

Workshop #6

**Functional Behavioral Assessment (FBA)
and Design of Intervention Plans
(Grades K-12)**

Dates/Locations:

December 19, 2011 & January 23, 2012	LRC-North Satellite
January 4 & January 25, 2012	LRC-Central
January 5 & January 24, 2012	LRC-South

This two day workshop will present a proactive, educative approach to understanding the functions and conditions affecting challenging behavior of students with disabilities. Through this workshop, participants will learn best practice strategies to conduct functional assessments of student behavior. Participants will also learn to use this information to design intervention plans that promote the use of positive behavioral supports and to teach students alternative skills and/or coping strategies.

Audience: School-based teams, up to three members, to include special education administrator and/or child study team members. Other may attend as appropriate (e.g., behavior specialists, inclusion facilitators, guidance counselors) - Grades K-12

Participants must register for both days of this two day workshop.
