Currently, pursuant to N.J.A.C. 13:69O-1.4, Internet or mobile gaming system standards and operational controls, Internet or mobile gaming systems shall utilize sufficient security measures in order to ensure secure communications between a client terminal and the Internet or mobile gaming systems, and to protect the patron's accounts by employing mechanisms to suspend accounts and establish responsible gaming limits.

Proposed new N.J.A.C. 13:69O-1.4(u) sets forth additional measures to allow Internet gaming operators to utilize celebrity or other players to participate in peer to peer games for advertising or publicity purposes, and allows such players to have their accounts funded in whole or in part by an Internet gaming operator. Internet gaming operators may pay a fee to the celebrity players. If an

Internet gaming operator employs a celebrity player and does not permit the celebrity player to retain the winnings generated, the Internet gaming operator shall include those winnings as Internet gaming gross revenue in a manner approved by the Division.
