

**G271 Hazardous Weather and Flooding Preparedness**

Location: Jacques Cousteau Coastal Education Center  
130 Greate Bay Boulevard, Tuckerton, N.J. 08087  
Dates: Tuesday, March 25 through Wednesday, March 26, 2014  
Time: 8:30 a.m. - 5:00 p.m.

**Additional Information:**

- The National Weather Service - Mount Holly Office, Jacques Cousteau Reserve and the New Jersey State Police OEM Field Training & Exercise Unit are proud to co-host this 2-day course.
- This training is one of the elective courses for the FEMA [APS Certificate](#).
- Attendees limited to 15 students (others will be placed on waiting list).
- This course is intended to encourage a proactive response to weather and flooding hazards through close coordination between emergency managers and the NWS.

**Course Purpose:**

- How the basic elements of weather and flooding combine to create potential hazards in a given area.
- Evaluating weather forecast products and how to interpret them.
- Anticipating hazardous weather for planning, warning and response purposes.

**Target Audience**

This course is excellent for local and state emergency managers who plan for or respond to hazardous weather events.

Registration is required: [NJOEM Training Application](#). Fill out the application completely and email it to Sgt. Ronald Roberts at [lpp5779@gw.njsp.org](mailto:lpp5779@gw.njsp.org), or fax it to **609-671-0160**. You will be contacted by email when your application is received and accepted or put on waiting list.

**Contact Sgt. Ronald Roberts, NJOEM Field Training & Exercise Unit, for more information at office number 609-963-6900, ext. 6213.**
