MISSION STATEMENT

The New Jersey Racing Commission (NJRC) governs, directs, and regulates horse racing and pari-mutuel wagering. The NJRC is a member of the Department of Law and Public Safety and is responsible for regulating the horse racing industry in the State through vigilant oversight of all racing and wagering-related activities to ensure the integrity of the sport and the safety of its participants.

Commission Structure

Horse racing in New Jersey is regulated by Commissioners who, by law, are appointed by the Governor, with the advice and consent of the Senate. The Commission regulates horse racing at New Jersey's racetracks and rules on all matters affecting racing, such as issuing permits to conduct horse racing meets, approving expenditures, and adjudicating licensing matters. It also considers the issuance of licenses for off-track wagering sites and is responsible for the oversight and regulation of account wagering, which includes telephone and internet wagering in New Jersey. This year, the following individuals served as Commissioners: Anthony T. Abbatiello, Manny Aponte, Dr. Michael Arnone, Anthony R. Caputo, Pamela Clyne, Peter J. Cofrancesco III, Anthony De Paola, Francis X. Keegan, Jr., and Peter T. Roselle.

The NJRC employs staff to execute the Commission's statutory and regulatory mandates, including an Executive Director who is responsible for overseeing the day-to-day operations of the Commission in accordance with accepted business and financial practices. Frank Zanzuccki serves as the Executive Director.

The NJRC has a full-time staff of 37 employees who conduct the daily functions of regulating horse racing. The Commission also maintains a pool of 29 active hourly workers to supplement staff as needed.

Activities are divided into four functional areas, with the FY2013 budget as follows:

Administrative/Financial		\$2,537,087
Racing Operations		\$4,874,337
	Licensing	\$1,201,881
	Veterinarians	\$ 942,436
	Drug Testing	\$1,986,830
	Officials	\$ 743,190
Pari-Mutuels		\$ 286,168
Investigations		<u>\$ 496,392</u>
Total Operating Budget		\$8,193,984

The FY2013 budget is 15% less than FY2012.

Administrative/Financial

Many of the general administrative functions are performed by the Department of Law & Public Safety Support Services unit, which is specifically organized to streamline the personnel, budget, and logistics functions of several State agencies.

NJRC personnel perform administrative functions specific to racing matters, including rule and regulation composition, staffing and scheduling, communications with and oversight of industry-related organizations, adjudication support, and report writing. The Commission maintains a horse racing financial system that records and calculates all receipts and payments of funds from pari-mutuel wagering. In addition, it monitors the finances of certain industry organizations as required or requested.

Racing Operations

All matters related to the regulation of the actual "running of the races" are the responsibility of the NJRC employees in this functional area.

Each individual and entity associated with horse racing must be licensed and fingerprinted by Commission personnel. A state-of-the-art computer system networks the Trenton office with all satellite racetrack locations. The Commission has a very successful mail-out program and participates in the Association of Racing Commissioners International multi-jurisdictional licensing program for owners, and is a member of the National Racing Compact.

The NJRC employs racing officials who are present at each racetrack to monitor the running of every race in New Jersey. Those officials issue penalties for rule infractions and rule on matters affecting the integrity of racing, including licensing concerns. Veterinarians are also present at every live race meet to ensure the safety of the animals and to verify that each horse is fit to race.

Race horse samples are tested for the presence of illegal drugs after each race, and on occasion, before a race and in out-of-competition settings. These randomly-selected samples undergo a complete chemical analysis.

Pari-Mutuels

Every wager made on live and simulcast races is recorded and checked for accuracy and compliance with Commission rules and regulations. NJRC staff calculate financial information from these wagers for proper distribution of funds. Staff also oversee all aspects of pari-mutuel operations to ensure those operations are conducted with integrity.

Investigations

NJRC investigative staff are responsible for monitoring activities at all New Jersey racetracks, off-track wagering facilities, participating casinos, and off-track stabling facilities. An in-house investigative unit provides the Commission with the ability to oversee the integrity of racing by conducting investigations into alleged rule violations, performing inspections to determine

compliance with regulations, monitoring activity on racetracks and off-track stabling facilities, providing testimony at administrative hearings, and much more.

2013 HIGHLIGHTS AND KEY ISSUES

This year was another year of transition for New Jersey's horse racing industry. All of New Jersey's racetracks are now either owned or leased by private entities. Monmouth Park Racetrack is operated by Darby Development under the race permit held by the New Jersey Thoroughbred Horsemen's Association (NJTHA), while the New Meadowlands Racetrack is operated by New Meadowlands Racing, LLC. Both Monmouth Park and New Meadowlands operate under lease agreements with the New Jersey Sports and Exposition Authority.

Wagering on New Jersey races increased by 7.0% this year, with \$513,196,847 wagered in 2013 compared to \$479,245,081 wagered in 2012.

On November 23, 2013, the new management of Meadowlands Racetrack opened a new \$80 million grandstand, which replaces a separate building scheduled for demolition. This new facility has received very positive reviews.

In the fall of 2013, the Commission, then the Attorney General, approved an application for a new off-track wagering (OTW) facility scheduled to open in Gloucester Township, Camden County. Once operational, the Gloucester OTW would constitute the second OTW owned and operated in Freehold Raceway's approved site-location area.

Trump Taj Mahal closed its Casino Simulcast Facility in March 2013 and Caesars Entertainment closed its four Casino Simulcast Facilities in December 2013. With those closures, the Borgata remains the only casino currently offering pari-mutuel wagering on horse racing in Atlantic City.

The Commission promulgates rules and regulations to support and enforce its regulatory function. During 2013, the Commission adopted one new regulation: single pool wagering, 13:70-29A, 13-71-27A (adopted March 20, 2013, effective April 15, 2013), which provides for a new method of calculating wager results that will hopefully generate more wagering activity. NJRC staff also was active this year in the rulemaking process as the Commission completed draft regulations for exchange wagering, a process where bettors lay odds on a horse to win or lose.

Recent legislative changes permit a reduction of live racing dates in both the thoroughbred and standardbred sectors. As a result, the number of live racing dates decreased by 7.7% from 2011 (272 live racing days) to 2012 (252 live racing days). However, the number of live racing days increased this year by 6.3% when compared to 2012. In 2013, 17 more dates were added when Freehold Raceway returned to live racing in January and February.

The NJRC continued its comprehensive drug testing program this year. In addition to testing for steroids, the Commission conducted out-of-competition testing at licensed New Jersey off-track stabling facilities and New Jersey racetracks. As part of the Commission's regular testing

program, the State Police Forensic Science Laboratory and Truesdail Laboratories together tested 28,581 blood and urine samples collected from horses; 31 of those samples tested positive for the presence of illegal substances.

The Commission worked with Monmouth Park and NJTHA to implement third-party lasix administration. This initiative has eliminated the need for a practicing veterinarian to be in the stall of a horse on its race day.

The NJRC Executive Director is also the Chair of the New Jersey Horse Racing Injury Compensation Board that provides blanket workers' compensation insurance to certain horse racing industry employees. During the year, the Board continued its loss prevention program, which realized significant results this year as insured costs totaled much less than previous years.

Two court cases of note were processed this year:

The first is the matter of Jan Henriksen, Joshua Green, and Boyd Hudson, Jr. v. New Jersey Racing Commission, OAL Dkt. Nos. RAC7539-12, RAC7540-12, and RAC7541-12. Jan Henriksen, a licensed veterinarian, permitted an unauthorized individual, assistant trainer Hudson, to administer a drug or substance to a horse and then failed to file an equine fatality report following the death of the horse. Joshua Green was the licensed trainer of the horse and therefore is subject to the absolute insurer rules and is responsible for the care of the horses he trains. The Administrative Law Judge (ALJ) agreed with the findings of the Racing Commission but reduced the penalties. On September 18, 2013, the Commission agreed that the ALJ's Final Decision accurately interprets and applies the Commission's rules to the facts presented but rejected the reduction in suspension duration for each petitioner. The Commission then restated its suspension duration in the approved motion.

The second is the matter of Frederic Esposito v. New Jersey Racing Commission, OAL Dkt. No. RAC03743-2011S. Frederic Esposito appealed a Racing Commission decision that denied him a trainer's license for two reasons: the Commission found first, that that the petitioner violated Commission rules prohibiting the training of a horse stabled at a licensed off-track stabling facility in New Jersey without a NJRC trainer's license, and second, that the petitioner had prior involvement with a bookmaking operation. The ALJ permitted the appeal and recommended that the Commission license the petitioner. The Commission rejected the ALJ's final decision at its January 16, 2013 meeting, finding that the ALJ failed to address the entire record before the court, which included evidence of the petitioner's violations of Commission rules. The Commission then moved to deny the petitioner's application for a driver/trainer's license.

NEW JERSEY EQUINE TESTING LABORATORY

At the beginning of 2013, sample testing pursuant to the NJRC's Equine Drug Testing Program occurred at the New Jersey State Police Forensic Science Laboratory located at the New Meadowlands racetrack. Samples are now tested at Truesdail Laboratories in California. In 2013, the Commission tested 28,581 blood/urine samples; testing revealed 31 violations of the Commission's medication rules.

Total Samples Tested	28,581
----------------------	--------

Positives by Type

Butorphanol	1
Carbazochrome	1
Dexamethasone	8
Hydroxymepivacaine	1
Flunixin	2
Furosemide	10
Phenylbutazone	6
Methylhexanamine	<u>2</u>

Total Positives	31
-----------------	----

The Commission randomly tests jockeys and drivers for the presence of illegal drugs. It also tests race participants and officials for signs of alcohol abuse. In 2013, the Commission received four positive results from the 328 samples tested in those categories.

NEW JERSEY HORSE RACING INJURY COMPENSATION BOARD

The Commission encouraged the creation of the New Jersey Horse Racing Injury Compensation Board, which provides group workers' compensation insurance for the horse racing industry. The Board consists of representatives from the public and private sectors, including members of horse racing organizations, insurance providers, risk management, the New Jersey Department of Banking and Insurance, and the NJRC. The program covers employees of the Board, namely drivers, jockeys, exercise riders, and thoroughbred trainers' employees, with 2013 premiums established at \$2.0 million. In 2013, the Board continued its participation in the Assigned Risk Program provided by the New Jersey Manufacturers Insurance Company.
