TO: Directors, Private Schools for the Disabled

FROM: Richard Rosenberg, Assistant Commissioner
Division of Finance

SUBJECT: Annual Information - Fiscal Year 2005-2006 - Private Schools for the Disabled - Related Party Transactions

In accordance with N.J.A.C. 6A:23-4.5(a)47, a related party transaction is defined as a transaction between parties in which one party to the transaction is able to control or substantially influence the actions of the other. Such transactions are defined by the relationship of the parties and include, but are not limited to, those between divisions of an institution; institutions or organizations under common control through common officers, directors, or members; and an institution and a director, trustee, officer, or key employee of the institution or his or her immediate family either directly or through corporations, trusts, or similar arrangements in which they hold a controlling interest. In accordance with N.J.A.C. 6A:23-4.5(a)47, a cost which is not allowable in the calculation of the certified actual cost per student includes rental costs for buildings and equipment in excess of the actual allocated costs of ownership incurred by the related property owner including a 2.5 percent return calculated on the actual costs of ownership incurred by the related party.

Attached please find a copy of the Department of Education's prescribed cost of ownership format for related party transactions (real and personal property) involving private schools for the disabled. If a private school for the disabled is involved in a related party transaction (real and/or personal property), this form must be prepared by the lessor, attached to the lease agreement with copies of both forwarded to the Department of Education by the private school for every year a related party transaction exists.

The attached form must be completed by the lessor and must include the anticipated costs of ownership, which pertain to the real or personal property leased by the private school for the disabled. Until the lessor provides a final year-end accounting of the actual costs of ownership, the private school's accounting records may only reflect an allowable lease expense of an amount less than or equal to the "Total Lease Amount" shown in column (2) "Allocated to Private School Lease," on page 3 of this format. The lease expense, which may be included in the certified actual cost per pupil, is limited to the final year-end actual costs of ownership incurred by the related party plus a 2.5 percent return on the actual costs of ownership. The related party must provide this information to the private school for the disabled.

In addition to the form being signed by the property owner, notarized and made part of the lease, a completed copy of the notarized form along with a copy of the lease must be forwarded to the address below:

Ms. Toulia Aris, Fiscal Analyst
New Jersey State Department of Education
