**About the Division of Rate Counsel**

The Division of Rate Counsel represents and protects the interests of all utility customers — residential, small business, commercial and industrial — whenever utilities in New Jersey seek changes in their rates for delivery of natural gas, electric, water, wastewater, telephone or cable TV services. Rate Counsel also advocates for consumers in certain insurance matters. The mission of the Division is to make sure that all classes of utility consumers receive safe, adequate and essential services at affordable rates that are just and nondiscriminatory.
