New Jersey Department of Health  
PEOSH Unit  

REQUEST FOR SOURCE INDIVIDUAL EVALUATION  

Dear (Emergency Room Medical Director, Infection Control Practitioner):  

During a recent transport of a patient to your facility, one of our pre-hospital care providers was involved in an event that may have resulted in exposure to Bloodborne Pathogens.  

I am asking you to perform an evaluation of the source individual who was transported to your facility. Given the circumstances surrounding this event, please determine whether our pre-hospital care worker is at risk for infection and/or requires medical follow-up.  

Attached is a “Documentation and Identification of Source Individual” form which was initiated by the exposed worker. Please complete the source individual section and communicate the findings to the designated medical provider.  

The evaluation form has been developed to provide confidentiality assurances for the patient and the exposed worker concerning the nature of the exposure. Any communication regarding the findings is to be handled at the medical provider level.  

We understand that information relative to human immunodeficiency virus (HIV) and AIDS has specific protections under the law and cannot be disclosed or released without the written consent of the patient. It is further understood that disclosure obligates persons who receive such information to hold it confidential.  

Thank you for assistance in this very important manner.  

Sincerely,  

________________________________
Name of Exposed Employee: ________________________________

Name of Medical Provider Who Should be Contacted: ________________________________

Phone Number of Medical Provider: ________________________________

**Incident Information**

Date: ________________________________

Individual Who is the Source of the Exposure:

  Name or Medical Record Number: ________________________________

**Nature of the Incident**

☐ Contaminated Needle Stick Injury

☐ Blood or Body Fluid Splash onto Mucous Membrane or Non-Intact Skin

☐ Other: ________________________________

**Report of Source Individual Evaluation**

Chart Review By: ________________________________ Date: ________________________________

Source Individual

Unknown-Researched By: ________________________________ Date: ________________________________

Testing of Source Individual’s Blood: Consent: ☐ Obtained ☐ Refused

**Check one:**

☐ Evaluation of the source individual reflected no known exposure to Bloodborne Pathogens.

☐ Evaluation of the source individual reflected known exposure to Bloodborne Pathogens.

☐ Evaluation of the source individual reflected possible exposure to Bloodborne Pathogens and medical follow-up is recommended.

☐ Identification of source individual infeasible or prohibited by state or local law.

State why identification is infeasible:

Name of Person Completing Report: ________________________________ Date: ________________________________

**Note:** Report the results of the source individual’s blood test to the medical provider named above who will inform the exposed employee. Do not report blood test findings to the employer.

HIV-related information cannot be released without the written consent of the source individual.
