TOWNSHIP OF MONTVILLE
2013 MASTER PLAN REEXAMINATION REPORT

Introduction

The New Jersey Municipal Land Use Law (MLUL) (N.J.S.A. 40:55D-1 et seq.) provides that each municipality within the State of New Jersey periodically reexamine its Master Plan policies and assumptions, and its zoning restrictions and site plan and subdivision regulations, and prepare and adopt by resolution, a report on the findings of such reexamination. The Reexamination Report must include the following components (N.J.S.A. 40:55D-89):

1. The major problems and objectives relating to land development in the municipality at the time of the adoption of the last reexamination report or master plan.
2. The extent to which such problems and objectives have been reduced or have increased subsequent to such date.
3. The extent to which there have been significant changes in the assumptions, policies, and objectives forming the basis for the master plan or development regulations as last revised, with particular regard to the density and distribution of population and land uses, housing conditions, circulation, conservation of natural resources, energy conservation, collection, disposition, and recycling of designated recyclable materials, and changes in State, county and municipal policies and objectives.
4. The specific changes recommended for the master plan or development regulations, if any, including underlying objectives, policies and standards, or whether a new plan or regulations should be prepared.
5. The recommendations of the Planning Board concerning the incorporation of redevelopment plans adopted pursuant to the “Local Redevelopment and Housing Law,” into the land use plan element of the municipal master plan, and recommended changes, if any, in the local development regulations necessary to effectuate the redevelopment plans of the municipality.

The current Township of Montville Land Use Element of the Master Plan was adopted by the Planning Board pursuant to Article 3 of the MLUL (N.J.S.A. 40:55D-28) on December 9, 2010. The Board is currently in the process of updating the Circulation Plan, Community Facilities Plan, and Historic Preservation Plan Elements of the Master Plan. It is anticipated that these elements will be adopted in 2013.

Since the time of adoption of the last amendment to the Master Plan, the assumptions, policies, and objectives upon which the Master Plan is based have not changed by virtue of: a) the enactment of

the Highlands Water Protection and Planning Act (“Highlands Act,” N.J.S.A. 13:20-1 et seq.) by the State Legislature on August 10, 2004; b) the adoption of the Highlands Regional Master Plan by the Highlands Water Protection and Planning Council (“Highlands Council”) on July 17, 2008, which became effective on September 8, 2008; c) the requirement of the Highlands Act that municipal Master Plans and regulatory provisions be brought into alignment with the Highlands Regional Master Plan for lands located within the Highlands Preservation Area; or d) the affirmative decision of the Township of Montville Governing Body to conform to the Highlands Regional Master Plan for municipal lands located in the Preservation Area, as set forth by Resolution No. 2009 adopted on November 24, 2009. Each of these actions took place prior to adoption of the Master Plan.

Regardless, the Planning Board has reexamined the Township Master Plan and development regulations to determine if any specific changes are necessary to achieve consistency with the Highlands Regional Master Plan and thereby, to incorporate the specific changes in State policies, goals, and objectives as set forth by the Highlands Act. It is the intent of this Report to identify the specific revisions, if any, needed to bring the Township Master Plan and development regulations into conformance with the Highlands Regional Master Plan.

1. Major Land Development Problems & Objectives

None of the major problems and objectives relating to land development in the Township at the time of the adoption of the Township's Land Use Plan Element have changed specifically as a result of the passage of the Highlands Act, the adoption of the Regional Master Plan, and/or the decision of the Governing Body to conform its planning documents to the Regional Master Plan. The Township's Land Use Plan was adopted subsequent to each of these actions.

2. Extent of Reduction/Increase in Problems & Objectives

Because no problems or objectives have been listed in item 1 above, none have been reduced or have increased subsequent to the date of the Township's Land Use Plan Element specifically as a result of passage of the Highlands Act, the adoption of the Regional Master Plan, and/or the decision of the Governing Body to conform its planning documents to the Regional Master Plan.

3. Significant Changes in Assumptions, Policies, Objectives

Although the adoption of the Township's Land Use Plan Element on December 9, 2010 occurred after the passage of the Highlands Act, adoption of the Regional Master Plan by the Highlands Council, and the adoption by the Governing Body of its resolution to conform the municipal planning documents to the Regional Master Plan, approval of the Township's Petition for Plan Conformance on January 19, 2012 significantly increased the objectives that must be addressed in the Township Master Plan, including but not limited to incorporating a variety of Highlands Resource protections, providing an emphasis on infrastructure and environmental carrying capacities, and initiating a substantial modification to the methodology to be used in determining permitted densities of development within the municipality.

4. Specific Recommended Changes to the Master Plan

The Planning Board recommends that specific changes to the Township of Montville Master Plan be adopted, including modifications to the underlying objectives, policies and standards, all as outlined in detail, in the "Highlands Preservation Area Master Plan Element" approved by the Highlands Council as part of the Township's Petition for Plan Conformance (copy attached herewith).

5. Specific Recommended Changes to Development Regulations

The Planning Board recommends the specific changes as detailed in the document titled "Township of Montville Highlands Preservation Area Land Use Ordinance," approved by

the Highlands Council as part of the Township's Petition for Plan Conformance, be adopted by the Governing Body to implement the objectives, policies and standards as outlined in the Highlands Preservation Area Element of the Master Plan.

6. Changes Recommended for Incorporation of Redevelopment Plans

At this time the Planning Board makes no findings or recommendations regarding the incorporation of redevelopment plans pursuant to the Local Redevelopment and Housing Law, P.L. 11992, c.79 (C.40A:12A-1 et al.).
