2013 – 4th Quarter Pension File

Dataset Summary

Agency:	Department of Treasury
Category:	Division of Pensions
Date Released:	May 7, 2014
As Of Date:	December 31, 2013
Time Period:	Calendar Year 2013 – January through December
Frequency:	Quarterly

Description: Pension file contains pension benefit data for retired State employees paid through a State retirement system. The data reflects year-to-date payments and the monthly allowances for each pensioner during the time period noted.

File Description

Column Name	Column Description
REPORT_YEAR_MONTH	Four digit year representing the twelve month period starting with January and ending with December. Indicates the calendar year in which payments were actually made to the pensioner. Calendar year and calendar month together represent the end of the reporting period.
MEMBER_KEY	A value that uniquely identifies members receiving pension benefits. When benefits are being paid from more than one pension fund on behalf of any given member, all records for that member will contain the same value in this key.
MEMBER_LAST_NAME	Last name of the member at the end of the reporting period. The literal "NOT AVAILABLE" is used when there is no last name on record.
MEMBER_FRST_NAME	First name of the member at the end of the reporting period. The literal "NOT AVAILABLE" is used when there is no first name on record.
MEMBER_MDDLE_INITIAL	Middle initial of the member at the end of the reporting period.
MEMBER_FULL_NAME	Full name (Last, First Middle Initial) of the member at the end of the reporting period.
MEMBER_BIRTH_YEAR	Member's year of birth. The literal "Not Reported" is used when there is no birth year on record.
MEMBER_RETIREMENT_CAUSE	The type of retirement for the member (e.g. Service, Early, Disability)

2013 – 4th Quarter Pension File

Column Name	Column Description
MEMBER_LAST_EMPLOYER	Last employer (location) where pension was earned for the listed pension fund.
MEMBER_PENSION_FUND	Pension fund from which the benefits are drawn
MEMBER_RETIREMENT_DATE	The retirement year and month. Format is CCYY-MM.
MEMBER_SALARY_FOR_CALCULATION	Salary utilized for pension benefit calculations.
MEMBER_FINAL_MONTHS_OF_SERVICE	The total months of service for the member.
