Course Description

This course is designed to provide participants with the knowledge and skills needed to design and implement an evacuation and re-entry plan for their jurisdictions. It uses a community's vulnerability analysis and evacuation plan. It also addresses evacuation behavior and recommends methods to make evacuation and re-entry more efficient. This course **does not address** the decision to evacuate or re-enter.

Course Objectives

At the conclusion of this workshop, participants should be able to:

- Describe types of situations that necessitate evacuation.
- Describe the types of modeling tools for evacuation planning.

Course Purpose: (1 day)

This 1-day course is designed to provide participants with the knowledge and skills needed to design and implement an evacuation and re-entry plan for their jurisdictions. It uses a community's vulnerability analysis and evacuation plan. It also addresses evacuation behavior and recommends methods to make evacuation and re-entry more efficient. This course does not address the decision to evacuate or re-enter
