INVITES YOU TO A SPECIAL
BLACK HISTORY MONTH DISCUSSION ABOUT

MODERN DAY SLAVERY HUMAN TRAFFICKING

New Jersey has seen a rise in human trafficking, especially sex trafficking. "The federal government reports that as many as 17,500 people are trafficked into our country annually, and these estimates do not even capture the number of individuals trafficked within our borders each year. With the rise of the Internet, the number of sex trafficking incidents in particular has exploded." By Diane Black –Published May 19, 2014 – FOXNEWS.COM

The forum seeks to explore the questions:

Is it a slave state of mind?

What role does technology have on the growing problem?

How do we deter this from our neighborhoods
