

County College of Morris

J. Major capital projects.

1. Capital projects underway in FY2007:

- Renovation of Henderson Hall, which included abatement of asbestos containing materials within the renovated areas prior to construction, roughing in of energy management and fire alarm systems, HVAC duct work, electrical work for telecommunication and audio visual requirements, and partial framing is in process.
- Front of the House Lights and Drapery/Curtains project for the Student Community Center, which includes new additional stage lighting and all new stage curtains.
- Completion of phase II work associated with the Stormwater Management Program to satisfy the NJDEP requirements regarding MS4 outfalls, drainage at parking lots, spill containment area adjacent to the gasoline pump, repair of catch-basins and installation of a new enclosed salt shed.
