Honorable President and
Members of the Board of Education
City of Northfield School District
County of Atlantic

Dear Board Members:

The Comprehensive Annual Financial Report of the City of Northfield School District for the fiscal year ending June 30, 2015, is hereby submitted. Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures, rests with the management of the Board of Education. To the best of our knowledge and belief, the data presented in this report is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds and account groups of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

The Comprehensive Annual Financial Report is presented in four sections: introductory, financial, statistical and single audit. The introductory section includes this transmittal letter, the District's organizational chart and a list of the principal officials. The financial section includes the basic financial statements and schedules, management's discussion and analysis, as well as the auditor's report thereon. The statistical section includes selected financial and demographic information, generally presented on a multi-year basis. The District is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act of 1996 and the U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments and Non-Profit Organizations* and the New Jersey OMB Circular Letters 04-04 and 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid Payments*. Information related to this single audit, including the auditor's report on the internal control structure and compliance with applicable laws and regulations and findings and recommendations, are included in the single audit section report.

1.) **REPORTING ENTITY AND ITS SERVICES:** The City of Northfield School District is an independent reporting entity within the criteria set forth in Section 2100 of the *GASB Codification of Governmental Accounting and Financial Reporting Standards*. All funds and account groups of the District are included in this report. The City of Northfield Board of Education and all its schools constitute the District's reporting entity.

The District provides a full range of educational services appropriate to grade levels K through 8. These include regular, vocational as well as special education for handicapped youngsters. The District completed the 2014-2015 fiscal year with an enrollment of 932 students, which is 52 fewer students than the previous year's enrollment. The following details the October 15th official count changes in the student enrollment of the District over the last ten years.

Year	Enrollment	Change
2014-15	932	(5.28%)
2013-14	984	(3.46%)
2012-13	1,018	(2.77%)
2011-12	1,047	(0.76%)
2010-11	1,055	(1.22%)
2009-10	1,068	(3.17%)
2008-09	1,103	2.61%
2007-08	1,075	(1.19%)
2006-07	1,088	(1.27%)
2005-06	1,102	(0.72%)

2.) **ECONOMIC CONDITION AND OUTLOOK:** For the past ten years enrollments have been consistently declining which is believed to be a result of the difficult economy that surrounds the Atlantic City region. Atlantic County has lagged surrounding areas and the nation in economic recovery and the housing market continues to be slow. In a recent Standard & Poor's Rating for bonds sold, the county's high unemployment rate and participation in the Atlantic City region caused economic pressures given recent casino closures. However, the District received a bond rating of A+/Stable due to the fact that Northfield had a mature, primary residential local economy with good incomes, moderate debt burden, and the District maintained a strong total general fund balance on a GAAP basis of accounting, despite two consecutive drawdowns. Furthermore, the consequences of the economic downturn and legalized gambling in adjacent states is higher unemployment rates in the region, which includes Northfield. The decrease in housing requirements in Northfield of the casino industry continue to impact community services including schools.

3.) **MAJOR INITIATIVES:** The 2014-15 school year started and maintained a high level of involvement, motivation and momentum by staff, students and parents and several new teachers and support staff were approved by the Board of Education.

The October 15, 2014 enrollment was 932 students in contrast to an enrollment of 984 one year earlier. Throughout the 2014-15 academic year, programs and activities which benefited all Northfield Community School students were sponsored by the district, the active Parent Teacher Organization (PTO) and the Northfield Education Foundation (NEF), the Sports Booster Club and the Northfield Board of Education. The level of parent participation continues to grow in Northfield. In addition, the quality of our staff is impressive, with one hundred percent of our teachers deemed highly qualified. Our district stakeholders worked for 16 months to create a 5 year Strategic Plan for Northfield, which continues to be implemented.

The Northfield Education Foundation continues to fund several after-school clubs which included the Book Club and Chess Club for both elementary and middle school students, and Multi-Media Club and Future Engineers Club for middle school students.

The Northfield Learning Center which addresses the reading needs of students with dyslexia finished its ninth year and was completely funded by the Masons.

The 2015-16 budget was developed by the Administration, Board Finance Committee, and full Board of Education, and it was reviewed by the Atlantic County Superintendent of Schools' office. The overall 2015-16 general fund budget was increased by 0.91%, due largely to a reduction in budgeted fund balance, and resulted in a tax increase of 2.39 cents. State Aid had no increase over the preceding year, representing the fifth consecutive year of significantly low or no State Aid increases followed by the very large decrease in the 2010-2011 budget year.

Throughout the year, efforts continue to be made at all grade levels to address both strengths and areas of need as a result of state and local testing. Our general student population was tested in the New Jersey Assessment of Skills and Knowledge Test (ASK) in grades 3, 4, 5, 6, 7, and 8. Student performance showed areas of strength and areas of need for which we focused. We continue to work diligently to address the academic needs of our continually growing sub populations, as identified by the New Jersey Department of Education. This is challenging, but a charge we take very seriously.

Professional development activities were aligned to the District Professional Development Plan and the new Common Core Standards in math and language arts. All Kindergarten through grade eight math curriculum was revised as was the Kindergarten through 8th curriculum in all areas. The Professional Development committee continued professional learning communities, focusing on development of benchmark testing among other topics. We continue to schedule regular and meaningful articulation within and between districts. Our School uses School Fusion based "classrooms" to enhance school home communication. In addition we created an active Intervention and Referral Services Committee (I&RS). Our technology and school safety, NCLB, Emergency Management continue to meet to achieve our goals.

Hazardous Materials Handling, Anti Bullying, Emergency Management Procedures, and Crisis Prevention workshops continue to help teachers and other staff gain knowledge in these areas to be better prepared to handle situations in their classroom and in the school building.

In order to help students perform better on standardized tests, an analysis and interpretation of scores and training in areas of need on the elementary school and middle school proficiency assessments was conducted.

Technology integration and developing 21st century skill is a high priority as well as preparing for PARCC testing which will take place for the first time during the 2014-15 school year. This budget provided funds for necessary upgrades and development of a STEAM, Science, Technology, Engineering, Art, and Mathematics, program for all grades, which includes a TV broadcasting studio, and many new technological advances in the middle school.

The 2014-2015 budget also provided funds for District maintenances of building and grounds. With funds made available through the District's recent sale of \$5,500,000 of Bonds, in conjunction with \$1,731,377 in approved New Jersey School Development Authority Grants, the District plans major upgrades to the building's HVAC, roofing, exterior and interior doors with enhanced security features, lighting, and exterior improvements. This project has been part of the District's long term facilities plan developed by the Administration and the Board of Education to address building systems that were approaching useful life and to maintain a modern and well-functioning structure. The improvements began at the end of the 2014-15 school year and will continue over the summer of 2015 and be finalized in the 2015-16 school year.

4.) INTERNAL ACCOUNTING CONTROLS: Management of the District is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are protected from loss, theft or misuse, and to ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with Generally Accepted Accounting Principals (GAAP). The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

As a recipient of federal and state financial assistance, the District also is responsible for ensuring that an adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control structure is also subject to periodic evaluation by the District management. District management has developed a standard operating procedures and internal controls manual in accordance with N.J.A.C. 6A:23A-6, which was adopted by the Board of Education in December 2009, and will be re-adopted annually at the Board's Reorganization meeting.

5.) **BUDGETARY CONTROLS:** In addition to internal accounting controls, the District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the voters of the municipality. Annual appropriated budgets are adopted for the general fund and the special revenue fund. Project-length budgets are approved for the capital improvements accounted for in the capital projects fund. The final budget amount as amended for the fiscal year is reflected in the financial section.

An encumbrance accounting system is used to record outstanding purchase commitments on a line item basis. Open encumbrances at year-end are either canceled or are included as re-appropriations of fund balance in the subsequent year. Those amounts to be re-appropriated are reported as reservations to fund balance at June 30, 2015.

6.) **ACCOUNTING SYSTEM AND REPORTS:** The District's accounting records reflect generally accepted accounting principles, as promulgated by the Governmental Accounting Standards Board (GASB). The accounting system of the District is organized on the basis of funds and account groups. These funds and account groups are explained in "Notes to the Financial Statements," Note 1.

7.) **DEBT ADMINISTRATION:** At June 30, 2015, the District's outstanding debt issues included \$1,713,000 in Bonds; \$5,500,000 in temporary notes, and \$149,936 for the lease of Network and HVAC upgrades and equipment.

8.) **CASH MANAGEMENT:** The investment policy of the District is guided in large part by state statute as detailed in "Notes to the Financial Statements". The District has adopted a cash management plan which requires it to deposit public funds in Governmental Unit Deposit Protection Act ("GUDPA"). GUDPA was enacted in 1970 to protect Governmental Units from a loss of funds on deposit with a failed banking institution in New Jersey. The law requires governmental units to deposit public funds only in public depositories located in New Jersey, where the funds are secured in accordance with the Act.

9.) **RISK MANAGEMENT:** The Board carries various forms of insurance, including, but not limited to general liability, automobile liability and comprehensive/collision, hazard and theft on property and contents, and fidelity bonds.

10.) **OTHER INFORMATION:** Independent Audit – State statutes require an annual audit by independent certified public accountants or registered municipal accountants. The Accounting firm of Preziosi ~ Nicholson & Associates PA, CPAs, was selected by the Board of Education. In addition to meeting the requirements set forth in the state statutes, the audit is designed to meet the requirements of the Single Audit Act of 1996 and the related OMB Circular A-133 and New Jersey OMB Circular Letters 04-04 and 15-08. The auditor's report on the basic financial statements and combining and individual fund statements and schedules are included in the financial section of this report. The auditor's reports related specifically to the single audit are included in the single audit section of this report.

11.) **ACKNOWLEDGEMENTS:** We would like to express our appreciation to the members of the City of Northfield School Board for their concern in providing fiscal accountability to the citizens and taxpayers of the school district and thereby contributing their full support to the development and maintenance of our financial operation. The preparation of this report could not have been accomplished without the efficient and dedicated services of our financial and accounting staff.

INDEPENDENT AUDITORS' REPORT

Honorable President and
Members of the Board of Education
City of Northfield School District
County of Atlantic
Northfield, New Jersey

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities and each major fund and the aggregate remaining fund information of the City of Northfield Board School District in the County of Atlantic, State of New Jersey, as of and for the fiscal year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and in compliance with audit requirements as prescribed by the Division of Administration and Finance, Department of Education, State of New Jersey. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of the City of Northfield School District in the County of Atlantic, State of New Jersey as of June 30, 2015, and the respective changes in financial position and cash flows, where applicable, for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Northfield School District's basic financial statements. The accompanying combining statements and related major fund supporting statements and schedules and Schedule of Expenditures of Federal Awards and State Financial Assistance, as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and State of New Jersey OMB Circulars 04-04 and 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid* are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The accompanying combining statements and related major fund supporting statements and schedules and Schedules of Federal Awards and State Financial Assistance are the responsibility of management and were derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the accompanying combining statements and related major fund supporting statements and schedules and Schedule of Expenditures of Federal Awards and State Financial Assistance are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

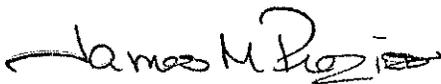

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued a report dated October 26, 2015 on our consideration of the City of Northfield School District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Northfield School District's internal control over financial reporting and compliance.

CITY OF NORTHFIELD SCHOOL DISTRICT

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2015

This section of the City of Northfield School District's (the District) annual financial report presents our discussion and analysis of the District's financial performance during the year ended June 30, 2015. Please read it in conjunction with the transmittal letter at the front of this report and the District's financial statements, which immediately follows this section.

FINANCIAL HIGHLIGHTS

Key financial highlights for 2015 are as follows:

Exhibit A-1

Net Position for Governmental and Business-Type activities were \$7,655,778 and \$107,964, respectively

Exhibit A-2

Net Position for both activities increased in total by \$1,485,397.

Exhibit B-1

The General Fund, fund balance as of June 30, 2015 was \$1,316,713 an increase of \$36,345 when compared with the beginning balance as of July 1, 2014 of \$1,280,368.

Exhibit I-1

The District's outstanding bond debt at June 30, 2015 is \$1,713,000

OVERVIEW OF THE FINANCIAL STATEMENTS

The financial section of the annual report consists of:

- Independent Auditors' Report
- Required Supplementary Information
- Basic Financial Statements
- Notes to the Financial Statements
- Other Supplementary Information

The basic financial statements include two kinds of statements that present different views of the District.

District-Wide Financial Statements

District-wide financial statements provide both short-term and long-term information about the District's overall financial status.

The district-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net assets includes all of the government's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two district-wide statements report net position and how they have changed. Net position, the difference between the District's assets and liabilities, is one way to measure the District's financial health or *position*. The district-wide financial statements include the *Governmental Activities*. Most of the District's basic services are included here, such as instruction, extracurricular activities, curriculum and staff development, health services and general administration. Property taxes and grants finance most of these activities.

CITY OF NORTHFIELD SCHOOL DISTRICT

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2015

Fund Financial Statements

Fund financial statements focus on the individual parts of the District, reporting operations in more detail than the district-wide financial statements.

The governmental funds statements tell how basic services such as regular and special education were financed in short-term as well as what remains for future spending.

Proprietary funds statements offer short-term and long-term financial information about the activities that the District operates like businesses.

Fiduciary funds statements provide information about the financial relationship in which the District acts solely as a trustee or agent for the benefit of others to whom the resources belong.

The fund financial statements provide more detailed information about the District's most significant funds. The District has three kinds of funds:

- *Governmental Funds* - Most of the District's basic services are included in governmental funds, which focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed short-term view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the district-wide statements, we provide additional information at the bottom of the governmental funds statement, or on the subsequent page, that explain the relationship (or differences) between them.
- *Proprietary Funds* - Services for which the District charges customers a fee are generally reported in proprietary funds. Proprietary funds, like the government-wide statements, provide both long-term and short-term financial information.
- *Fiduciary Funds* - The District is the trustee, or *fiduciary*, for certain funds. It is also responsible for other assets that - because of a trust arrangement - can be used only for the trust beneficiaries. The District is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the District's fiduciary activities are reported in a separate statement of fiduciary net assets and a statement of changes in fiduciary net assets. We exclude these activities from the district-wide financial statements because the District cannot use these assets to finance its operations.

DISTRICT-WIDE FINANCIAL ANALYSIS

Net Position

The Statement of Net Position reports all financial and capital resources. The statement presents the assets and liabilities in order of relative liquidity. The liabilities with average maturities greater than one year are reported in two components – the amount due within one year and the amount due in more than one year. The difference between the District's assets and liabilities is its net position.

GENERAL FUND BUDGETARY HIGHLIGHTS

The District's budget is prepared according to New Jersey law, and is based on accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the General Fund.

Over the course of the year, the District revised the annual operating budget several times. Revisions in the budget were made to recognize revenues that were not anticipated and to prevent over-expenditures in specific line item accounts.

Total Net Change in Fund Balances - Governmental Funds	(B-2)	\$ (1,734,613.67)
--	-------	-------------------

Amounts reported for Governmental Activities in the Statement of Activities are different because:

Capital outlays are reported in governmental funds as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current fiscal year.

Depreciation Expense		(504,855.00)
Capital Outlays		2,349,359.40
Disposal of Equipment		-
Non-Capital Assets		-

Repayment of long term debt is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Assets and is not reported in the Statement of Activities.

Repayments of Bond Principle		1,415,000.00
Repayments of Capital Leases		48,671.40

Proceeds from debt issues are a financing source in governmental funds. They are not revenue in the statement of activities; issuing debt increases long-term liabilities in the statement of net assets

Bond Proceeds		
Capital Lease Proceeds		

Pension contributions are reported in governmental funds as expenditures. However in the Statement of Activities, the contributions are adjusted for actuarial valuation adjustments, including service and interest costs, administrative costs, investment returns, and experience/assumptions. This is the amount by which net pension liability and deferred inflows/outflows related to pensions changed during the period.

(54,046.00)

In the Statement of Activities, certain operating expenses, e.g., compensated absences are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are reported in the amount of financial resources used (paid).

(Increase) Decrease in Accrued Compensated Absences		12,691.38

NOTES TO FINANCIAL STATEMENTS

CITY OF NORTHFIELD SCHOOL DISTRICT

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Introduction

The City of Northfield School District is an instrumentality of the State of New Jersey, established to function as an educational institution. The Board consists of elected officials who are responsible for the fiscal control of the District. A Superintendent is appointed by the Board and is responsible for the administrative controls of the District.

The financial statements of the Board of Education (Board) of the City of Northfield School District (District) have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. In its accounting and financial reporting, the District follows the pronouncements of the Governmental Accounting Standards Board (GASB). The more significant accounting policies established in (GAAP) and used by the District are discussed below.

Description of the Reporting Entity

The City of Northfield School District is a Type II district located in the County of Atlantic, State of New Jersey. As a Type II district, the School District functions independently through a Board of Education. The Board is comprised of nine members elected to three year terms. The purpose of the District is to educate students in grades K-8. Students in grades 9-12 attend Mainland Regional High School.

The primary criterion for including activities within the School District's reporting entity, as set forth in Section 2100 of the GASB Codification of Governmental Accounting and Financial Reporting Standards, is whether:

- The organization is legally separate (can sue or be sued in their own name)
- The District holds corporate powers of the organization
- The District appoints a voting majority of the organization's Board
- The District is able to impose its will on the organization
- The organization has the potential to impose a financial benefit/burden on the District
- There is a fiscal dependency by the organization on the District

Based on the aforementioned criteria, the District has no component units.

Government-Wide and Fund Financial Statements

The District's basic financial statements consist of government-wide statements, and fund financial statements which provide a more detailed level of financial information.

The government-wide financial statements report information on all of the nonfiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on charges for support.

CITY OF NORTHFIELD SCHOOL DISTRICT

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are specifically associated with a service, program, or department and, therefore, clearly identifiable to a particular function. It is the policy of the District to not allocate indirect expenses to functions in the statement of activities. Program revenues include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Property taxes and other items not properly included among program revenues are reported instead as general revenues.

In regards to the fund financial statements, the District segregates transactions related to certain functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. Fund financial statements report detailed information about the District. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a single column. Fiduciary funds are reported by fund type.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Measurement Focus, Basis of Accounting and Financial Statement Presentation

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recorded when they are deemed both available and measurable. Available means when revenues are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the School District considers revenues to be available if they are collected within sixty (60) days of the end of the current fiscal year. Measurable means that the amount of revenue can be determined. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, tuition, reimbursable-type grants, and interest associated with the current fiscal year are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal year. All other revenue items are considered to be measurable and available only when cash is received by the District.

The District reports the following major governmental funds:

General Fund - The General Fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund. Included are certain expenditures for vehicles and movable instructional or noninstructional equipment which are classified in the Capital Outlay subfund.

As required by the New Jersey State Department of Education, the District includes budgeted Capital Outlay in this fund. Generally accepted accounting principles as they pertain to governmental entities state that General Fund resources may be used to directly finance capital outlays for long-lived improvements as long as the resources in such cases are derived exclusively from unrestricted revenues.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Measurement Focus, Basis of Accounting and Financial Statement Presentation

General Fund (Continued)

Resources for budgeted capital outlay purposes are normally derived from State of New Jersey Aid, district taxes and appropriated fund balance. Expenditures are those that result in the acquisition of or additions to fixed assets for land, existing buildings, improvements of grounds, construction of buildings, additions to or remodeling of buildings and the purchase of built-in equipment.

Special Revenue Fund - The Special Revenue Fund is used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes other than debt service or capital projects.

Capital Projects Fund - The Capital Projects Fund is used to account for and report financial resources that are restricted, committed, or assigned expenditures for capital outlays, including acquisition or construction of capital facilities and other capital assets. The financial resources are derived from temporary notes or serial bonds that are specifically authorized by the voters as a separate question on the ballot either during the annual election or at a special election.

Debt Service Fund - The Debt Service Fund is used to account for and report financial resources that are restricted, committed, or assigned to expenditures for principal and interest.

Proprietary funds are used to account for the District's ongoing organizations and activities, which are operated and financed in a manner similar to those found in the private sector. The measurement focus is upon the determination of net income. Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. All items not meeting this definition are reported as nonoperating revenues and expenses.

The District reports the following major proprietary funds:

Food Service Fund – This fund accounts for the financial transactions related to the food service operations of the District.

After School Care – This fund accounts for the financial transactions related to the District's after school program.

Fiduciary funds are used to account for assets held by the District on behalf of outside related organizations or on behalf of other funds within the District. The fiduciary fund category is split into four classifications; pension trust funds, investment trust funds, private-purpose trust funds, and agency funds. The District maintains the following fiduciary funds:

Agency Funds – Agency funds are used to account for assets held by the District in a trustee capacity or as an agent for individuals, private organizations, other governments, and/or other funds. The District retains no equity interest in these funds. Agency funds are custodial in nature and do not involve measurement of results of operations. The District maintains a payroll fund and student activity fund.

NOTE 1

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Budgets and Budgetary Control

Annual appropriated budgets are prepared in the spring of each year for the General, Special Revenue, and Debt Service Funds. The budgets are submitted to the county office for approval. In accordance with P.L. 2011, c. 202, the District passed a resolution to move the school board election to the first Tuesday after the first Monday in November, starting in November 2012, to be held simultaneously with the general election. As a result, a vote is not required on the District's general fund tax levy for the budget year, other than the general fund tax levy required to support a proposal for additional funds, if any. Budgets are prepared using the modified accrual basis of accounting, except for the special revenue fund as described later. The legal level of budgetary control is established at line item accounts within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in N.J.A.C.6A:23A-16.2(f)1. Transfers of appropriations may be made by school board resolution at any time during the fiscal year in accordance with N.J.A.C.6A:23A-13.3.

Formal budgetary integration into the accounting system is employed as a management control device during the fiscal year. For governmental funds there are no substantial differences between the budgetary basis of accounting and accounting principles generally accepted in the United States of America with the exception of the legally mandated revenue recognition of the one or more June state aid payments for budgetary purposes only and the special revenue fund as noted below. Unencumbered appropriations lapse at fiscal year end.

The accounting records of the Special Revenue Fund are maintained on the budgetary basis. The budgetary basis differs from GAAP in that the budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenue, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial reports. Exhibit C-3 presents a reconciliation of the general fund revenues and special revenue fund revenues and expenditures from the budgetary basis of accounting as presented in the general fund budgetary comparison schedule and the special revenue fund budgetary comparison schedule to the GAAP basis of accounting as presented in the statement of revenues, expenditures and changes in fund balances – governmental funds. Note that the District does not report encumbrances outstanding at fiscal year end as expenditures in the general fund since the general fund budget follows modified accrual basis, with the exception of the revenue recognition policy for the last state aid payment.

Encumbrances

Under encumbrance accounting purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve a portion of the applicable appropriation. Open encumbrances in governmental funds, other than the special revenue fund, are reported as reservations of fund balances at fiscal year end as they do not constitute expenditures or liabilities but rather commitments related to unperformed contracts for goods and services.

Open encumbrances in the special revenue fund, for which the District has received advances, are reflected in the balance sheet as deferred revenues at fiscal year end.

The encumbered appropriation authority carries over into the next fiscal year. An entry will be made at the beginning of the next fiscal year to increase the appropriation reflected in the certified budget by the outstanding encumbrance amount as of the current fiscal year end.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Cash, Cash Equivalents and Investments

Cash and cash equivalents, for all funds, include petty cash, change funds, cash in banks and all highly liquid investments with a maturity of three months or less at the time of purchase and are stated at cost plus accrued interest. U.S. treasury and agency obligations and certificates of deposit with maturities of one year or less when purchased are stated at cost. All other investments are stated at fair value.

New Jersey school districts are limited as to the types of investments and types of financial institutions they may invest in. N.J.S.A. 18A:20-37 provides a list of permissible investments that may be purchased by New Jersey school districts.

N.J.S.A. 17:9-41 et seq. establishes the requirements for the security of deposits of units. The statute requires that no governmental unit shall deposit public funds in a public depository unless such funds are secured in accordance with the Governmental Unit Deposit Protection Act ("GUDPA"), a multiple financial institutional collateral pool, which was enacted in 1970 to protect governmental units from a loss of funds on deposit with a failed banking institution in New Jersey. Public depositories include State or federally chartered banks, savings banks or associations located in or having a branch office in the State of New Jersey, the deposits of which are federally insured. All public depositories must pledge collateral, having a market value at least equal to five percent of the average daily balance of collected public funds, to secure the deposits of governmental units. If a public depository fails, the collateral it has pledged, plus the collateral of all other public depositories, is available to pay the amount of their deposits to the governmental units.

Inventories

Inventory purchases, other than those recorded in the enterprise fund, are recorded as expenditures during the year of purchase. Enterprise fund inventories are valued at cost, which approximates market, using the first-in/first-out (FIFO) method.

Prepaid Expenses

Prepaid expenses recorded on the government-wide financial statements and in the proprietary fund types represent payments made to vendors for services that will benefit periods beyond June 30, 2015.

Bond Issue Cost

Bond issue cost is recorded as a deferred outflow of resources. It is amortized in a systematic and rational manner over the duration of the related debt.

Short-Term Interfund Receivables / Payables

Short-term interfund receivables / payables represent amounts that are owed, other than charges for goods or services rendered to / from a particular fund in the District and that are due within one year. These amounts are eliminated in the governmental and business-type columns of the statement of net assets, except for the net residual amounts due between governmental and business-type activities, which are presented as interfunds receivable and / or interfunds payable.

CITY OF NORTHFIELD SCHOOL DISTRICT
Notes to Financial Statements
June 30, 2015

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Capital Assets

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net assets but are not reported in the fund financial statements. Capital assets utilized by the proprietary funds are reported both in the business-type activities column of the government-wide statement of net assets and the proprietary fund statement of net assets.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the fiscal year. Donated fixed assets are recorded at their fair market value as of the date received. The District maintains a capitalization threshold of \$2,000.00. The District does not possess any infrastructure. Improvements are capitalized; the cost of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not. All reported capital assets except land and construction in progress are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets.

Depreciation is computed using the straight-line method under the full month convention over the following estimated useful lives:

<u>Asset Class</u>	<u>Estimated Useful Lives</u>
Land Improvements	10-20 Years
Building and Improvements	10-50 Years
Furniture and Equipment	5-20 Years
Vehicles	5-10 Years

Compensated Absences

Compensated absences are those absences for which employees will be paid, such as vacation, sick leave, and sabbatical leave. A liability for compensated absences that are attributable to services already rendered, and that are not contingent on a specific event that is outside the control of the District and its employees is accrued as the employees earn the rights to the benefits. Compensated absences that relate to future services, or that are contingent on a specific event that is outside the control of the District and its employees, are accounted for in the period in which such services are rendered or in which such events take place.

The entire compensate absence liability is reported on the government-wide financial statements. For governmental funds, the current portion of unpaid compensated absences is the amount that is normally expected to be paid with expendable available financial resources. In proprietary funds, the entire amount of compensated absences is recorded as a fund liability.

Unearned Revenue

Unearned revenue arises when assets are recognized before revenue recognition criteria have been satisfied and is recorded as a liability until the revenue is both measurable and the District is eligible to realize the revenue.

CITY OF NORTHFIELD SCHOOL DISTRICT
Notes to Financial Statements

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities, and long-term obligations are reported in the government-wide financial statements, and all payables, accrued liabilities, and long-term obligations payable from proprietary funds are reported on the proprietary funds financial statements. In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. However, claims and judgments, compensated absences, special termination benefits, and contractually required pension contributions that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are normally expected to be paid with expendable available financial resources. Bonds are recognized as a liability on the financial statements when due.

Net Position

Net position represents the difference between the summation of assets and deferred outflows of resources and the summation of liabilities and deferred inflows of resources. Net position is classified into the following three components:

Net Investment in Capital Assets – This component represents capital assets, net of accumulated depreciation, net of outstanding balances of borrowings used for the acquisition, construction, or improvement of those assets.

Restricted – Net position is reported as restricted when there are limitations imposed on their use either through enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

Unrestricted - Net position is reported as unrestricted when it does not meet the criteria of the other two components of net position.

The District applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

Fund Balance

The District reports fund balance in classifications that comprise a hierarchy based primarily on the extent to which the District is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. The District's classifications, and policies for determining such classifications, are as follows:

Nonspendable – The nonspendable fund balance classification includes amounts that cannot be spent because they are either not in a spendable form or are legally or contractually required to be maintained intact. The "not spendable form" criterion includes items that are not expected to be converted to cash, such as inventories and prepaid amounts.

CITY OF NORTHFIELD SCHOOL DISTRICT
Notes to Financial Statements
June 30, 2015

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Fund Balance

Restricted – The restricted fund balance classification includes amounts that are restricted to specific purposes. Such restrictions, or constraints, are placed on the use of resources either by being (1) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; or (2) imposed by law through constitutional provisions or enabling legislation.

Committed – The committed fund balance classification includes amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the District's highest level of decision-making authority, which, for the District, is the Board of Education. Such formal action consists of an affirmative vote by the Board of Education, memorialized by the adoption of a resolution. Once committed, amounts cannot be used for any other purpose unless the Board of Education removes, or changes, the specified use by taking the same type of action (resolution) it employed to previously commit those amounts.

Assigned – The assigned fund balance classification includes amounts that are constrained by the District's intent to be used for specific purposes, but are neither restricted nor committed. Intent is expressed by either the Board of Education or by the business administrator, to which the Board of Education has delegated the authority to assign amounts to be used for specific purposes. Such authority of the business administrator is established by way of a formal job description for the position, approved by the Board of Education.

Unassigned – The unassigned fund balance classification is the residual classification for the general fund. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the general fund. The general fund is the only fund that reports a positive unassigned fund balance amount. In other government funds, if expenditures incurred for specific purposes exceed the amounts restricted, committed, or assigned to those purposes, it may be necessary to report a negative unassigned fund balance.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balances are available, it is the policy of the District to spend restricted fund balances first. Moreover, when an expenditure is incurred for purposes for which amounts in any of the unrestricted fund balance classifications can be used, it is the policy of the District to spend fund balances, if appropriated, in the following order: committed, assigned, and then unassigned.

Interfund Activity

Transfers between governmental and business-type activities on the government-wide statements are reported in the same manner as general revenues. Exchanged transactions between funds are reported as revenues in the seller funds and as expenditure / expense in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources / uses in governmental funds and after non-operating revenues / expenses in proprietary funds. Reimbursements from funds responsible for particular expenditures / expenses to the funds that initially paid for them are not presented on the financial statements.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates

Recent Accounting Pronouncements

In February 2015, the Governmental Accounting Standards Board (GASB) issued Statement No. 72 "Fair Value Measurement and Application". This statement is effective for fiscal periods beginning after June 15, 2015, will not have any effect on the District's financial reporting.

In June 2015, the Governmental Accounting Standards Board (GASB) issued Statement No. 73 "Accounting and Financial Reporting for Pensions and Related Assets that are not Within the Scope of GASB Statement 68 and Amendments to Certain Provisions of GASB Statements 67 and 68". This statement is effective for fiscal periods beginning after June 30, 2016, will not have any effect on the District's financial reporting.

In June 2015, the Governmental Accounting Standards Board (GASB) issued Statement No. 74 "Financial Reporting for Post-employment Benefit Plans Other than Pension Plans". This statement is effective for fiscal periods beginning after June 30, 2016, will not have any effect on the District's financial reporting.

In June 2015, the Governmental Accounting Standards Board (GASB) issued Statement No. 75 "Accounting and Financial Reporting for Post-employment Benefit Plans Other than Pensions ". This statement is effective for fiscal periods beginning after June 30, 2017. Although not determinable, the impact of this statement on the net position of the entity is anticipated to be significant.

In June 2015, the Governmental Accounting Standards Board (GASB) issued Statement No. 76 "The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments". This statement is effective for fiscal periods beginning after June 30, 2015, will not have any effect on the District's financial reporting.

NOTE 2 CASH AND CASH EQUIVALENTS AND INVESTMENTS

Custodial Credit Risk Related to Deposits

Custodial credit risk is the risk that, in the event of a bank failure, the Districts' deposits might not be recovered. Although the District does not have a formal policy regarding custodial credit risk, N.J.S.A. 17:9-41 et seq. requires that governmental units shall deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act. Under the Act, the first \$250,000 of governmental deposits in each insured depository is protected by the Federal Deposit Insurance Corporation (FDIC). Public funds owned by the District in excess of FDIC insured amounts are protected by GUDPA. However, GUDPA does not protect intermingled trust funds such as salary withholdings, athletic and student activity funds, or funds that may pass to the District relative to the happening of a future condition. Such funds are considered uninsured and uncollateralized.

Uninsured but collateralized with bank – GUDPA	5,247,297.60
	\$ 5,497,297.60

NOTE 3 RESERVE ACCOUNT

Capital Reserve

A capital reserve account was established by the District for the accumulation of funds for use as capital outlay expenditures in subsequent fiscal years. The capital reserve account is maintained in the general fund and its activity is included in the general fund annual budget.

Funds placed in the capital reserve account are restricted to capital projects in the District's approved Long Range Facilities Plan (LRFP). Upon submission of the LRFP to the department, a district may increase the balance in the capital reserve by appropriating funds in the annual general fund budget certified for taxes. A district may also appropriate additional amounts when the express approval of the voters has been obtained either by separate proposal at budget time or by a special question at one of the four special elections authorized pursuant to N.J.S.A. 19:60-2. Pursuant to N.J.A.C. 6:23 A-5.1(d) 7, the balance in the account cannot at any time exceed the support costs of uncompleted capital projects in its approved LRFP.

Maintenance Reserve

Maintenance reserve accounts may be established by New Jersey school districts for the accumulation of funds for the use of required maintenance of a facility. The maintenance reserve account is maintained in the general fund and its activity is included in the general fund annual budget.

The activity of the reserve accounts for the year is as follows:

NOTE 7 PENSION PLANS

Description of Plans

All required employees of the District are covered by either the Public Employees' Retirement System or the Teachers' Pension and Annuity Fund which have been established by state statute and are administered by New Jersey Division of Pension and Benefits (Division). According to the State of New Jersey Administrative Code, all obligations of both Systems will be assumed by the State of New Jersey should the Systems terminate. The Division issues a publically available financial report that includes the financial statements and required supplementary information for Public Employees Retirement System and Teachers; Pension and Annuity Fund. These reports may be obtained by writing to the Division of Pension and Benefits, PO Box 295, Trenton, New Jersey, 08625 or on the internet at <http://www.state.nj.us/treasury/pensions/annrpts.shtml>.

Teacher's Pension and Annuity Fund (TPAF)

The Teachers' Pension and Annuity Fund (TPAF) was established as of January 1, 1955, under the provisions of N.J.S.A. 18A:66 to provide retirement, death, and disability, and medical benefits to certain qualified members. The TPAF is considered a cost-sharing multiple-employer plan with a special funding situation, as under current statute, 100% of employer contributions are made by the State of New Jersey on behalf of the District and the system's other related non-contributing employers. Membership is mandatory for substantially all teachers or members of the professional staff certified by the State Board of Examiners and employees at the Department of Education who have titles that are unclassified, professional and certified.

Summary of Significant Accounting Policies – For purposes of measuring the net pension liability, deferred outflows and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the TPAF and additions to/deductions from TPAF's fiduciary net position have been determined on the same basis as they are reported by TPAF. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions - The employer contributions for the district are legally required to be funded by the State in accordance with N.J.S.A. 18:66-33. Therefore, the District employer) is considered to be in a special funding situation as defined by GASB Statement No. 68 and the State is treated as a nonemployed contributing entity. Since the District (employer) does not contribute directly to the plan (except for employer specific financed amounts), there is no net pension liability or deferred outflows or inflows to report in the financial statements of the District. However, the State's portion of the net pension liability that was associated with the District was \$34,084,659 as measured on June 30, 2014 and \$31,883,506 as measured on June 30, 2013.

NOTE 7 PENSION PLANS

Teacher's Pension and Annuity Fund (TPAF) (Continued)

For the year ended June 30, 2015, the District recognized pension expense of \$1,834,075 and revenue of \$1,834,075 for support provided by the State. The measurement period for the pension expense and revenue reported in the District's financial statements (A-2) at June 30, 2015 is based upon changes in the collective net pension liability with a measurement period of June 30, 2013 through June 30, 2014. Accordingly, the pension expense and the related revenue associated with the support provided by the State is based upon changes in the collective net pension liability between July 1, 2013 and June 30, 2014.

Although the District does not report net pension liability or deferred outflows or inflows to the TPAF, the following schedule illustrates the collective net pension liability and deferred items and the State's portion of the net pension liability associated with the District. The collective amounts are the total of all New Jersey local governments participating in the TPAF plan.

Actuarial Assumptions – The total pension liability for the June 30, 2014 measurement date was determined by an actuarial valuation as of July 1, 2013, which was rolled forward to June 30, 2014. The total pension liability for the June 30, 2013 measurement date was determined by an actuarial valuation as of July 1, 2013. The actuarial valuation used the following assumptions, applied to all periods in the measurement:

Inflation:	2.5%
Salary Increases 2012 – 2021:	Varies based on Experience
Investment Rate of Return:	7.90%

NOTE 7 PENSION PLANS

Teacher's Pension and Annuity Fund (TPAF) (Continued)

Mortality rates were based on the RP-2000 Health Mortality Table for Males or Females, as appropriate, with adjustments for mortality improvements based on Scale AA. Pre-retirement improvements for active members are projected using Scale AA from the base year of 2000 until the valuation date plus 15 years to account for future mortality improvement. Post-retirement mortality improvements for non-disabled annuitants are projected using Scale AA from the base year of 2000 for males and 2003 for females until the valuation date plus 7 years to account for future mortality improvement.

The actuarial assumptions used in the July 1, 2013 valuation were based on the results of an actuarial experience study for the period July 1, 2009 to June 30, 2012.

Long-Term Expected Rate of Return – In accordance with State statute, the long-term expected rate of return on plan investments is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pension and Benefits, the Board of Trustees and the actuaries. Best estimates of arithmetic real rates of return for each major asset class included in TPAF's target asset allocation as of June 30, 2014 are summarized in the following table:

Discount Rate – The discount rate used to measure the State's total pension liability was 4.68% and 4.95% as of June 30, 2014 and 2013, respectively. This single blended discount rate was based on the long-term expected rate of return on pension plans investments of 7.9% and a municipal bond rate of 4.29% and 4.63% as of June 30, 2014 and 2013, respectively, based on the Bond Buyer Go 20-Bond Municipal Bond Index which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at current member contribution rates and that contributions from employers (State of New Jersey) will be made based on an average of the last five years. Based on those assumption, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2027. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2027, and the municipal bond rate was applied to projected benefit pay.

Sensitivity of the District's proportionate share of net pension liability to change in the discount rate – Since the District has no proportionate share in the net person liability of the special funding situation, the District would not be sensitive to any changes in the discount rate. Detailed information about the pension plan's sensitivity of the collective net pension liability to changes in the discount rate is available in the separately issued State of New Jersey Division of Pensions and Benefits financial report at <http://www.nj.gov/treasury/pesion/pdf/financial/gasb68-tpaf15.pdf>.

Pension plan fiduciary net position – Detailed information about the plan's fiduciary net position is available in the separately issued State of New Jersey Divisions of Pensions and Benefits financial report at <http://www.nj.gov/treasury/pensions/financial-rpts-home.shtml>.

Public Employees' Retirement System (PERS)

The Public Employees' Retirement System (PERS) was established as of January 1, 1955 under provisions of N.J.S.A. 43:15A to provide retirement, death, disability and medical benefits to certain qualified members. The PERS is a cost-sharing multiple-employer plan. Membership is mandatory for substantially all full-time employees of the State of New Jersey or any county, municipality, school district, or public agency, provided the employee is not required to be a member of another state administered retirement system or other state or local jurisdiction.

Summary of Significant Accounting Policies – For Purposes of measuring net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the PERS and additions to/deductions from PERS fiduciary net position have been determined on the same basis as they are reported by PERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pension - At June 30, 2015, the District reported a liability of \$3,059,985 for its proportionate share of net pension liability. The net pension liability was measured as of June 30, 2014, and the total pension liability to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2013, which rolled forward to June 30, 2014. The total pension liability for June 30, 2013 measurement date was determined by an actuarial valuation as of July 1, 2013. The District's proportion of the net pension liability is based on the ratio of the contributions as an individual employer to total contributions to the PERS during the years ended June 30, 2014 and 2013. At June 30, 2014, the District's proportion was 0.01634% which was an increase of .00106% from its proportion measured as of June 30, 2013.

For the year ended June 30, 2015, the District recognized pension expense of \$188,781. At June 30, 2015, the District reported deferred outflows of resources and deferred inflows of resources related to PERS from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources

The actuarial assumptions used in the July 1, 2013 valuation were based on the results of an actuarial experience study for the period July 1, 2008 to June 30, 2011.

Long Term Expected Rate of Return – In accordance with State statute, the long-term expected rate of return on plan investments is determined by the State Treasurer, after consultation with the Directors of the Division of investments and Division of pensions and Benefits, the board of trustees and the actuaries. Best estimates of arithmetic real rates of return for each major asset class included in PERS's target asset allocations as of June 30, 2014 are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Rate of Return</u>
Cash	6.00%	0.80%

Commodities	2.50%	5.35%

Discount Rate – The discount rate used to measure the total pension liability was 5.39% and 5.55% as of June 30, 2014 and 2013, respectively. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.9% and a municipal bond rate of 4.29% and 4.63% as of June 30, 2014 and 2013, respectively, based on the Bond Buyer Go 20-Bond Municipal Bond Index which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made based on the average of the last five years of contributions made in relation to the five years of recommended contributions.

Based on those assumptions, the plan's fiduciary net position was projected to be available to make future benefit payments of current plan members through 2033. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2033, and the municipal bond rate was applied to projected benefit payments after that due date in determining the total pension liability.

The DCRP provides eligible members, and their beneficiaries with tax-sheltered, defined contribution retirement benefits, along with life insurance and disability coverage. Vesting and benefit provisions are established by N.J.S.A. 43:15C-1 et seq.

The contribution requirements of plan members are determined by state statute. In accordance with Chapter 92, P.L. 2007 and Chapter 103, P.L. 2007, plan members are required to contribute 5.5% of their annual covered salary. The State Treasurer has the right under current law to make temporary reductions in member rates based on the existence of surplus plan assets in the retirement system; however statute also requires the return to normal rate when such surplus pension assets no longer exist.

PERS and TPAF Vesting and Benefit Provisions

The vesting and benefits provisions for PERS are set by N.J.S.A. 43:15A and 43.3B, and N.J.S.A. 18A:6C for TPAF. All benefits vest after eight to ten years of service, except for medical benefits that vest after 25 years of service. Retirement benefits for age and service are available at age 60 and are generally determined to be 1/60 of the final average salary for each year of service credit, as defined. Final average salary equals the average salary for the final three years of service prior to retirement (or highest three years' compensation if other than the final three years). Members may seek early retirement after achieving 25 years of service credit or they may elect deferred retirement after achieving eight to ten years of service in which case benefits would begin the first day of the month after the member attains normal retirement age.

NOTE 7 PENSION PLANS

PERS and TPAF Vesting and Benefit Provisions (Continued)

The TPAF and PERS provides for specified medical benefits for members who retire after achieving 25 years of qualified service, as defined, or under the disability provisions of the System. Members are always vested for their own contributions and, after three years of service credit, become vested for 2% of related interest earned on the contributions. In the case of death before retirement, members' beneficiaries are entitled to full interest credited to the members' accounts.

Contribution Requirements

The contribution policy is set by N.J.S.A. 43:15A, Chapter 62, P.L. of 1994, Chapter 115, P.L. of 1997 (PERS) and N.J.S.A. 18:66 (TPAF) requires contributions by active members and contributing employees. Plan member and employer contributions may be amended by State of New Jersey legislation. TPAF and PERS provide for employee contributions of 6.78% of employees' annual compensation, as defined. Employers are required to contribute at an actuarially determined rate in both TPAF and PERS. The current TPAF rate is 6.78% and the PERS rate is 6.78% of covered payroll.

During the fiscal year ended June 30, 2015, the State of New Jersey did contribute \$317,721 to the TPAF for pension and post-retirement benefits on behalf of the District. Also, in accordance with N.J.S.A. 18A:66-66 the State of New Jersey reimbursed the District \$197,757.97, during the year ended June 30, 2015, for the employer's share of social security contributions for TPAF members, as calculated on their base salaries. The PERS amounts have been included in the fund based statements as pension expense and the TPAF on-behalf amounts have been included in fund based statements as revenues and expenses. The PERS and TPAF amounts have been modified and included in the District-wide financial statements in accordance with GASB No. 68.

NOTE 8 POST-RETIREMENT BENEFITS

P.L. 1987, c. 384 and P.L. 1990,c.6 required Teachers' Pension and Annuity Fund (TPAF) and the Public Employees' Retirement System (PERS), respectively, to fund post-retirement medical benefits for those State employees who retire after accumulating 25 years of credited service or on a disability retirement. P.L. 2007, c.103 amended the law to eliminate the funding of post-retirement medical benefits through TPAF and PERS. It created separate funds outside of the pension plans for the funding and payment of post-retirement medical benefits for retired State employees and retired educational employees. As of June 30, 2014, there were 103,432 retirees receiving post-retirement medical benefits, and the State contributed \$1.04 billion on their behalf. The cost of these benefits is funded through contributions by the State in accordance with P.L. 1994 c.62. Funding of post-retirement medical premiums changed from a prefunding basis to a pay-as-you-go basis beginning in fiscal year 1994.

The State is also responsible for the cost attributable to P.L. 1992 c. 126, which provides free health to members of PERS, and the Alternate Benefit Program who retired from a board of education or county college with 25 years of service. The State paid \$165.8 million toward Chapter 126 benefits for 18,122 eligible retired members in fiscal year 2014.

NOTE 9 ON-BEHALF PAYMENTS

For the fiscal year ended June 30, 2015, the School Board has recognized as revenues and expenditures on-behalf payments made by the State for normal costs and post-retirement costs related to TPAF. The amounts recognized as revenues and expenditures for normal costs and post-retirement costs were \$339,150.00 and \$538,399.00, respectively.

NOTE 10 DEFERRED COMPENSATION

The Board offers its employees a choice of various deferred compensation plans created in accordance with Internal Revenue Code Section 403(b). The plans, which are administered by the financial investment institutions, permits participants to defer a portion of their salary until future years. Amounts deferred under the plans are not available to employees until termination, retirement, death or unforeseeable emergency.

NOTE 11 RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

Property and Liability Insurance

The District maintains commercial insurance coverage for property, liability, student accident and surety bonds. A complete schedule of insurance coverage can be found in the Statistical Section of this Comprehensive Annual Financial Report.

New Jersey Unemployment Compensation Insurance

The District has elected to fund its New Jersey Unemployment Compensation Insurance under the "Contributory Method".

NOTE 12 INTERFUND RECEIVABLES AND PAYABLES

The following interfund balances remained on the balance sheet at June 30, 2015:

<u>Fund</u>	<u>Interfund Receivable</u>	<u>Interfund Payable</u>
General Fund	\$.	\$ 12,993.64
Special Revenue Fund		5,396.43
Enterprise Fund	<u>18,390.07</u>	
Total	<u>\$ 18,390.07</u>	<u>\$ 18,390.07</u>

The interfund receivables and payables above predominately resulted from payments made by certain funds on behalf of other funds. During the fiscal year 2016, the District expects to liquidate such interfunds.

NOTE 13 INVENTORY

Inventory in the Food Service Fund at June 30, 2015 consisted of the following:

Food	\$ 6,573.28
Supplies	<u>1,008.11</u>
	<u>\$ 7,581.39</u>

The value of Federal donated commodities as reflected on Schedule A is the difference between market value and cost of the commodities at the date of purchase and has been included as an item of nonoperating revenue in the financial statements.

NOTE 14 DEFERRED BOND ISSUE COSTS

The costs associated with the issues of various bonds are expensed in the governmental funds in the year the bonds are issued, but are capitalized in the Statement of Assets. The bond issuance costs are \$415,000 and accumulated amortization is \$415,000.

NOTE 15 DEFICIT UNRESTRICTED NET POSITION

The governmental activities has a deficit in unrestricted net assets of \$3,333,650.18. This deficit is attributable to the allocation of compensated absences balances payable, accrued interest payable, deferred inlows and outflows of pension expense and net pension liability.

NOTE 16 EXCESS SURPLUS

In accordance with N.J.S.A. 18A:7F-7, the designation for Restricted Fund Balance - Excess Surplus is a required calculation pursuant to the New Jersey Comprehensive Educational Improvement and Financing Act of 1996 (CEIFA). New Jersey school districts are required to reserve General Fund balance at the fiscal year end of June 30 if they did not appropriate a required minimum amount as budgeted fund balance in their subsequent years' budget.

NOTE 17 FUND BALANCES

Restricted

As stated in Note 1, the restricted fund balance classification includes amounts that are restricted to specific purposes, such restrictions, or constraints, are placed on the use of resources by either of the following: (1) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; or (2) imposed by law through constitutional provisions or enabling legislation. Specific restrictions of the District's fund balance are summarized as follows:

General Fund

For Excess Surplus - Excess Surplus is a required calculation pursuant to N.J.S.A. 18A:7F-7 as amended. New Jersey school districts are required to reserve General Fund balance at the fiscal year end of June 30 if they did not appropriate a required minimum amount as budgeted fund balance in their subsequent years' budget. The excess fund balance at June 30, 2015 is \$961,544.89.

For Capital and Maintenance Reserve - As of June 30, 2015, the balance in the capital reserve and maintenance reserve accounts were \$352,497.00. These funds are restricted for future expenditures.

Debt Service Fund - The Debt Service Fund restricted fund balance of \$2.79, as of June 30, 2015, has been designated for future utilization.

Capital Projects Fund - The District has an accumulated deficit of \$1,745,104.09 in the Capital Projects Fund as of June 30, 2015. This deficit is the result of the District utilizing temporary financing to fund expenditures for certain projects. As the District permanently finances these appropriations the District will realize as revenues the proceeds of the financing. This deficit does not indicate that the District is facing financial difficulties and is a permitted practice under generally accepted accounting principles.

Assigned

As stated in Note 1, the assigned fund balance classification includes amounts that are constrained by the District's intent to be used for specific purposes, but are neither restricted nor committed. Specific assignments of the District's fund balance are summarized as follows:

Designated for Subsequent Year's Expenditures - As of June 30, 2015, the District had \$39,999.80 designated for subsequent year's expenditures

General Fund - Other Purposes - As of June 30, 2015, the District had \$78,935.54 of encumbrances outstanding for purchase orders and contracts signed by the District, but not completed, as of the close of the fiscal year.

CITY OF NORTHFIELD SCHOOL DISTRICT
Notes to Financial Statements

NOTE 17 FUND BALANCES

Unassigned

As stated in Note 1, the unassigned fund balance classification is the residual classification for the general fund. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the general fund. The District's unassigned fund balance is summarized as follows:

General Fund

The District has a deficit fund balance of \$116,264.31 in the General Fund as of June 30, 2015 as reported in the fund statements (modified accrual basis). P.L. 2004, c. 97 provides that in the event a state school aid payment is not made until the following school budget year, Districts must record the last payment as revenue, for budget purposes only, in the current school budget year. For intergovernmental transactions, GASB Statement No. 33 requires that recognition (revenue, expenditure, asset, liability) should be in symmetry i.e., if one government recognizes an asset, the other government recognizes a liability. Since the State is recording the last state aid payment in the subsequent fiscal year, the District cannot recognize the last state aid payment on the GAAP financial statements until the year the state records the payable. Due to the timing difference of recording the last state aid payment, the General Fund balance deficit does not alone indicate that the District is facing financial difficulties.

Pursuant N.J.S.A. 18A:22-44.2 any negative unreserved, undesignated General Fund balance that is reported as a direct result from a delay in the payment of state aid until the following fiscal year, is not considered a violation of New Jersey statute and regulation nor in need of corrective action.

NOTE 18 CONTINGENT LIABILITIES

Federal and State Grants

The District participates in a number of federal and state grant programs. The grant programs are subject to program compliance audits by the grantors or their representatives. The District is potentially liable for expenditures which may be disallowed pursuant to the terms of these grant programs. Management is not aware of any material items of noncompliance which would result in the disallowance of program expenditures.

General

Per confirmation by the District's legal counsel, there are no material pending litigation, claims, assessments or contingent liabilities against the District.

NOTE 19 SUBSEQUENT EVENTS

Management has reviewed and evaluated all events and transactions that occurred as of October 28, 2015, the date that the financial statements were issued for possible disclosure and recognition in the financial statements and no items were noted for disclosure or adjustment.

NOTE 20 RETROACTIVE RESTATEMENT OF NET POSITION

The District adopted GASB No. 68 – Accounting and Financial Reporting for Pensions – An Amendment of GASG No. 27 during the 2015 fiscal year as required by the pronouncement. The pronouncement requires the District to record its proportionate share of the State of New Jersey’s net pension liability on the face of its financial statements as of June 30, 2015 and to record related pension expense in accordance with the pronouncement. In order to correctly reflect pension expense in accordance with GASB No. 68, the beginning Net Position of the District was adjusted to reflect the beginning balance of the net pension liability. Since the measurement date of the net pension liability is June 30, 2014, the restatement adjustments to Net Position relate to the beginning net pension liability measured as of June 30, 2013. Also, in accordance with GASB No. 71 – Pension Transaction for Contributions Made Subsequent to the Measurement Date, the District restated its Net Position for pension contributions made after the beginning net pension liability measurement date of June 30, 2013 (deferred outflows).

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH GOVERNMENT AUDITING STANDARDS**

INDEPENDENT AUDITORS' REPORT

Honorable President and
Members of the Board of Education
City of Northfield School District
County of Atlantic
Northfield, New Jersey

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, and in compliance with audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey, the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the City of Northfield School District, in the County of Atlantic, State of New Jersey, as of and for the fiscal year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the City of Northfield School District's basic financial statements and have issued our report thereon dated October 28, 2015.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the City of Northfield School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and questioned costs that we consider to be significant deficiencies:

Finding 2015-1
Finding 2015-2

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City of Northfield School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey and which are described in the accompanying schedule of findings and questioned cost:

Finding 2015-1

District's Response to Findings

The District's response to the findings identified in our audit is described in the accompanying schedule of findings and questioned costs. The District's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

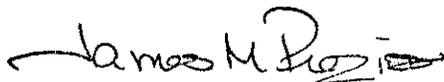

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey, and federal and state awarding agencies and pass-through entities, in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND REPORT ON INTERNAL CONTROLS OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133 AND STATE OF NEW JERSEY OMB'S CIRCULARS 04-04 AND 15-08

INDEPENDENT AUDITORS' REPORT

Honorable President and
Members of the Board of Education
City of Northfield School District
County of Atlantic
Northfield, New Jersey

Report on Compliance for Each Major Federal and State Program

We have audited the City of Northfield School District's compliance with the types of compliance requirements described in the U.S. Office of Management and Budget (*OMB Circular A-133 Compliance Supplement*) and the *New Jersey State Grant Compliance Supplement* that could have a direct and material effect on the District's major federal and state programs for the fiscal year ended June 30, 2015. The District's major federal and state programs are identified in the *Summary of Auditor's Results* section of the accompanying *Schedule of Findings and Questioned Costs*.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its major federal and state programs

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the District's federal and state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; the audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey; OMB Circulars A-133 *Audits of States, Local Governments, and Non-Profit Organizations*; and State of New Jersey OMB's Circulars 04-04 and 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid*. Those standards, OMB Circular A-133 and State of New Jersey OMB's Circulars 04-04 and 15-08, require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal and state program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal and state program. However, our audit does not provide a legal determination on the District's compliance.

Opinion on Each Major Federal and State Program

In our opinion, the City of Northfield School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal and state program for the year ended June 30, 2015.

Report on Internal Control Over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred above. In planning and performing our audit, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal and state program to determine the auditing procedures that are appropriate in the circumstances for the purposes of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133 and State of New Jersey OMB's Circulars 04-04 and 15-08, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct, noncompliance with a type of compliance requirement of a federal or state program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal or state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of the internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in the internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133 and State of New Jersey OMB's Circulars 04-04 and 15-08. Accordingly, this report is not suitable for any other purpose.

Respectfully submitted.

CITY OF NORTHFIELD SCHOOL DISTRICT
Notes to Schedules of Awards and Financial Assistance
June 30, 2015

NOTE 1 GENERAL

The accompanying Schedules of Expenditures of Federal Awards and State Financial Assistance include federal and state award activity of the City of Northfield School District. The District is defined in Note 1 to the District's basic financial statements. All federal awards and state financial assistance received directly from federal and state agencies, as well as federal awards and state financial assistance passed through other government agencies is included on the schedules of expenditures of federal awards and state financial assistance.

NOTE 2 BASIS OF ACCOUNTING

The accompanying Schedules of Expenditures of Federal Awards and State Financial Assistance are presented using the budgetary basis of accounting with the exception of programs recorded in the food service fund, which are presented using the accrual basis of accounting. These basis of accounting are described in Note 1 to the District's basic financial statements. The information in this schedule is presented in accordance with requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-profit Organizations*, therefore, some amounts presented in this schedule may differ from the amounts presented in, or used in the preparation of, the basic financial statements.

NOTE 3 RELATIONSHIP TO GENERAL PURPOSE FINANCIAL STATEMENTS

The basic financial statements present the general fund and special revenue fund on a GAAP basis. Budgetary comparison statements or schedules are presented for the general fund and special revenue fund to demonstrate finance-related legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the audit year, whereas for GAAP reporting, revenue is not recognized until the subsequent year or when expenditures have been made.

The general fund is presented in the accompanying schedules on the modified accrual basis with the exception of the revenue recognition of one or more deferred June state aid payments in the current budget year, which is mandated pursuant to N.J.S.A. 18A:22-44.2. For GAAP purposes, those payments are not recognized until the subsequent budget year due to the state deferral and recording of the one or more June state aid payments in the subsequent year. The special revenue fund is presented in the accompanying schedules on the grant accounting budgetary basis which recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. The special revenue fund also recognizes the last state aid payment in the current budget year, consistent with N.J.S.A. 18A:22-44.2.

See Exhibit C-3, the Notes to Required Supplementary Information, for a reconciliation of the budgetary basis to the modified accrual basis of accounting for the general and special revenue funds.

PART 2 - SCHEDULE OF FINANCIAL STATEMENT FINDINGS

This section identifies significant deficiencies, material weaknesses, and instances of noncompliance related to the financial statements that are required to be reported in accordance with Government Auditing Standards and with audit requirements as prescribed by the Division of Administration and Finance, Department of Education, State of New Jersey.

Finding 2015-1

Criteria or Specific Requirement

Section I -General Compliance for Application For State School Aid (ASSA) and District Report of Transported Students (DRTRS) require all students to be accounted for and documented on the proper State forms.

Condition

A Northfield student attending a private school was properly listed and paid Aid in Lieu by the District. However, the District was not provided with a B6T for the student and therefore the student was not reported on the DRTRS.

Context

The District receives B6T applications (Application for Private School Transportation) from Mainland Regional for students attending private schools. The District pays Mainland Regional \$442 in January and \$442 in June for each student attending a private school within 20 miles of the family home. The District paid Aid in Lieu payments for 18 students during the 2014-2015 school year. The number of students reported in section A Line 7 for Aid in Lieu was only 17. The student attending St. Vincent DePaul was not reported as an Aid in Lieu student on the DRTRS.

Effect

The District did not properly report all students on the DRTRS in compliance with State regulation.

Cause

Unknown

Recommendation

The District should review internal control procedures for completing DRTRS applications and comply with State regulations.

View of Responsible Officials and Planned Corrective Action

The responsible official agrees with the finding and will address the matter as part of their corrective action plan.

For The Fiscal Year Ended June 30, 2015

PART 2 - SCHEDULE OF FINANCIAL STATEMENT FINDINGS (CONTINUED)

Finding 2015-2

Criteria or Specific Requirement

Penalties and interest were charged by the Internal Revenue Service for failure to deposit payroll tax liabilities in excess of \$100,000 on the next business day following the accumulated liability.

Condition

The District accumulated payroll tax liabilities in excess of \$100,000 and failed to make a timely deposit in accordance with the Internal Revenue Service's \$100,000 Next-Day Deposit Rule.

Context

The District received two notices from the Internal Revenue Service stating they were in violation of the \$100,000 next day deposit rule. The first notice was addressed and the Internal Revenue Service waived the penalties and interest incurred by the District. The second notice was not able to be waived at the local Internal Revenue Service office and needed to be reviewed at a higher level. The District is awaiting a waiver from the Service on the second notice.

Effect

The District was not responsible for paying the penalties and interest on the first notice received by the Service for the failure to make a timely deposit. The second notice is under review by the Service.

Cause

Failure to comply with the \$100,000 Next-Day Deposit Rule

Recommendation

The District should review procedures for payroll liability deposits and implement an internal control procedure to make sure the District is in compliance with Internal Revenue Service regulations.

View of Responsible Officials and Planned Corrective Action

The responsible official agrees with the finding and will address the matter as part of their corrective action plan.
