DMHAS - Promoting the Interest of New Jersey Medical Students in the Field of Psychiatry

Awarded: May 5, 2023

Name of Program: Promoting the Interest of New Jersey Medical Students in the Field of Psychiatry

Purpose: Promoting the Interest of New Jersey Medical Students in the Field of Psychiatry attempts to ensure that a sufficient number of qualified candidates apply for training in the psychiatry field. Therefore, as a supplement to other initiatives such as the Community Psychiatry Residency Training Initiative and the Child and Adolescent Psychiatry (CAP) Fellowship Training Initiative, DMHAS seeks an entity to develop a program to cultivate the interest of New Jersey medical students to enter the field of psychiatry. Efforts also must include outreach to underrepresented in medicine (URiM) students, as the term is defined by the Association of American Medical Colleges. Please see the attached Scope of Work (SOW) which describes the work to be performed by the bidder.

The awardee is as follows:
