Superstorm Sandy Update – December 18, 2012

PVSC continues to meet secondary treatment compliance standards while it repairs and replaces equipment damaged by Superstorm Sandy.

PVSC has demobilized 100% of the temporary dewatering equipment as its permanent processes have returned to service in sufficient capacity with additional redundancy.

PVSC encourages residents to follow all NJDEP advisories regarding water conservation and recreational use of the area waterways. www.state.nj.us/dep
