired on or after June 28, 2011, will need 30 years of creditable service and have attained the age of 65 for receipt of the early retirement benefit without a reduction of 1/4 of 1% for each month that the member is under age 65. New members will be eligible for a service retirement benefit at age 65.

**Funding Changes**

Under the new legislation, the methodology for calculating the unfunded accrued liability payment portion of the employer's annual pension contribution to the PERS, and TPAF. The unfunded actuarial accrued liability (UAAL) will be amortized for each plan over an open-ended 30 year period and paid in level dollars. Beginning with the July 1, 2019 actuarial valuation (July 1, 2018 for PFRS), the UAAL will be amortized over a closed 30 year period until the remaining period reaches 20, when the amortization period will revert to an open-ended 20 year period.

**COLA Suspension**

The payment of automatic cost-of-living adjustment to current and future retirees and beneficiaries are suspended until reactivated as permitted by this law.

**Vesting and Benefit Provisions** The vesting and benefit provisions of PERS are set by N.J.S.A. 43:15A and 43.3B, and N.J.S.A. 18A:6C for TPAF. All benefits vest after ten years of service, except for post-retirement healthcare benefits that vest after 25 years of service.

Members are always fully vested for their own contributions and, after three years of service credit, become vested for 2% of related interest earned on the contributions. In the case of death before retirement, members' beneficiaries are entitled to full interest credited to the members' accounts.

**Contribution Requirements** The contribution policy is set by N.J.S.A. 43:15A and N.J.S.A. 18:66, and requires contributions by active members and contributing employers. Plan member and employer contributions may be amended by State of New Jersey legislation.

Effective June 28, 2011, P.L. 2011, c. 78 provides for increases in the employee contribution rates: from 5.5% to 6.5% plus an additional 1% phased-in over 7 years beginning in the first year, meaning after 12 months, after the law's effective date for TPAF and PERS.

Employers are required to contribute at an actuarially determined rate in both TPAF and PERS. The actuarially determined contribution includes funding for cost-of-living adjustments, noncontributory death benefits, and post-retirement medical premiums. Under current statute the District is a non-contributing employer of TPAF (i.e. the State of new Jersey makes the employer contribution on behalf of public school districts.

**Public Employees Retirement System (PERS)**

At June 30, 2015, the District reported a liability of \$47,831,634.00 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating school districts, actuarially determined. At June 30, 2014, the District's proportion was 0.2554735380 percent, which was an increase of 0.0032795751 percent from its proportion measured as of June 30, 2013.

For the year ended June 30, 2015, the District recognized pension expense of \$2,555,402.00. At June 30, 2015, the District reported deferred outflows of resources and deferred inflows of resources related to PERS from the following sources:

	<u>Deferred Inflow of Resources</u>	<u>Deferred Outflow of Resources</u>
Changes of assumptions		\$1,504,083.00
Net difference between projected and actual earnings on pension plan investments	\$2,850,505.00

**Actuarial Assumptions**

The total pension liability for the June 30, 2014 measurement date was determined by an actuarial valuation as of July 1, 2013, which rolled forward to June 30, 2014. The total pension liability for the July 1, 2013 measurement date was determined by an actuarial valuation as of July 1, 2013. This actuarial valuation used the following assumptions, applied to all periods in the measurement.

Inflation	3.01 Percent
Salary Increases	
2012-2021	2.15-4.40 Percent (based on age)
Thereafter	3.15-5.40 Percent (based on age)
Investment Rate of Return	7.90 Percent

The actuarial assumptions used in the June 30, 2013 valuation were based on the results of an actuarial experience study for the period July 1, 2008 to June 30, 2011.

**Mortality Rates**

Mortality rates were based on the RP-2000 Combined Healthy Male and Female Mortality Tables (setback one year for females) with adjustments for mortality improvements from the base year of 2012 based on Projection Scale AA.

**Actuarial Assumptions (Continued)**

**Discount Rate**

The discount rate used to measure the total pension liability was 5.39% and 5.55% as of June 30, 2014 and 2013, respectively. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.9%, and a municipal bond rate of 4.29% and 4.63% as of June 30, 2014 and 2013, respectively, based on the Bond Buyer Go 20-Bond Municipal Bond Index which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made based on the average of the last five years of contributions made in relation to the last five years of recommended contributions. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2033. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2033, and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

**Sensitivity of the collective net pension liability to changes in the discount rate.**

The following presents the collective net pension liability of the participating employers as of June 30, 2014 respectively, calculated using the discount rate as disclosed above as well as what the collective net pension liability would be if it was calculated using a discount rate that is 1 -percentage point lower or 1-percentage-point higher than the current rate:

	June 30, 2014		
	1% Decrease <u>4.39%</u>	At Current Discount Rate <u>5.39%</u>	1% Increase <u>6.39%</u>

**Pension plan fiduciary net position.**

Detailed information about the pension plan's fiduciary net position is available in the separately issued Financial Report for the State of New Jersey Public Employees Retirement System (PERS).

**Teachers Pensions and Annuity Fund (TPAF)**

The employer contributions for local participating employers are legally required to be funded by the State in accordance with N.J.S.A 18:66-33. Therefore, these local participating employers are considered to be in a special funding situation as defined by GASB Statement No. 68 and the State is treated as a nonemployer contributing entity. Since the local participating employers do not contribute directly to the plan (except for employer specific financed amounts), there is no net pension liability or deferred outflows or inflows to report in the financial statements of the local participating employers. However, the notes to the financial statements of the local participating employers must disclose the portion of the nonemployer contributing entities' total proportionate share of the net pension liability that is associated with the local participating employer.

The portion of the TPAF Net Pension Liability that was associated with the District recognized at June 30, 2015 was as follows:

Net Pension Liability:	
Districts proportionate share	-0-
State's proportionate share associated with the District	<u>\$283,017,383</u>
	<u><u>\$283,017,383</u></u>

The net pension liability was measured as of June 30, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2013. The net pension liability associated with the District was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating school districts and the State, actuarially determined. At June 30, 2014, the proportion of the TPAF net pension liability associated with the District was .5295315570%.

For the year ended June 30, 2015, the District recognized on-behalf pension expense and revenue of \$15,228,992 for contributions provided by the State.

**Actuarial Assumptions**

The total pension liability for the June 30, 2014 measurement date was determined by an actuarial valuation as of July 1, 2013, which was rolled forward to June 30, 2014. The total pension liability for the June 30, 2013 measurement date was determined by an actuarial valuation as of July 1, 2013. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement:

Inflation rate	2.50%
Salary increases:	
2012-2021	Varies based on experience
Thereafter	Varies based on experience
Investment rate of return	7.90%

**Mortality rates**

Mortality rates were based on the RP-2000 Health Annuitant Mortality Table for Males or Females, as appropriate, with adjustments for mortality improvements based on Scale AA. Pre-retirement mortality improvements for active members are projected using Scale AA from the base year of 2000 until the valuation date plus 15 years to account for future mortality improvement. Post-retirement mortality improvements for non-disabled annuitants are projected using Scale AA from the base year of 2000 for males and 2003 for females until the valuation date plus 7 years to account for future mortality improvement. The actuarial assumptions used in the July 1, 2013 valuation were based on the results of an actuarial experience study for the period July 1, 2009 to June 30, 2012.

**Discount Rate**

The discount rate used to measure the total pension liability was 4.68% and 4.95% as of June 30, 2014 and 2013, respectively. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.9%, and a municipal bond rate of 4.29% and 4.63% as of June 30, 2014 and 2013, respectively, based on the Bond Buyer Go 20-Bond Municipal Bond Index which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made based on the average of the last five years. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2027. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2027, and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability,

**Sensitivity of the Net Pension Liability to Changes in the Discount Rate**

Because the District's proportionate share of the net pension liability is zero, consideration of potential changes in the discount rate is not applicable to the District.

**NOTE 7: GASB 45 – OTHER POST-RETIREMENT BENEFITS**

P.L. 1987, c. 384 and P.L. 1990, c.6 required Teachers' Pensions and Annuity Fund (TPAF) and the Public Employees' Retirement System (PERS), respectively, to fund post-retirement medical benefits for those state employees who retire after accumulating 25 years of credited service or on a disability retirement. P.L. 2007, c.103 amended the law to eliminate the funding of post-retirement medical benefits through the TPAF and PERS. It created separate funds outside of the pension plans for the funding and payment of post-retirement medical benefits for retired state employees and retired educational employees. As of June 30, 2013, there were 100,134 retirees receiving post-retirement medical benefits, and the State contributed \$1.07 billion on their behalf. The cost of these benefits is funded through contributions by the State in accordance with P.L. 1994, c.62. Funding of post-retirement medical benefits changed from a pre-funding basis to a pay-as-you-go basis beginning in Fiscal Year 1994.

The State is also responsible for the cost attributable to P.L. 1992, c.126, which provides employer paid health benefits to members of PERS and the Alternate Benefit Program who retired from a board of education or county college with 25 years of service. The State paid \$173.8 million toward Chapter 126 benefits for 17,356 eligible retired members in Fiscal Year 2013.

The State will set the contribution rate based on the annual required contribution of the employers (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) of the plan over a period not to exceed thirty years. The State's contributions to the State Health Benefits Program Fund for TPAF retirees' post-retirement benefits on behalf of the School Commission for the years ended June 30, 2014, 2013 and 2012 were \$3,672,980.00, \$3,945,737.00 and \$3,349,358.00 respectively, which equaled the required contributions for each year. The State's contributions to the State Health Benefits Program Fund for PERS retirees' post-retirement benefits on behalf of the School Commission was not determined or made available by the State of New Jersey.

**NOTE 8: LITIGATION**

The District's counsel advises that there is no litigation, pending litigation, claims, contingent liabilities, unasserted claims or assessments or statutory violations which involve the School District and which might materially affect the District's financial position.

**Notes to the Financial Statements**  
**For the Fiscal Year Ending June 30, 2015**

**NOTE 9: CONTINGENCIES**

The District receives financial assistance from the State of New Jersey and the U.S. Government in the form of grants. Entitlement to the funds is generally conditional upon compliance with terms and conditions of the grant agreements and applicable regulations, including the expenditure of the funds for eligible purposes. The State and Federal grants received and expended in the 2014-2015 fiscal year were subject to the U.S. OMB Circular A-133 and New Jersey OMB Circular 04-04 which mandates that grant revenues and expenditures be audited in conjunction with the District's annual audit if expenditures for federal or state programs exceed \$500,000.00 Findings and questioned costs, if any, relative to federal and state financial assistance programs are discussed in the Single Audit Section, Schedule of Findings and Questioned Costs. In addition, all grants and cost reimbursements are subject to financial and compliance audits by the grantors. The District's management does not believe any such audit would result in material amounts of disallowed costs.

**NOTE 10: RISK MANAGEMENT**

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

**Property and Liability Insurance** The District maintains insurance coverage covering each of those risks of loss. The administration believes such coverage is sufficient to preclude any significant uninsured losses to the District. Settled claims have not exceeded the insurance coverage in any of the past three fiscal years.

**New Jersey Unemployment Compensation Insurance** The District has elected to fund its New Jersey Unemployment Compensation Insurance under the "Benefit Reimbursement Method". Under this plan, the District is required to reimburse the New Jersey Unemployment Trust Fund for benefits paid to its former employees and charged to its account with the State. The District is billed quarterly for amounts due to the State. The following is a summary of District contributions, employee contributions, reimbursements to the State for benefits paid and the ending balance of the District's fiduciary trust fund for the current and previous two years:

<u>Year Ended</u> <u>June 30,</u>	<u>Interest</u>	<u>Employee</u> <u>Contributions</u>	<u>Amount</u> <u>Reimbursed</u>	<u>Ending</u> <u>Balance</u>

**NOTE 11: COMPENSATED ABSENCES**

The District accounts for compensated absences (e.g. unused vacation and sick leave) as directed by Governmental Accounting Standards Board Statement No. 16 (GASB 16), "Accounting for Compensated Absences". A liability for compensated absences attributable to services already rendered and not contingent on a specific event that is outside the control of the employer and employee is accrued as employees earn the rights to the benefits.

District employees are granted varying amounts of vacation and sick leave in accordance with the District's personnel policy. Upon termination, employees are paid for accrued vacation. The District's policy permits employees to accumulate unused sick leave and carry forward the amount to subsequent years. Upon retirement, employees shall be paid by the District for the unused sick leave in accordance with the Districts agreements with the various employee unions.

The liability for vested compensated absences of the governmental fund types are recorded in the district - wide statement of net assets. As of June 30, 2015, a liability existed for compensated absences for governmental fund-types in the district- wide Statement of Net Assets of \$5,083,298.05

The liability for vested compensated absences of the proprietary fund types is recorded within those funds as the benefits accrue to employees. As of June 30, 2015 a liability existed for compensated absences in the proprietary funds of \$107,363.40.

For additional descriptive information see Note 1, Summary of Significant Accounting Policies.

**NOTE 13: CALCULATION OF EXCESS SURPLUS – BUDGETARY BASIS (CONTINUED)**

Based on the preceding calculation, as of June 30, 2015, \$4,505,842.51 is reported as Restricted Fund Balance Excess Surplus and is required to be appropriated for property tax relief in the 2015-16 budget. \$3,946,312.70 is reported as Restricted Fund Balance Excess Surplus Designated for Subsequent Year's Expenditure and is required to be appropriated for property tax relief in the 2015-16 budget.

**NOTE 14: INTERFUND RECEIVABLES AND PAYABLES**

The following interfund balances remained on the balance sheet at June 30, 2015:

<u>Fund</u>	<u>Interfund Balance</u>	
	<u>Receivable</u>	<u>Payable</u>
General Fund	\$ 880,492.97	\$
Special Revenue Fund		809,548.65
Enterprise Fund		297.00
Fiduciary Fund		70,647.32
	\$ 880,492.97	\$ 880,492.97

All balances resulted from the time lag between the dates that short-term loans were disbursed and payments between funds were received.

**NOTE 15: CAPITAL RESERVE ACCOUNT**

A capital reserve account was established by the Township of Jackson Board of Education in the amount of \$1.00 in the 2000-2001 school year for the accumulation of funds for use as capital outlay expenditures in subsequent fiscal years. The capital reserve account is maintained in the general fund and its activity is included in the general fund annual budget.

Funds placed in the capital reserve account are restricted to capital projects in the district's approved Long Range Facilities Plan (LRFP). Upon submission of the LRFP to the Department of Education, a district may increase the balance in the capital reserve by appropriating funds in the annual general fund budget certified for taxes or by transfer by Board resolution at year end (June 1 to June 30) of any unanticipated revenue or unexpended line item appropriations, or both. A district may also appropriate additional amounts when the express approval of the voters has been obtained by either a separate proposal at budget time or by a special question at one of the four special election dates authorized by N.J.S.A. 19:60-2. Pursuant to N.J.A.C. 6A:23A-14.1(g), the balance in the account cannot at any time exceed the local support costs of uncompleted capital projects in its approved LRFP.

NOTE TO RSI III  
FOR THE FISCAL YEAR ENDED JUNE 30, 2015

PUBLIC EMPLOYEES RETIREMENT SYSTEM (PERS)

Change in benefit terms

None

Change in assumptions

The calculation of the discount rate used to measure the total pension liability is dependent upon the long-term expected rate of return, and the municipal bond index rate. There was a change in the municipal bond index rate from the prior measurement date (4.63%) to the current measurement date (4.29%), resulting in a change in the discount rate from 5.55% to 5.39%. This change in the discount rate is considered to be a change in actuarial assumptions under GASBS No. 68.

TEACHERS PENSION AND ANNUITY FUND (TPAF)

Change in benefit terms

None

Change in assumptions

The calculation of the discount rate used to measure the total pension liability is dependent upon the long-term expected rate of return, and the municipal bond index rate. There was a change in the municipal bond index rate from the prior measurement date (4.63%) to the current measurement date (4.29%), resulting in a change in the discount rate from 4.95% to 4.68%. This change in the discount rate is considered to be a change in actuarial assumptions under GASBS No. 68.

NJSA 18A:7F-5d limits the amount that the district can submit for a general fund tax levy. The levy when added to other components of the district's net budget may not exceed the prebudget year net budget by more than the spending growth limitation calculated as follows: the prebudget year net budget increased by the cost of living or 2.5 percent, whichever is greater, plus any spending growth adjustments.

(a) The district's basic tax rate is calculated from the A4F form which is submitted with the budget and the net valuation taxable

(b) Rates for debt service are based on each year's requirements.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL  
OVER FINANCIAL REPORTING AND ON COMPLIANCE AND  
OTHER MATTERS BASED ON AN AUDIT OF BASIC FINANCIAL  
STATEMENTS PERFORMED IN ACCORDANCE WITH  
GOVERNMENT AUDITING STANDARDS**

Honorable President and Members  
of the Board of Education  
Jackson School District  
County of Ocean  
Jackson, New Jersey 08527

We have audited, in accordance with the auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Jackson School District (the "District") as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the District's financial statements, and have issued our report thereon dated November 30, 2015.

***Internal Control Over Financial Reporting***

In planning and performing our audit of the financial statements, we considered the District's control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the Jackson School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

## SUPLEE, CLOONEY & COMPANY

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

### ***Compliance and Other Matters***

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### ***Purpose of This Report***

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE  
WITH REQUIREMENTS APPLICABLE TO EACH MAJOR FEDERAL  
AND STATE FINANCIAL ASSISTANCE PROGRAMS AND ON  
INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE  
WITH U.S. OMB CIRCULAR A-133 AND NEW JERSEY OMB CIRCULAR 04-04**

Honorable President and Members  
of the Board of Education  
Jackson School District  
County of Ocean  
Jackson, New Jersey 08527

***Report on Compliance for Each Major Federal and State Program***

We have audited the Jackson School District's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* and the *New Jersey OMB State Grant Compliance Supplement* that could have a direct and material effect on each of the Jackson School District's major federal and state programs for the year ended June 30, 2015. The District's major federal and state programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

***Management's Responsibility***

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal and state programs.

***Auditor's Responsibility***

Our responsibility is to express an opinion on compliance for each of the Jackson School District's major federal and state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and *OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations* and *New Jersey OMB 04-04*. Those standards, *OMB Circular A-133* and *New Jersey OMB 04-04* require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal or state program occurred. An audit includes examining, on a test basis, evidence about the Jackson School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal and state program. However, our audit does not provide a legal determination of the Jackson School District's compliance.

# SUPLEE, CLOONEY & COMPANY

## ***Opinion on Each Major Federal and State Program***

In our opinion, the Jackson School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs for the year ended June 30, 2015.

## ***Report on Internal Control Over Compliance***

Management of the Jackson School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Jackson School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal and state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with *OMB Circular A-133* and *New Jersey OMB 04-04*, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Jackson School District's internal control over compliance.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal or state program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal or state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of *OMB Circular A-133* and *State of New Jersey OMB 04-04*. Accordingly, this report is not suitable for any other purpose.

**Jackson Township School District**  
**Notes to the Schedules of Expenditures of Federal Awards**  
**and State Financial Assistance**  
**Year Ended June 30, 2015**

**NOTE 1: GENERAL**

The accompanying schedules of expenditures of federal awards and state financial assistance include federal and state activity of the Board of Education, Jackson Township School District. The Board of Education is defined in Note 1 to the Board's basic financial statements. All federal and state awards received directly from the federal and state agencies, as well as federal awards and state financial assistance passed through other government agencies is included on the schedule of expenditures of federal awards and state financial assistance.

**NOTE 2: BASIS OF ACCOUNTING**

The accompanying schedules of expenditures of awards and federal awards and state financial assistance are presented on the budgetary basis of accounting with the exceptions of programs recorded in the food service fund, which are presented using the accrual basis of accounting. These bases of accounting are described in Note 1 of the Board's basic financial statements. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

**NOTE 3: RELATIONSHIP TO BASIC FINANCIAL STATEMENTS**

The basic financial statements present the general fund and special revenue fund on a GAAP basis. Budgetary comparison statements or schedule (RSI) are presented for the general fund and special revenue fund to demonstrate finance-regulated legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the audit year, whereas for GAAP reporting, revenue is not recognized until the subsequent year or when expenditures have been made.

The General fund is presented in the accompanying schedules on the modified accrual basis with the exception of the revenue recognition of the last state aid payment in the current budget year, which is mandated pursuant to N.J.S.A. 18A:22-44.2. For GAAP purposes, that payment is not recognized until the subsequent budget year due to the state deferral and recording of the last state aid payment in the subsequent year. The special revenue fund is presented in the accompanying schedules on the grant accounting budgetary basis which recognizes encumbrances as expenditures and also recognizes the related revenue, whereas GAAP basis does not. The special revenue fund also recognizes the last state aid payment in the current budget year, consistent with N.J.S.A. 18A:22-44.2.
