Executive Director Nason explained that the permit holders have requested to renew their respective permits for the 2020 calendar year and have filed their requests for race dates. The THA applied to race 76 thoroughbred race dates: 56 at Monmouth Park, 19 at the Meadowlands and 1 day at Far Hills. New Meadowlands Racetrack, LLC applied to race 90 standardbred race dates at New Meadowlands Racetrack. FR Park Racing, LP applied to race 85 standardbred race dates at Freehold Raceway. The Executive Director informed the Commissioners that the horsemen's associations had submitted their respective consents to the race dates requested. The Executive Director then opened the floor to receive public comment from the representatives of the permit holders and the horsemen's associations.

Mr. Settlemoir stated that the overnight purse amount will be just over \$15 million in 2020, the stakes race purses will amount to around \$14 million and the total purses for standardbred races at New Meadowlands Racetrack in 2020 will amount to approximately \$29.5 million.

Mark Ford spoke on behalf of the SBOA. Mr. Ford said that the SBOA has some concerns about the feasibility of flipping the track surface at New Meadowlands Racetrack but believes that those concerns may be alleviated in the meeting scheduled later in the day.

Howard Bruno spoke on behalf of FR Park Racing, LP. Mr. Bruno explained that the race dates requested increased from 76 days in 2019 to 85 race dates in 2020 due primarily to the purse supplement money.

CONSIDER THE DISTRIBUTION OF THE CASINO SIMULCASTING SPECIAL FUND MONIES (ACCUMULATED IN 2018) TOTALING \$468,223.65

Executive Director Nason summarized the findings of the Casino Simulcasting Special Fund ("CSSF") Committee, as follows: Each of the racetracks requested monies pursuant to N.J.S.A. 5:12-205(d)(1) and (d)(2). The Committee found that all three racetracks are negatively affected by casino simulcasting pursuant to (d)(1) and that the racetracks have all shown that they are financially distressed pursuant to (d)(2). Regarding (d)(1), each of the racetracks demonstrated that its financial well-being was negatively affected by casino simulcasting. The Committee did not agree with Monmouth Park's assertion that it was more negatively affected by casino simulcasting than the other two racetracks and the committee found that Monmouth Park submitted no data in support of that assertion. Regarding (d)(2), the Committee found that each racetrack is financially distressed based upon Freehold Raceway's reporting a net loss of \$5.3 million from track operations, New Meadowlands Racetrack reporting combined racing losses which exceeded \$14 million and Monmouth Park reporting losses in excess of \$2.7 million as well as the THA's debt obligations to the New Jersey Sports and Exposition Authority.

Executive Director Nason reported that the Committee recommends that the Commission find that each racetrack is qualified for a portion of the CSSF monies under both (d)(1) and (d)(2). The Committee recommends that 80% of the CSSF monies be distributed equally amongst the racetracks.

Executive Director Nason reported that the Committee then considered the requests of the horsemen's associations and found that all three horsemen's associations have identified projects that are beneficial to the horse racing industry and thus they are each entitled to a portion of the CSSF monies pursuant to N.J.S.A. 5:12-205(d)(3). The projects which are of benefit to the industry are as follows: The SBOA stated that it will use a portion of the funds it receives for the Health and Welfare Trust and to support the Backstretch Community Assistance Program. The SBOA also indicated it would donate monies to benefit retired standardbred racehorses. The SBOA indicated it would distribute approximately 10% of the funds it receives to the Standardbred Retirement Foundation and approximately 5% of the funds it receives to Horse Rescue United. The THA stated that it would use the funds it receives for health programs that include dental, prescription and eyeglasses as well as sponsoring a weekly health clinic. The TBA stated that it would utilize the funds it receives to go towards the 2019 New Jersey bred incentive program. The Committee recommends that the Commission allocate the remaining 20% of the CSSF monies to the horsemen's associations, divided equally by breed.

Finally, Executive Director Nason summarized that the Committee recommends the CSSF monies be distributed as follows: \$124,859.64 each to the three racetracks, \$23,411.18 to the THA for a health benefit program, \$23,411.18 to the TBA for 2019's NJ-bred incentive program, and \$46,822.37 to the SBOA, of which \$39,799.01 be allocated to the health benefit program, \$4,682.24 to the Standardbred Retirement Fund, and \$2,341.12 to Horse Rescue United. If the Commission

agrees with the Committee's recommendations, no monies would remain for distribution pursuant to N.J.S.A. 5:12-205(d)(4).

Commissioner Vetrano moved that the Commission find that each of the three racetracks qualify under N.J.S.A. 5:12-205(d)(1) and (d)(2) and that the Commission distribute 80% of the available funds equally among the three racetracks with each racetrack receiving \$124,859.64. Commissioner Vetrano also stated that he believes the three horsemen's organizations have identified programs that are beneficial to the racing industry and moved that the Commission equally allocate the remaining funds, which total \$93,644.73, by breed pursuant to N.J.S.A. 5:12-205(d)(3). Commissioner Vetrano also moved that the Commission distribute \$46,822.37 to the SBOA in accordance with the following requirements. The SBOA shall use \$39,799.01 for its health benefit program and shall pay \$4,682.24 to the Standardbred Retirement Fund and \$2,341.12 to Horse Rescue United to benefit retired standardbred race horses. He also moved that the Commission distribute \$23,411.18 to the THA which shall be used to fund the health, dental, prescription and eyeglass benefit program it provides to the backstretch community and \$23,411.18 to the TBA which shall be used for its 2019 New Jersey-bred incentive program. Finally, he moved that the Commission direct staff to prepare an Order detailing this decision and authorize the Executive Director to execute the Order on the Commission's behalf.

Chairman Clyne seconded the motion and all Commissioners voted yes.

#### CONSIDER APPROVAL OF THE 2020 BACKSTRETCH ADVISORY COMMITTEE BUDGET

Executive Director Nason explained that N.J.S.A. 5:5-44.8 creates a Backstretch Benevolency Programs Fund, which is used to promote the health, safety and welfare of backstretch employees and is funded by designated charity race days and monetary penalties as well as financial assistance from both the THA and SBOA. She explained that the Backstretch Advisory Committee met on November 1, 2019 by telephone and voted to approve a budget to send to the Commission. The proposed budget represents an increase of 4.77% over the approved 2019 budget, which increase is made up of an increase of \$1,225 in administrative fees and \$7,300 in consulting fees. Executive Director Nason pointed out that this is the first requested increase in consulting fees since 2015 when the Commission approved a 4% increase. She stated that the Backstretch Benevolency Program provides worthwhile programs and services and that staff recommends approval of the requested 2020 budget in two equal payments which should be made on or about January 1, 2020 and July 1, 2020.

Chairman Clyne moved that the Commission approve the 2020 Backstretch Advisory Committee budget totaling \$187,225 with equal payments of \$93,612.50 being made on or about January 1, 2020 and July 1, 2020. Commissioner Keegan seconded the motion and all Commissioners voted yes.

#### CONSIDER THE INITIAL DECISION IN MARTEN WOODHOUSE V. NEW JERSEY RACING COMMISSION, OAL DOCKET NO. RAC 10441-18S

Executive Director Nason recited the following facts from the record compiled at the Office of Administrative Law:

Petitioner, Marten Woodhouse, was the trainer of the horse “Kingslayer,” which won the second race at Monmouth Park on May 12, 2018. After the race, blood and urine samples were taken from the horse and sent to Truesdail Laboratories for testing. On May 30, 2018, Truesdail Laboratories notified the Commission that post-race blood sample M10853 tested positive for both Phenylbutazone and Flunixin. The Commission’s chain of custody records indicated that this blood sample was taken from the horse Kingslayer on May 12, 2018. The Board of Stewards conducted a hearing and determined that the test results constituted a stacking violation of N.J.A.C. 13:70-14A.9 and 20.7. The Stewards imposed a 15-day suspension, \$500 fine, disqualified the horse and ordered loss of purse. Petitioner appealed and the matter was transmitted to the Office of Administrative Law.

When a positive test result is appealed, Truesdail prepares a Data Packet, which documents the test results, and it did so here. At the OAL hearing, the petitioner pointed out multiple typographical errors in the Data Packet. In the Initial Decision, the ALJ determined that “the numerous typographical errors create doubt about the accuracy of the testing process” and found that the petitioner had raised enough concern “to render the contents of the drug reports less than reliable.” Finding that the “[n]umerous inaccuracies in the laboratory cast doubt on the reliability of the results and the penalties that flow from them,” the ALJ concluded that the penalties imposed by the Commission should be reversed.

The DAG who represented the Commission filed exceptions to the Initial Decision with the Commission. In the exceptions, the DAG pointed to the ALJ’s finding that the petitioner’s veterinarian had administered Phenylbutazone and Flunixin to the horse before the race. The DAG argued strenuously that the test results were accurate and the Commission should reject the Initial Decision and re-impose the penalties ordered by the Board of Stewards.

The DAG then proposed an alternate course of action. Pointing out that the OAL record established that duplicate post-race, blood samples were taken from Kingslayer, the DAG argued that the Commission should require that Truesdail test the duplicate, sealed, blood sample taken from the horse and prepare a report free of typographical errors. The DAG argued that the Commission should remand this matter back to the OAL pursuant to N.J.A.C. 1:1-18.7 to reopen the record and to accept testimony and evidence related to the testing of the duplicate blood sample. The DAG pointed out that the burden on petitioner would be minimal, as the Commission stayed the penalties imposed on him. The DAG noted that remand would provide the Commission with the best possible record to decide this matter.

No reply to the exceptions was filed and the record for doing so closed on October 7, 2019. The Commission sought and received an extension of time from the OAL in which to consider the Initial Decision. With the 45-day extension, the time to act on the Initial Decision was extended to December 4, 2019.

Executive Director Nason then explained that the Commission may accept, reject or modify the Initial Decision, or the Commission could decide to instruct Truesdail to test the duplicate blood

sample and remand this matter to the OAL to continue the hearing and accept testimony and evidence related to the testing of the duplicate blood sample.

The Executive Director reported that staff contacted Truesdail and did verify that a sealed tube of the horse's blood sample remains in storage at the lab.

Chairman Clyne moved that the Commission remand the matter to the Office of Administrative Law to resume the hearing and accept additional testimony and evidence related to the testing of the duplicate blood sample, which is sealed and in storage at the lab. She also moved that the Commission direct the Executive Director to execute the draft Order of Remand on the Commission's behalf and to instruct Truesdail Laboratory to test the duplicate sample of the horse's blood. Commissioner Keegan seconded the motion and all Commissioners voted yes.

CONSIDER THE SETTLEMENT AGREEMENT IN THE MATTER OF KELLY RUBLEY V. NEW JERSEY RACING COMMISSION, OAL DOCKET NO. RAC 17167-17

Executive Director Nason explained that a horse trained by Kelly Rubley tested positive for 2 promazine sulfoxide. After conducted a hearing, the Board of Stewards imposed a 15-day suspension, loss of purse and \$500 fine upon Rubley, who appealed the Stewards' decision. The matter was transmitted to the OAL. Prior to a hearing being held in the matter, Rubley's attorney contacted the DAG representing the Commission and a settlement agreement was negotiated. The settlement would increase the fine given to Rubley from \$500 to \$5,000. It would also reduce the amount of suspension from 15 days to zero days. In addition, Rubley would have a record of violating N.J.A.C. 13:70-14A.1, 14A.6 and 20.7. Rubley would agree to disqualification of the horse, loss of purse monies and the incurrence of 2 MMV points. The Executive Director stated that staff recommends approval of the proposed settlement agreement.

Commissioner Keegan moved that the Commission approve the Settlement Agreement. Chairman Clyne seconded the motion and all Commissioners voted yes.

That concluded the items on the formal portion of the agenda. Executive Director Nason informed the persons present that additional documents were available which included a notice of the NJRC 2020 meeting dates, the NJRC financial status and a breakdown of New Jersey wagering on the Far Hills meet and 2019 Breeders Cup.

No members of the public raised new business with the Commission.

Commissioner Clyne moved to adjourn the meeting. Commissioner Keegan seconded the motion and it was approved unanimously.
