Superstorm Sandy Update – November 30, 2012

PVSC continues to repair and rebuild its systems and equipment that were damaged as a result of Superstorm Sandy. Primary treatment processes are in operation. The secondary system is operational and disinfection continues.

Ten (10) mobile solids dewatering centrifuges are in use for removal and disposal of biosolids. PVSC has three (3) of its seven (7) permanent dewatering centrifuges operating and PVSC has three (3) of its twelve (12) Zimpro units available and two (2) of its five (5) filter press dewatering units running.

The agency encourages residents to follow all NJDEP advisories regarding water conservation and recreational use of the area waterways. <http://www.state.nj.us/dep>
