*Memorial Middle School and Lyncrest School environmental clubs with help from the Passaic Valley Sewerage Commission did an environmental cleanup at the Lyncrest Wildlife Center on April 11.*

The walk-a-thon will take place on the school grounds. All members of the community are invited to attend.

This year, there are several events occurring during the Earth Day celebration. The Environmental Club will honor [Passaic](#) Valley Sewerage Commission for its continued commitment and dedication to the school and community. The school will acknowledge its contribution of educational assemblies, helping to provide cleanup programs enabling students to learn about the Passaic River and for helping to rebuild the outdoor learning center that was recently destroyed by Hurricane Sandy.

# COMMUNITY NEWS

The Environmental Club members will unveil the art- and science-inspired interactive gallery walk that will highlight the mural they created using recyclable materials. Patrons of the gallery walk will observe banners created by students. The banners will showcase slogans reflecting the students' desire to help others become aware of the importance of the global environmental issues.

As the guests walk along the pathway, they will enjoy music performed by the Chamber Orchestra, under the direction of music teacher, Alison Lucas.

In preparation for the Earth Day program, students in the environmental club at Memorial Middle School along with representatives from the Passaic Valley Sewerage Commission did an environmental cleanup on April 11 at the Lyncrest Wildlife Center.
