

Warren County Community College
2008 Institutional Profile
A. Accreditation Status

Since 2000, WCCC has been the fastest-growing community college in New Jersey, as enrollment has soared from 805 students in fall 2000 to 1,742 in fall 2007. This growth has been caused, in part, by the diminishment of the agricultural economy that once dominated the region, and by the College's new initiative of "bringing the college to the community." By the year 2010, Warren County Community College's enrollment is projected to reach nearly 3,500 credit and non-credit/professional students.

Today, WCCC has more than 35 degrees and options and finds itself strategically placed to grow in several areas, including health care and the arts. The College continues to grow its strategic partners and strengthen its transfer agreements. While challenges remain, especially with space, the College utilizes its 2005-2008 Strategic Plan to achieve its objective. The College has also broken ground on a \$5.5 million dollar extension that will add more than 20,000 SQF to our main campus.

Warren County Community College

A. Accreditation Status

WCCC is accredited by the Middle States Commission on Higher Education.
