I. Purpose and Intent

This Request for Proposals (RFP) is issued by the New Jersey Department of Human Services (DHS), Division of Mental Health and Addiction Services (DMHAS) for the provision of outpatient mental health care services to adult consumers age 18 and older presenting at mental health outpatient ambulatory care settings in Cumberland County. The DMHAS seeks to make one or more awards for this request for proposals. Total one time startup funding is subject to State appropriations.

The DMHAS seeks proposals to provide a comprehensive outpatient service delivery system that meets the needs of individuals with mental health symptoms. This service is intended to provide viable, accessible, and effective therapeutic treatment for consumers to preserve or improve current functioning, strengths, and resources. Mental health services must be designed and implemented in a manner which reflects recovery and wellness as an overarching value as well as an operational principle. That is, treatment services must embody Substance Abuse and Mental Health Services Administration (SAMHSA) working definition of recovery as a process of change through which individuals improve their health and wellness, live a self-directed life, and strive to reach their full potential, as detailed at the SAMHSA website: www://blog.samhsa.gov/2012/03/23/definition-of-recovery-updated/. The focus of this RFP is to create or expand existing service capacity to support, enhance, and encourage the emotional development and improvement of consumer life skills in order to maximize health functioning. This initiative provides reimbursement for an array of outpatient mental health services when a mental health diagnosis has been determined by an appropriate behavioral health professional, as regulated in N.J.A.C 10:37E Outpatient Services Standards.

The contract awarded as a result of this RFP may be renewable for one (1) year at DMHAS’ sole discretion and with the agreement of the awardee. Funding of up to $253,518 will be available through the New Jersey Mental Health Application for Payment (NJMHAPP) system to serve a minimum of 400 consumers per year, with up to $100,000 in one time start-up dollars available. Actual funding levels will depend on the availability of funds and satisfactory performance. The bidder must utilize the NJMHAPP system to request approval and to submit requests for payment.

No funding match is required; however, bidders will need to identify any other sources of funding, both in-kind and monetary, that will be used. Bidders may not fund any costs incurred for planning or preparing a proposal in response to this RFP from current DHS/DMHAS contracts.

II. Background and Population to be Served

DMHAS, in partnership with consumers, family members, providers and other stakeholders, promotes wellness and recovery for individuals managing a mental illness through a continuum of prevention, early intervention, treatment and recovery services delivered by a culturally competent and well-trained workforce.

DMHAS believes that people with mental illness can achieve wellness and recovery. A strong and responsive mental health care system can meet the varied needs of people as they experience the recovery process. Towards that end, it is the Division’s policy to ensure that consumers and families have access to recovery oriented services and resources that promote wellness, an improved quality of life and community inclusion.

Within this initiative, DMHAS seeks to strengthen the mental health care system and reduce existing barriers, such as long waits for outpatient, psychiatric, and Advanced Practice Nurse (APN) services for those individuals seeking mental health services. The focus of this RFP is to create or expand existing outpatient mental health service capacity in Cumberland County and to increase accessibility to an array of services that will support, enhance, and encourage the emotional development and improvement of consumer life skills in order to maximize mental health functioning. This initiative provides funding for consumers in need of outpatient mental health services when such diagnosis has been determined by appropriately licensed behavioral health professionals.

The applicant must establish a comprehensive delivery system utilizing appropriately credentialed New Jersey licensed prescribers, who within their scope of practice, are permitted to diagnose and treat individuals with serious mental illness. Additionally, it is preferred that clinicians working with individuals who concurrently have a serious mental illness and substance abuse disorder be dually credentialed as licensed alcohol and drug counselors, or have two years of documented experience working in the addiction field. For the purpose of this RFP, a serious mental illness is defined as the presence of at least one disorder identified in the current edition of the Diagnostic and Statistical Manual of Mental Disorders (DSM), other than a substance abuse/use disorder, for at least a twelve (12) month period that causes serious impairments in emotional and behavioral functioning. These diagnoses include, but are not limited to the following:

- Schizophrenia
- Schizotypal Disorder
- Delusional Disorder
- Other Psychotic Disorders
- Major Depressive Disorder Recurrent
- Bipolar I Disorder
- Bipolar II Disorder
- Schizotypal Disorder
- Borderline Personality Disorder
• Obsessive Compulsive Disorder
• Post-Traumatic Stress Disorder

The service array includes the following services: comprehensive assessment, brief screening, on-site psychiatric evaluation, medication services (prescribing and monitoring), treatment planning, psychotherapy, crisis intervention, case management, and discharge planning.

III. Who Can Apply?

To be eligible for consideration for this RFP, the bidder must satisfy the following requirements:

• The bidder must be a non-profit, for-profit entity or governmental entity;
• The bidder must be licensed by the Department of Human Services' (DHS') Office of Licensing prior to the start of services;
• For a bidder that has a contract with DMHAS in place when this RFP is issued, that bidder must have all outstanding Plans of Correction (PoC) for deficiencies submitted to DMHAS for approval prior to submission;
• The bidder must be fiscally viable based upon an assessment of the bidder's audited financial statements. If a bidder is determined, in DMHAS' sole discretion, to be insolvent or to present insolvency within the twelve (12) months after bid submission, DMHAS will deem the proposal ineligible for contract award;
• The bidder must not appear on the State of New Jersey Consolidated Debarment Report at http://www.state.nj.us/treasury/revenue/debarment/debarsearch.shtml or be suspended or debarred by any other State or Federal entity from receiving funds;

• Pursuant to N.J.S.A. 52:32-44, a for-profit bidder and each proposed subcontractor must have a valid Business Registration Certificate on file with the Division of Revenue. (This statutory requirement does not apply to non-profit organizations, private colleges and universities, or state and municipal agencies); and
• The bidder must attend the Mandatory Bidders conference as described in the RFP.

IV. Contract Scope of Work

Psychiatric Evaluation
Psychiatric evaluations are meetings between a psychiatrist or a qualified Psychiatric Advanced Practice Nurse and the consumer in which the professional tries to glean information necessary to diagnose an emotional disorder. During this interview the psychiatrist collects enough data about the individual, through input from the mental health, substance abuse and/or co-occurring evaluation, previous treatment records and
consultation with the treatment team, to develop an initial psychiatric diagnosis and treatment plan, including pharmacotherapy.

Psychiatric Evaluations, pharmacotherapy, and medication monitoring must be provided by: MD or DO, licensed to practice medicine in New Jersey; or a Psychiatric Advanced Practice Nurse with a collaborating agreement with the MD.

**Assessment**
The assessment must be based on obtaining an integrated, longitudinal, strengths-based history. The history must incorporate a chronological description of the individual's functioning, including emphasis on the onset of the disorders, interactions between the disorders, effects of treatment, and identification of the factors that contribute to stability and relapse. The assessment shall include: intake evaluation, brief screening, full mental status evaluation, a detailed history of psychiatric and where applicable substance abuse symptoms, current use and patterns, collection and review of previous treatment records and response to treatment (includes interactions between mental illness and substance abuse treatment), and the completion of relevant assessment tools, e.g., the Level of Care Utilization System for Psychiatric and Addiction Services (LOCUS).

Additionally, the integrated assessment will include information on abuse, neglect, domestic violence and trauma, the family situation including the constellation of the family group, the current living situation and recovery environment, social, ethnic, cultural, emotional, and health factors. The assessment will also identify the consumer’s education and work history, community resources currently utilized by the consumer, evaluation of the developmental age factors of the consumer, and evaluation of any language, self-care, and other areas of functioning which relate to the consumer’s mental condition.

The integrated assessment must minimally be provided by a clinician possessing a Master’s degree in a behavioral health field. Clinicians possessing a Master’s degree in Social Work must be Licensed Social Workers (LSW). The director of outpatient services shall possess a Master’s degree plus five (5) years’ experience working in the mental health field.

**Medication Monitoring**
Medication monitoring is the ongoing assessment and evaluation, mental health monitoring and review of the effects of medications. During these visits, medications are adjusted, medical tests are ordered, and the consumer’s response to treatment is evaluated.

**Treatment Planning**
Treatment planning is a continuous collaborative process that guides service delivery through an array of services, including medication management, counseling, and case management. Appropriately credentialed staff will work with consumers to develop personal goals and a strength-based service plan to address both emotional and
substance abuse disorders as identified in the most recent edition of the Diagnostic and Statistical Manual of Mental Disorders (DSM). Applicants must demonstrate how substance abuse disorders treatment will be provided or addressed, if applicable.

Treatment planning must incorporate evidenced based treatment services that are designed to help consumers become ready for more definitive interventions aimed at recovery-management, i.e., cognitive behavioral therapy and motivational enhancement therapy. Additionally, the treatment plan will address SAMHSA’s eight dimensions of wellness: emotional, physical health, social, environmental, financial, spiritual, occupational, intellectual (http://www.samhsa.gov/wellness). Individual targets of the plan can include biological, psychological, cognitive, trauma informed care, interpersonal, legal issues, homelessness, antecedents or consequences to mental illness and substance use, dangerous behaviors, severe symptomology, acute intoxication, and detoxification.

Treatment planning services must minimally be provided by individuals possessing a Master’s degree in a behavioral health field; individuals possessing a Master’s degree in Social Work must hold a license in social work (LSW).

Accepted Practices
If the contract(s) resulting from this RFP includes drug treatment services, then the contract awardee must have in place established, facility-wide policies that prohibit discrimination against consumers of prevention, treatment and recovery support services assisted in their prevention, treatment and/or recovery with legitimately prescribed medication(s). These policies must be in writing in a visible, legible manner, and clearly posted at a common location accessible to all who enter the facility.

Moreover, no consumer admitted into a treatment facility, or a recipient of or participant in any prevention, treatment or recovery support services, shall be denied full access to, participation in and enjoyment of that program, service or activity, available or offered to others, due to the use of legitimately prescribed medications.

Capacity to accommodate consumers who present or are referred with legitimately prescribed medications can be accomplished either through direct provision of services associated with the provision or dispensing of medications and/or via development of viable networks/referrals/consultants/sub-contracting with those who are licensed and otherwise qualified to provide medications.

V. General Contracting Information
Bidders must currently meet or be able to meet the terms and conditions of the Department of Human Services (DHS) contracting rules and regulations as set forth in the Standard Language Document (SLD), the Contract Reimbursement Manual (CRM), and the Contract Policy and Information Manual (CPIM). These documents are available on the DHS website at: http://www.state.nj.us/humanservices/ocpm/home/resources/manuals/index.html).

Budgets should be reasonable and reflect the scope of responsibilities in order to accomplish the goals of this project.

All bidders will be notified in writing of the State’s intent to award a contract. All proposals are considered public information and will be made available for a defined period after announcement of the contract award and prior to final award, as well as through the State Open Public Records Act process at the conclusion of the RFP process.

The contract awarded as a result of this RFP may be renewable for one (1) year at DMHAS’ sole discretion and with the agreement of the awardee. Funding of up to $253,518 will be available through the NJMHAPPS system to serve a minimum of 400 consumers per year, with up to $100,000 in one time start-up dollars available. Actual funding levels will depend on the availability of funds and satisfactory performance. The bidder must utilize the NJMHAPP system to request approval and to submit requests for payment.

In accordance with DHS Policy P1.12 available on the web at www.state.nj.us/humanservices/ocpm/home/resources/manuals/index.html, programs awarded pursuant to this RFP will be separately clustered until the DMHAS determines, in its sole discretion, that the program is stable in terms of service provision, expenditures, and applicable revenue generation.

Should service provision be delayed through no fault of the provider, funding continuation will be considered on a case-by-case basis based upon the circumstances creating the delay. In no case shall the DMHAS continue funding when service commencement commitments are not met, and in no case shall funding be provided for a period of non-service provision in excess of three (3) months. In the event that the timeframe will be longer than three (3) months, DMHAS must be notified so the circumstances resulting in the anticipated delay may be reviewed and addressed. Should services not be rendered, funds provided pursuant to this agreement shall be returned to DMHAS.

The bidder must comply with all rules and regulations for any DMHAS program element of service proposed by the bidder. Additionally, please take note of Community Mental Health Services Regulations, N.J.A.C. 10:37, which apply to all contracted mental health services. These regulations can be accessed at http://www.state.nj.us/humanservices/providers/rulefees/regs/.

All construction/renovation awards will be subject to a Capital Agreement at the discretion of DMHAS.

IX. Review of Proposals

There will be a review process for all timely submitted proposals. DMHAS will convene a review committee of public employees to conduct a review of each proposal accepted for review.

The bidder must obtain a minimum score of 70 points out of 100 points for the proposal narrative and budget sections in order to be considered eligible for funding.

DMHAS will award up to 20 points for fiscal viability, using a standardized scoring rubric based on the audit, which will be added to the average score given to the proposal from the review committee. Thus, the maximum points any proposal can receive is 120 points, which includes the combined score from the proposal narrative and budget as well as fiscal viability.

In addition, if a bidder is determined, in DMHAS’ sole discretion, to be insolvent or to present insolvency within the twelve (12) months after bid submission, DMHAS will deem the proposal ineligible for contract award.

Contract award recommendations will be based on such factors as the proposal scope, quality and appropriateness, bidder history and experience, as well as budget reasonableness. The review committee will look for evidence of cultural competence in each section of the narrative. The review committee may choose to visit a bidder's existing program(s), invite a bidder for interview, and/or review any programmatic or fiscal documents in the possession of DMHAS. The bidder is advised that the contract award may be conditional upon final contract and budget negotiation.

DMHAS reserves the right to reject any and all proposals when circumstances indicate that it is in its best interest to do so. DMHAS’ best interests in this context include, but are not limited to, loss of funding, inability of the bidder(s) to provide adequate services,
an indication of misrepresentation of information and/or non-compliance with State and federal laws and regulations, existing DHS contracts, and procedures set forth in DHS Policy Circular P1.04 (http://www.state.nj.us/humanservices/ocpm/home/resources/manuals/index.html).

DMHAS recognizes the invaluable perspective and knowledge that consumers, family members and County Mental Health Boards possess. Input from these groups is an integral component of a system that holds wellness and recovery principles at its core. Consequently, DMHAS will convene an advisory group consisting of consumers and family members to provide input to the review committee regarding the proposals submitted.

County Mental Health Boards recommendations and comments will be received by DMHAS no later than August 23, 2017. This input will be incorporated in the final deliberations of the review committee.

Attachment B – Addendum to RFP for Social Service and Training Contracts

STATE OF NEW JERSEY DEPARTMENT OF HUMAN SERVICES

ADDENDUM TO REQUEST FOR PROPOSAL FOR SOCIAL SERVICE AND TRAINING CONTRACTS

Executive Order No. 189 establishes the expected standard of responsibility for all parties that enter into a contract with the State of New Jersey. All such parties must meet a standard of responsibility that assures the State and its citizens that such parties will compete and perform honestly in their dealings with the State and avoid conflicts of interest.

As used in this document, "provider agency" or "provider" means any person, firm, corporation, or other entity or representative or employee thereof that offers or proposes to provide goods or services to or performs any contract for the Department of Human Services.

In compliance with Paragraph 3 of Executive Order No. 189, no provider agency shall pay, offer to pay, or agree to pay, either directly or indirectly, any fee, commission, compensation, gift, gratuity, or other thing of value of any kind to any State officer or employee or special State officer or employee, as defined by N.J.S.A. 52:13D-13b and e, in the Department of the Treasury or any other agency with which such provider agency transacts or offers or proposes to transact business, or to any member of the immediate family, as defined by N.J.S.A. 52:13D-13i, of any such officer or employee, or any partnership, firm, or corporation with which they are employed or associated, or in which such officer or employee has an interest within the meaning of N.J.S.A. 52:13D-13g.

The solicitation of any fee, commission, compensation, gift, gratuity or other thing of value by any State officer or employee or special State officer or employee from any provider agency shall be reported in writing forthwith by the provider agency to the Attorney General and the Executive Commission on Ethical Standards.

No provider agency may, directly or indirectly, undertake any private business, commercial or entrepreneurial relationship with, whether or not pursuant to employment, contract or other agreement, express or implied, or sell any interest in such provider agency to, any State officer or employee or special State officer or employee having any duties or responsibilities in connection with the purchase, acquisition or sale of any property or services by or to any State agency or any instrumentality thereof, or with any person, firm or entity with which he is employed or associated or in which he has an interest within the meaning of N.J.S.A. 52:13D-13g. Any relationships subject to this provision shall be reported in writing forthwith to the Executive Commission on Ethical Standards, which may grant a waiver of this restriction upon application of the State officer or employee or special State officer or employee upon a finding that the present or proposed relationship does not present the potential, actuality or appearance of a conflict of interest.

No provider agency shall influence, or attempt to influence or cause to be influenced, any State officer or employee or special State officer or employee in his official capacity in any manner which might tend to impair the objectivity or independence of judgment of said officer or employee.

No provider agency shall cause or influence, or attempt to cause or influence, any State officer or employee or special State officer or employee to use, or attempt to use, his official position to secure unwarranted privileges or advantages for the provider agency or any other person.

The provisions cited above shall not be construed to prohibit a State officer or employee or special State officer or employee from receiving gifts from or contracting with provider agencies under the same terms and conditions as are offered or made available to members of the general public subject to any guidelines the Executive Commission on Ethical Standards may promulgate.
