Commissioners

EFFECTIVE JULY 16, 1997

FRANCESCO ZANZUCCI
Executive Director

N.J.A.C. 13:71-23.3B(b)1, among other things, provides that a trainer who during any twelve month period experiences on two occasions TC02 levels equal to or in excess of those set forth in N.J.A.C. 13:71-23.3A, have all horses under his/her custody, care and control placed under pre-race guarded quarantine for an eight month period (without regard to whether the horses under his/her custody, care and control have been transferred to a new trainer).

With respect to those horses which are subject to this pre-race quarantine order, but which did not experience an excess TC02 level, N.J.A.C. 13:71-23.3B(b)1 shall not be interpreted to require pre-race guarded quarantine where said horse(s) are transferred to a new/bona-fide trainer. Pursuant to the terms of N.J.A.C. 13:71-23.3B(c) however, a horse which experienced an excessive TC02 level is subject to the pre-race quarantine requirements of N.J.A.C. 13:71-23.3B even where said horse has been transferred to a new/bona-fide trainer.
