

New Jersey Road Inventory Video Log

Route No: **US 130 [00000130__]**

Mile Posts: **55.700 - 56.200**

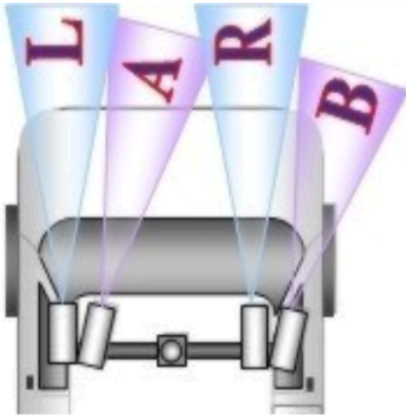

Direction: **Northbound**

Report Date: **Tuesday, August 28, 2012**

More than just a Diagram!

Camera Angles and Attribute Data Definition

While cruising at normal driving speed, the video van captures 4 photos at approximately every 40 feet along with other information such as GPS readings and date/time.

Attribute Data Definition

Data Name	Description
Route	SLD Name [SRI]
City	City name (county name)
Mile Post	Milepost value at camera location
Direction	Direction of travel
Photo Date	Date when photo was acquired
Report Date	Date when report was generated
Speed	Speed limit (MPH)
Functional Class	Classification of the road according to the character of service provided
Federal Aid	Federal funding eligibility program
Jurisdiction	Authority responsible for the mainline roadway
Traffic Volume	Traffic Volume estimate of the A.A.D.T.

About this report:

This report was generated by the PhotoBook Application; part of the Straight Line Diagrams (SLD) reporting System.

For more information about SLD program, please visit:
<http://www.satate.nj.us/transportation/refdata/slddiag/>

Disclaimers:

Both photo and attribute information are provided as is without any warranty. New Jersey Department of Transportation maintains the sole right in information interpretation. Any unlawful use of the photos and information are prohibited and will be subject to state prosecution.
