If the cards are spread face down, they shall be turned face up once a player arrives at the table. (c) Only players who are seated at a 3 Card Blitz table may place a wager at the game. Once a player has placed a wager and received cards, that player must remain seated until the completion of the round of play.

1. If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.
2. If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player or the area designated for the placement of the dealer's cards has more or less than two cards) but 52 cards remain in the deck, all hands are void pursuant to N.J.A.C. 13:69F-47.12. If the cards have not been misdealt, all hands shall be considered void and the entire deck of cards shall be removed from the table pursuant to N.J.A.C. 13:69E-1.18.

(f) Notwithstanding the provisions of (e) above, the counting of the stub shall not be required if an automated card shuffling device is used that counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are still present. If the automated card shuffling device reveals that an incorrect number of cards are present, the deck shall be removed from the table pursuant to N.J.A.C. 13:69E-1.18.

(a) Notwithstanding any other provisions of N.J.A.C. 13:69E or this chapter, a casino licensee may, in its discretion, permit a dealer to deal the cards used to play 3 Card Blitz from his or her hand.

(b) If a casino chooses to have the cards dealt from the dealer's hand, the following requirements shall be observed:

1. The casino licensee shall use an automated shuffling device to shuffle the cards.
2. Once the procedures required by N.J.A.C. 13:69F-51.4 have been completed, the dealer shall place the stacked deck of cards in either hand.

 - ii. The cards held by the dealer shall at all times be kept in front of the dealer and over the table inventory container.
3. The dealer shall announce "No more bets" prior to dealing any cards.
4. The dealer shall deal each card by holding the deck of cards in the chosen hand and using the other hand to remove the top card of the deck and place it face down on the appropriate area of the layout.

(c) The dealer shall deal the 3 Card Blitz cards in accordance with N.J.A.C. 13:69F-51.10 starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner.

13:69F-51.9 Procedures for dealing the cards from an automated dealing shoe

(a) Notwithstanding any other provision of N.J.A.C. 13:69E or this chapter, a casino licensee may, in its discretion, choose to have the cards used to play 3 Card Blitz dealt from an automated dealing shoe, provided that the shoe, its location and the procedures for its use are in accordance with the casino licensee's internal control procedures.

(b) If a casino licensee chooses to have the cards dealt from an automated dealing shoe, the following requirements shall be observed:

(c) The dealer shall deliver the cards dispensed by the automated dealing shoe in accordance with N.J.A.C. 13:69F-51.10 starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner. At the completion of the round of play, the dealer shall remove the stub from the automated dealing shoe and, except as provided in (d) below, place the stub in the discard rack without exposing the cards.

(d) The dealer shall be required to count the stub at least once every five rounds of play in order to determine that the correct number of cards is still in the deck. The dealer shall count the stub in accordance with the provisions of N.J.A.C. 13:69F-51.7(e).

(e) Notwithstanding the provisions of (d) above, the counting of the stub shall not be required if an automated card shuffling device is used that counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are still present. If the automated card shuffling device reveals that an incorrect number of cards are present, the deck shall be removed from the table in accordance with the provisions of N.J.A.C. 13:69E-1.18.

13:69F-51.10 Procedure for completion of each round of play; collection and payment of wagers

(a) After the procedures required by N.J.A.C. 13:69F-51.7, 51.8, or 51.9 has been completed, the dealer, working clockwise from the player farthest to the dealer's left and continuing around the table in a clockwise manner, shall, whether by hand or an automated shuffler, deal seven cards face down to each participating player who has placed an Ante and Blind wager and seven cards face down to the dealer

(b) Each player shall examine his or her cards without exposing them to any person.

(c) Each player evaluates the rank of their hand by determining the highest point value using up to three suited cards

(d) The Each player will need to make a decision and choose one option from the two options below and either:

1. Fold and relinquish the Ante and Blind wagers according to the following procedure: If the player has not made the optional Flush Bonus or

If the player has also made the Flush Bonus wager and/or Progressive Jackpot, the dealer will collect the player's Ante wager, and place the player's seven cards face down, tucking them under the Flush Bonus Wager or near the Progressive Jackpot; or

2. Make a Play wager at an amount equal to the Ante on the designated spot on the table and tuck the cards face down under the Play Wager;
3. Once all players have made a decision, the dealer shall place the stub in the discard rack and address their hand by revealing their seven cards, identifying their highest point total using up to three suited cards and setting their hand

(e) The dealer shall then, starting with the player farthest to the right of the dealer and continuing counterclockwise around the table, complete the following applicable procedures in succession for each player with wagers remaining on the table:

1. If the player has an active wager the dealer will reveal the player's seven cards.
 2. If the player also placed the Flush Bonus wager and/or Progressive Jackpot, the dealer will resolve these wagers first starting with the Flush Bonus and pay the wagers of the player in accordance with the payout odds listed N.J.A.C. 13:69F-51.11 if the hand of the player has at least four suited cards for the Flush Bonus and if the hand has at least a point total of 29 for the Progressive Jackpot settling both wagers regardless of the outcome of the player's and dealer's point total
 3. The dealer will then compare the ranking of their hand to the player's hand
 4. If the player's hand has a higher point total than the dealer's hand, the dealer will pay the player's Ante and Play wagers 1 to 1 and the Blind wager in accordance with the payout odds listed N.J.A.C. 13:69F-51.11
 5. If the player's hand has a lower point total than the dealer's hand, the Ante, Blind, and Play wagers will lose and the dealer will collect the wagers
 6. If the player's hand has the same point total as the dealer's hand, the dealer and player's hand will be considered a tie and the Ante, Blind, and Play wagers will push.
- (f) All cards collected by the dealer shall be picked up in order and placed in the discard rack in such a way that they can be readily arranged to reconstruct each hand in the event of a question or dispute. This action concludes the round of play

13:69F-51.11 Payout odds
