

G775 EOC Management and Operations

Location: Passaic County Public Safety Academy, Wayne, NJ

Dates: April 8-9, 2013

Time: 8:30 a.m. - 4:00 p.m.

**Additional Information:**

- G775 EOC Management and Operations is a required course for the FEMA [APS Certificate](#).
- *Recommended Pre-requisite:* [IS-701.a, NIMS Multi-Agency Coordination System \(MACS\) Course](#).

Course Purpose:

This 2-day course explores the role, design, and functions of Emergency Operations Centers (EOCs) and their relationships as components of a multiagency coordination system. The course contains disaster-related examples, activities, and case studies that relate to EOCs and multiagency coordination systems at the Federal, State, and local levels of government.

Course Objectives

At the end of the course, participants should be able to:

- Relate EOC operations to National Incident Management System (NIMS) requirements.
- Describe the role that EOCs play in overall multiagency coordination.
- Describe the relationship between the EOC and the on-scene Incident Command System (ICS) structure.
- Identify staffing, information, systems, and equipment needs at the EOC.
- Determine whether participants' EOC organizations are conducive to effective coordination.
- Identify potential alternate locations suitable for EOC operations should the primary EOC facility become damaged or inoperable.
- Create a test, training, and exercise plan for critical EOC operations.
- Develop a strategy and schedule for reviewing EOC resource requirements and technology needs.

Target Audience

The target audience for this course is emergency management personnel who may serve in or manage an emergency operations center, to include office of emergency management staff and administration, support function staff and other EOC personnel. Class size limited to 25, registration is required: [NJOEM Training Application](#).
