

Mosquito-borne Virus Test Results

For the week ending July 12, 2013

In This Update: West Nile virus activity (mosquito only) has been identified in 4 counties in New Jersey including Bergen, Middlesex, Somerset and Sussex.

Human Testing

The New Jersey Department of Health (NJDOH) Public Health and Environmental Laboratories (PHEL) tests blood and other clinical samples from people suspected of having West Nile virus (WNV), Eastern equine encephalitis (EEE) and St. Louis encephalitis (SLE) infection.

- No cases of WNV have been identified.

Avian Testing

The NJDOH PHEL tests select bird species for WNV infection.

- To date, 43 birds were tested for WNV from 12 counties, including Bergen, Burlington, Cumberland, Gloucester, Hunterdon, Mercer, Monmouth, Morris, Ocean, Sussex, Union and Warren.
- No WNV positive birds have been detected.

Mosquito Testing

The NJDOH PHEL and the Cape May Department of Mosquito Control Bio-safety Level 3 (CMBSL3) Laboratory test mosquitoes for the following viruses:

West Nile virus (WNV):

- To date, 1,877 mosquito pools have been tested for WNV from 20 counties (all counties except Cumberland have submitted mosquito pools for WNV testing).
- A total of 5 WNV positive mosquito pools were detected in the following 4 counties: Bergen (1), Middlesex (2), Somerset (1) and Sussex (1).

Eastern equine encephalitis virus (EEE):

- To date, 200 mosquito pools have been tested for EEE from 8 counties including Atlantic, Burlington, Camden, Cape May, Gloucester, Monmouth, Ocean and Salem.
- No EEE positive mosquito pools have been detected.

St. Louis encephalitis virus (SLE):

- To date, 54 mosquito pools have been tested for SLE from 2 counties including Burlington and Cape May.
- No SLE positive mosquito pools have been identified.

La Crosse encephalitis virus (LAC):

- To date, 5 mosquito pools have been tested for LAC from Salem county.

- No LAC positive mosquito pools have been identified.

Horse Testing

Equine testing for WNV and EEE is conducted at the New Jersey Department of Agriculture's animal health laboratory.

- No WNV or EEE equine cases have been identified.
- For more information on equine testing, visit the Department of Agriculture website at www.state.nj.us/agriculture.
